Credit growth has slowed but expected to remain moderate

Economic environment outlook

Business conditions expected to remain relatively favourable across the Group:

Overall sustained income and credit growth, albeit at a bit slower. Slightly higher unemployment & inflation. Monetary conditions remain about neutral .

GDP growth is forecast to be 2% in Australia, 2.75% in the UK and 3% in New Zealand in the 2004/05 bank year.

In Australia, some moderation in domestic activity (largely household spending) offset by a pick up in exports.

In NZ, domestic conditions are forecast to moderate significantly during the next year due to tighter financial conditions & slower immigration.

In the UK, business activity is expected to ease back to trend reflecting some moderation in household spending & external demand.

Macro Risks

Geo politics - Both political, oil & trade tensions overhang the outlook.

Unbalanced global growth Much still depends on the US & Asia. Continental Europe continues to lag.

Australia, New Zealand and UK household leverage Increased household gearing, low savings and expensive housing leaves some consumers vulnerable to higher interest rates & sustained loss of jobs.

Financial instability As interest rates rise to more normal levels, some asset valuations may become volatile & lead to instability amongst investors and institutions.

Oil prices - Sustained high prices would prove a headwind to the global recovery under way.

Transition to Business As Usual

UK Restructuring will deliver £117m run rate benefits by September 2007

	Restructure Costs (£m)	FTE Reductions	Total run rate Savings 2006/07 (£m)
Distribution	35	c. 400	29
Products	12	c. 200	15
Production	16	c. 500	14
Central Support	46	c. 600	59
Total	109	c. 1,700	117

Benefits are against planned 2005 expense base

£73m of restructure charge is personnel related, £36m is surplus lease provision

Modest use of provision current year, expect 80% to be used by September 2006

Plan to achieve 80% of FTE reductions by September 2006

Summary of UK restructuring plans

Implementation of a UK efficiency program has commenced

Benefits begin in September 2005 half year with full run rate benefits of £117m by September 2007

Program is key part of doing what we do better and consistent with overall UK strategy

Implementation of growth initiatives continuing as planned

Program benefits are consistent with improving profitability. Further work required to achieve UK peer performance levels.
