Interim Management Statement for the three months ended 30 September 2012

Diageo reports 5% organic net sales growth in Q1

In the quarter ended 30 September 2012 Diageo delivered organic net sales growth of 5% against the comparable period when Diageo reported 9% organic net sales growth. Volume was up 2%. Organic net sales growth by region was:

- North America 6%
- Europe (1)%
- Africa 11%
- Latin America and Caribbean 16%
- Asia Pacific 2%

On a reported basis, net sales grew 6% in the quarter, against the comparable period. Net sales from acquisitions, Mey İçki, Meta Abo, Ypióca and Shuijingfang, were £79 million and there was a negative foreign exchange impact of £49 million.

Continued good performance in US spirits was the main driver of the performance in North America. In Europe, Turkey, Russia and Eastern Europe each continued to perform strongly and delivered double digit net sales growth. Western Europe was weak against a strong quarter in the prior year. Southern Europe and Ireland continued to be impacted by the economic situation in those markets while in France consumer demand remains weak following the duty increases implemented in January. Africa also delivered another double digit net sales growth performance as strong growth in spirits in South Africa and in beer in East Africa offset weakness in Nigeria. Latin America and Caribbean again delivered strong net sales growth despite a tough comparison in the prior year. In Asia Pacific performance in the developed markets was impacted by continued weakness in South Korea. In the emerging markets of Asia strong growth in South East Asia and China, especially in scotch, was offset by the postponement into the second quarter of sales to Global Travel customers and weakness in the vodka category in India.

Net assets were £7,216 million at 30 September 2012, compared with £6,811 million at 30 June 2012 primarily as a result of net profit for the period. Net borrowings were £8,019 million at 30 September 2012 having been £7,570 million at 30 June 2012. The purchase of Ypióca was completed and the consideration of £284 million was paid in August.

Paul Walsh, Chief Executive of Diageo commented:

'Diageo has delivered a solid start to the new financial year with net sales growth in line with expectations. The strength of our brands and our routes to market, coupled with the investments we have made in faster growing markets continue to drive the performance of our business. Growth in North America reflects our strength in US spirits and while the consumer environment in Western Europe remained challenging we delivered over 30% net sales growth in the faster growing markets of Europe, especially in Turkey where we have driven share gains from the successful integration of Mey İçki. The developed markets of Asia Pacific, especially Korea, are challenging but in the developing markets of Asia we have seen continued good performance. This performance together with the strong results we delivered in Africa and Latin America, and in the emerging markets of Europe has resulted in another period of double digit growth in our emerging markets business.

As a global business we continue to be aware of the uneven nature of the global economy. However we remain confident that we will deliver our medium term goals, given the strength of our brands and our routes to market.'
