TELENOR ASA FIRST QUARTER 2004 RESULTS

Telenor's revenues increased by 13% to NOK 14,284 million. Telenor's EBITDA margin increased from 33.1% to 35.1%. EBITDA increased by NOK 839 million to NOK 5,016 million. Telenor's operating profit increased by NOK 807 million to NOK 2,282 million. Profit before taxes and minority interests increased by NOK 3.6 billion to NOK 4.7 billion. Net interest-bearing liabilities were NOK 19.3 billion, Telenor's revenues increased by 13% to NOK 14,284 million, mainly due to the growth in the mobile operations and the consolidation of Sonofon as of 12 February 2004. Adjusted for the effect of acquisitions and disposals of operations and currency fluctuations, the growth in revenues was just below 9%.

Telenor's EBITDA margin increased from 33.1% to 35.1%, primarily due to Mobile constituting a larger part of the Group. EBITDA increased by NOK 839 million to NOK 5,016 million. All business areas increased their EBITDA. Telenor's operating profit increased by NOK 807 million to NOK 2,282 million. Profit before taxes and minority interests increased by NOK 3.6 billion to NOK 4.7 billion. In the first quarter of 2004, Telenor sold its remaining 9% ownership interest in Cosmote for NOK 3.1 billion and realized a gain before taxes of NOK 2.6 billion. Telenor's work for improving operational efficiency continues. As a part of this work, agreements were made in the first quarter of 2004 to gather the Telenor Group's Norwegian IT-operations in EDB Business Partner and to outsource EDB Business Partner's Telecom application development activities.

In Mobile, EBITDA increased by NOK 621 million to NOK 2,816 million. The EBITDA margin decreased by 1.7 percentage points to 39.0% due to reduced margin in Telenor Mobil- Norway and the consolidation of Sonofon. In Fixed-Norway, EBITDA increased by NOK 37 million to NOK 1,620 million. The EBITDA margin increased by 1.4 percentage points to 36.1%.

At the end of the first quarter of 2004, Telenor's market share for mobile services in Norway was estimated to be approximately 56% measured in number of subscriptions, down from 57% at the end of 2003. The market share for fixed line telephony in Norway measured in traffic minutes was 69%, in line with the end of 2003.

Broadcast had an operating profit of NOK 110 million compared to an operating loss in the first quarter of 2003. Capital expenditure was NOK 1,471 million compared to NOK 1,230 million in the first quarter of 2003. The increase was in Mobile.

Net interest-bearing liabilities were NOK 19.3 billion, an increase of NOK 1.5 billion from the end of 2003. The increase was mainly due to the acquisition of the remaining 46.5% ownership interest in Sonofon, partially offset by the sale of the shares in Cosmote.

Table of Contents

In January 2004, Telenor entered into an agreement with the Kingdom of Norway, which is the largest shareholder in Telenor, in connection with Telenor's program to buy back its own shares. The Kingdom of Norway agreed to cancel an amount of its own shares proportional to the amount of Telenor shares which Telenor repurchases in the market against payment by Telenor. As of 4 May 2004, Telenor had purchased 12.810.000 own shares in the market in accordance with the authority granted by Telenor's general meeting of 8 May 2003.

The Kingdom of Norway reduced its ownership interest in Telenor to 53.15% (including Telenor's own shares) through a sale of 170 million shares on 30 March 2004 and 695,600 shares on 14 April 2004.

In April 2004, following a government auction, Telenor was granted one of two new national licences for mobile telephony in Pakistan.

OUTLOOK FOR 2004

Telenor in general confirms its expectations for 2004 as presented in Telenor's report for the fourth quarter of 2003. Overall, excluding special items we expect a positive development in Telenor's results compared to 2003. Continued growth in revenues is expected, driven by the international mobile operations and the consolidation of Sonofon.

The EBITDA margin is expected to be approximately in line with 2003, excluding special items. This include consolidation of Sonofon, expected increase in sales and marketing expenses in a number of our mobile operations as well as operating expenses related to the establishment of mobile operations in Pakistan.

Capital expenditure is expected to be higher than in 2003 due to the purchase of satellite capacity, the consolidation of Sonofon, investments in new mobile technology in Norway, and investments in Pakistan, including license costs. In addition, the increase in subscriptions in some of the international mobile companies may result in Telenor accelerating certain network investments.

The sale of the Operating service division from the business area Fixed to EDB Business Partner is expected to have a small negative effect on Fixed Norway's revenues. This transaction is expected to have a limited effect on the results for the Telenor Group for 2004, excluding special items.

The First Quarter of 2004 report is sent as enclosure with a separate mail in word and excel format.

Table of Contents

FIRST QUARTER OF 2004

First quarter of 2004 showed a growth in revenues for the Telenor Group of 13% to NOK 14.3 billion. Profit before taxes and minority interests increased to NOK 4.7 billion.

Table of Contents

Telenor ASA first quarter of 2004

KEY POINTS FROM THE FIRST QUARTER OF 2004 COMPARED TO THE FIRST QUARTER OF 2003

Telenor's revenues increased by 13% to NOK 14,284 million, mainly due to the growth in the mobile operations and the consolidation of Sonofon as of 12 February 2004. Adjusted for the effect of acquisitions and disposals of operations and currency fluctuations, the growth in revenues was just below 9%.

Telenor's EBITDA margin increased from 33.1% to 35.1%, primarily due to Mobile constituting a larger part of the Group. EBITDA increased by NOK 839 million to NOK 5,016 million. All business areas increased their EBITDA.

Telenor's operating profit increased by NOK 807 million to NOK 2,282 million. Profit before taxes and minority interests increased by NOK 3.6 billion to NOK 4.7 billion. In the first quarter of 2004, Telenor sold its remaining 9% ownership interest in Cosmote for NOK 3.1 billion and realized a gain before taxes of NOK 2.6 billion.

Telenor's work for improving operational efficiency continues. As a part of this work, agreements were made in the first quarter of 2004 to gather the Telenor Group's Norwegian IT-operations in EDB Business Partner and to outsource EDB Business Partner's Telecom application development activities.

In Mobile, EBITDA increased by NOK 621 million to NOK 2,816 million. The EBITDA margin decreased by 1.7 percentage points to 39.0% due to reduced margin in Telenor Mobil-Norway and the consolidation of Sonofon.

In Fixed-Norway, EBITDA increased by NOK 37 million to NOK 1,620 million. The EBITDA margin increased by 1.4 percentage points to 36.1%.

At the end of the first quarter of 2004, Telenor's market share for mobile services in Norway was estimated to be approximately 56% measured in number of subscriptions, down from 57% at the end of 2003. The market share for fixed line telephony in Norway measured in traffic minutes was 69%, in line with the end of 2003.

Broadcast had an operating profit of NOK 110 million compared to an operating loss in the first quarter of 2003.

Capital expenditure was NOK 1,471 million compared to NOK 1,230 million in the first quarter of 2003. The increase was in Mobile.

Net interest-bearing liabilities were NOK 19.3 billion, an increase of NOK 1.5 billion from the end of 2003. The increase was mainly due to the acquisition of the remaining 46.5% ownership interest in Sonofon, partially offset by the sale of the shares in Cosmote.

In January 2004, Telenor entered into an agreement with the Kingdom of Norway, which is the largest shareholder in Telenor, in connection with Telenor's program to buy back its own shares. The Kingdom of Norway agreed to cancel an amount of its own shares proportional to the amount of Telenor shares which Telenor repurchases in the market against payment by Telenor. Revenues increased by 33.9% compared to the first quarter of 2003. The EBITDA margin decreased from 40.7% in the first quarter of 2003 to 39.0% in the first quarter of 2004, mainly as a result of reduced margin in Telenor Mobil Norway.

The results in the first quarter of 2004 were affected by the consolidation of Sonofon from 12 February 2004.

The other mobile operations showed a good profitability in the first quarter of 2004.

In April 2004, following a government auction, Telenor was granted one of two new national licences for mobile telephony in Pakistan, for a period of 15 years subject to renewal. The price of the licence at auction was US Dollar 291 million, half of which will be paid in 2004 and the remainder over a 10-year period.

Table of Contents**Telenor Mobil Norway**

(NOK in millions)	1st quarter		Year 2003
	2004	2003

Operating profit/Total revenues (%)	27.1	30.3	28.6
Capex	214	77	500
ARPU (GSM) monthly (NOK)	332	330	339
No. of subscriptions (in thousand)	2,378	2,342	2,364

Compared to the first quarter of 2003, revenues increased primarily due to the increase in sales to service providers and sale of customer equipment. External traffic revenues increased as a result of increased traffic per subscription and the increase in the number of subscriptions, partially offset by price reductions. The increase in external subscription revenues compared to the first quarter of 2003 was a result of the increase in the number of subscriptions. The reduction in external revenues from SMS and content services was due to reduced prices and an increase in the number of free messages, partially offset by the increase in the number of messages. Compared to the fourth quarter of 2003, revenues from SMS fell due to reduced prices and a reduction in the number of messages.

On 16 June 2003, Telenor Mobil introduced simplified pricing plans and lower average call charges. SMS prices were reduced from 6 May and from 1 December 2003, and on 1 July 2003 Telenor Mobil further reduced end user prices. As of 1 February 2004, Telenor Mobil reduced the termination charges to NetCom and as a result of reduced interconnection charges from NetCom, Telenor Mobil also reduced the end user prices on outgoing traffic to NetCom's network from 12 February 2004. On 1 March 2004, SMS prices for prepaid subscriptions were further reduced.

In a market characterized by strong competition, the number of GSM subscriptions in Telenor Mobil increased by 19,000 compared to the end of 2003, and by 52,000 compared to the end of the first quarter of 2003. These additional subscriptions consisted primarily of GSM contract subscriptions.

At the end of the first quarter of 2004, the estimated market share for GSM measured in number of subscriptions was approximately 56%, down from 60% at the end of the first quarter of 2003 and 57% at the end of 2003.

Mobile

Table of Contents

penetration was estimated to have increased to approximately 91%, up from 85% in the first quarter of 2003 and 90% in the fourth quarter of 2003.

The decrease in the EBITDA margin compared to the first quarter of 2003 was primarily due to increased costs relating to sales and marketing activities, higher costs of materials and traffic charges as a result of increased traffic to other mobile networks and increased sales of customer equipment with low margin, as well as price reductions. Provisions were also made in the first quarter of 2004 for contingent liabilities in connection with legal disputes.

Depreciation and amortization decreased compared to the first quarter of 2003, primarily due to reduced capital expenditure in recent years and the reversal of depreciation and amortization in previous periods.

The increase in capital expenditure compared to the first quarter of 2003 was primarily due to investments in new technology and the increased coverage and capacity in the GSM network.

Sonofon Denmark

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Mobile related revenues	511		
Other revenues	165		
Total revenues	676		
EBITDA	166		
Depreciation and amortization	114		
Write-downs			
Operating profit	52		
EBITDA/Total revenues (%)	24,6		
Operating profit/Total revenues (%)	7,7		
Capex	66		
ARPU (GSM) monthly (NOK)	270		
No. of subscriptions (in thousand)	996		

The proceeding table shows figures from 12 February 2004, the time of consolidation of Sonofon. Telenor's ownership interest in Sonofon is 100%. ARPU in the table is for the period 1 January - 31 March 2004.

On 12 February 2004, Telenor acquired the remaining 46.5% of the shares in Sonofon for a consideration of NOK 3.66 billion. The company was consolidated as a subsidiary effective from this date.

Sonofon's estimated market share was 22% at the end of the first quarter of 2004, which was a decrease compared to the end of 2003 due to increased competition. The number of subscriptions in Sonofon decreased by 14,000 from the end of 2003. Estimated mobile penetration in Denmark increased to 89% at the end of the first quarter of 2004.

Measured in Danish Kroner, ARPU fell compared to the end of 2003, primarily due to price reductions.

Revenues and the EBITDA margin for the first quarter of 2004 were NOK 1,210 million and 24.2%, respectively. The EBITDA margin was negatively affected by

Table of Contents

reduced prices and costs connected with sales and marketing activities, partially offset by a reduction in other operating expenses.

As from 1 July 2004, Sonofon will reduce the interconnection charges by a further 10%.

In April 2004 Sonofon reached an agreement to acquire the Danish service provider CBB Mobil A/S for DKK 130 million.

Telenor Mobile Sweden

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Total revenues	46	20	127
EBITDA	(25)	(8)	(114)
Depreciation and amortization	8	4	24
Write-downs			
Operating profit	(33)	(12)	(138)
Capex	4	58	79
ARPU (GSM) monthly (NOK)	188	119	171
No. of subscriptions (in thousand)	84	52	81

The Norwegian Krone depreciated against the Swedish Krone by approximately 13% in the first quarter of 2004 compared to the first quarter of 2003.

The increase in the EBITDA-loss compared to the first quarter of 2003 was due to increased sales and marketing activity after the launch as an MVNO (Mobile Virtual Net Operator) in April 2003. The number of MVNO subscriptions was 61,000 at the end of the first quarter of 2004.

Pannon GSM Hungary

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Mobile related revenues	1,323	1,138	5,005
Other revenues	82	67	365
Total revenues	1,405	1,205	5,370
EBITDA	556	469	1,924
Depreciation and amortization	241	212	889
Write-downs			10
Operating profit	315	257	1,025
EBITDA/Total revenues (%)	39.6	38.9	35.8
Operating profit/Total revenues (%)	22.4	21.3	19.1
Capex	104	113	644
ARPU (GSM) monthly (NOK)	169	153	165
No. of subscriptions (in thousand)	2,596	2,514	2,618

Telenor's ownership interest in Pannon GSM is 100%. The Norwegian Krone depreciated against the Hungarian Forint by approximately 6% in the first quarter of 2004 compared to the first quarter of 2003.

Table of Contents

Pannon GSM's estimated market share decreased by one percentage point compared to the end of 2003 and was 35% at the end of the first quarter of 2004, compared to 38% at the end of the first quarter of 2003. Compared to the end of the first quarter of 2003, the estimated mobile penetration in Hungary increased from 70% to 80%.

In a market characterised by tough competition, Pannon GSM increased the number of contract subscriptions by 25,000 compared to the end of 2003, while the increase was 93,000 compared to the end of the first quarter of 2003.

ARPU measured in local currency increased by 4% compared to the first quarter of 2003, primarily due to an increased share of contract subscriptions in addition to increased usage per subscription. The increase in the number of subscriptions and increased ARPU contributed to revenue growth in local currency of 10% compared to the first quarter of 2003.

The EBITDA margin increased compared to the first quarter of 2003 due to more efficient operations.

Depreciation and amortization increased compared to the first quarter of 2003 due to a higher level of capital expenditure in recent years.

During 2003, Pannon GSM was determined to have significant market power in the national interconnection market in Hungary in both 2002 and 2003. Pannon GSM appealed against these decisions. It is not yet known when the cases will be ruled on in the Hungarian courts. In case of an unfavorable outcome, Pannon GSM may be required to reduce its interconnection charges.

DiGi.Com Malaysia

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Mobile related revenues	811	633	2,713
Other revenues	130	101	463
Total revenues	941	734	3,176
EBITDA	426	307	1,295
Depreciation and amortization	210	188	780

No. of subscriptions (100% in thousand)	2,416	1,803	2,207

Telenor's ownership interest in DiGi.Com was 61.0% at the end of the first quarter of 2004. The Norwegian Krone appreciated against the Malaysian Ringgit by approximately 2% in the first quarter of 2004 compared to the first quarter of 2003.

DiGi.Com's estimated market share increased by one percentage point compared to the end of 2003 and was 21% at the end of the first quarter of 2004, compared

Table of Contents

to 19% at the end of the first quarter of 2003. Compared to the end of the first quarter of 2003, the estimated mobile penetration in Malaysia increased from 39% to 46%.

Measured in local currency, revenues increased by 31% compared to the first quarter of 2003 primarily due to the increased number of subscriptions. Measured in local currency, ARPU decreased by 3% compared to the first quarter of 2003 due to the fact that new subscriptions on average generated less traffic, as well as price reductions in the form of free call time and loyalty programmes.

The increase in the EBITDA margin was due to more efficient operations and increased interconnection charges. Measured in local currency, EBITDA increased by 43% compared to the first quarter of 2003.

Depreciation and amortization increased compared to the first quarter of 2003 as a result of a high level of capital expenditure in the fourth quarter of 2003.

Kyivstar Ukraine

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Mobile related revenues	822	464	2,569
Other revenues	12	19	65
Total revenues	834	483	2,634
EBITDA	505	263	1,573
Depreciation and amortization	102	77	343
Write-downs			
Operating profit	403	186	1,230
EBITDA/Total revenues (%)	60.6	54.5	59.7
Operating profit/Total revenues (%)	48.3	38.5	46.7
Capex	331	218	979
ARPU (GSM) monthly (NOK)	87	81	94
No. of subscriptions (100% in thousand)	3,221	2,012	3,037

Telenor's ownership interest at the end of the first quarter of 2004 was 55.35%. Telenor increased its ownership interest further in April 2004 by 1.16% for a cost of US Dollar 5 million. The functional currency for Kyivstar is the US Dollar. The Norwegian Krone appreciated against the US Dollar by approximately 2% in the first quarter of 2004 compared to the first quarter of 2003.

Kyivstar's estimated market share decreased by two percentage points compared to the end of 2003 and was 45% at the end of the first quarter of 2004, compared to 50% at the end of the first quarter of 2003. The decrease was a result of increased competition within the prepaid segment. Compared to the first quarter of 2003, the estimated mobile penetration in Ukraine increased from 9% to 15%.

ARPU increased compared to the first quarter of 2003. This was primarily related to a 60% increase on average in the number of traffic minutes per subscription mainly due to the introduction of a Calling Party Pays regime from 19 September 2003.

Table of Contents

A significant increase in both the number of subscriptions and ARPU contributed to an increase in revenues measured in US Dollar by 76% compared to the first quarter of 2003.

The high EBITDA margin reflected cost-effective operations and limited sales and marketing expenses.

Depreciation and amortization increased compared to the first quarter of 2003 as a result of increased capital expenditure in the subsequent quarters.

The increase in capital expenditure compared to the first quarter of 2003 was related to network investments as a result of a larger customer base.

GrameenPhone Bangladesh

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Mobile related revenues	490	321	1,529
Other revenues 1)	3	5	7
Total revenues	493	326	1,536
EBITDA	283	197	1,001
Depreciation and amortization	34	36	158
Write-downs			
Operating profit	249	161	843
EBITDA/Total revenues (%)	57.4	60.4	65.2
Operating profit/Total revenues (%)	50.5	49.4	54.9
Capex	160	77	429
ARPU (GSM) monthly (NOK)	123	133	136
No. of subscriptions (100% in thousand)	1,520	835	1,141

Telenor's ownership interest at the end of the first quarter of 2004 was 51.0%. The Norwegian Kroner appreciated against the Bangladeshi Takka by approximately 4% in the first quarter of 2004 compared to the first quarter of 2003.

GrameenPhone's estimated market share increased by one percentage point compared to the end of 2003 and was 63% at the end of the first quarter of 2004, compared to 70% at the end of the first quarter of 2003. The decrease compared to the first quarter of 2003 was due to increased competition, particularly in the fourth quarter of 2003. The estimated mobile penetration in Bangladesh doubled from 0.9% in the first quarter of 2003 to 1.8% in the first quarter of 2004.

Compared to the end of 2003, the number of subscriptions in GrameenPhone increased by 33% to more than 1.5 million subscriptions, the increase from the first quarter of 2003 was 82%. The increase in the number of subscriptions contributed to an increase in revenues measured in local currency by 57% compared to the first quarter of 2003.

Measured in local currency, ARPU decreased by 4% compared to the first quarter of 2003. This was mainly due to a higher portion of prepaid subscriptions and price reductions, including free call time.

Measured in local currency, EBITDA increased by 49% compared to the first quarter of 2003, mainly due to increased revenues and more efficient operations. The EBITDA margin, however, decreased compared to the first quarter of 2003

Table of Contents

due to increased sales and marketing expenses in relation to the significant increase in the number of subscriptions.

Capital expenditure increased compared to the first quarter of 2003 as a result of an increase in the need for network investments due to growth in the number of subscriptions in GrameenPhone and in the total market in Bangladesh. Significant network investments are also expected in future quarters.

Other units in Mobile

(including eliminations and amortization and write-downs of net excess values)

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
EBITDA	(93)	(116)	(374)
Depreciation and amortization 1)	363	265	967
Write-downs		2	7
Operating (loss)	(456)	(383)	(1,348)
1) Includes amortization of Telenor's net excess values by *)	363	239	911
Capex	2		(7)

*) Net excess values are the difference between Telenor's acquisition cost and Telenor's share of equity at acquisition of subsidiaries. Telenor Mobile Sweden is now shown and discussed separately and is no longer included in Other units in Mobile. The figures in the preceding table are changed to reflect this transition.

Other units in Mobile include costs related to the management and administration of the international mobile operations, as well as amortization and write-downs of Telenor's net excess values on mobile companies.

Increased amortization of net excess values compared to the first quarter of 2003 was mainly due to Sonofon, which was consolidated as of 12 February 2004.

Associated companies and joint ventures in Mobile

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Telenor's share of 1)			
Net income after taxes	264	114	608
Amortization of Telenor's net excess values 2)	(83)	(157)	(534)
Write-downs of Telenor's excess values			(15)
Gains on disposal of ownership interests		65	1,580
Net result from associated companies	181	22	1,639

1) The figures are partly based on management's estimates in connection with the preparation of the consolidated financial statements. The consolidated profit and loss statement contains only the line net result from associated companies. The table includes Telenor's share of the results in Sonofon until 12 February 2004. Effective from this date Sonofon was consolidated as a subsidiary. Cosmote was included as an associated company through April 2003.

2) Net excess values are the difference between Telenor's acquisition cost and Telenor's share of equity at acquisition of associated companies.

Table of Contents

In the first quarter of 2004, there was a significant growth in the overall subscription base for the associated companies in total, adjusted for Sonofon. Consistent with previous quarters, growth was especially strong in VimpelCom in Russia and DTAC in Thailand.

Adjusted for Sonofon and Cosmote, all associated mobile companies increased net income after taxes compared to the first quarter of 2003. In the first quarter of 2003, net income after taxes from associated companies was negatively affected by an adjustment of approximately NOK 50 million to account for the difference between the estimated and actual results for 2002.

Reduced amortization of Telenor's net excess values compared to the first quarter of 2003 was mainly due to the consolidation of Sonofon as a subsidiary on 12 February 2004.

Gains on disposal in the first quarter of 2003 was due to the sale of Telenor's ownership interest in StavTeleSot to Vimpelcom-Region.

External revenues from subscriptions and connections PSTN/ISDN decreased compared to the first quarter of 2003 due to the transition to sales of access lines

Table of Contents

on a wholesale basis and a decrease in the number of subscriptions in the market as a whole.

The increase in external revenues from subscriptions and connections ADSL/Internet was due to the increased number of ADSL subscriptions (residential and business) which was 208,000 at the end of the first quarter of 2004, an increase of 87,000 compared to the first quarter of 2003 and 31,000 compared to the end of 2003. Telenors estimated market share for ADSL (residential- and business subscriptions) was 56% at the end of the first quarter of 2004 compared to 57% at the end of 2003 and 63% at the end of the first quarter 2003.

The reduction in external traffic revenues compared to the first quarter of 2003 was due to a 10% decrease in total traffic in Telenor s network, measured in minutes, and a reduced market share. The reduction in total traffic was due to the migration of voice traffic from fixed telephony to mobile telephony and the transition of data traffic from dial-up Internet to ADSL.

Telenor s market share measured in traffic minutes was 69% at the end of the first quarter of 2004, in line with the end of 2003, compared to 70% at the end of the first quarter of 2003.

The reduction in external revenues from data services compared to the first quarter of 2003 was due to the transition to IP-based data services with lower prices, while the decrease in external revenue from managed services was due to the decline in, and renegotiation of, managed services contracts.

The increase in revenues from the sale to service providers and operators was due to increased sale of access lines on a wholesale basis (PSTN, ISDN and ADSL). The number of PSTN/ISDN lines sold on a wholesale basis was 339,000 at the end of the first quarter of 2004, an increase of 314,000 compared to the first quarter of 2003 and 109,000 compared to the end of 2003. The number of ADSL subscriptions sold on a wholesale basis was 76,000 at the end of the first quarter of 2004, an increase of 55,000 compared to the first quarter of 2003 and 20,000 compared to the end of 2003.

The increase in external revenues from other wholesale products was primarily due to increased sales of local loop unbundled subscriptions. The number of local loop unbundled subscriptions sold at the end of the first quarter of 2004 was 96,000, an increase of 43,000 compared to the end of the first quarter of 2003 and 16,000 compared to the end of 2003.

EBITDA increased compared to the first quarter of 2003, primarily due to higher gross margin (revenues less costs of materials and traffic charges as a percentage of revenues). The increase in the gross margin was due to the transition of data traffic from dial-up Internet to ADSL and reduced termination charges in the mobile networks from 1 February 2004. In the first quarter of 2004, NOK 18 million was expensed for workforce reductions, compared to NOK 6 million in the first quarter of 2003.

Depreciation and amortization was reduced compared to the first quarter of 2003, primarily due to reduced capital expenditure in recent years.

The increase in capital expenditure compared to the first quarter of 2003 was primarily due to the increase in investments in administrative support systems for customer, order and invoicing.

The trading in Utfors AB shares on the Stockholm stock exchange ceased on 31 March 2004. Telenor held 98.5% of the shares in Utfors AB at that time.

The increase in revenues, measured in NOK, compared to the first quarter of 2003 was due to the increase in sale of traffic to Glocalnet on a wholesale basis and a weakened Norwegian Krone compared to the Swedish Krone.

The decrease in the EBITDA loss compared to the first quarter of 2003 was primarily due to increased revenues.

Reduced depreciation and amortization compared to the first quarter of 2003 was due to a reduction in the amortization period for a significant part of the negative goodwill in relation to the final allocation of net excess values in the third quarter of 2003 related to the acquisition of Utfors AB.

Telenor's shareholding in Comincom/Combella was sold on 1 December 2003 in exchange for shares in the listed company Golden Telecom.

Table of Contents

Comincom/Combella was consolidated as a subsidiary up until 1 December 2003. Golden Telecom is accounted for as an associated company from this date.

Fixed other countries

The activities in Fixed Other Countries consist of activities in the Czech Republic and Slovakia. EBITDA was NOK 4 million in the first quarter of 2004, which was an improvement of NOK 11 million compared to the first quarter of 2003 due to increased revenues and reduced operating expenses.

BROADCAST

(NOK in millions)	1st quarter		Year 2003

Increased revenues due to price increases and a higher number of subscribers, combined with a limited increase in operating expenses, excluding depreciation and amortization, increased the EBITDA margin to 26.6% in the first quarter of 2004 compared to 17.9% in the first quarter of 2003. In addition, the results in the first quarter of 2003 were negatively affected by accruals between the quarters in 2003.

The decrease in depreciation and amortization compared to the first quarter of 2003 was due to fully depreciated fixed assets.

Table of Contents**Broadcast Distribution**

Investments:			
Capex	12	10	116
Investments in businesses			

The decrease in external revenues in Transmission compared to the first quarter of 2003 was due to reduced sales of analogue transmissions via satellite. Decreased sales to other areas within Broadcast and to other Telenor entities contributed to the decrease in internal revenues.

EBITDA increased compared to the first quarter of 2003 due to reduced price on the leasing of satellite capacity which more than offset reduced revenues.

The decrease in depreciation and amortization was due to fully depreciated fixed assets.

Broadcast Other

Increased EBITDA in Broadcast Other compared to the first quarter of 2003 was due to increased revenues from Distribution in the first quarter of 2004.

Telenor's ownership interest in EDB Business Partner was 51.8% at the end of the first quarter of 2004.

Adjusted for acquisitions and disposals of operations, revenues were in line with the first quarter of 2003. Banking & Finance had a limited increase in revenues and Telekom had a limited decrease.

The EBITDA margin increased compared to the first quarter of 2003 due to cost savings related to the restructuring of Banking & Finance, the winding up of operations with low margins, and a general focus on cost control.

Depreciation and amortization decreased compared to the first quarter of 2003 due to fully depreciated fixed assets.

EDB Business Partner's capital expenditure in the first quarter of 2004 decreased compared to previous quarters due to more efficient utilization of earlier investments and because no major projects were launched during the period.

In the first quarter of 2004, EDB Business Partner entered into an agreement to sell a substantial portion of its activities in Telekom for approximately NOK 400 million. The transaction was carried out on 30 April 2004.

In the first quarter of 2004, EDB Business Partner entered into an agreement to acquire a substantial portion of the operations of the Operating Service division from the business area Fixed. Telenor has also extended and prolonged its agreement with EDB Business Partner for the operation of Telenor's IT systems until 1 May 2011. In addition, through this agreement EDB Business Partner took over operating contracts for a number of external

customers from Telenor. These transactions were completed on 3 May 2004.

Table of Contents

Satellite Services

The decrease in revenues in Satellite Services compared to the first quarter of 2003 was primarily due to a reduction in the price and volume of Inmarsat-based satellite services and the effect of a the strengthening of the Norwegian Krone against the US Dollar.

The decrease in operating profit compared to the first quarter of 2003 was primarily due to decreased revenues and the impact of currency fluctuations (weakened US Dollar and strengthened Euro against the Norwegian Krone). Moreover, depreciation and amortization increased as a consequence of reduced depreciation periods for some earth station equipment.

Satellite Networks

The increase in revenues in Satellite Networks compared to the first quarter of 2003 was primarily due to increased sales under existing contracts in the Norwegian and Dutch satellite operations as well as in the Taide Internet operations. The increase was partially offset by decrease in revenues due to the sale of the operations in Poland in November 2003.

The increase in operating profit compared to the first quarter of 2003 was due to increased revenues and better operating margins as a result of better utilization of space capacity and a general focus on cost control.

Teleservice

Decreased revenues in Teleservice compared to the first quarter of 2003 were primarily due to the disposals of operations. As of 1 January 2004, the MeetAt operations were transferred to the business area Fixed, and in addition parts of the operations outside Norway were sold. In the first quarter of 2003, these operations had in aggregate revenues of NOK 32 million. A reduced total market for directory enquiry services and a reduced market share also contributed to reduced revenues. Gains from the disposal of operations amounted to NOK 5 million in the first quarter of 2004.

Reduced operating profit compared to the first quarter of 2003 was primarily due to reduced revenues from the directory enquiry services. The decrease in operating profit due to the sale of operations was largely offset by gains from such disposals.

Nextra International

The operating companies in Nextra International were wound up or sold. However, certain matters are still unresolved regarding the final settlement of the sales and liquidations, and as a consequence some of the holding companies are not yet liquidated.

Software services

Increased revenues compared to the first quarter of 2003 were mainly due to changes in delivery periods for internal sales of CA software.

Restructuring of the operations and renegotiation of the agreement with Computer Associates in the fourth quarter of

2003 contributed to reduced operating expenses compared to the first quarter of 2003. In addition to increased revenues, this contributed to reduced operating loss compared to the first quarter of 2003.

EBITDA was in line with the first quarter of 2003. Compared to the first quarter of 2003, expenses for property developments decreased, while expenses in group projects, mainly cost programmes, increased.

The decrease in depreciation and amortization compared to the first quarter of 2003 was due to reversal of previous depreciation related to investment subsidies received for Special Service Obligations.

Capital expenditure decreased compared to the first quarter of 2003 due to low property-related investments in the first quarter of 2004.

OTHER PROFIT AND LOSS ITEMS FOR THE GROUP**Depreciation, amortization and write-downs**

Amortization of goodwill in Fixed was an income in the first quarter of 2004 compared to an expense in the first quarter of 2003. The change was due to the sale of Comincom/Combella (NOK 11 million) and amortization of negative goodwill related to Utfors AB (NOK 27 million).

Associated companies

-

Table of Contents

Increased net income after taxes from associated companies compared to the first quarter of 2003 was primarily due to increased profitability in associated companies in Mobile.

The decrease in amortization of Telenor's net excess values compared to the first quarter of 2003 was mainly due to the consolidation of Sonofon as a subsidiary as from 12 February 2004, partially offset by amortization related to Golden Telecom, which became an associated company as of 1 December 2003.

Gains on disposal in the first quarter of 2003 was due to the sale of Telenor's ownership interest in StavTeleSot to Vimpelcom-Region.

Financial items

(NOK in millions)	1st quarter		Year 2003
	2004	2003	
Financial income	108	165	586
Financial expenses	(409)	(576)	(2,023)
Net foreign currency gain (loss)	(31)	103	(1)
Net gains (losses) and (write-downs)	2,591	(86)	73
Net financial items	2,259	(394)	(1,365)
Gross interest expenses	(405)	(574)	(2,033)
Net interest expenses	(307)	(453)	(1,549)

The decrease in financial income compared to the first quarter of 2003 was mainly due to the decline in market interest rates, partially offset by increased interest-bearing financial assets. In the first quarter of 2003, NOK 19 million in dividends from the company Expert ASA was included in financial income.

The decrease in interest-bearing liabilities and average interest rates contributed to the decrease in financial expenses compared to the first quarter of 2003. In the first quarter of 2003, approximately NOK 90 million was accrued and expensed for interest related to legal disputes.

Net currency losses in the first quarter of 2004 were mainly due to the holding of interest-bearing financial assets in Euro subsequent to the sale of the Cosmote shares. Currency gains in the first quarter of 2003 were largely due to hedging instruments related to payment of taxes in 2003 related to gains from the sale of VIAG Interkom.

Net gains on financial items in the first quarter of 2004 were mainly due to the sale of Telenor's remaining shares in Cosmote. Net losses and write-downs on financial items in the first quarter of 2003 were due to write-downs of shares in Expert ASA and of shares owned by Telenor Venture.

Taxes

The tax rate in Norway is 28%. The effective tax rate for the Telenor group for 2004 is estimated to be 34% of profit before taxes and minority interests.

The estimated effective tax rate for Telenor for 2004 is higher than 28%, mainly due to higher taxes on foreign companies, including deferred tax on retained earnings and amortization of goodwill on which deferred tax assets have not been recognized. The actual effective tax rate for the year may deviate from the estimated rate.

Table of Contents

On 26 March 2004, the Norwegian government issued and submitted to the Norwegian parliament (Storting) a consultation paper outlining certain proposals for a future tax reform. The main proposals relating to the taxation of companies provide for a tax exemption on dividend income and a tax exemption on capital gains deriving from the disposal of shares. As a result of such exemptions, capital losses deriving from disposals of shares would not be tax deductible. If the government's proposals receive sufficient support in the Storting, the government might submit draft legislation relating to the proposed tax reform to the Storting in the fall of 2004, in which case the tax exemptions described above could become effective from the fiscal year commenced on 1 January 2004. Such tax changes may affect the income tax expenses for Telenor.

Balance sheet and cash flow

Total assets increased by NOK 7.2 billion compared to the end of 2003, primarily due to the consolidation of Sonofon. This also affected the separate balance sheet items.

Net interest-bearing liabilities increased by NOK 1.5 billion from the end of 2003 to NOK 19.3 billion at the end of the first quarter of 2004. The acquisition of the remaining 46.5% ownership interest in Sonofon increased net interest-bearing liabilities by approximately NOK 6.9 billion, of which approximately NOK 3.7 billion was payment for the shares. Beside these effects, net interest-bearing liabilities decreased due to the proceeds of approximately NOK 3.1 billion from the sale of shares in Cosmote and from cash flow from operations, partially offset by capital expenditure and the repurchase of Telenor's own shares for an amount of NOK 0.6 billion in the first quarter of 2004. Currency fluctuations increased net interest-bearing liabilities measured in Norwegian Kroner by approximately NOK 0.2 billion compared to the end of 2003.

Minority interests increased compared to the end of 2003 primarily due to net income from Kyivstar, GrameenPhone and DiGi.Com and due to currency fluctuations.

Translation adjustments were positively affected by NOK 644 million compared to the end of 2003 due to the weakening of the Norwegian Krone in the quarter, of which the Hungarian Forint had the largest effect.

Disputes

In March 2004, Tele2 Norge AS (Tele2) filed a complaint against Telenor Mobil AS before the Conciliation Board of Baerum (this is the first step in Norwegian civil court proceedings and if no settlement is reached between the parties the case will be transferred to the competent court) claiming reimbursement of alleged excessive prices charged by Telenor Mobil pursuant to its service provider agreement with Tele2. Tele2 claims that these prices have not been set in accordance with the requirements for cost-oriented pricing and has sought reimbursement of the difference between the actual prices charged and cost-oriented prices. The claim is for NOK 113 million plus interests. Telenor is contesting the claim.

Please refer to note 24 to Telenor's annual report for 2003 for more information about legal proceedings.

Table of Contents

US GAAP

Telenor had net income in accordance with Generally Accepted Accounting Principles in the United States (US GAAP) of NOK 2.991 million in the first quarter of 2004 compared to net income in accordance with Norwegian accounting principles of NOK 2,801 million. The main reason for the difference is that goodwill is not amortized according to US GAAP, but is subject to an annual impairment test.

OUTLOOK FOR 2004

Telenor in general confirms its expectations for 2004 as presented in Telenor's report for the fourth quarter of 2003. Overall, excluding special items we expect a positive development in Telenor's results compared to 2003.

Continued growth in revenues is expected, driven by the international mobile operations and the consolidation of Sonofon.

The EBITDA margin is expected to be approximately in line with 2003, excluding special items. This include consolidation of Sonofon, expected increase in sales and marketing expenses in a number of our mobile operations as well as operating expenses related to the establishment of mobile operations in Pakistan.

Capital expenditure is expected to be higher than in 2003 due to the purchase of satellite capacity, the consolidation of Sonofon, investments in new mobile technology in Norway, and investments in Pakistan, including license costs. In addition, the increase in subscriptions in some of the international mobile companies may result in Telenor accelerating certain network investments.

The sale of the Operating service division from the business area Fixed to EDB Business Partner is expected to have a small negative effect on Fixed Norway's revenues. This transaction is expected to have a limited effect on the results for the Telenor Group for 2004, excluding special items.

The unaudited interim consolidated financial statements according to Norwegian accounting principles have been prepared on a basis consistent with Telenor's financial statements as of year-end 2003, and in accordance with the Norwegian accounting standard for interim reporting.

The accounts submitted with the report have not been audited. This report contains statements regarding the future in connection with Telenor's growth initiatives, profit figures, outlook, strategies and objectives. In particular, the section Outlook for 2004 contains forward-looking statements regarding the group's expectations. All statements regarding the future are subject to inherent risks and uncertainties, and many factors can lead to actual profits and developments deviating substantially from what has been expressed or implied in such statements. These factors include the risk factors relating to Telenor's activities described in Telenor's Annual Report 2003 on Form 20-F filed with the Securities and Exchange Commission in the USA under the headings Cautionary Statement Regarding Forward-Looking Statements and Risk Factors (available at www.telenor.com/ir/).

Oslo, 4 May 2004
