Form 10-Q

August 01, 2014

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the quarterly period ended June 29, 2014.

OR

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT
OF 1934

For the transition period from _____ to _____.

Commission File Number 001-14962

CIRCOR INTERNATIONAL, INC.

(Exact name of registrant as specified in its charter)

Delaware

(State or Other Jurisdiction of
Incorporation or Organization)

04-3477276

(I.R.S. Employer
Identification No.)

c/o CIRCOR, Inc.

30 Corporate Drive, Suite 200, Burlington, MA

(Address of principal executive offices)

(781) 270-1200

(Registrant's telephone number, including area code)

01803-4238

(Zip Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒

Accelerated filer ☐

Non-accelerated filer ☐ (Do not check if a smaller reporting company)

Smaller reporting company ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes ☐ No ☒

As of July 24, 2014, there were 17,674,618 shares of the registrant's Common Stock, par value \$0.01 per share, outstanding.

CIRCOR INTERNATIONAL, INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Basis of Presentation

The accompanying unaudited, consolidated financial statements have been prepared according to the rules and regulations of the United States Securities and Exchange Commission ("SEC") and, in the opinion of management, reflect all adjustments, which include normal recurring adjustments, necessary for a fair presentation of the consolidated balance sheets, consolidated statements of income and consolidated statements of cash flows of CIRCOR International, Inc. ("CIRCOR", the "Company", "us", "we" or "our") for the periods presented. We prepare our interim financial information using the same accounting principles as we use for our annual audited financial statements. Certain information and note disclosures normally included in the annual audited financial statements have been condensed or omitted in accordance with prescribed SEC rules. We believe that the disclosures made in our consolidated financial statements and the accompanying notes are adequate to make the information presented not misleading.

The consolidated balance sheet at December 31, 2013 is as reported in our audited financial statements as of that date. Our accounting policies are described in the notes to our December 31, 2013 financial statements, which were included in our Annual Report filed on Form 10-K. We recommend that the financial statements included in our Quarterly Report on Form 10-Q be read in conjunction with the financial statements and notes included in our Annual Report filed on Form 10-K for the year ended December 31, 2013.

We operate and report financial information using a 52-week fiscal year ending December 31. The data periods contained within our Quarterly Reports on Form 10-Q reflect the results of operations for the 13-week, 26-week and 39-week periods which generally end on the Sunday nearest the calendar quarter-end date. Operating results for the three and six months ended June 29, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014.

(2) Summary of Significant Accounting Policies

The significant accounting policies used in preparation of these condensed consolidated financial statements for the three and six months ended June 29, 2014 are consistent with those discussed in Note 2 to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2013.

In April 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-08, Reporting Discontinued Operations and Disclosure of Disposals of Components of an Entity, to modify the requirements for reporting a discontinued operation. The new guidance is applicable for all disposals (or classification as held for sale) of components of an entity that occur within annual periods beginning on or after December 15, 2014. Early adoption is permitted, but only for disposals (or classifications as held for sale) that have not been reported in financial statements previously issued or available for issuance. No discontinued operations were disclosed during the three and six months ended June 29, 2014 or June 30, 2013.

In May 2014, FASB issued ASU 2014-09, Revenue from Contracts with Customers. The new standard substantially converges revenue recognition under U.S. GAAP and International Financial Reporting Standards. The new standard is effective for public companies for fiscal years beginning after December 15, 2017, and interim and annual periods thereafter. Early adoption is not permitted. This new accounting guidance had no impact on our disclosures for the three and six months ended June 29, 2014 or June 30, 2013.

There were no additional new accounting pronouncements adopted during the six months ended June 29, 2014 that had a material impact on our financial statements.

(3) Share-Based Compensation

As of June 29, 2014, we have two share-based compensation plans. The 2014 Stock Option and Incentive Plan (the "2014 Plan") was adopted by our Board of Directors on February 12, 2014 and approved by our shareholders at the Company's annual meeting held on April 30, 2014. As of April 30, 2014, no new awards will be granted under the existing Amended and Restated 1999 Stock Option and Incentive Plan (the "1999 Plan"). Any shares subject to outstanding awards under the 1999 Plan that expire, are canceled or otherwise terminate, or are withheld to satisfy tax withholding obligations are not available for award grant purposes under the 2014 Plan. Both plans permit the grant of the following types of awards to our officers, other employees and non-employee directors: incentive stock options; non-qualified stock options; deferred stock awards; restricted stock awards; unrestricted stock awards; performance share awards; cash-based awards; stock appreciation rights ("SARs") and dividend equivalent rights. The 2014 Plan provides for the issuance of up to 1,700,000 shares of common stock (subject to adjustment for stock splits and similar events). Under the 2014 Plan, shares issued for awards other than stock options or SARs count against the aggregate share limit as 1.9 shares for every share actually issued. New options granted under the 2014 Plan could have varying vesting provisions and exercise periods. Options granted under the 1999 Plan vest in periods ranging from one year to five years and expire either seven years or ten years after the grant date. Restricted stock units granted under the 1999 Plan generally vest from two years to six years. Vested restricted stock units will be settled in shares of our common stock. As of June 29, 2014, there were 490,330 stock options (including the CEO and CFO stock option awards noted below) and 205,000 restricted stock units outstanding. In addition, there were 1,697,002 shares available for grant under the 2014 Plan as of June 29, 2014. As of June 29, 2014, there were 250 outstanding restricted stock units that contain rights to nonforfeitable dividend equivalents and are considered participating securities that are included in our computation of basic and fully diluted earnings per share. There is no difference in the earnings per share amounts between the two class method and the treasury stock method, which is why we continue to use the treasury stock method.

The Black-Scholes option pricing model was used to estimate the fair value of each stock option grant at the date of grant excluding the 2013 and 2014 CEO and CFO stock option awards noted below. Black-Scholes utilizes assumptions related to volatility, the risk-free interest rate, the dividend yield and employee exercise behavior. Expected volatilities utilized in the model are based on the historic volatility of the Company's stock price. The risk free interest rate is derived from the U.S. Treasury Yield curve in effect at the time of the grant.

On April 9, 2013, the Company granted stock options to purchase 200,000 shares of common stock to its newly appointed President and Chief Executive Officer at an exercise price of \$41.17 per share ("2013 CEO Option Award"). On December 2, 2013, the Company granted stock options to purchase 100,000 shares of common stock to its newly appointed Executive Vice President and Chief Financial Officer at an exercise price of \$79.33 per share ("2013 CFO Option Award"). On March 5, 2014, the Company granted stock options to purchase 100,000 shares of common stock to its President and Chief Executive Officer at an exercise price of \$70.42 per share ("2014 CEO Option Award"). Both the 2013 CEO Option Award and the 2013 CFO Option Award were considered inducement awards and were granted outside of the Company's 1999 Plan. All three of these option awards include a service period and a market performance vesting condition. The stock options will vest if the following stock price targets are met based on the stock price closing at or above these targets for 60 consecutive trading days:

2013 CEO Option Award

Stock Price Target	Cumulative Vested Portion of Stock Options (in Shares)
\$50.00	50,000
\$60.00	100,000
\$70.00	150,000
\$80.00	200,000

2013 CFO and 2014 CEO Option Award

Stock Price Target	Cumulative Vested Portion of Stock Options (in Shares)
\$87.50	25,000
\$100.00	50,000
\$112.50	75,000
\$125.00	100,000

8

Vested options may be exercised 25% at the time of vesting, 50% one year from the date of vesting and 100% two years from the date of vesting. On August 8, 2013, the \$50.00 Stock Price Target for the 2013 CEO Option Award was met. On January 6, 2014 and January 28, 2014, the \$60.00 and \$70.00 Price targets for the 2013 CEO Option Award were met, respectively. Therefore, 150,000 options have vested of which 37,500 are currently exercisable under the 2013 CEO Option Award. These stock option awards are being expensed utilizing a graded method and are subject to forfeiture in the event of employment termination (whether voluntary or involuntary) prior to vesting. All three of these option awards have a 10 year term but to the extent that the market conditions above (Stock Price Targets) are not met, these options will not vest and will forfeit 5 years from grant date. The Company used a Monte Carlo simulation option pricing model to value these option awards.

During the six months ended June 29, 2014, the Company granted 164,503 stock options (including the 2014 CEO Option Award noted above). This compares with 200,000 stock options granted during the first six months of 2013. The average fair value of stock options granted during the first six months of 2014 was \$26.32 and was estimated using the following weighted-average assumptions:

Risk-free interest rate	1.8	%
Expected life (years)	3.7	
Expected stock volatility	41.4	%
Expected dividend yield	0.2	%

We account for Restricted Stock Unit Awards (“RSU Awards”) by expensing the weighted average fair value to selling, general and administrative expenses ratably over vesting periods generally ranging from two to six years. During the six months ended June 29, 2014 and June 30, 2013, we granted 33,532 and 130,845 RSU Awards with approximate fair values of \$72.11 and \$42.12 per RSU Award, respectively. During the first six months of 2014 and 2013, the Company granted performance-based RSUs as part of the overall mix of RSU Awards. These performance-based RSUs include metrics for achieving Return on Invested Capital and Adjusted Operating Margin with target payouts ranging from 0% to 200%. Of the 33,532 RSUs granted during the six months ended June 29, 2014, 11,881 are performance-based RSU awards. This compares to 35,329 performance-based RSU awards granted during the six months ended June 30, 2013.

The CIRCOR Management Stock Purchase Plan, which is a component of both the 2014 Plan and the 1999 Plan, provides that eligible employees may elect to receive restricted stock units in lieu of all or a portion of their pre-tax annual incentive bonus and, in some cases, make after-tax contributions in exchange for restricted stock units (“RSU MSPs”). In addition, non-employee directors may elect to receive restricted stock units in lieu of all or a portion of their annual directors’ fees. Each RSU MSP represents a right to receive one share of our common stock after a three year vesting period. RSU MSPs are granted at a discount of 33% from the fair market value of the shares of common stock on the date of grant. This discount is amortized as compensation expense, to selling, general and administrative expenses, over a four year period. RSU MSPs totaling 32,752 and 28,463 with per unit discount amounts representing fair values of \$23.61 and \$13.90 were granted under the CIRCOR Management Stock Purchase Plan during the six months ended June 29, 2014 and June 30, 2013, respectively.

Compensation expense related to our share-based plans for the six month periods ended June 29, 2014 and June 30, 2013 was \$4.0 million and \$2.3 million, respectively, and was recorded as selling, general and administrative expense. As of June 29, 2014, there was \$14.3 million of total unrecognized compensation costs related to our outstanding share-based compensation arrangements. That cost is expected to be recognized over a weighted average period of 2.2 years.

The weighted average contractual term for stock options outstanding and options exercisable as of June 29, 2014 was 8.7 years and 7.8 years, respectively. The aggregate intrinsic value of stock options exercised during the six months ended June 29, 2014 was \$0.6 million and the aggregate intrinsic value of stock options outstanding and options exercisable as of June 29, 2014 was \$9.4 million and \$2.5 million, respectively.

The aggregate intrinsic value of RSU Awards settled during the six months ended June 29, 2014 was \$3.4 million and the aggregate intrinsic value of RSU Awards outstanding and RSU Awards vested and deferred as of June 29, 2014 was \$7.3 million and less than \$0.1 million, respectively.

The aggregate intrinsic value of RSU MSPs settled during the six months ended June 29, 2014 was \$1.1 million and the aggregate intrinsic value of RSU MSPs outstanding and RSU MSPs vested and deferred as of June 29, 2014 was \$2.9 million and none, respectively.

The Company also grants Cash Settled Stock Unit Awards to its international participants. These Cash Settled Stock Unit Awards typically cliff-vest in three years and are settled in cash based on the company's closing stock price at the time of vesting. As of June 29, 2014, there were 38,418 Cash Settled Stock Unit Awards outstanding compared to 40,568 Cash Settled Stock Unit Awards as of June 30, 2013. During the six months ended June 29, 2014, the aggregate cash used to settle Cash Settled Stock Unit Awards was \$0.6 million. As of June 29, 2014, the company had \$1.2 million of accrued expenses in current liabilities associated with these Cash Settled Stock Unit Awards compared with \$0.8 million as of June 30, 2013. Cash Settled Stock Unit Awards related compensation costs for the six month periods ended June 29, 2014 and June 30, 2013 was \$0.3 million and \$0.5 million, respectively, and was recorded as selling, general, and administrative expense.

(4) Inventories

Inventories consist of the following (in thousands):

	June 29, 2014	December 31, 2013
Raw materials	\$67,322	\$59,255
Work in process	94,001	95,236
Finished goods	35,066	44,913
	\$196,389	\$199,404

(5) Goodwill and Intangible Assets

The following table shows goodwill by segment as of June 29, 2014 (in thousands):

	Energy	Aerospace & Defense	Consolidated Total
Goodwill as of December 31, 2013	\$52,930	\$22,946	\$ 75,876
Currency translation adjustments	999	(15)	984
Goodwill as of June 29, 2014	\$53,929	\$22,931	\$ 76,860

The table below presents gross intangible assets and the related accumulated amortization as of June 29, 2014 (in thousands):

	Gross Carrying Amount	Accumulated Amortization
Patents	\$6,066	\$(5,703)
Non-amortized intangibles (primarily trademarks and trade names)	17,165	—
Customer relationships	34,992	(20,426)
Backlog	1,174	(1,174)
Other	7,666	(5,284)
Total	\$67,063	\$(32,587)
Net carrying value of intangible assets	\$34,476	

The table below presents estimated remaining amortization expense for intangible assets recorded as of June 29, 2014 (in thousands):

	2014	2015	2016	2017	2018	After 2019
Estimated amortization expense	\$1,572	\$3,139	\$2,852	\$2,717	\$2,455	\$4,579

(6) Segment Information

The following table presents certain reportable segment information (in thousands):

Each reporting segment is individually managed and has separate financial results that are reviewed by our chief operating decision-maker. Each segment contains related products and services particular to that segment. For further discussion of the

products included in each segment refer to Note 1 of the consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2013.

In calculating operating income for each reporting segment, certain administrative expenses incurred at the corporate level for the benefit of other reporting segments were allocated to the segments based upon specific identification of costs, employment related information or net revenues.

Corporate / Eliminations are reported on a net "after allocations" basis. Inter-segment intercompany transactions affecting net operating profit have been eliminated within the respective operating segments.

The operating loss reported in the Corporate / Eliminations column in the preceding table consists primarily of the following corporate expenses: compensation and fringe benefit costs for executive management and other corporate staff; corporate development costs (relating to mergers and acquisitions); human resource development and benefit plan administration expenses; legal, accounting and other professional and consulting fees; facilities, equipment and maintenance costs; and travel and various other administrative costs. The above costs are incurred in the course of furthering the business prospects of the Company and relate to activities such as: implementing strategic business growth opportunities; corporate governance; risk management; treasury; investor relations and shareholder services; regulatory compliance; and stock transfer agent costs.

The total assets for each operating segment have been reported as the Identifiable Assets for that segment, including inter-segment intercompany receivables, payables and investments in other CIRCOR businesses. Identifiable assets reported in Corporate / Eliminations include both corporate assets, such as cash, deferred taxes, prepaid and other assets, fixed assets, as well as the elimination of all inter-segment intercompany assets. The elimination of intercompany assets results in negative amounts reported in Corporate / Eliminations for Identifiable Assets for the periods ended June 29, 2014 and June 30, 2013. Corporate Identifiable Assets after elimination of intercompany assets were \$34.9 million and \$32.2 million as of June 29, 2014 and June 30, 2013, respectively.

(7) Earnings Per Common Share (in thousands, except per share amounts):

	Three Months Ended June 29, 2014				June 30, 2013		
	Net Income	Shares	Per Share Amount		Net Income	Shares	Per Share Amount
Basic Earnings Per Common Share ("EPS")	\$ 11,926	17,665	\$0.68		\$ 12,668	17,565	\$0.72
Dilutive securities, common stock options	—	102	(0.01)		—	42	0.00
Diluted EPS	\$ 11,926	17,767	\$0.67		\$ 12,668	17,607	\$0.72
	Six Months Ended June 29, 2014				June 30, 2013		
	Net Income	Shares	Per Share Amount		Net Income	Shares	Per Share Amount
Basic EPS	\$26,558	17,643	\$1.51		\$20,577	17,539	\$1.17
Dilutive securities, common stock options	—	111	(0.01)		—	30	0.00
Diluted EPS	\$26,558	17,754	\$1.50		\$20,577	17,569	\$1.17

There were 142,740 and 209,319 anti-dilutive stock options, RSU Awards, and RSU MSPs outstanding for the six months ended June 29, 2014 and June 30, 2013, respectively.

(8) Financial Instruments

Fair Value

The carrying amounts of cash and cash equivalents, trade receivables and trade payables approximate fair value because of the short maturity of these financial instruments. Short-term investments (principally guaranteed investment certificates) are carried at cost which approximates fair value at the balance sheet date. The fair value of our variable rate debt approximates its carrying amount.

Foreign Currency Exchange Risk

The Company is exposed to certain risks relating to its ongoing business operations including foreign currency exchange rate risk and interest rate risk. The Company currently uses derivative instruments to manage foreign currency risk on certain business transactions denominated in foreign currencies. To the extent the underlying transactions hedged are completed, these forward contracts do not subject us to significant risk from exchange rate movements because they offset gains and losses on the related foreign currency denominated transactions. These forward contracts do not qualify as hedging instruments and, therefore, do not qualify for fair value or cash flow hedge treatment. Any unrealized gains and losses on our contracts are recognized as a component of other expense in our consolidated statements of income.

As of June 29, 2014, we had five forward contracts: two U.S. Dollar/Euro contracts with a total value of \$3.1 million and three Brazilian Real/Euro contracts with a total value of less than \$0.1 million. This compares to fourteen forward contracts as of December 31, 2013. The fair value asset of the derivative forward contracts as of June 29, 2014 and December 31, 2013 was less than \$0.1 million and was included in prepaid expenses and other current assets on our balance sheet. The unrealized foreign exchange gain for each of the six month periods ended June 29, 2014 and June 30, 2013 was less than \$0.1 million and \$0.5 million, respectively. Unrealized foreign exchange gains (losses) are included in other (income) expense in our consolidated statements of income.

We have determined that the majority of the inputs used to value our foreign currency forward contracts fall within Level 2 of the fair value hierarchy, found under Accounting Standards Codification (“ASC”) Topic 820. The credit valuation adjustments, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties are Level 3 inputs. However, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our foreign currency forward contracts and determined that the credit valuation adjustments are not significant to the overall valuation. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

(9) Guarantees and Indemnification Obligations

As permitted under Delaware law, we have agreements whereby we indemnify certain of our officers and directors for certain events or occurrences while the officer or director is, or was, serving at our request in such capacity. The term of the indemnification period is for the officer’s or director’s lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited. However, we have directors’ and officers’ liability insurance policies that limit our exposure for events covered under the policies and should enable us to recover a portion of any future amounts paid. As a result of the coverage under these insurance policies, we believe the estimated fair value of these indemnification agreements based on Level 3 criteria as described under ASC Topic 820 is minimal and, therefore, we have no liabilities recorded from those agreements as of June 29, 2014.

We record provisions for the estimated cost of product warranties, primarily from historical information, at the time product revenue is recognized. While we engage in extensive product quality programs and processes, our warranty obligation is affected by product failure rates, utilization levels, material usage, service delivery costs incurred in correcting a product failure, and supplier warranties on parts delivered to us. Should actual product failure rates, utilization levels, material usage, service delivery costs or supplier warranties on parts differ from our estimates, revisions to the estimated warranty liability would be required.

The following table sets forth information related to our product warranty reserves for the six months ended June 29, 2014 (in thousands):

Balance beginning December 31, 2013	\$4,194
-------------------------------------	---------

Provisions	1,885	
Claims settled	(1,214)
Currency translation adjustment	(17)
Balance ending June 29, 2014	\$4,848	

Warranty obligations increased \$0.6 million from \$4.2 million as of December 31, 2013 to \$4.8 million as of June 29, 2014, primarily due to provisions recorded within the Energy segment for isolated product defect claims.

(10) Contingencies and Commitments

Asbestos-related product liability claims continue to be filed against two of our subsidiaries Spence Engineering Company, Inc. ("Spence"), the stock of which we acquired in 1984; and Circor Instrumentation Technologies, Inc. (f/k/a Hoke Incorporated) ("Hoke"), the stock of which we acquired in 1998. Due to the nature of the products supplied by these entities, the markets they serve and our historical experience in resolving these claims, we do not believe that these asbestos-related claims will have a material adverse effect on the financial condition, results of operations or liquidity of Spence or Hoke, or our financial condition, consolidated results of operations or liquidity of the Company. We are currently involved in various other legal claims and legal proceedings, some of which may involve substantial dollar amounts. Periodically, we review the status of each significant matter and assess our potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the amount can be estimated, we accrue a liability for the estimated loss. Significant judgment is required in both the determination of probability and the determination as to whether an exposure can be reasonably estimated. Because of uncertainties related to these matters, accruals are based on the best information available at the time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Such revisions in the estimates of the potential liabilities could have a material adverse effect on our business, results of operations and financial position.

Standby Letters of Credit

We execute standby letters of credit, which include bid bonds and performance bonds, in the normal course of business to ensure our performance or payments to third parties. The aggregate notional value of these instruments was \$46.0 million at June 29, 2014. Our historical experience with these types of instruments has been good and no claims have been paid in the current or past five fiscal years. We believe that the likelihood of demand for payments relating to the outstanding instruments is remote. These instruments generally have expiration dates ranging from less than 1 month to 5 years from June 29, 2014.

The following table contains information related to standby letters of credit instruments outstanding as of June 29, 2014 (in thousands):

Term Remaining	Maximum Potential Future Payments
0–12 months	\$ 30,222
Greater than 12 months	15,759
Total	\$ 45,981

(11) Defined Pension Benefit Plans

We maintain two pension benefit plans, a qualified noncontributory defined benefit plan and a nonqualified, noncontributory defined benefit supplemental plan that provides benefits to certain retired highly compensated officers and employees. To date, the supplemental plan remains an unfunded plan. These plans include significant pension benefit obligations which are calculated based on actuarial valuations. Key assumptions are made in determining these obligations and related expenses, including expected rates of return on plan assets and discount rates. Benefits are based primarily on years of service and employees' compensation.

As of July 1, 2006, in connection with a revision to our retirement plan, we froze the pension benefits of our qualified noncontributory plan participants. Under the revised plan, such participants generally do not accrue any additional benefits under the defined benefit plan after July 1, 2006.

During the three and six months ended June 29, 2014, we made cash contributions of \$0.4 million and \$0.8 million to our qualified defined benefit pension plan, respectively. Additionally, substantially all of our U.S. employees are eligible to participate in a 401(k) savings plan. Under this plan, we make a core contribution and match a specified percentage of employee contributions, subject to certain limitations.

The components of net pension benefit expense are as follows (in thousands):

	Three Months Ended		Six Months Ended	
	June 29, 2014	June 30, 2013	June 29, 2014	June 30, 2013
Interest cost on benefits obligation	545	491	1,090	982
Estimated return on assets	(697)) (591) (1,394) (1,182
Loss amortization	127	189	254	378
Net periodic cost of defined pension benefit plans	\$(25) \$89	\$(50) \$178

(12) Income Taxes

As required by ASC 740, Income Taxes, at June 29, 2014 and at December 31, 2013, we had \$1.9 million and \$1.6 million of unrecognized tax benefits, respectively, of which \$1.2 million and \$0.9 million, respectively, would affect our effective tax rate if recognized in any future period.

We recognize interest and penalties related to uncertain tax positions in income tax expense. As of June 29, 2014, we had approximately \$0.8 million of accrued interest related to uncertain tax positions.

The Company files income tax returns in the U.S. federal jurisdiction and in various state, local and foreign jurisdictions. The Company is no longer subject to examination by the Internal Revenue Service for years prior to 2010 and is no longer subject to examination by the tax authorities in foreign and state jurisdictions prior to 2006. The Company is under examination for income tax filings in various foreign jurisdictions.

For 2014, we expect an effective income tax rate of approximately 27.0%. The effective tax rate was 22.2% for the quarter ended June 29, 2014. The primary driver of the lower tax rate in the quarter was the lower percentage of US income over total income.

Our future effective tax rates could be adversely affected by earnings being lower than anticipated in countries where we have lower statutory rates and vice versa. Changes in the valuation of our deferred tax assets or liabilities, or changes in tax laws or interpretations thereof may also adversely affect our future effective tax rate. In addition, we are subject to the continuous examination of our income tax returns by the Internal Revenue Service and other tax authorities. We regularly assess the likelihood of adverse outcomes resulting from these examinations to determine the adequacy of our provision for income taxes.

The Company has a net domestic deferred income tax asset and a net foreign deferred tax asset. With regard to deferred income tax assets, we maintained a total valuation allowance of \$13.9 million at June 29, 2014 and \$13.9 million at December 31, 2013 due to uncertainties related to our ability to utilize certain of these assets, primarily consisting of certain foreign tax credits, foreign and state net operating losses and state tax credits carried forward. The valuation allowance is based on estimates of taxable income in each of the jurisdictions in which we operate and the period over which our deferred tax assets will be recoverable. If market conditions improve and future results of operations exceed our current expectations, our existing tax valuation allowances may be adjusted, resulting in future tax benefits. Alternatively, if market conditions deteriorate or future results of operations are less than expected, future assessments may result in a determination that some or all of the deferred tax assets are not realizable. Consequently, we may need to establish additional tax valuation allowances for all or a portion of the gross deferred tax assets, which may have a material adverse effect on our business, results of operations and financial condition. The Company has had a history of domestic and foreign taxable income, is able to avail itself of federal tax carryback provisions, has future taxable temporary differences and projects future domestic and foreign taxable income. We believe that after considering all of the available objective evidence, it is more likely than not that the results of future operations will generate sufficient taxable income to realize the remaining deferred tax assets.

(13) Special Charges / Recoveries

Background

During the third quarter of 2012, we announced restructuring actions in the Energy and Aerospace & Defense segments including actions to consolidate facilities, shift expenses to lower cost regions, and restructuring some non-strategic product lines ("2012 Announced Restructuring").

On August 1, 2013 and October 31, 2013, we announced restructuring actions associated with our Energy and Aerospace & Defense segments under which we will simplify the manner in which we manage our businesses ("2013 Announced

Restructuring"). Under these restructurings, we consolidated facilities, shifted expenses to lower cost regions, restructure certain non-strategic product lines, and also consolidated our group structure from three groups to two, reducing management layers and administrative expenses.

On January 24, 2014, we reached a settlement on the T.M.W. Corporation ("TMW") arbitration where it was agreed that TMW would waive all rights to amounts due from us under a contingent consideration promissory note established at the time of acquisition, resulting in a special gain of approximately \$2.2 million during the first quarter of 2014. See our Quarterly Report on Form 10-Q filed with the Securities and Exchange Commission ("SEC") on April 22, 2014 for additional information.

On March 28, 2014, we entered into a settlement agreement for \$1.5 million with Watts Water Technologies, Inc. Accordingly, we recorded a \$0.3 million special charge in the quarter, net of amounts previously accrued. See our Quarterly Report on Form 10-Q filed with the SEC on April 22, 2014 for additional information.

On April 22, 2014, we announced additional restructuring actions ("2014 Announced Restructurings"), under which we will continue to simplify our businesses. Under this restructuring, we will reduce certain general and administrative expenses and close or consolidate a number of smaller facilities. The savings from these restructuring actions will be utilized for growth investments.

2014 Quarter-to-Date and Year-to-Date

During the three months ended June 29, 2014, we recorded \$1.0 million of net special charges associated with the 2014 Announced Restructuring action and \$0.3 million of net special charges associated with the 2013 Announced Restructuring action.

During the six months ended June 29, 2014, we recorded \$1.1 million of net special charges associated with the 2013 Announced Restructuring actions, \$0.3 million of special charges associated with the Watts legal settlement, a \$2.2 million gain associated with the TMW settlement, and \$1.0 million of net special charges associated with the 2014 Announced Restructuring actions.

The following tables summarizes our 2014 QTD and YTD special charges or recoveries by expense type and business segment (in thousands):

Special Charges / (Recoveries) As of and for the three months ended June 29, 2014			
	Energy	Aerospace & Defense	Corporate Total
Accrued special charges as of March 30, 2014			\$2,725
Facility and professional fee related expenses	88	9	97
Employee related expenses	422	449	289
Total special charges	\$510	\$458	\$289
Special charges paid			1,887
Accrued special charges as of June 29, 2014			\$2,095

Special Charges / (Recoveries) As of and for the six months ended June 29, 2014			
	Energy	Aerospace & Defense	Corporate Total
Accrued special charges as of December 31, 2013			\$4,180
Facility and professional fee related expenses	424	93	517
Employee related expenses	773	464	289
Total restructuring charges	\$1,197	\$557	\$289
Watts settlement	—	—	300
TMW settlement special gain	—	(2,243)	—
Total special charges (recoveries)	\$1,197	\$(1,686)	\$589
Special charges paid			2,185
Accrued special charges as of June 29, 2014			\$2,095

Also, during the second quarter of 2014, in connection with the restructuring of certain landing gear product lines, we recorded \$5.1 million of inventory related charges within the Aerospace & Defense segment. These restructuring related inventory charges were included as cost of revenues. See further explanation in Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations.

In addition, during the second quarter of 2014, we performed an ASC 360, Plant, Property, and Equipment, impairment analyses for our Aerospace & Defense related California operations. No asset impairment charges were required as the fair value of the California operations exceeded the carrying value.

2013 Quarter-to-Date and Year-to-Date

During the three and six months ended June 30, 2013, we incurred \$2.3 million and \$3.6 million, respectively, of special charges associated with the 2012 Announced Restructuring actions. The following table summarizes our 2013 QTD and YTD special charges by expense type and business segment (in thousands):

Special Charges / (Recoveries)

As of and for the three months ended June 30, 2013

	Energy	Aerospace & Defense	Corporate	Total
Accrued special charges as of March 31, 2013				\$71
Facility and professional fee related expenses	458	1,299	—	1,757
Employee related expenses	311	186	—	497
Total restructuring charges	\$769	\$1,485	\$—	\$2,254
Special charges paid				1,733
Accrued special charges as of June 30, 2013				\$592

Special Charges / (Recoveries)

As of and for the six months ended June 30, 2013

	Energy	Aerospace & Defense	Corporate	Total
Accrued special charges as of December 31, 2012				\$800
Facility and professional fee related expenses	838	1,838	—	2,676
Employee-related expenses	383	573	—	956
Total restructuring related special charges	\$1,221	\$2,411	\$—	\$3,632
Special charges paid				3,840
Accrued special charges as of June 30, 2013				\$592

Inception to Date

The following table summarizes our 2012 Announced Restructuring related special charges incurred from the end of the third quarter of 2012 through December 31, 2013. Charges with this action began in the third quarter of 2012 and were finalized in the fourth quarter of 2013.

	2012 Announced Restructuring Charges / (Recoveries) as of June 29, 2014			
	Energy	Aerospace & Defense	Corporate	Total
Facility and professional fee related expenses - incurred to date	2,270	2,854	—	5,124
Employee related expenses - incurred to date	1,085	968	—	2,053
Total restructuring related special charges - incurred to date	\$3,355	\$3,822	\$—	\$7,177
We do not anticipate any additional special charges to be incurred associated with the 2012 Announced Restructuring actions.				

The following table summarizes our 2013 Announced Restructuring related special charges incurred from the third quarter of 2013 through June 29, 2014:

	2013 Announced Restructuring Charges / (Recoveries) as of June 29, 2014			
	Energy	Aerospace & Defense	Corporate	Total
Facility and professional fee related expenses - incurred to date	2,117	473	—	2,590
Employee related expenses - incurred to date	2,945	1,519	—	4,464
Total restructuring related special charges - incurred to date	\$5,062	\$1,992	\$—	\$7,054
We do not anticipate any additional special charges to be incurred associated with the 2013 Announced Restructuring actions.				

The following table summarizes our 2014 Announced Restructuring related special charges incurred during the second quarter of 2014:

18

	2014 Announced Restructuring Charges / (Recoveries) as of June 29, 2014			
	Energy	Aerospace & Defense	Corporate	Total
Facility and professional fee related expenses - incurred to date	(93)	9	—	(84)
Employee related expenses - incurred to date	316	449	289	1,054
Total restructuring related special charges - incurred to date	\$223	\$458	\$289	\$970

Additional special charges that we expect to be recorded with the 2014 announced restructuring action are included in the future projection below.

Future Projection

We expect to incur additional related special charges between \$4.0 million and \$5.7 million that are primarily facility and employee related during the remainder of 2014 (between \$2.5 million and \$3.0 million for the Energy segment, between \$1.5 million and \$2.5 million for the Aerospace & Defense segment, and between \$0.0 million and \$0.2 million for Corporate) to complete these 2014 restructuring actions. These restructuring activities are expected to be funded with cash generated from operations.

(14) Subsequent Event

On July 31, 2014, we entered into a new five year unsecured credit agreement ("2014 Credit Agreement"), filed as Exhibit 10.1 to this Quarterly Report on Form 10-Q, that provides for a \$400 million revolving line of credit and replaced the 2011 Credit Agreement. The 2014 Credit Agreement includes a \$200 million accordion feature for a maximum facility size of \$600 million. The 2014 Credit Agreement also allows for additional indebtedness not to exceed \$110 million. We anticipate using this 2014 Credit Agreement to fund potential acquisitions, to support our operational growth initiatives and working capital needs, and for general corporate purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

This Quarterly Report on Form 10-Q contains certain statements that are "forward-looking statements" as that term is defined under the Private Securities Litigation Reform Act of 1995 (the "Act") and releases issued by the SEC. The words "may," "hope," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "continue," and similar expressions which are predictions of or indicate future events and trends and which do not relate to historical matters, identify forward-looking statements. We believe that it is important to communicate our future expectations to our stockholders, and we, therefore, make forward-looking statements in reliance upon the safe harbor provisions of the Act. However, there may be events in the future that we are not able to accurately predict or control and our actual results may differ materially from the expectations we describe in our forward-looking statements. Forward looking statements involve known and unknown risks, uncertainties and other factors, which may cause our actual results, performance or achievements to differ materially from anticipated future results, performance or achievements expressed or implied by such forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, the cyclical and highly competitive nature of some of our end- markets which can affect the overall demand for and pricing of our products, changes in the price of and demand for oil & gas in both domestic and international markets, any adverse changes in governmental policies, variability of raw material and component pricing, changes in our suppliers' performance, fluctuations in foreign currency exchange rates, our ability to hire and maintain key personnel, our ability to continue operating our manufacturing facilities at efficient levels including our ability to prevent cost overruns and continue to reduce costs, our ability to generate increased cash by reducing our inventories, our prevention of the accumulation of excess inventory, our ability to successfully implement our acquisition, divestiture, restructuring, or simplification strategies, fluctuations in interest rates, potential security measure breaches or attacks, our ability to continue to successfully defend product liability actions

including asbestos-related claims, as well as the uncertainty associated with the current worldwide economic conditions and the continuing impact on economic and financial conditions in the United States and around the world as a result of terrorist attacks, current Middle Eastern conflicts and related matters. We advise you to read further about certain of these and other risk factors set forth in Part I, Item 1A, "Risk Factors" of our Annual Report filed on Form 10-K for the year ended December 31, 2013, together with subsequent reports we have filed with the SEC on Forms 10-Q and 8-K, which may supplement, modify, supersede, or update those risk

factors. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

Company Overview

CIRCOR International, Inc. designs, manufactures and markets valves and other highly engineered products and sub-systems used in the oil & gas, power generation, aerospace, defense and industrial markets. Within our major product groups, we develop, manufacture, sell and service a portfolio of fluid-control products, sub-systems and technologies that enable us to fulfill our customers' unique fluid-control application needs.

We have organized our reporting structure into two segments: Energy and Aerospace & Defense. The primary markets served by our Energy segment are oil & gas: upstream, mid-stream and downstream; as well as the global power generation market. The Aerospace & Defense segment primarily serves commercial and military aerospace end-markets as well as certain international Navy applications.

Basis of Presentation

All significant intercompany balances and transactions have been eliminated in consolidation. We monitor our business in two segments: Energy and Aerospace & Defense.

We operate and report financial information using a 52-week fiscal year ending December 31. The data periods contained within our Quarterly Reports on Form 10-Q reflect the results of operations for the 13-week, 26-week and 39-week periods which generally end on the Sunday nearest the calendar quarter-end date.

Critical Accounting Policies

The following discussion of accounting policies is intended to supplement the section "Summary of Significant Accounting Policies" presented in Note 2 to our consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2013. These policies were selected because they are broadly applicable within our operating units. The expenses and accrued liabilities or allowances related to certain of these policies are initially based on our best estimates at the time of original entry in our accounting records. Adjustments are recorded when our actual experience, or new information concerning our expected experience, differs from underlying initial estimates. These adjustments could be material if our actual or expected experience were to change significantly in a short period of time. We make frequent comparisons of actual experience and expected experience in order to mitigate the likelihood of material adjustments.

There have been no significant changes from the methodology applied by management for critical accounting estimates previously disclosed in our most recent Annual Report on Form 10-K.

Revenue Recognition

Revenue is recognized when products are delivered, title and risk of loss have passed to the customer, persuasive evidence of an arrangement exists, no significant post-delivery obligations remain, the price to the buyers is fixed or determinable and collection of the resulting receivable is reasonably assured. We have limited long-term arrangements with customers, representing less than 1% of our revenue, requiring delivery of products or services over extended periods of time and revenue and profits on certain of these arrangements are recognized in accordance with the percentage of completion method of accounting. Shipping and handling costs invoiced to customers are recorded as components of revenues and the associated costs are recorded as cost of revenues.

Allowance for Inventory

We typically analyze our inventory aging and projected future usage on a quarterly basis to assess the adequacy of our inventory allowances. We provide inventory allowances for excess, slow-moving, and obsolete inventories determined primarily by estimates of future demand. The allowance is measured on an item-by-item basis determined based on the difference between the cost of the inventory and estimated market value. The provision for inventory allowance is a component of our cost of revenues. Assumptions about future demand are among the primary factors utilized to estimate market value. At the point of the loss recognition, a new, lower-cost basis for that inventory is established, and subsequent changes in facts and circumstances do not result in the restoration or increase in that newly established cost basis.

Our net inventory balance was \$196.4 million as of June 29, 2014, compared to \$199.4 million as of December 31, 2013. Our inventory allowances as of June 29, 2014 was \$24.6 million, compared with \$21.3 million as of December 31, 2013.

Our provision for inventory obsolescence was \$1.6 million and \$2.4 million for the first six months of 2014 and 2013, respectively. During the second quarter of 2014 we recorded \$5.1 million of restructuring related inventory charges in connection with certain landing gear product lines within the Aerospace & Defense segment. We believe our inventory allowances remain adequate with the net realizable value of our inventory being higher than our current inventory cost after allowances.

If there were to be a sudden and significant decrease in demand for our products, significant price reductions, or if there were a higher incidence of inventory obsolescence for any reason, including a change in technology or customer requirements, we could be required to increase our inventory allowances and our gross profit could be adversely affected.

Inventory management remains an area of focus as we balance the need to maintain adequate inventory levels to ensure competitive lead times against the risk of excess or obsolete inventory.

Penalty Accruals

Some of our customer agreements, primarily in our project related businesses and large aerospace programs, contain late shipment penalty clauses whereby we are contractually obligated to pay consideration to our customers if we do not meet specified shipment dates. The accrual for estimated penalties is shown as a reduction of revenue and is based on several factors including historical customer settlement experience and management's assessment of specific shipment delay information. Accruals related to these potential late shipment penalties as of June 29, 2014, and December 31, 2013 were \$9.5 million and \$10.3 million, respectively. As we conclude performance under these agreements, the actual amount of consideration paid to our customers may vary from the amounts we currently have accrued.

Concentrations of Credit Risk

Financial instruments that potentially subject us to concentrations of credit risk consist primarily of cash, cash equivalents, short-term investments and trade receivables. A significant portion of our revenue and receivables are from customers who are either in or service the energy, aerospace and industrial markets. We perform ongoing credit evaluations of our customers and maintain allowances for potential credit losses. During 2013, 2012, and 2011, the Company did not experience any significant losses related to the collection of our accounts receivable. For the years ended December 31, 2013, 2012 and 2011 we had no customers from which we derived revenues that exceeded 5% of our consolidated revenues.

Legal Contingencies

We are currently involved in various legal claims and legal proceedings, some of which may involve substantial dollar amounts. Periodically, we review the status of each significant matter and assess our potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the amount can be estimated, we accrue a liability for the estimated loss. Significant judgment is required in both the determination of probability and the determination as to whether an exposure can be reasonably estimated. Because of uncertainties related to these matters, accruals are based on the best information available at the time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Such revisions in the estimates of the potential liabilities could have a material adverse effect on our business, results of operations and financial position. For more information related to our outstanding legal proceedings, see "Contingencies and Commitments" in Note 10 of the accompanying unaudited consolidated financial statements as well as "Legal Proceedings" in Part II, Item 1 hereof.

Impairment Analysis

As required by ASC Topic 350, "Intangibles - Goodwill and Other," we perform an annual assessment as to whether there was an indication that goodwill and certain intangible assets are impaired. We also perform impairment analyses

whenever events and circumstances indicate that goodwill or certain intangibles may be impaired. In assessing the fair value of goodwill, we use our best estimates of future cash flows of operating activities and capital expenditures of the reporting unit, the estimated terminal value for each reporting unit and a discount rate based on the weighted average cost of capital.

If our estimates or related projections change in the future due to changes in industry and market conditions, we may be required to record additional impairment charges. The goodwill recorded on the consolidated balance sheet as of June 29, 2014 increased \$1.0 million to \$76.9 million compared to \$75.9 million as of December 31, 2013 due to foreign currency fluctuations. There were no goodwill impairment triggering events as of June 29, 2014.

We performed an ASC 360, Plant, Property, and Equipment, impairment analyses for our Aerospace & Defense related California operations as part of our second quarter 2014 closing process. No asset impairment charges were required as the fair value of the California operations exceeded the carrying value.

Income Taxes

See "Income Taxes" in Note 12 of the accompanying unaudited consolidated financial statements.

Pension Benefits

We maintain two pension benefit plans, a qualified noncontributory defined benefit plan and a nonqualified, noncontributory defined benefit supplemental plan that provides benefits to certain highly compensated officers and employees. To date, the supplemental plan remains an unfunded plan. These plans include significant pension benefit obligations which are calculated based on actuarial valuations. Key assumptions are made in determining these obligations and related expenses, including expected rates of return on plan assets and discount rates. Benefits are based primarily on years of service and employees' compensation.

As of July 1, 2006, in connection with a revision to our retirement plan, we froze the pension benefits of our qualified noncontributory plan participants. Under the revised plan, such participants generally do not accrue any additional benefits under the defined benefit plan after July 1, 2006 and instead receive enhanced benefits associated with our defined contribution 401(k) plan in which substantially all of our U.S. employees are eligible to participate. No existing employees benefit from the supplemental plan.

During the three and six months ended June 29, 2014, we made cash contributions of \$0.4 million and \$0.8 million, respectively, to our qualified defined benefit pension plan. For the remainder of 2014, we expect to make a voluntary cash contribution of approximately \$0.8 million to our qualified defined benefit pension plan, although global capital market and interest rate fluctuations may impact future funding requirements.

Results of Operations for the Three Months Ended June 29, 2014 Compared to the Three Months Ended June 30, 2013 (unaudited)

The following table sets forth the results of operations, percentage of net revenues and the period-to-period percentage change in certain financial data for the three months ended June 29, 2014 and June 30, 2013:

	Three Months Ended June 29, 2014 (Dollars in thousands)			Three Months Ended June 30, 2013		% Change	
Net revenues	\$207,884	100.0	%	\$223,644	100.0	%	(7.0) %
Cost of revenues	148,184	71.3	%	153,538	68.7	%	(3.5) %
Gross profit	59,700	28.7	%	70,106	31.3	%	(14.8) %
Selling, general and administrative expenses	42,609	20.5	%	47,596	21.3	%	(10.5) %
Special (recoveries) charges, net	1,257	0.6	%	2,254	1.0	%	(44.2) %
Operating income	15,834	7.6	%	20,256	9.1	%	(21.8) %
Other (income) expense:							
Interest expense, net	891	0.4	%	838	0.4	%	6.3 %
Other (income) expense, net	(384)	(0.2)	%	626	0.3	%	(161.3) %
Total other expense, net	507	0.2	%	1,464	0.7	%	(65.4) %
Income before income taxes	15,327	7.4	%	18,792	8.4	%	(18.4) %
Provision for income taxes	3,402	1.6	%	6,124	2.7	%	(44.4) %
Net income	\$11,925	5.7	%	\$12,668	5.7	%	(5.9) %

Net Revenues

Net revenues for the three months ended June 29, 2014 decreased by \$15.8 million, or 7%, to \$207.9 million from \$223.6 million for the three months ended June 30, 2013. The change in net revenues for the three months ended

June 29, 2014 was attributable to the following:

22

Segment	Three Months Ended		Total Change	Operations	Foreign Exchange
	June 29, 2014	June 30, 2013			
	(In thousands)				
Energy	\$160,580	173,557	\$(12,977)	(14,822)	1,845
Aerospace & Defense	47,304	50,087	(2,783)	(4,466)	1,683
Total	\$207,884	\$223,644	\$(15,760)	\$(19,288)	\$3,528

The Energy segment accounted for approximately 77% of net revenues for the three months ended June 29, 2014 compared to 78% for the three months ended June 30, 2013 with the Aerospace & Defense segment accounting for the remainder.

Energy segment revenues decreased by \$13.0 million, or 7%, for the three months ended June 29, 2014 compared to the three months ended June 30, 2013. The decrease was primarily driven by operational declines in large international projects (11%) and our control valves businesses (4%), partially offset by higher shipment volumes in the upstream North American short-cycle business (4%), downstream instrumentation and sampling businesses (1%), and by favorable foreign currency impact of \$1.8 million (1%). Orders decreased \$3.5 million to \$160.3 million for the three months ended June 29, 2014 compared to \$163.8 million for the same period in 2013 primarily due to lower bookings due to delays in upstream large international projects offset in part by higher bookings in our downstream instrumentation and sampling businesses. Backlog for our Energy segment has increased \$15.9 million to \$279.5 million as of June 29, 2014 compared to \$263.6 million as of June 30, 2013 primarily due to bookings in the instrumentation and sampling businesses.

Aerospace & Defense segment revenues decreased by \$2.8 million, or 6%, for the three months ended June 29, 2014 compared to the same period in 2013. The decrease was primarily driven by operational declines in our California businesses related to landing gear product lines (5%), UK defense businesses (4%), and French operations (3%), partially offset by higher actuation shipments in the US (2%) and favorable foreign currency impact of \$1.7 million (3%). Orders increased \$7.1 million to \$43.4 million for the three months ended June 29, 2014 compared to \$36.3 million for the same period in 2013. The increase in Orders was primarily attributed to higher US actuation products and UK defense related orders. Order backlog decreased \$36.4 million to \$133.5 million as of June 29, 2014 compared to \$169.9 million as of June 30, 2013 primarily as a result of the \$28.6 million backlog reduction as we restructured certain landing gear product lines during the three months ended June 29, 2014, as well as the shipment of landing gear products.

Operating Income (Loss)

The change in operating income (loss) for the three months ended June 29, 2014 compared to the three months ended June 30, 2013 was as follows:

Segment	Three Months Ended			Operations	Foreign Exchange	Inventory Restructuring & Special (Recoveries) Charges, net
	June 29, 2014	June 30, 2013	Total Change			
Energy	\$22,992	\$22,299	\$693	\$205	\$182	\$306
Aerospace & Defense	(2,235)	4,527	(6,762)	(2,601)	239	(4,400)
Corporate	(4,923)	(6,570)	1,647	1,936	—	(289)
	\$15,834	\$20,256	\$(4,422)	\$(460)	\$421	\$ (4,383)

Special charges and inventory restructuring actions for the three months ended June 29, 2014 and June 30, 2013 were as follows:

Segment	Three Months Ended June 29, 2014 (In thousands)	Inventory Restructuring*	Special (Recoveries) Charges, net
Energy	\$510	\$—	\$510
Aerospace & Defense	5,597	5,139	458
Corporate	289	—	289
Total	\$6,396	\$5,139	\$1,257

Segment	Three Months Ended June 30, 2013 (In thousands)	Inventory Restructuring*	Special (Recoveries) Charges, net
Energy	\$816	\$47	\$769
Aerospace & Defense	1,197	(288)) 1,485
Corporate	—	—	—
Total	\$2,013	\$(241)) \$2,254

* Inventory restructuring charges are included in cost of revenues.

See "Special Charges / Recoveries" in Note 13 of the accompanying unaudited consolidated financial statements for more detail on these special charges and inventory restructuring actions for the three months ended June 29, 2014 and June 30, 2013.

Operating income decreased 22%, or \$4.4 million, to \$15.8 million for the three months ended June 29, 2014 compared to \$20.3 million for the same period in 2013.

Operating income for our Energy segment increased \$0.7 million, or 3%, to \$23.0 million for the three months ended June 29, 2014, compared to \$22.3 million for the same period in 2013. The increase in operating income was driven by lower special and inventory restructuring charges \$0.3 million (1%), net operational increases of \$0.2 million (1%), and favorable foreign exchange fluctuations \$0.2 million (1%). Operating margins improved 150 basis points to 14.3% compared to the same period in 2013 primarily due to better product mix within our large international projects business, higher productivity and savings from previous restructuring actions.

Our Aerospace & Defense segment recorded an operating loss of \$2.2 million for the three months ended June 29, 2014, a decrease of \$6.8 million (149%), compared to operating income of \$4.5 million for the same period in 2013. The operating loss was primarily a result of higher operational costs in California and a restructuring related inventory charge of \$5.1 million (114%) associated with the restructuring of certain landing gear product lines recorded during the three months ended June 29, 2014 as well as lower income from our French operations (20%). These decreases were partially offset by lower special charges of \$1.0 million (23%) and favorable foreign exchange fluctuations \$0.2 million (5%).

Corporate operating expenses decreased \$1.6 million, or 25%, to \$4.9 million for the three months ended June 29, 2014 compared to the same period in 2013, primarily due to lower compensation related costs.

Interest Expense, Net

Interest expense, net, increased \$0.1 million to \$0.9 million for the three months ended June 29, 2014 compared to \$0.8 million for the three months ended June 30, 2013. This change in interest expense was primarily due to higher outstanding debt balances during the period.

Other (Income) Expense, Net

Other income, net, was \$0.4 million for the three months ended June 29, 2014 compared to \$0.6 million of expense for the same period of 2013. This change was primarily due to foreign exchange fluctuations.

Provision for Taxes

The effective tax rate was 22.2% for the quarter ended June 29, 2014 compared to 32.6% for the same period of 2013. The primary driver of the lower tax rate in the quarter ended June 29, 2014 was decreased pre-tax income in the US, a reduction in foreign losses that produce no tax benefit, as well as a reduction in a valuation allowance related to higher foreign source income.

Net Income

Net income decreased approximately \$0.7 million to \$11.9 million for the quarter ended June 29, 2014 compared to \$12.7 million for the same period in 2013.

Results of Operations for the Six Months Ended June 29, 2014 Compared to the Six Months Ended June 30, 2013

The following table sets forth the results of operations, percentage of net revenues and the period-to-period percentage change in certain financial data for the six months ended June 29, 2014 and June 30, 2013:

	Six Months Ended June 29, 2014 (Dollars in thousands)		Six Months Ended June 30, 2013		% Change	
Net revenues	\$419,070	100.0	%	\$429,042	100.0	% (2.3)%
Cost of revenues	294,731	70.3	%	299,086	69.7	% (1.5)%
Gross profit	124,339	29.7	%	129,956	30.3	% (4.3)%
Selling, general and administrative expenses	87,498	20.9	%	93,168	21.7	% (6.1)%
Special charges	100	—	%	3,632	0.8	% (97.2)%
Operating income	36,741	8.8	%	33,156	7.7	% 10.8 %
Other (income) expense:						
Interest expense, net	1,809	0.4	%	1,625	0.4	% 11.3 %
Other expense, net	(853)	(0.2)	%	1,239	0.3	% (168.8)%
Total other (income) expense	956	0.2	%	2,864	0.7	% (66.6)%
Income before income taxes	35,785	8.5	%	30,292	7.1	% 18.1 %
Provision for income taxes	9,227	2.2	%	9,715	2.3	% (5.0)%
Net income	\$26,558	6.3	%	\$20,577	4.8	% 29.1 %

Net Revenues

Net revenues for the six months ended June 29, 2014 decreased by \$10.0 million, or 2%, to \$419.1 million from \$429.0 million for the six months ended June 30, 2013. The change in net revenues for the six months ended June 29, 2014 was attributable to the following:

Segment	Six Months Ended June 29, 2014 June 30, 2013 (In thousands)		Total Change	Operations	Foreign Exchange
Energy	\$323,167	\$330,661	\$(7,494)	\$(9,965)	\$2,471
Aerospace & Defense	95,903	98,381	(2,478)	(5,565)	3,087
Total	\$419,070	\$429,042	\$(9,972)	\$(15,530)	\$5,558

The Energy segment accounted for 77% of net revenues for the six months ended June 29, 2014 and June 30, 2013 with the Aerospace & Defense segment accounting for the remainder.

Energy segment revenues decreased by \$7.5 million, or 2%, for the six months ended June 29, 2014 as compared to the six months ended June 30, 2013. The decrease was primarily driven by operational declines in large international

projects (5%) and our control valves businesses (2%), partially offset by higher shipment volumes in the upstream North American short-cycle business (2%), downstream instrumentation and sampling businesses (1%), and by favorable foreign currency impact of

\$2.5 million (2%). Energy segment orders decreased \$17.4 million to \$319.9 million for the six months ended June 29, 2014 compared to \$337.3 million for the same period in 2013 primarily due to lower bookings in upstream large international projects. Orders within our large international project business are unpredictable or "lumpy" given the nature of the procurement process.

Aerospace & Defense segment revenues decreased by \$2.5 million, or 3%, for the six months ended June 29, 2014 compared to the six months ended June 30, 2013. The decrease was primarily driven by declines in our California businesses related to landing gear product lines losses (3%) and French operations (3%), partially offset by our US actuation product sales (2%). Orders for this segment decreased \$5.9 million to \$83.7 million for the six months ended June 29, 2014 compared to \$89.6 million for the same period in 2013 primarily as a result of lower landing gear orders.

Operating Income (Loss)

The change in operating income (loss) for the six months ended June 29, 2014 compared to the six months ended June 30, 2013 was as follows:

Segment	Six Months Ended			Operations	Foreign Exchange	Inventory Restructuring & Special (Recoveries) Charges, net
	June 29, 2014	June 30, 2013	Total Change			
	(Dollars In thousands)					
Energy	\$44,766	\$38,539	\$6,227	\$5,627	\$282	\$318
Aerospace & Defense	4,335	6,464	(2,129)	(1,306)	505	(1,328)
Corporate	(12,360)	(11,847)	(513)	76	—	(589)
Total	\$36,741	\$33,156	\$3,585	\$4,397	\$787	\$(1,599)

Special charges and inventory restructuring for the six months ended June 29, 2014 and June 30, 2013 were as follows:

Segment	Six Months Ended	Inventory Restructuring	Special (Recoveries) Charges, net
	June 29, 2014		
	(In thousands)		
Energy	\$1,198	\$—	\$1,198
Aerospace & Defense	3,452	5,139	(1,687)
Corporate	589	—	589
Total	\$5,239	\$5,139	\$100

Segment	Six Months Ended	Inventory Restructuring	Special (Recoveries) Charges, net
	June 30, 2013		
	(In thousands)		
Energy	\$1,516	\$296	\$1,220
Aerospace & Defense	2,124	(288)) 2,412
Corporate	—	—	—
Total	\$3,640	\$8	\$3,632

* Inventory restructuring charges are included in cost of revenues.

See "Special Charges / Recoveries" in Note 13 of the accompanying unaudited consolidated financial statements for more detail on these Special charges and inventory restructuring actions for the six months ended June 29, 2014 and June 30, 2013.

Operating income increased 11%, or \$3.6 million, to \$36.7 million for the six months ended June 29, 2014 compared to \$33.2 million for the same period in 2013.

Operating income for our Energy segment increased \$6.2 million, or 16%, to \$44.8 million for the six months ended June 29, 2014, compared to \$38.5 million for the same period in 2013. The increase in operating income was driven by operational increases of \$5.6 million (15%), lower special and inventory restructuring related charges of \$0.3 million (1%), and favorable foreign exchange fluctuations of \$0.3 million (1%). Operating margins improved 220 basis points to 13.9% compared to the same period in 2013 primarily due to better product mix within our upstream large international projects and North American short-cycle businesses, as well as savings from previous restructuring actions.

Operating income for the Aerospace & Defense segment decreased \$2.1 million, or 33%, to \$4.3 million for the six months ended June 29, 2014, compared to operating income of \$6.5 million for the same period in 2013. The decrease in operating income was primarily a result of restructuring related inventory charges of \$5.1 million (80%) associated with the restructuring of certain landing gear product lines during the six months ended June 29, 2014 and operational decreases of \$1.3 million (20%). These decreases were partially offset by a special recovery of \$2.2 million (39%) associated with a legal settlement recorded during the first quarter of 2014 and favorable foreign currency exchange fluctuations of \$0.5 million (8%).

Corporate operating expenses increased \$0.5 million, or 4%, to \$12.4 million for the six months ended June 29, 2014 compared to the same period in 2013, primarily due to higher special charges.

Interest Expense, Net

Interest expense, net, increased \$0.2 million to \$1.8 million for the six months ended June 29, 2014 compared to the six months ended June 30, 2013. This change in interest expense was primarily due to higher outstanding debt balances during the period.

Other (Income) Expense, Net

Other income, net was \$0.9 million for the six months ended June 29, 2014 compared to other expense, net of \$1.2 million in the same period of 2013. The difference of \$2.1 million was primarily due to foreign currency fluctuations.

Provision for Taxes

The effective tax rate was 27.0% for the six months ended June 29, 2014 compared to 32.1% for the same period of 2013. The primary driver of the lower 2014 tax rate were reduction in foreign losses that produce no tax benefit, as well as a reduction in a valuation allowance related to higher foreign source income.

Net Income

Net income increased \$6.0 million to \$26.6 million for the six months ended June 29, 2014 compared to \$20.6 million for the same period in 2013.

Liquidity and Capital Resources

Our liquidity needs arise primarily from capital investment in machinery, equipment and the improvement of facilities, funding working capital requirements to support business growth initiatives, restructuring actions, acquisitions, dividend payments, pension funding obligations and debt service costs. We have historically generated cash from operations and believe we remain in a strong financial position, with resources available for reinvestment in existing businesses, strategic acquisitions and managing our capital structure on a short and long-term basis.

The following table summarizes our cash flow activities for the six months ended June 29, 2014 (in thousands):

Cash flow provided by (used in):

Operating activities	\$27,355
----------------------	----------

Investing activities	(5,571)
Financing activities	(6,999)
Effect of exchange rates on cash and cash equivalents	(639)
Increase in cash and cash equivalents	\$ 14,146

During the six months ended June 29, 2014, we generated \$27.3 million of cash from operating activities compared to \$19.4 million generated during the same period in 2013. The \$7.9 million year over year increase in cash generated from operating activities was primarily due to a \$6.0 million increase in net income.

During the six months ended June 29, 2014, we used \$5.6 million for investing activities as compared to \$8.5 million during the same period in 2013. The \$2.9 million decrease in cash used for investing activities was primarily related to lower purchases of capital equipment year over year.

During the six months ended June 29, 2014, we used \$7.0 million for financing activities as compared to \$9.8 million during the same period in 2013. The \$2.8 million decrease in cash used by financing activities was primarily related to our net borrowing activity as we made borrowing repayments of \$6.1 million during the six months ended June 29, 2014 while we made borrowing repayments of \$10.9 million for the same period in 2013. Total debt as a percentage of total shareholders' equity was 8.6% as of June 29, 2014 compared to 10.4% as of December 31, 2013.

In May 2011, we entered into a five year unsecured credit agreement ("2011 Credit Agreement") that provided for a \$300 million revolving line of credit. The 2011 Credit Agreement included a \$150 million accordion feature for a maximum facility size of \$450 million and also allowed for additional indebtedness not to exceed \$80 million. As of June 29, 2014, we had borrowings of \$39 million outstanding under this 2011 Credit Facility and \$46 million outstanding under letters of credit.

On July 31, 2014, we entered into a new five year unsecured credit agreement ("2014 Credit Agreement"), filed as Exhibit 10.1 to this Quarterly Report on Form 10-Q, that provides for a \$400 million revolving line of credit and replaced the 2011 Credit Agreement. The 2014 Credit Agreement includes a \$200 million accordion feature for a maximum facility size of \$600 million. The 2014 Credit Agreement also allows for additional indebtedness not to exceed \$110 million. We anticipate using this 2014 Credit Agreement to fund potential acquisitions, to support our operational growth initiatives and working capital needs, and for general corporate purposes.

Certain of our loan agreements contain covenants that require, among other items, maintenance of certain financial ratios and also limit our ability to: enter into secured and unsecured borrowing arrangements; issue dividends to shareholders; acquire and dispose of businesses; invest in capital equipment; transfer assets among domestic and international entities; participate in certain higher yielding long-term investment vehicles; and issue additional shares of our stock. The two primary financial covenants are leverage ratio and interest coverage ratio. We were in compliance with all financial covenants related to our existing debt obligations on June 29, 2014 and we believe it is reasonably likely that we will continue to meet such covenants in the near future.

The ratio of current assets to current liabilities was 2.90:1 as of June 29, 2014 compared to 2.84:1 at December 31, 2013. The increase in the current ratio was primarily due to a \$14.1 million increase in cash and a \$23.8 million increase in accounts receivable due to timing of customer payments as of June 29, 2014 as compared to December 31, 2013.

As of June 29, 2014, cash and cash equivalents totaled \$116.3 million, of which approximately \$115.9 million was held in foreign bank accounts. This compares to \$102.2 million of cash and cash equivalents as of December 31, 2013 substantially all of which was held in foreign bank accounts. The cash and cash equivalents located at our foreign subsidiaries may not be repatriated to the United States or other jurisdictions without significant tax implications. We believe that our U.S. based subsidiaries, in the aggregate, will generate positive operating cash flows and in addition we may utilize our 2014 Credit Facility for U.S. based subsidiary cash needs. As a result, we believe that we will not need to repatriate cash from our foreign subsidiaries with earnings that are indefinitely reinvested.

In 2014, we expect to generate positive cash flow from operating activities sufficient to support our capital expenditures and pay dividends of approximately \$2.7 million based on our current dividend practice of paying \$0.15 per share annually. Based on our expected cash flows from operations and contractually available borrowings under our credit facility, we expect to have sufficient liquidity to fund working capital needs and future growth. We continue

to search for strategic acquisitions; a larger acquisition may require additional borrowings and/or the issuance of our common stock.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources that is material to investors.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Interest Rate Sensitivity Risk

As of June 29, 2014, our primary interest rate risk is related to borrowings under our revolving credit facility. The interest rate for our revolving credit facility fluctuates with changes in short-term interest rates. We had \$39.2 million borrowed under our revolving credit facility as of June 29, 2014. Based upon expected levels of borrowings under our credit facility in 2014, an increase in variable interest rates of 100 basis points would have an effect on our annual results of operations and cash flows of approximately \$0.2 million.

Foreign Currency Exchange Risk

The Company is exposed to certain risks relating to its ongoing business operations including foreign currency exchange rate risk and interest rate risk. The Company currently uses derivative instruments to manage foreign currency risk on certain business transactions denominated in foreign currencies. To the extent the underlying transactions hedged are completed, these forward contracts do not subject us to significant risk from exchange rate movements because they offset gains and losses on the related foreign currency denominated transactions. These forward contracts do not qualify as hedging instruments and, therefore, do not qualify for fair value or cash flow hedge treatment. Any unrealized gains and losses on our contracts are recognized as a component of other expense in our consolidated statements of income.

As of June 29, 2014, we had five forward contracts: two U.S. Dollar/Euro contracts with a total value of \$3.1 million and three Brazilian Real/Euro contracts with a total value of less than \$0.1 million. This compares to fourteen forward contracts as of December 31, 2013. The fair value asset of the derivative forward contracts as of June 29, 2014 and December 31, 2013 was less than \$0.1 million and was included in prepaid expenses and other current assets on our balance sheet. The unrealized foreign exchange gain for each of the six month periods ended June 29, 2014 and June 30, 2013 was less than \$0.1 million and \$0.5 million, respectively. Unrealized foreign exchange gains (losses) are included in other (income) expense in our consolidated statements of income.

We have determined that the majority of the inputs used to value our foreign currency forward contracts fall within Level 2 of the fair value hierarchy, found under ASC 820. The credit valuation adjustments, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties are Level 3 inputs. However, we have assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our foreign currency forward contracts and determined that the credit valuation adjustments are not significant to the overall valuation. As a result, we have determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer (our principal executive officer and principal financial officer, respectively), has evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934) as of the end of the period covered by this Quarterly Report on Form 10-Q. Based on this evaluation, our principal executive officer and principal financial officer have concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were designed and were effective to give reasonable assurance that information required to be disclosed in reports that we file or submit under the Securities Exchange Act of 1934 is accumulated and communicated to management, including our principal executive and financial officers, to allow timely decisions regarding required disclosure and that such information is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms.

Changes in Internal Controls over Financial Reporting

We have made no changes in our internal controls over financial reporting during the quarter ended June 29, 2014 that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION.

ITEM 1. LEGAL PROCEEDINGS.

Asbestos-related product liability claims continue to be filed against two of our subsidiaries Spence Engineering Company, Inc. ("Spence"), the stock of which we acquired in 1984; and Circor Instrumentation Technologies, Inc. (f/k/a Hoke Incorporated) ("Hoke"), the stock of which we acquired in 1998. Due to the nature of the products supplied by these entities, the markets they serve and our historical experience in resolving these claims, we do not believe that these asbestos-related claims will have a material adverse effect on the financial condition, results of operations or liquidity of Spence or Hoke, or our financial condition, consolidated results of operations or liquidity of the Company. We are currently involved in various other legal claims and legal proceedings, some of which may involve substantial dollar amounts. Periodically, we review the status of each significant matter and assess our potential financial exposure. If the potential loss from any claim or legal proceeding is considered probable and the amount can be estimated, we accrue a liability for the estimated loss. Significant judgment is required in both the determination of probability and the determination as to whether an exposure can be reasonably estimated. Because of uncertainties related to these matters, accruals are based on the best information available at the time. As additional information becomes available, we reassess the potential liability related to our pending claims and litigation and may revise our estimates. Such revisions in the estimates of the potential liabilities could have a material adverse effect on our business, results of operations and financial position.

ITEM 1A. RISK FACTORS.

We have not identified any material changes from the risk factors as previously disclosed in Item 1A to Part I of our Annual Report on Form 10-K for the year ended December 31, 2013.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Working Capital Restrictions and Limitations upon Payment of Dividends

Certain of our loan agreements contain covenants that require, among other items, maintenance of certain financial ratios and also limit our ability to: enter into secured and unsecured borrowing arrangements; issue dividends to shareholders; acquire and dispose of businesses; invest in capital equipment; transfer assets among domestic and international entities; participate in certain higher yielding long-term investment vehicles; and issue additional shares of our stock. The two primary financial covenants are leverage ratio and interest coverage ratio. We were in compliance with all covenants related to our existing debt obligations at June 29, 2014 and December 31, 2013. We believe it is reasonably likely that we will continue to meet such covenants in the near future.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Exhibit No.	Description and Location
10.1*	Credit Agreement, dated July 31, 2014, among CIRCOR International, Inc., as borrower, certain subsidiaries of CIRCOR International, Inc., as guarantors, the lenders from time to time party thereto and SunTrust Bank, as administrative agent, swing line lender and a letter of credit issuer.
10.2§	CIRCOR International, Inc. 2014 Stock Option and Incentive Plan is incorporated herein by reference to Exhibit A to CIRCOR International, Inc.'s Definitive Proxy Statement, File No. 001-14962, filed with the Securities and Exchange Commission on March 21, 2014.
31.1*	Certification of Chief Executive Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2*	Certification of Chief Financial Officer Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32**	Certification of Chief Executive Officer and Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002.
101	The following financial statements from CIRCOR International, Inc.'s Quarterly Report on Form 10-Q for the quarter ended June 29, 2014, as filed with the Securities and Exchange Commission on August 1, 2014, formatted in XBRL (eXtensible Business Reporting Language), as follows:
	(i) Consolidated Balance Sheets as of June 29, 2014 (unaudited) and December 31, 2013
	(ii) Consolidated Statements of Income for the three and six months ended June 29, 2014 and June 30, 2013 (unaudited)
	(iii) Statements of Consolidated Comprehensive Income for the three and six months ended June 29, 2014 and June 30, 2013 (unaudited)
	(iv) Consolidated Statements of Cash Flows for the six months ended June 29, 2014 and June 30, 2013 (unaudited)
	(v) Notes to the Consolidated Financial Statements (unaudited)
*	Filed with this report.
**	Furnished with this report.
§	Indicates management contract or compensatory plan or arrangement.
