ITEM 1. BUSINESS

Forward-Looking Statements

This Annual Report contains certain “forward-looking statements” which may be identified by the use of words such as “believe,” “expect,” “anticipate,” “should,” “planned,” “estimated” and “potential.” Examples of forward-looking statements include, but are not limited to, estimates with respect to our financial condition, results of operations and business that are subject to various factors which could cause actual results to differ materially from these estimates and most other statements that are not historical in nature. These factors include, but are not limited to, general and local economic conditions, changes in interest rates, deposit flows, demand for mortgage, commercial and other loans, real estate values, competition, changes in accounting principles, policies, or guidelines, changes in legislation or regulation, and other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing products and services.

FSB Community Bankshares, MHC

FSB Community Bankshares, MHC is a federally chartered mutual holding company which currently owns 53.0% of the outstanding common stock of FSB Community Bankshares, Inc. FSB Community Bankshares, MHC has not engaged in any significant business other than owning the common stock of FSB Community Bankshares, Inc. So long as FSB Community Bankshares, MHC exists, it is required to own a majority of the voting stock of FSB Community Bankshares, Inc. The executive office of FSB Community Bankshares, MHC is located at 45 South Main Street, Fairport, New York 14450, and its telephone number is (585) 223-9080. FSB Community Bankshares, MHC is subject to comprehensive regulation and examination by the Board of governors of the Federal Reserve System (the “Federal Reserve Board”).

FSB Community Bankshares, Inc.

FSB Community Bankshares, Inc. is a federally chartered mid-tier stock holding company of Fairport Savings Bank (the “Bank”). FSB Community Bankshares, Inc. has not engaged in any significant business activity other than owning 100% of the common stock of the Bank and \$3.0 million in investment securities, and currently does not intend to expand materially its business activities, other than through its ownership of the Bank.

FSB Community Bankshares, Inc. completed its initial public offering in August 2007 by selling 838,950 shares, or 47.0% of our outstanding common stock, at a price of \$10.00 per share, to the Bank’s eligible depositors, the Bank’s employee stock ownership plan and the public. Additionally, we issued 946,050 shares, or 53.0% of our common stock, to FSB Community Bankshares, MHC our federally chartered mutual holding company parent.

At December 31, 2011, we had total consolidated assets of \$223.3 million, total deposits of \$175.1 million and stockholders’ equity of \$20.8 million. Our consolidated net loss for the year ended December 31, 2011 was \$72,000.

Our executive offices and the Bank’s executive offices are located at 45 South Main Street, Fairport, New York 14450, and our telephone number is (585) 223-9080. FSB Community Bankshares, Inc. is subject to comprehensive regulation and examination by the Board of governors of the Federal Reserve Board.

Our website address is www.fairportsavingsbank.com. Information on our website is not and should not be considered a part of this Annual Report on Form 10-K. We make our Annual Report on Form 10-K and amendments thereto available on our website as soon as reasonably practicable after filing or furnishing them to the SEC. Also available on the website is our Corporate Profile, our officers and directors, corporate governance, and a link to our SEC filings.

Fairport Savings Bank

Fairport Savings Bank is a federally chartered savings bank headquartered in Fairport, New York and was originally founded in 1888. Fairport Savings Bank conducts business from its main office in Fairport, New York and our branch offices located in Penfield, New York which opened in 2003, Irondequoit, New York, which opened in 2007, Webster, New York which opened in 2009, and Perinton, New York which opened in 2011. The telephone number at our main office is (585) 223-9080. Fairport Savings Bank is subject to comprehensive regulation and examination by the Office of the Comptroller of the Currency ("OCC").

Our principal business consists of originating one-to-four-family residential real estate mortgage loans and home equity lines of credit, and to a lesser extent, originations of commercial real estate, multi-family, construction and other consumer loans. The Bank has three mortgage origination offices located in Pittsford, New York, Canandaigua, New York, and Watertown, New York. We attract retail deposits from the general public in the areas surrounding our main office and our branch offices. We offer our customers a variety of deposit products with interest rates that are competitive with those of similar products offered by other financial institutions in our market area. Loans that we sell into the secondary market consist of long-term, fixed-rate residential real estate mortgage loans and correspondent FHA mortgage loans. We retain the servicing rights primarily on all fixed-rate residential mortgage loans that we sell. These loans are sold without recourse. Correspondent FHA mortgage loans are sold in the secondary market on a servicing-released basis. We also broker government mortgage loans including FHA, VA, SONYMA, and USDA directly to investors in the secondary market. We have not entered into loan participations in recent years. Our revenues are derived primarily from interest on loans and, to a lesser extent, interest on investment securities and mortgage-backed securities. We also generate revenues from other income including deposit fees and service charges, realized gain on sale of securities, earnings on bank owned life insurance, mortgage fee income, and realized gain on sale of loans associated with loan production generated from our loan origination offices. Our primary sources of funds are deposits, borrowings, and principal and interest payments on loans and securities. Additionally, we derive a portion of our other income through Oakleaf Services Corporation, our subsidiary that offers non-deposit investments such as annuities, insurance products and mutual funds.

Market Area

Fairport Savings Bank considers its market area to consist of Monroe County, New York, and to a lesser extent, the surrounding counties in Western New York. Monroe County is a suburban market dominated by the City of Rochester, the third largest city in the State of New York. In 2010, Monroe County had a population of 744,000. Population growth has been largely stagnant over the last two decades. Kodak, Xerox and Bausch & Lomb, some of the world's most recognizable names in business, all conduct a significant portion of their operations in Monroe County. The community is also home to nationally recognized and growing companies like Wegman's, Paychex, CooperVision, LiDestri Foods and Harris RF Communications. The University of Rochester, along with its Medical Center, is now the area's largest employer.

Competition

We face intense competition in our market area both in making loans and attracting deposits. Our market area has a high concentration of financial institutions, including large money center and regional banks, community banks and credit unions. We face additional competition for deposits from money market funds, brokerage firms, mutual funds and insurance companies. Some of our competitors offer products and services that we currently do not offer, such as commercial business loans, trust services and private banking.

The majority of our depositors live and/or work in Monroe County, New York. At June 30, 2011, the latest date for which information is available through the Federal Deposit Insurance Corporation, we held approximately 1.5% of the thrift and bank deposits available in Monroe County.

Our primary strategy for increasing and retaining our customer base is to offer competitive deposit and loan rates and product features, delivered with exceptional customer service. Our primary focus is to build and develop profitable customer relationships across all lines of business while maintaining our role as a community bank.

Lending Activities

Our principal lending activity is the origination of first mortgage loans to purchase or refinance one-to-four-family residential real estate. We also originate a significant number of home equity lines of credit and, to a lesser extent, multi-family residential, construction, commercial real estate and other loans (consisting of automobile, passbook, overdraft protection and unsecured loans). At December 31, 2011, one-to-four-family residential real estate mortgage loans totaled \$113.5 million, or 89.5% of our loan portfolio, home equity lines of credit totaled \$9.4 million, or 7.4% of our loan portfolio, commercial real estate loans totaled \$1.5 million, or 1.2% of our loan portfolio, and other loans totaled \$2.3 million, or 1.9% of our loan portfolio.

Our strategic plan continues to focus on residential real estate lending whereby a portion of fixed-rate long term residential loan originations will be sold, on a servicing-retained basis, to increase non-interest income, a portion of fixed-rate FHA, VA, SONYMA or USDA loans will be sold, on a servicing-released basis, to increase non-interest income, and the remaining loans will be added to our loan portfolio for interest earning income. In 2011, we sold \$11.8 million in long-term, fixed-rate one-to-four-family real estate loans and correspondent FHA mortgage loans in the secondary market. We also brokered \$7.0 million of fixed-rate residential mortgage and FHA mortgage loans in 2011 to investors in the secondary market. Our total loans sold and serviced as of December 31, 2011 were \$19.9 million. At December 31, 2011, the Bank had \$1.5 million in loans held for sale comprised of FHA mortgage loans originated and closed by the Bank in the fourth quarter of 2011 that have been committed for sale in the secondary market and will be delivered and sold in the first quarter of 2012. We may experience declines in the residential mortgage loan portfolio during 2012 if the economy continues to weaken. Additionally, based on our desired interest rate sensitivity position, we may increase the amount of residential mortgages we sell in the secondary market.

Loan Portfolio Composition. The following table sets forth the composition of our loan portfolio by type of loan at the dates indicated.

	2011		2010		At December 31, 2009		2008		2007

Total	\$ 111,521	\$ 15,178	\$ 126,699

One-to-four-Family Residential Real Estate Mortgage Loans. Our primary lending activity is the origination of one-to-four-family residential real estate mortgage loans. At December 31, 2011 \$113.5 million, or 89.5%, of our total loan portfolio consisted of one-to-four-family residential real estate mortgage loans. We offer conforming and non-conforming, fixed-rate and adjustable-rate residential real estate mortgage loans with maturities of up to 30 years and maximum loan amounts generally of up to \$750,000.

We currently offer fixed-rate conventional mortgage loans with terms of up to 30 years that are fully amortizing with monthly loan payments, and adjustable-rate mortgage loans that provide an initial fixed interest rate for one, three, five, seven or ten years and that amortize over a period of up to 30 years. We originate fixed-rate mortgage loans with terms of less than 15 years, but at rates applicable to our 15-year loans. We originate fixed-rate bi-weekly mortgage loans with terms of up to 30 years that are fully amortizing with bi-weekly loan payments.

One-to-four-family residential real estate mortgage loans are generally underwritten according to Freddie Mac guidelines, and we refer to loans that conform to such guidelines as “conforming loans.” We generally originate both fixed-rate and adjustable-rate mortgage loans in amounts up to the maximum conforming loan limits as established by the Office of Federal Housing Enterprise Oversight, which at December 31, 2011 was \$417,000 for single-family homes in our market area. We also originate loans above the lending limit for conforming loans, which we refer to as “jumbo loans.” We generally underwrite jumbo loans in a manner similar to conforming loans generally with increased rates. These loans are generally eligible for sale to various firms that specialize in purchasing non-conforming loans. Jumbo loans are not uncommon in our market area. For first mortgage loans with loan-to-value ratios in excess of 80% we require private mortgage insurance.

As a result of our conservative underwriting standards, we do not have any loans in our loan portfolio that are considered sub-prime, or Alt-A.

We actively monitor our interest rate risk position to determine the desirable level of investment in fixed-rate mortgages. Depending on market interest rates and our capital and liquidity position, we may retain all of our newly originated longer-term fixed-rate residential mortgage loans, or we may sell all or a portion of such loans in the secondary mortgage market to government sponsored entities such as Freddie Mac or other purchasers.

During periods of low interest rates such as we experienced in 2011 and are currently experiencing at the beginning of 2012, we may sell a portion of our newly originated fixed-rate residential real estate mortgage loans. During 2011, we sold \$11.8 million in long-term fixed-rate residential mortgage loans and correspondent FHA loans in the secondary

market, and generated \$7.0 million in direct brokered loans. For the year ended December 31, 2011, we realized gains of \$430,000 on the sale of loans, and we received servicing fees of \$46,000. As of December 31, 2011, the principal balance of loans serviced for others totaled \$19.9 million.

We currently offer several adjustable-rate mortgage loans secured by residential properties with interest rates that are fixed for an initial period ranging from one year to ten years. After the initial fixed period, the interest rate on adjustable-rate mortgage loans is generally reset every year based upon a contractual spread or margin above the average yield on U.S. Treasury securities, adjusted to a constant maturity of one year, as published weekly by the Federal Reserve Board, subject to periodic and lifetime limitations on interest rate changes. All of our traditional adjustable-rate mortgage loans with initial fixed-rate periods of one, three, five, seven and ten years have initial and periodic caps of two percentage points on interest rate changes, with a cap of six percentage points for the life of the loan. Many of the borrowers who select these loans have shorter-term credit needs than those who select long-term, fixed-rate mortgage loans. We do not offer "Option ARM" loans, where borrowers can pay less than the interest owed on their loan, resulting in an increased principal balance during the life of the loan.

Adjustable-rate mortgage loans generally present different credit risks than fixed-rate mortgage loans primarily because the underlying debt service payments of the borrowers increase as interest rates increase, thereby increasing the potential for default.

We generally require title insurance on all of our one-to-four-family residential real estate mortgage loans, and we also require that borrowers maintain fire and extended coverage casualty insurance (and, if appropriate, flood insurance) in an amount at least equal to the lesser of the loan balance or the replacement cost of the improvements. For fixed-rate mortgage loans with terms of 15 years or less, we will accept an attorney's letter in lieu of title insurance. A majority of our residential real estate mortgage loans have a mortgage escrow account from which disbursements are made for real estate taxes and flood insurance. We do not conduct environmental testing on residential real estate mortgage loans unless specific concerns for hazards are identified by the appraiser used in connection with the origination of the loan.

Home Equity Lines of Credit. We offer home equity lines of credit, which are primarily secured by a second mortgage on one-to-four-family residences. At December 31, 2011 home equity lines of credit totaled \$9.4 million, or 7.4% of total loans receivable. At this date we had an additional \$8.6 million of undisbursed home equity lines of credit.

The underwriting standards for home equity lines of credit include a determination of the applicant's credit history, an assessment of the applicant's ability to meet existing obligations and payments on the proposed loan and the value of the collateral securing the loan. The combined loan-to-value ratio (first and second mortgage liens) for home equity lines of credit is generally limited to 90%. We originate our home equity lines of credit without application fees or borrower-paid closing costs. Our home equity lines of credit are offered with adjustable-rates of interest indexed to the prime rate, as reported in The Wall Street Journal.

Multi-Family Residential Loans. Loans secured by multi-family real estate totaled \$1.3 million, or 1.1% of the total loan portfolio at December 31, 2011. Multi-family residential loans generally are secured by rental properties. All multi-family residential loans are secured by properties located within our lending area. At December 31, 2011, we had eight multi-family loans with an average principal balance of \$167,000, and the largest multi-family real estate loan had a principal balance of \$469,000. At December 31, 2011, all of our loans secured by multi-family real estate were performing in accordance with their terms. Multi-family real estate loans are offered with fixed and adjustable interest rates. Multi-family real estate loans are originated for terms of up to 20 years. Adjustable-rate multi-family real estate loans are tied to the average yield on U.S. Treasury securities, subject to periodic and lifetime limitations on interest rate changes.

We consider a number of factors in originating multi-family real estate loans. We evaluate the qualifications and financial condition of the borrower (including credit history), profitability and expertise, as well as the value and condition of the mortgaged property securing the loan. When evaluating the qualifications of the borrower, we consider the financial resources of the borrower, the borrower's experience in owning or managing similar property and the borrower's payment history with us and other financial institutions. In evaluating the property securing the loan, the factors we consider include the net operating income of the mortgaged property before debt service and depreciation, the debt service coverage ratio (the ratio of net operating income to debt service) to ensure that it is at least 120% of the monthly debt service and the ratio of the loan amount to the appraised value of the mortgaged property. Multi-family real estate loans are originated in amounts up to 70% of the appraised value of the mortgaged property securing the loan. All multi-family loans are appraised by outside independent appraisers approved by the board of directors.

Loans secured by multi-family real estate generally involve a greater degree of credit risk than one-to four-family residential mortgage loans and carry larger loan balances. This increased credit risk is a result of several factors, including the concentration of principal in a limited number of loans and borrowers, the effects of general economic conditions on income producing properties, and the increased difficulty of evaluating and monitoring these types of loans. Furthermore, the repayment of loans secured by multi-family real estate typically depends upon the successful operation of the real estate property securing the loans. If the cash flow from the project is reduced, the borrower's ability to repay the loan may be impaired.

Construction Loans. We originate construction loans for the purchase of developed lots and for the construction of single-family residences. Construction loans are offered to individuals for the construction of their personal residences by a qualified builder (construction/permanent loans). At December 31, 2011, construction loans totaled \$938,000, or 0.7% of total loans receivable. At December 31, 2011, the additional unadvanced portion of these construction loans totaled \$350,000.

Before making a commitment to fund a construction loan, we require an appraisal of the property by an independent licensed appraiser. We generally also review and inspect each property before disbursement of funds during the term of the construction loan.

Construction financing generally involves greater credit risk than long-term financing on improved, owner-occupied real estate. Risk of loss on a construction loan depends largely upon the accuracy of the initial estimate of the value of the property at completion of construction compared to the estimated cost (including interest) of construction and other assumptions. If the estimate of construction cost proves to be inaccurate, we may be required to advance additional funds beyond the amount originally committed in order to protect the value of the property. Moreover, if the estimated value of the completed project proves to be inaccurate, the borrower may hold a property with a value that is insufficient to assure full repayment of the loan.

Commercial Real Estate Loans. At December 31, 2011, \$1.5 million, or 1.2% of our total loan portfolio consisted of commercial real estate loans. Commercial real estate loans are secured by office buildings, mixed use properties, places of worship and other commercial properties. We generally originate adjustable-rate commercial real estate loans with maximum terms of up to 15 years. The maximum loan-to-value ratio of commercial real estate loans is 70%. At December 31, 2011, we had 11 commercial real estate loans with an average outstanding balance of \$135,000. At December 31, 2011, our largest loan secured by commercial real estate consisted of a \$459,000 loan secured by an office building/warehouse. At December 31, 2011 all of our loans secured by commercial real estate were performing in accordance with their terms.

We consider a number of factors in originating commercial real estate loans. We evaluate the qualifications and financial condition of the borrower (including credit history), profitability and expertise, as well as the value and condition of the mortgaged property securing the loan. When evaluating the qualifications of the borrower, we consider the financial resources of the borrower, the borrower's experience in owning or managing similar property and the borrower's payment history with us and other financial institutions. In evaluating the property securing the loan, the factors we consider include the net operating income of the mortgaged property before debt service and depreciation, the debt service coverage ratio (the ratio of net operating income to debt service) to ensure that it is at least 120% of the monthly debt service, and the ratio of the loan amount to the appraised value of the mortgaged property. Commercial real estate loans are originated in amounts up to 70% of the appraised value of the mortgaged property securing the loan. All commercial loans are appraised by outside independent appraisers approved by the board of directors. Personal guarantees are generally obtained from commercial real estate borrowers.

Loans secured by commercial real estate generally are larger than one-to-four-family residential loans and involve greater credit risk. Commercial real estate loans often involve large loan balances to single borrowers or groups of related borrowers. Repayment of these loans depends to a large degree on the results of operations and management of the properties securing the loans or the businesses conducted on such property, and may be affected to a greater extent by adverse conditions in the real estate market or the economy in general. Accordingly, the nature of these loans makes them more difficult for management to monitor and evaluate.

Other Loans. We offer a variety of loans secured by property other than real estate. These loans include automobile, passbook, overdraft protection and unsecured loans. At December 31, 2011, these other loans totaled \$64,000, or 0.1% of the total loan portfolio.

Loan Originations, Sales, and Servicing. Lending activities are conducted by our loan personnel operating at our main and branch office locations and through our mortgage division's three origination offices. All loans that we originate are underwritten pursuant to our policies and procedures, which incorporate Freddie Mac underwriting guidelines to the extent applicable. We originate both adjustable-rate and fixed-rate loans. Our ability to originate fixed or adjustable-rate loans is dependent upon the relative customer demand for such loans, which is affected by current market interest rates as well as anticipated future market interest rates. Our loan origination and sales activity may be adversely affected by a rising interest rate environment that typically results in decreased loan demand. Our one-to-four-family residential real estate mortgage loan originations are generated by our in-house loan representatives; we receive referrals from existing or past customers, as well as local builders, real estate brokers, and attorneys.

Loans that we sell are sold without recourse. Historically, we have retained the servicing rights on all residential real estate mortgage loans that we have sold. At December 31, 2011, we were servicing loans owned by others with a principal balance of \$19.9 million. Loan servicing includes collecting and remitting loan payments, accounting for principal and interest, contacting delinquent borrowers, supervising foreclosures and property dispositions in the event of un-remedied defaults, making certain insurance and tax payments on behalf of the borrowers and generally administering the loans. We retain a portion of the interest paid by the borrower on the loans we service as consideration for our servicing activities. We have not engaged in loan purchases or entered into loan participations in recent years. The value of servicing rights was not material at December 31, 2011.

The following table shows our loan originations, sales and repayment activities for the years indicated.

	For the year ended December 31,				
	2011	2010	2009	2008	2007
	(In thousands)

Loan Approval Policy and Authority. Fairport Savings Bank's lending activities follow written, non-discriminatory underwriting standards and loan origination policies approved by Fairport Savings Bank's board of directors. The loan approval process is intended to assess the borrower's ability to repay the loan and value of the property that will secure the loan. To assess the borrower's ability to repay, we review the borrower's employment and credit history and information on the historical and projected income and expenses of the borrower.

We generally require independent third-party appraisals of real property securing loans. Appraisals are performed by independent licensed appraisers. All appraisers are approved by the board of directors annually.

Loans to One Borrower. A federal savings bank generally may not make a loan or extend credit to a single or related group of borrowers in excess of 15% of unimpaired capital and surplus. An additional amount may be loaned equal to 10% of unimpaired capital and surplus if the loan is secured by readily marketable collateral, which generally does not include real estate. At December 31, 2011, our loans to one borrower limit under this regulation was \$5.2 million (including the additional amount). Our policy provides that loans to one borrower (or related borrowers) should not exceed \$750,000. At December 31, 2011, we had one loan exceeding this amount for \$910,000 which was secured by the borrower's primary residence. This loan was performing in accordance with its terms. Our next largest lending relationship to one borrower at December 31, 2011 totaled \$646,000, and was also secured by the borrower's primary

residence. This loan was performing in accordance with its terms.

Non-Performing Assets and Delinquent Loans

System-generated late notices are mailed to borrowers after the late payment “grace period,” which is 15 days in the case of all loans secured by real estate and 10 days in the case of other loans. A second notice will be mailed to borrowers if the loan remains past due after 30 days. When a loan is more than 60 days past due, we attempt to contact the borrower and develop a plan of repayment. By the 90th day of delinquency, we will have our attorneys issue a demand letter. The demand letter will require the borrowers to bring the loan current within 30 days in order to avoid the beginning of foreclosure proceedings for loans secured by real estate. With respect to automobile loans we will seek to repossess the vehicle if the loan is 90 days delinquent. A report of all loans 30 days or more past due is provided to the board of directors monthly.

Loans are generally placed on non-accrual status when payment of principal or interest is more than 90 days delinquent, unless the loans are well-secured and in the process of collection. Loans are also placed on non-accrual status if collection of principal or interest in full is in doubt or if the loan has been restructured. At December 31, 2011, 2010, 2009, 2008 and 2007, we had no restructured loans. When loans are placed on a non-accrual status, unpaid accrued interest is fully reversed, and further income is recognized only to the extent received. The loan may be returned to accrual status if unpaid principal and interest are repaid so that the loan is less than 90 days delinquent and a satisfactory payment history has been established. Loans not secured by real estate will be charged-off if they become 120 days past due. At December 31, 2011 we had one non-performing loan totaling \$325,000.

Non-Performing Assets. The table below sets forth the amounts and categories of our non-performing assets at the dates indicated.

Foreclosed Real Estate. Real estate acquired by us as a result of foreclosure or by deed in lieu of foreclosure is classified as foreclosed real estate until sold. When property is acquired it is recorded at the estimated fair market value less cost to sell at the date of foreclosure, establishing a new cost basis. Estimated fair value generally represents the sale price a buyer would be willing to pay on the basis of current market conditions, including normal terms from other financial institutions, less the estimated costs to sell the property. Holding costs and declines in estimated fair market value result in charges to expense after acquisition. At December 31, 2011, we had no foreclosed real estate.

Classification of Assets. Our policies, consistent with regulatory guidelines, provide for the classification of loans and other assets that are considered to be of lesser quality as substandard, doubtful, or loss assets. An asset is considered substandard if it is inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Substandard assets include those assets characterized by the distinct possibility that we will sustain some loss if the deficiencies are not corrected. Assets classified as doubtful have all of the weaknesses inherent in those classified substandard with the added characteristic that the weaknesses present make collection or liquidation in full, on the basis of currently existing facts, conditions and values, highly questionable and improbable. Assets (or portions of assets) classified as loss are those considered uncollectible and of such little value that their continuance as assets is not warranted. Assets that do not expose us to risk sufficient to warrant classification in one of the aforementioned categories, but which possess potential weaknesses that deserve our close attention, are required to be designated as special mention. As of December 31, 2011, we had no assets designated as special mention.

When we classify assets as either special mention, substandard, doubtful, or loss we allocate a portion of the related general loss allowances to such assets as we deem prudent. The allowance for loan losses is the amount estimated by management as necessary to absorb credit losses incurred in the loan portfolio that are both probable and reasonably estimable at the balance sheet date. Our determination as to the classification of our assets and the amount of our loss allowances are subject to review by our principal federal regulator, the Office of the Comptroller of the Currency (“OCC”), which can require that we establish additional loss allowances. We regularly review our asset portfolio to determine whether any assets require classification in accordance with applicable regulations. On the basis of our review of our assets, at December 31, 2011, classified assets consisted of one substandard asset totaling \$325,000, and no assets classified as doubtful or loss.

Allowance for Loan Losses

We provide for loan losses based on the allowance method. Accordingly, all loan losses are charged to the related allowance and all recoveries are credited to it. Additions to the allowance for loan losses are provided by charges to income based on various factors which, in our judgment, deserve current recognition in estimating probable losses. We regularly review the loan portfolio and make provisions for loan losses in order to maintain the allowance for loan losses in accordance with accounting principles generally accepted in the United States of America.

The allowance for loan losses is evaluated on a regular basis by management and is based upon management’s periodic review of the collectability of the loans in light of historical experience, the nature and volume of the loan portfolio, adverse situations that may affect the borrower’s ability to repay, estimated value of any underlying collateral and prevailing economic conditions. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available.

The allowance consists of specific, general and unallocated components. The specific component relates to loans that are classified as special mention, substandard, doubtful, or loss. For such loans that are also classified as impaired, an allowance is generally established when the collateral value of the impaired loan is lower than the carrying value of that loan. The general component covers non-classified loans and is based on historical loss experience adjusted for qualitative factors. An unallocated component is maintained to cover uncertainties that could affect management’s estimate of probable losses. The unallocated component of the allowance reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

A loan is considered impaired when, based on current information and events, it is probable that we will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. Factors considered by management in determining impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Loans that experience insignificant payment delays and payment shortfalls generally are not classified as impaired. Management considers the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. Impairment is measured on a loan by loan basis by either the present value of expected future cash flows discounted at the loan's effective interest rate or the fair value of the collateral if the loan is collateral dependent.

Large groups of smaller balance homogeneous loans are collectively evaluated for impairment. Accordingly, we do not separately identify individual consumer and residential loans for impairment disclosures unless they are subject to a troubled debt restructuring.

We periodically evaluate the carrying value of loans and the allowance is adjusted accordingly. While we use the best information available to make evaluations, future adjustments to the allowance may be necessary if conditions differ substantially from the information used in making the evaluations. In addition, as an integral part of their examination process, the Office of The Comptroller of the Currency ("OCC") periodically reviews the allowance for loan losses. The OCC may require us to recognize additions to the allowance based on their analysis of information available to them at the time of their examination.

The following table sets forth activity in our allowance for loan losses for the years indicated.

Investments

Our board of directors is responsible for approving and overseeing our investment policy. The investment policy is reviewed at least annually by management and any changes to the policy are recommended to the board of directors and are subject to its approval. This policy dictates that investment decisions be made based on the safety of the investment, liquidity requirements, potential returns, the ability to provide collateral for pledging requirements, and consistency with our interest rate risk management strategy. Our asset/liability management committee, which consists of our Chief Executive Officer, Chief Financial Officer, and other members of management, oversees our investing activities and strategies. All transactions are formally reviewed by the board of directors at least quarterly. Any investment which, subsequent to its purchase, fails to meet the guidelines of the policy is reported to the asset/liability management committee, which decides whether to hold or sell the investment.

Our current investment policy permits us to invest in debt securities issued by the U.S. Government, agencies of the U.S. Government or U.S. Government-sponsored enterprises. The policy also permits investments in mortgage-backed securities, including pass-through securities issued and guaranteed by Fannie Mae, Freddie Mac and Ginnie Mae. We also may hold investments in New York State municipal obligations. The investment policy also permits investments in asset-backed securities, pooled trust preferred securities, bankers' acceptances, money market funds, term federal funds, repurchase agreements and reverse repurchase agreements.

Our current investment policy prohibits hedging through the use of such instruments as financial futures, interest rate options and swaps.

Debt and equity securities investment accounting guidance requires that, at the time of purchase, we designate a security as held to maturity, available for sale, or trading, depending on our ability and intent. Securities available for sale are reported at fair value, while securities held to maturity are reported at amortized cost. We do not have a trading portfolio.

At December 31, 2011 our investment portfolio classified as available for sale consisted of: \$33.7 million, or 15.1% of total assets, of U.S. Government and agency obligations with a fair value of \$33.9 million; \$30.6 million, or 13.7% of total assets, of mortgage-backed securities guaranteed by Fannie Mae, Ginnie Mae, Federal Farm Credit and Freddie Mac with a fair value of \$31.0 million; and \$3.4 million, or 1.5% of total assets, of SBA pools with a fair value of \$3.5 million. Our investment portfolio classified as held to maturity consisted of: \$4.2 million, or 1.9% of total assets, of mortgage-backed securities guaranteed by Fannie Mae, Ginnie Mae, Federal Farm Credit and Freddie Mac with a fair value of \$4.4 million; and \$3.0 million, or 1.3% of total assets, of State and Municipal securities with a fair value of \$3.1 million.

U.S. Government and Agency Obligations. U.S. Government and agency securities are utilized as shorter-term investment vehicles and as an alternative to loan originations. Investment in U.S. government and agency securities provide lower yields than loans, however, they provide greater liquidity on a short-term basis.

Mortgage-Backed Securities. We purchase both fixed-rate and adjustable-rate mortgage-backed securities insured or guaranteed by Fannie Mae, Freddie Mac or Ginnie Mae. We invest in mortgage-backed securities to achieve higher interest income and monthly cash flow with minimal administrative expense, and to lower our credit risk as a result of the guarantees provided by Freddie Mac, Federal Farm Credit, Fannie Mae or Ginnie Mae.

Mortgage-backed securities are created by the pooling of mortgages and the issuance of a security with an interest rate that is less than the interest rate on the underlying mortgages. Mortgage-backed securities typically represent a participation interest in a pool of single-family or multi-family mortgages, although we invest only in mortgage-backed securities backed by one-to-four-family mortgages. The issuers of such securities (generally Ginnie Mae, a U.S. Government agency, and government sponsored enterprises, such as Fannie Mae, Federal Farm Credit, and Freddie Mac) pool and resell the participation interests in the form of securities to investors such as Fairport Savings Bank, and guarantee the payment of principal and interest to investors. Mortgage-backed securities generally yield less than the loans that underlie such securities because of the cost of payment guarantees and credit enhancements. However, mortgage-backed securities are more liquid than individual mortgage loans since there is an active trading market for such securities. In addition, mortgage-backed securities may be used to collateralize our specific liabilities and obligations. Investments in mortgage-backed securities involve a risk that actual payments will be greater or less than the prepayment rate estimated at the time of purchase, which may require adjustments to the amortization of any premium or acceleration of any discount relating to such interests, thereby affecting the net yield on our securities. We periodically review current prepayment speeds to determine whether prepayment estimates require modification that could cause amortization or accretion adjustments. Our mortgage-backed securities portfolio contains no sub-prime mortgage loans and has no exposure to sub-prime investment activity.

The following table sets forth the amortized cost and fair value of our securities portfolio at the dates indicated.

Sources of Funds

General. Deposits traditionally have been our primary source of funds for our lending and investment activities. We also borrow, primarily from the Federal Home Loan Bank of New York; to supplement cash flow needs, to lengthen the maturities of liabilities for interest rate risk management purposes and to manage our cost of funds. Our additional sources of funds are scheduled loan payments, loan prepayments, maturing investments, mortgage-backed securities amortizations and pre-payments, proceeds of loan sales, and retained earnings.

Deposits. We generate deposits primarily from the areas in which our branch offices are located. We rely on our competitive pricing, convenient locations and customer service to attract and retain deposits. We offer a variety of deposit accounts with a range of interest rates and terms. Our deposit accounts consist of savings accounts, NOW accounts, money market accounts, certificates of deposit and individual retirement accounts and non-interest bearing demand deposits. We currently do not accept brokered deposits.

Interest rates paid, maturity terms, service fees and withdrawal penalties are established on a periodic basis. Deposit rates and terms are based primarily on current operating strategies and market interest rates, liquidity requirements, interest rates paid by competitors and our deposit growth goals.

At December 31, 2011, our deposits totaled \$175.1 million. Specifically, at December 31, 2011, NOW accounts totaled \$13.5 million, savings accounts totaled \$36.0 million, money market accounts totaled \$24.5 million and non-interest bearing checking accounts totaled \$4.5 million. At December 31, 2011, certificates of deposit, including individual retirement accounts (all of which were certificate of deposit accounts), totaled \$96.6 million, of which \$51.0 million had remaining maturities of one year or less. Based on historical experience and our current pricing strategy, we believe we will retain a large portion of these accounts upon maturity.

The following table sets forth the distribution of our average total deposit accounts, by account type, for the years indicated.

	For the Years Ended December 31,									
	2011			2010			2009

Edgar Filing: FSB Community Bankshares Inc - Form 10-K

As of December 31, 2011, the aggregate amount of our outstanding certificates of deposit, including our individual retirement accounts, in amounts greater than or equal to \$100,000 was approximately \$30.8 million. The following table sets forth the maturity of those certificates as of December 31, 2011.

	At December 31, 2011 (In thousands)
Three months or less	\$ 4,702
Over three months through six months	5,645
Over six months through one year	3,975
Over one year to three years	12,278
Over three years	4,197
Total	\$ 30,797

The following table sets forth, by interest rate ranges, information concerning the period to maturity of our certificates of deposit, including our individual retirement accounts.

Interest Rate Range:	At December 31, 2011 Period to Maturity					Percent of Total

Borrowings. Our borrowings consist primarily of loans, commonly referred to as advances, from the Federal Home Loan Bank of New York. At December 31, 2011, we had the ability to borrow approximately \$83.6 million under our credit facilities with the Federal Home Loan Bank of New York of which \$24.5 million was advanced. Borrowings from the Federal Home Loan Bank of New York are secured by our investment in the common stock of the Federal Home Loan Bank of New York as well as by a blanket pledge of our mortgage portfolio not otherwise pledged.

In July 2010, the Company restructured a portion of its Federal Home Loan Bank advances by repaying \$13.2 million of existing borrowings and replacing these borrowings with \$13.2 million of new, lower cost FHLB advances. This transaction resulted in \$638,000 in prepayment penalties that were deferred and are being recognized in interest expense as an adjustment to the cost of the Company's new borrowings over the repayment period of these new borrowings. The borrowings which we refinanced were a combination of fixed-rate and amortizing advances with an average cost of 4.29% and an average duration of 1.47 years. The new borrowings are all fixed-rate borrowings with an average cost of 3.09% including the deferred adjustment to the carrying value of the new borrowings. The \$13.2 million of new advances have an average duration of 3.11 years. The relevant accounting treatment for this transaction was an interpretation of the guidance provided in ASC 470-50. This transaction was executed as an earnings and interest rate risk strategy, resulting in lower FHLB advance costs and an extension of average duration. At December 31, 2011, there was \$347,000 remaining in deferred prepayment penalties that will be recognized in interest expense as an adjustment to the Company's borrowings in future periods.

The Company also has a repurchase agreement with Morgan Keegan providing an additional \$10.0 million in liquidity collateralized by the Company's U.S. Government obligations. There were no advances outstanding under the repurchase agreement at December 31, 2011.

Subsidiary Activities

Oakleaf Services Corporation, Fairport Savings Bank's subsidiary, provides investment advisory services to our customers by providing annuities, insurance products and mutual funds. At December 31, 2011 we had a \$50,000 investment in Oakleaf Services Corporation, and during the year ended December 31, 2011, we derived \$62,000 of fee income from Oakleaf Services Corporation.

Personnel

As of December 31, 2011, we had 57 full-time employees and 10 part-time employees. Our employees are not represented by any collective bargaining group. Management believes that our relationship with our employees is good.

FEDERAL AND STATE TAXATION

Federal Taxation

General. FSB Community Bankshares, Inc. and Fairport Savings Bank are subject to federal income taxation in the same general manner as other corporations, with some exceptions discussed below. FSB Community Bankshares, Inc. files consolidated tax returns with Fairport Savings Bank, its wholly owned subsidiary. Our consolidated federal tax returns are not currently under audit and have not been audited during the past five years. The following discussion of federal taxation is intended only to summarize certain pertinent federal income tax matters and is not a comprehensive description of the tax rules applicable to FSB Community Bankshares, MHC, FSB Community Bankshares, Inc. or Fairport Savings Bank.

Method of Accounting. For federal income tax purposes, FSB Community Bankshares, MHC currently reports its income and expenses on the accrual basis of accounting and uses a tax year ending December 31 for filing its federal and state income tax returns.

Bad Debt Reserves. Historically, Fairport Savings Bank was subject to special provisions in the tax law applicable to qualifying savings associations regarding allowable tax bad debt deductions and related reserves. Tax law changes were enacted in 1996 that eliminated the ability of savings associations to use the percentage of taxable income

method for computing tax bad debt reserves for tax years after 1995, and required recapture into taxable income over a six-year period of all bad debt reserves accumulated after a savings association's last tax year beginning before January 1, 1988. At December 31, 2011, Fairport Savings Bank had recaptured all amounts that resulted from these changes in the tax law. FSB Community Bankshares, Inc. uses the specific charge-off method to account for tax bad debt deductions.

Taxable Distributions and Bad Debt Recapture. Prior to 1996, bad debt reserves created prior to 1988 were subject to recapture into taxable income if Fairport Savings Bank failed to meet certain thrift asset and definitional tests or made certain distributions. Tax law changes in 1996 eliminated thrift-related recapture rules. However, under current law, pre-1988 tax bad debt reserves remain subject to recapture if Fairport Savings Bank makes certain non-dividend distributions, repurchases any of its common stock, pays dividends in excess of earnings and profits, or fails to qualify as a bank for tax purposes.

At December 31, 2011, the total federal pre-base year bad debt reserve of Fairport Savings Bank was approximately \$1.5 million.

Alternative Minimum Tax. The Internal Revenue Code of 1986, as amended, imposes an alternative minimum tax at a rate of 20% on a base of regular taxable income plus certain tax preferences, less any available exemption. The alternative minimum tax is imposed to the extent it exceeds the regular income tax. Net operating losses can offset no more than 90% of alternative taxable income. Certain payments of alternative minimum tax may be used as credits against regular tax liabilities in future years. Our consolidated group has not been subject to the alternative minimum tax and has no such amounts available as credits for carryover.

Net Operating Loss Carryovers. A financial institution may carry back net operating losses to the preceding two taxable years and forward to the succeeding 20 taxable years. At December 31, 2011, our consolidated group had net operating loss carry-forwards of \$447,082 for federal income tax purposes.

Corporate Dividends-Received Deduction. FSB Community Bankshares, Inc. may exclude from its federal taxable income 100% of dividends received from Fairport Savings Bank as a wholly owned subsidiary. The corporate dividends-received deduction is 80% when the corporation receiving the dividend owns at least 20% of the stock of the distributing corporation. The dividends-received deduction is 70% when the corporation receiving the dividend owns less than 20% of the distributing corporation.

State Taxation

FSB Community Bankshares, Inc. and Fairport Savings Bank report income on a calendar year basis to New York State. New York State franchise tax on corporations is imposed in an amount equal to the greater of (a) 7.1% of “entire net income” allocable to New York State, (b) 3% of “alternative entire net income” allocable to New York State, (c) 0.01 % of the average value of assets allocable to New York State, or (d) nominal minimum tax. Entire net income is based on Federal taxable income, subject to certain modifications. Alternative entire net income is equal to entire net income without certain modifications.

Expense and Tax Allocation

Fairport Savings Bank has entered into an agreement with FSB Community Bankshares, Inc. and FSB Community Bankshares, MHC to provide them with certain administrative support services, whereby Fairport Savings Bank will be compensated at not less than the fair market value of the services provided. In addition, Fairport Savings Bank and FSB Community Bankshares, Inc. have entered into an agreement to establish a method for allocating and for reimbursing the payment of their consolidated tax liability.

SUPERVISION AND REGULATION

General

FSB Community Bankshares, Inc. (“FSB Community Bankshares”) is a savings and loan holding company, and is required to file certain reports with, and is subject to examination by, and otherwise must comply with the rules and regulations of the Board of Governors of the Federal Reserve System (“FRB”). FSB Community Bankshares is also subject to the rules and regulations of the Securities and Exchange Commission under the federal securities laws.

Fairport Savings Bank is examined and supervised by the Office of the Comptroller of the Currency (“OCC”) and is subject to examination by the Federal Deposit Insurance Corporation (“FDIC”). This regulation and supervision establishes a comprehensive framework of activities in which an institution may engage and is intended primarily for the protection of the Federal Deposit Insurance Corporation’s deposit insurance funds and depositors. Under this system of federal regulation, financial institutions are periodically examined to ensure that they satisfy applicable standards with respect to their capital adequacy, assets, management, earnings, liquidity and sensitivity to market interest rates. Following completion of its examination, the federal agency critiques the institution’s operations and assigns its rating (known as an institution’s CAMELS rating). Under federal law, an institution may not disclose its CAMELS rating to the public. Fairport Savings Bank also is a member of and owns stock in the Federal Home Loan Bank of New York, which is one of the twelve regional banks in the Federal Home Loan Bank System. Fairport Savings Bank also is regulated to a lesser extent by the Board of Governors of the Federal Reserve System, governing reserves to be maintained against deposits and other matters. The OCC will examine Fairport Savings Bank and prepare reports for the consideration of its board of directors on any operating deficiencies. Fairport Savings Bank’s relationship with its depositors and borrowers also is regulated to a great extent by federal law and, to a much lesser extent, state law, especially in matters concerning the ownership of deposit accounts and the form and content of Fairport Savings Bank’s mortgage documents.

Any change in these laws or regulations, whether by the FDIC, the OCC or Congress, could have a material adverse impact on FSB Community Bankshares, Inc., Fairport Savings Bank and their operations.

FSB Community Bankshares, Inc. and FSB Community Bankshares, MHC, as savings and loan holding companies, are required to file certain reports with, are subject to examination by, and otherwise must comply with the rules and regulations of the FRB. FSB Community Bankshares, Inc. is also subject to the rules and regulations of the Securities and Exchange Commission under the federal securities laws.

Certain of the regulatory requirements that are or will be applicable to Fairport Savings Bank, FSB Community Bankshares, Inc. and FSB Community Bankshares, MHC are described below. This description of statutes and regulations is not intended to be a complete explanation of such statutes and regulations and their effects on Fairport Savings Bank, FSB Community Bankshares, Inc. and FSB Community Bankshares, MHC and is qualified in its entirety by reference to the actual statutes and regulations.

Federal Legislation

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”), enacted on July 21, 2010, is significantly changing the bank regulatory structure and affecting the lending, investment, trading and operating activities of depository institutions and their holding companies. The Dodd-Frank Act eliminated our former primary federal regulator, the Office of Thrift Supervision, and required Fairport Savings Bank to be regulated by the OCC (the primary federal regulator for national banks). The Dodd-Frank Act also authorized the FRB to supervise and regulate all savings and loan holding companies, including mutual holding companies and their mid-tier holding companies, like FSB Community Bankshares, MHC (the “MHC”) and FSB Community Bankshares, in addition to bank holding companies which the FRB already regulated. The Dodd-Frank Act requires the FRB to set minimum capital levels for depository institution holding companies that are as stringent as those required for the insured depository subsidiaries, and the components of Tier 1 capital would be restricted to capital instruments that are currently considered to be Tier 1 capital for insured depository institutions. There is a five-year transition period (from the July 21, 2010 effective date of the Dodd-Frank Act) before the capital requirements will apply to savings and loan holding companies. Under the Dodd-Frank Act, the proceeds of trust preferred securities are excluded from Tier 1 capital unless such securities were issued prior to May 19, 2010 by bank or savings and loan holding companies with less than \$15 billion of assets. The legislation also establishes a floor for capital of insured depository institutions that cannot be lower than the standards in effect on July 21, 2010, and directs the federal banking regulators to implement new leverage and capital requirements within 18 months from the enactment of the Dodd-Frank Act that take into account off-balance sheet activities and other risks, including risks relating to securitized products and derivatives.

Additionally, as a result of the Dodd-Frank Act, the MHC will be required to obtain the approval of the FRB in the event that FSB Community Bankshares were to pay a cash dividend to shareholders and the MHC wished to waive its receipt of any such dividend. For additional discussion regarding the waiver of dividends by the MHC, see “–Holding Company Regulation–Waivers of Dividend by FSB Community Bankshares, MHC.”

The Dodd-Frank Act also created a new Consumer Financial Protection Bureau with substantial power to supervise and enforce consumer protection laws. The Consumer Financial Protection Bureau has broad rulemaking authority for a wide range of consumer protection laws that apply to all banks and savings institutions such as the Bank, including the authority to prohibit “unfair, deceptive or abusive” acts and practices. The Consumer Financial Protection Bureau has examination and enforcement authority over all banks and savings institutions with more than \$10 billion in assets. Banks and savings institutions with \$10 billion or less in assets such as the Bank will continue to be examined by their applicable federal bank regulators. The legislation also weakened the federal preemption available for national banks and federal savings associations, and gives state attorneys general the ability to enforce applicable federal consumer protection laws.

The legislation broadened the base for FDIC insurance assessments. Assessments are now based on the average consolidated total assets less tangible equity capital of a financial institution. The Dodd-Frank Act also permanently increased the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per depositor, retroactive to January 1, 2008, and non-interest bearing transaction accounts have unlimited deposit insurance through December 31, 2012. The Dodd-Frank Act increased stockholder influence over boards of directors by requiring companies to give stockholders a non-binding vote on executive compensation and so-called “golden parachute” payments. The legislation also directed the FRB to promulgate rules prohibiting excessive compensation paid to bank holding company executives, regardless of whether the company is publicly traded. The Dodd-Frank Act provided for originators of certain securitized loans to retain a percentage of the risk for transferred loans, directed the FRB to regulate pricing of certain debit card interchange fees and contained a number of reforms related to mortgage origination.

Many of the provisions of the Dodd-Frank Act have delayed effective dates and the legislation requires various federal agencies to promulgate numerous and extensive implementing regulations over the next several years. Although the substance and scope of these regulations cannot be completely determined at this time, it is expected that the legislation and implementing regulations will increase our operating and compliance costs.

Federal Banking Regulation

Business Activities. A federal savings bank derives its lending and investment powers from the Home Owners' Loan Act, as amended, and Federal regulations. Under these laws and regulations, Fairport Savings Bank may invest in: mortgage loans secured by residential real estate without limitation as a percentage of assets; non-residential real estate loans up to 400% of capital in the aggregate; commercial business loans up to 20% of assets in the aggregate; consumer loans up to 35% of assets in the aggregate; and certain types of debt securities and certain other assets. Fairport Savings Bank also may establish subsidiaries that may engage in activities not otherwise permissible for Fairport Savings Bank, including real estate investment and securities and insurance brokerage. The Dodd-Frank Act authorized the payment of interest on commercial checking accounts effective July 21, 2011.

Capital Requirements. Federal regulations require savings associations to meet three minimum capital standards: a 1.5% tangible capital ratio, a 4% leverage ratio (3% for savings associations receiving the highest rating on the CAMELS rating system) and an 8% risk-based capital ratio.

The risk-based capital standard for savings associations requires the maintenance of Tier 1 (core) and total capital (which is defined as core capital and supplementary capital) to risk-weighted assets of at least 4% and 8%, respectively. In determining the amount of risk-weighted assets, all assets, including certain off-balance sheet assets, are multiplied by a risk-weight factor of 0% to 100%, assigned by the applicable regulatory agency, based on the risks believed inherent in the type of asset. Core capital is defined as common shareholders' equity (including retained earnings), certain noncumulative perpetual preferred stock and related surplus and minority interests in equity accounts of consolidated subsidiaries, less intangibles other than certain mortgage servicing rights and credit card relationships. The components of supplementary capital currently include cumulative preferred stock, long-term perpetual preferred stock, mandatory convertible securities, subordinated debt and intermediate preferred stock, the allowance for loan and lease losses limited to a maximum of 1.25% of risk-weighted assets and up to 45% of net unrealized gains on available for sale equity securities with readily determinable fair market values. Overall, the amount of supplementary capital included as part of total capital cannot exceed 100% of core capital. Additionally, a savings association that retains credit risk in connection with an asset sale may be required to maintain additional regulatory capital because of the recourse back to the savings association.

The following table shows Fairport Savings Bank's Tangible capital, Core capital, Tier-1 risk based capital and Total Risk Based capital ratios at December 31, 2011.

As of December 31, 2011					
	Capital	Percent of Assets (1) (Dollars in thousands)		Required Percent of Assets (1)	
Tangible capital	\$ 16,768	7.63	%	1.5	%
Core capital	16,768	7.63		4.0	
Tier 1 risk-based capital	16,768	18.98		4.0	
Total risk-based capital	17,179	19.45		8.0	

(1) Tangible capital levels are shown as a percentage of tangible assets. Core capital levels are shown as a percentage of total adjusted assets. Total risk-based capital levels are shown as a percentage of risk-weighted assets.

As the table shows, at December 31, 2011, Fairport Savings Bank's capital exceeded all applicable requirements.

Loans-to-One Borrower. Generally, a federal savings association may not make a loan or extend credit to a single or related group of borrowers in excess of 15% of unimpaired capital and surplus. An additional amount may be loaned, equal to 10% of unimpaired capital and surplus, if the loan is secured by readily marketable collateral, which generally does not include real estate. As of December 31, 2011, Fairport Savings Bank's largest lending relationship with a single or related group of borrowers was a residential mortgage loan totaling \$910,000 which represented 4.4% of unimpaired capital and surplus, and therefore, Fairport Savings Bank was in compliance with the loans-to-one borrower limitations.

Qualified Thrift Lender Test. As a federal savings association, Fairport Savings Bank must satisfy the qualified thrift lender, or "QTL," test. Under the QTL test, Fairport Savings Bank must maintain at least 65% of its "portfolio assets" in "qualified thrift investments" (primarily residential mortgages and related investments, including mortgage-backed securities) in at least nine months of the most recent 12-month period.

A savings association that fails the qualified thrift lender test must operate under specified restrictions set forth in the Home Owners' Loan Act. The Dodd-Frank Act made non-compliance with the QTL Test potentially subject to agency enforcement action for a violation of law. At December 31, 2011, Fairport Savings Bank maintained approximately 89.96% of its portfolio assets in qualified thrift investments, and therefore satisfied the QTL test.

Capital Distributions. Federal regulations govern capital distributions by a federal savings association, which include cash dividends, stock repurchases and other transactions charged to the capital account. A savings association must file an application for approval of a capital distribution if:

- the total capital distributions for the applicable calendar year exceed the sum of the savings association's net income for that year to date plus the savings association's retained net income for the preceding two years;
- the savings association would not be at least adequately capitalized following the distribution;
- the distribution would violate any applicable statute, regulation, agreement or condition imposed by a regulator; or
- the savings association is not eligible for expedited treatment of its filings.

Even if an application is not otherwise required, every savings association that is a subsidiary of a holding company must still file a notice with the FRB at least 30 days before the board of directors declares a dividend or approves a capital distribution.

The OCC and FRB have established similar criteria for approving an application or notice and may disapprove a notice or application if:

- the savings association would be undercapitalized following the distribution;
- the proposed capital distribution raises safety and soundness concerns; or
- the capital distribution would violate a prohibition contained in any statute, regulation or agreement.

In addition, the Federal Deposit Insurance Act provides that an insured depository institution shall not make any capital distribution, if after making such distribution the institution would be undercapitalized.

Liquidity. A federal savings association is required to maintain a sufficient amount of liquid assets to ensure its safe and sound operation. We seek to maintain a ratio of 5.0% or greater of liquid assets to total assets. For the year ended December 31, 2011, our liquidity ratio averaged 29.75%. We believe that we have enough sources of liquidity to satisfy our short and long-term liquidity needs as of December 31, 2011.

Community Reinvestment Act and Fair Lending Laws. All savings associations have a responsibility under the Community Reinvestment Act and Federal regulations to help meet the credit needs of their communities, including low and moderate-income neighborhoods. In connection with its examination of a federal savings association, the OCC is required to assess the savings association's record of compliance with the Community Reinvestment Act. In addition, the Equal Credit Opportunity Act and the Fair Housing Act prohibit lenders from discriminating in their lending practices on the basis of characteristics specified in those statutes. A savings association's failure to comply with the provisions of the Community Reinvestment Act could, at a minimum, result in denial of certain corporate applications such as branches or mergers, or in restrictions on its activities. The failure to comply with the Equal Credit Opportunity Act and the Fair Housing Act could result in enforcement actions by the OCC, as well as other federal regulatory agencies and the Department of Justice. Fairport Savings Bank received a "satisfactory" Community Reinvestment Act rating in its most recent federal examination.

Transactions with Related Parties. A federal savings association's authority to engage in transactions with its affiliates is limited by FRB regulations and by Sections 23A and 23B of the Federal Reserve Act and its implementing Regulation W. An affiliate is a company that controls, is controlled by, or is under common control with an insured depository institution such as Fairport Savings Bank. FSB Community Bankshares, Inc. is an affiliate of Fairport Savings Bank. In general, loan transactions between an insured depository institution and its affiliates are subject to certain quantitative and collateral requirements. In this regard, transactions between an insured depository institution and its affiliates are limited to 10% of the institution's unimpaired capital and unimpaired surplus for transactions with any one affiliate and 20% of unimpaired capital and unimpaired surplus for transactions in the aggregate with all affiliates. Collateral in specified amounts ranging from 100% to 130% of the amount of the transaction must usually be provided by affiliates in order to receive loans from the savings association. In addition, Federal regulations prohibit a savings association from lending to any of its affiliates that are engaged in activities that are not permissible for bank holding companies and from purchasing the securities of any affiliate, other than a subsidiary. Finally, transactions with affiliates must be consistent with safe and sound banking practices, not involve low-quality assets and be on terms that are as favorable to the institution as comparable transactions with non-affiliates. Savings associations are required to maintain detailed records of all transactions with affiliates.

Fairport Savings Bank's authority to extend credit to its directors, executive officers and 10% shareholders, as well as to entities controlled by such persons, is currently governed by the requirements of Sections 22(g) and 22(h) of the Federal Reserve Act and Regulation O of the Federal Reserve Board. Among other things, these provisions require that extensions of credit to insiders:

- (i) be made on terms that are substantially the same as, and follow credit underwriting procedures that are not less stringent than, those prevailing for comparable transactions with unaffiliated persons and that do not involve more than the normal risk of repayment or present other unfavorable features, and
- (ii) not exceed certain limitations on the amount of credit extended to such persons, individually and in the aggregate, which limits are based, in part, on the amount of Fairport Savings Bank's capital.

In addition, extensions of credit in excess of certain limits must be approved by Fairport Savings Bank's board of directors.

Enforcement. The OCC has primary enforcement responsibility over federal savings institutions and has the authority to bring enforcement action against all "institution-affiliated parties," including shareholders, attorneys, appraisers and accountants who knowingly or recklessly participate in wrongful action likely to have an adverse effect on an insured institution. Formal enforcement action by the OCC may range from the issuance of a capital directive or cease and desist order, to removal of officers and/or directors of the institution and the appointment of a receiver or conservator. Civil penalties cover a wide range of violations and actions, and range up to \$25,000 per day, unless a finding of reckless disregard is made, in which case penalties may be as high as \$1 million per day. The FDIC also has the authority to terminate deposit insurance or to recommend to the OCC that enforcement action be taken with respect to a particular savings institution. If action is not taken by the OCC, the FDIC has authority to take action under specified circumstances.

Standards for Safety and Soundness. Federal law requires each federal banking agency to prescribe certain standards for all insured depository institutions. These standards relate to, among other things, internal controls, information systems and audit systems, loan documentation, credit underwriting, interest rate risk exposure, asset growth, compensation, and other operational and managerial standards as the agency deems appropriate. The federal banking agencies adopted Interagency Guidelines Prescribing Standards for Safety and Soundness to implement the safety and soundness standards required under federal law. The guidelines set forth the safety and soundness standards that the federal banking agencies use to identify and address problems at insured depository institutions before capital becomes impaired. If the appropriate federal banking agency determines that an institution fails to meet any standard prescribed by the guidelines, the agency may require the institution to submit to the agency an acceptable plan to achieve compliance with the standard. If an institution fails to meet these standards, the appropriate federal banking agency may require the institution to submit a compliance plan.

Prompt Corrective Action Regulations. Under the prompt corrective action regulations, the OCC is required and authorized to take supervisory actions against undercapitalized savings associations. For this purpose, a savings association is placed in one of the following five categories based on the savings association's capital:

well-capitalized (at least 5% leverage capital, 6% Tier 1 risk-based capital and 10% total risk-based capital);

adequately capitalized (at least 4% leverage capital, 4% Tier 1 risk-based capital and 8% total risk-based capital);

undercapitalized (less than 8% total risk-based capital, 4% Tier 1 risk-based capital or 3% leverage capital);

significantly undercapitalized (less than 6% total risk-based capital, 3% Tier 1 risk-based capital or 3% leverage capital); and

critically undercapitalized (less than 2% tangible capital).

Generally, the banking regulator is required to appoint a receiver or conservator for a savings association that is “critically undercapitalized” within specific time frames. The regulations also provide that a capital restoration plan must be filed with the OCC within 45 days of the date a savings association receives notice that it is “undercapitalized,” “significantly undercapitalized” or “critically undercapitalized.” The criteria for an acceptable capital restoration plan include, among other things, the establishment of the methodology and assumptions for attaining adequately capitalized status on an annual basis, procedures for ensuring compliance with restrictions imposed by applicable federal regulations, the identification of the types and levels of activities the savings association will engage in while the capital restoration plan is in effect, and assurances that the capital restoration plan will not appreciably increase the current risk profile of the savings association. Any holding company for the savings association required to submit a capital restoration plan must guarantee the lesser of an amount equal to 5% of the savings association’s assets at the time it was notified or deemed to be undercapitalized by the OCC, or the amount necessary to restore the savings association to adequately capitalized status. This guarantee remains in place until the OCC notifies the savings association that it has maintained adequately capitalized status for each of four consecutive calendar quarters, and the OCC has the authority to require payment and collect payment under the guarantee. Failure by a holding company to provide the required guarantee will result in certain operating restrictions on the savings association, such as restrictions on the ability to declare and pay dividends, pay executive compensation and management fees, and increase assets or expand operations. The OCC may also take any one of a number of discretionary supervisory actions against undercapitalized associations, including the issuance of a capital directive and the replacement of senior executive officers and directors.

At December 31, 2011, Fairport Savings Bank met the criteria for being considered “well-capitalized.”

Insurance of Deposit Accounts. The Dodd-Frank Act permanently increased the maximum amount of deposit insurance for banks, savings institutions and credit unions to \$250,000 per depositor, retroactive to January 1, 2008. Also, under the Dodd-Frank Act, noninterest-bearing checking accounts have unlimited deposit insurance through December 31, 2012.

On November 12, 2009, the FDIC approved a final rule requiring insured depository institutions to prepay, on December 30, 2009, their estimated quarterly risk-based assessments for the fourth quarter of 2009, and for all of 2010, 2011, and 2012. Estimated assessments for the fourth quarter of 2009 and for all of 2010 were based upon the assessment rate in effect on September 30, 2009, with three basis points added for the 2011 and 2012 assessment rates. In addition, a 5% annual growth in the assessment base was assumed. Prepaid assessments are to be applied against the actual quarterly assessments until exhausted, and may not be applied to any special assessments that may occur in the future. Any unused prepayments will be returned to the institution on June 30, 2013. On December 30, 2009, the Bank prepaid \$793,000 in estimated assessment fees for the fourth quarter of 2009 through 2012.

Effective April 1, 2011, the FDIC implemented a requirement of the Dodd-Frank Act to revise its assessment system to base it on each institution's total assets less tangible capital of each institution instead of deposits. The FDIC also revised its assessment schedule so that it ranges from 2.5 basis points for the least risky institutions to 45 basis points for the riskiest.

Insurance of deposits may be terminated by the FDIC upon a finding that an institution has engaged in unsafe or unsound practices, is in an unsafe or unsound condition to continue operations or has violated any applicable law, regulation, rule, order or condition imposed by the FDIC. The Bank does not believe that it is taking or is subject to any action, condition or violation that could lead to termination of its deposit insurance.

All FDIC-insured institutions are required to pay a pro rata portion of the interest due on obligations issued by the Financing Corporation ("FICO") for anticipated payments, issuance costs and custodial fees on bonds issued by the FICO in the 1980s to recapitalize the Federal Savings and Loan Insurance Corporation. The bonds issued by the FICO are due to mature in 2017 through 2019. For the quarter ended December 31, 2011, the annualized FICO assessment was equal to 1.00 cents for each \$100 in domestic deposits maintained at an institution. Assessments related to the FICO bond obligations were not subject to the December 30, 2009 prepayment.

For the year ended December 31, 2011, the Bank paid \$15,000 related to the FICO bonds and \$142,000 pertaining to deposit insurance assessments. Deposit insurance assessments were prepaid in December 2009, for calendar years 2010 through 2012, while FICO bond payments were prepaid, one quarter in advance.

Prohibitions Against Tying Arrangements. Federal savings associations are prohibited, subject to some exceptions, from extending credit to or offering any other service, or fixing or varying the consideration for such extension of credit or service, on the condition that the customer obtain some additional service from the institution or its affiliates or not obtain services of a competitor of the institution.

Federal Home Loan Bank System. Fairport Savings Bank is a member of the Federal Home Loan Bank System, which consists of 12 regional Federal Home Loan Banks. The Federal Home Loan Bank System provides a central credit facility primarily for member institutions. As a member of the Federal Home Loan Bank of New York, Fairport Savings Bank is required to acquire and hold shares of capital stock in the Federal Home Loan Bank in an amount at least equal to 1% of the aggregate principal amount of its unpaid residential mortgage loans and similar obligations at the beginning of each year, 1/20 of its borrowings from the Federal Home Loan Bank, or 0.3% of assets, whichever is greater. As of December 31, 2011, Fairport Savings Bank was in compliance with this requirement.

Other Regulations

Interest and other charges collected or contracted for by Fairport Savings Bank are subject to state usury laws and federal laws concerning interest rates. Fairport Savings Bank's operations are also subject to federal laws applicable to credit transactions, such as the:

Truth-In-Lending Act, governing disclosures of credit terms to consumer borrowers;

Home Mortgage Disclosure Act of 1975, requiring financial institutions to provide information to enable the public and public officials to determine whether a financial institution is fulfilling its obligation to help meet the housing needs of the community it serves;

Equal Credit Opportunity Act, prohibiting discrimination on the basis of race, creed or other prohibited factors in extending credit;

Fair Credit Reporting Act of 1978, governing the use and provision of information to credit reporting agencies;

Fair Debt Collection Act, governing the manner in which consumer debts may be collected by collection agencies; and

rules and regulations of the various federal agencies charged with the responsibility of implementing such federal laws.

The operations of Fairport Savings Bank also are subject to the:

Right to Financial Privacy Act, which imposes a duty to maintain confidentiality of consumer financial records and prescribes procedures for complying with administrative subpoenas of financial records;

Electronic Funds Transfer Act and Regulation E promulgated thereunder, which govern automatic deposits to and withdrawals from deposit accounts and customers' rights and liabilities arising from the use of automated teller machines and other electronic banking services;

Title III of The Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (referred to as the "USA PATRIOT Act"), which significantly expanded the responsibilities of financial institutions, including savings and loan associations, in preventing the use of our financial system to fund terrorist activities. Among other provisions, the USA PATRIOT Act and the related regulations of the OCC require savings associations operating in the United States to develop new anti-money laundering compliance programs, due diligence policies and controls to ensure the detection and reporting of money laundering. Such required compliance programs are intended to supplement existing compliance requirements, also applicable to financial institutions, under the Bank Secrecy Act and the Office of Foreign Assets Control Regulations; and

The Gramm-Leach-Bliley Act, which placed limitations on the sharing of consumer financial information by financial institutions with unaffiliated third parties. Specifically, the Gramm-Leach-Bliley Act requires all financial institutions offering financial products or services to retail customers to provide such customers with the financial institution's privacy policy and provide such customers the opportunity to "opt out" of the sharing of certain personal financial information with unaffiliated third parties.

Holding Company Regulation

General. FSB Community Bankshares, Inc. is a non-diversified savings and loan holding company within the meaning of the Home Owners' Loan Act. As such, FSB Community Bankshares, Inc. is registered with the FRB and subject to FRB regulations, examinations, supervision and reporting requirements. In addition, the FRB has enforcement authority over FSB Community Bankshares, Inc. and its uninsured subsidiaries. Among other things, this authority permits the FRB to restrict or prohibit activities that are determined to be a serious risk to the subsidiary savings institution.

Permitted Activities. Pursuant to Section 10(o) of the Home Owners' Loan Act and FRB regulations and policy, a mutual holding company and a federally chartered mid-tier holding company such as FSB Community Bankshares, Inc. may engage in the following activities: (i) investing in the stock of a savings bank; (ii) acquiring a mutual association through the merger of such association into a savings bank subsidiary of such holding company or an interim savings bank subsidiary of such holding company; (iii) merging with or acquiring another holding company, one of whose subsidiaries is a savings bank; (iv) investing in a corporation, the capital stock of which is available for purchase by a savings bank under federal law or under the law of any state where the subsidiary savings bank or associations share their home offices; (v) furnishing or performing management services for a savings bank subsidiary of such company; (vi) holding, managing or liquidating assets owned or acquired from a savings subsidiary of such company; (vii) holding or managing properties used or occupied by a savings bank subsidiary of such company; (viii) acting as trustee under deeds of trust; (ix) any other activity: (a) that the FRB, by regulation, has determined to be permissible for bank holding companies under Section 4(c) of the Bank Holding Company Act of 1956, unless the Director, by regulation, prohibits or limits any such activity for savings and loan holding companies; or (b) in which multiple savings and loan holding companies were authorized (by regulation) to directly engage on March 5, 1987; (x) any activity permissible for financial holding companies under Section 4(k) of the Bank Holding Company Act, including securities and insurance underwriting; and (xi) purchasing, holding, or disposing of stock acquired in connection with a qualified stock issuance if the purchase of such stock by such savings and loan holding company is approved by the Director. The Dodd-Frank Act added that any savings and loan holding company that engages in activities permissible for a financial holding company must meet the qualitative requirements for a bank holding company to be a financial holding company and conduct the activities in accordance with the requirements that would apply to a financial holding company's conduct of the activity. If a mutual holding company acquires or merges with another holding company, the holding company acquired or the holding company resulting from such merger or acquisition may only invest in assets and engage in activities listed in (i) through (x) above, and has a period of two years to cease any nonconforming activities and divest any nonconforming investments.

The Home Owners' Loan Act prohibits a savings and loan holding company, including FSB Community Bankshares, Inc., directly or indirectly, or through one or more subsidiaries, from acquiring more than 5% of another savings institution or holding company thereof, without prior written approval of the FRB. It also prohibits the acquisition or retention of, with certain exceptions, more than 5% of a non-subsidiary company engaged in activities other than those permitted by the Home Owners' Loan Act, or acquiring or retaining control of an institution that is not federally insured. In evaluating applications by holding companies to acquire savings institutions, the FRB must consider the financial and managerial resources, future prospects of the company and institution involved, the effect of the acquisition on the risk to the federal deposit insurance fund, the convenience and needs of the community and competitive factors.

The FRB is prohibited from approving any acquisition that would result in a multiple savings and loan holding company controlling savings institutions in more than one state, subject to two exceptions:

- (i) the approval of interstate supervisory acquisitions by savings and loan holding companies; and
- (ii) the acquisition of a savings institution in another state if the laws of the state of the target savings institution specifically permit such acquisition.

The states vary in the extent to which they permit interstate savings and loan holding company acquisitions.

Capital. Savings and loan holding companies are not currently subject to specific regulatory capital requirements. The Dodd-Frank Act, however, requires the FRB to promulgate consolidated capital requirements for depository institution holding companies that are no less stringent, both quantitatively and in terms of components of capital, than those applicable to depository institutions themselves. Instruments such as cumulative preferred stock and trust preferred securities will no longer be includable as Tier 1 capital, as is currently permitted for bank holding companies. Instruments issued prior to May 19, 2010 will be grandfathered for companies with consolidated assets of \$15 billion or less. There is a five-year transition period (from the July 21, 2010 effective date of the Dodd-Frank Act) before the capital requirements will apply to savings and loan holding companies.

Dividends. The FRB has issued a policy guidance regarding the payment of dividends by bank holding companies that it has made applicable to savings and loan holding companies as well. In general, the FRB's policies provide that dividends should be paid only out of current earnings and only if the prospective rate of earnings retention by the holding company appears consistent with the organization's capital needs, asset quality and overall financial condition. FRB guidance provides for prior regulatory review of capital distributions in certain circumstances such as where the company's net income for the past four quarters, net of dividends previously paid over that period, is insufficient to fully fund the dividend or the company's overall rate of earnings retention is inconsistent with the company's capital needs and overall financial condition. The ability of a holding company to pay dividends may be restricted if a subsidiary bank becomes undercapitalized. These regulatory policies could affect the ability of FSB Community Bankshares to pay dividends or otherwise engage in capital distributions.

Source of Strength. The Dodd-Frank Act extended the "source of strength" doctrine to savings and loan holding companies. The regulatory agencies must issue regulations requiring that all bank and savings and loan holding companies serve as a source of strength to their subsidiary depository institutions by providing capital, liquidity and other support in times of financial stress.

Waivers of Dividends by FSB Community Bankshares, MHC. The Dodd-Frank Act requires federally chartered mutual holding companies to give the FRB notice before waiving the receipt of dividends. In the past, the FRB generally has not allowed dividend waivers by mutual bank holding companies and, therefore, there can be no assurance that the FRB would approve dividend waivers by FSB Community Bankshares, MHC, or what conditions the FRB may place on any dividend waivers, in the event that FSB Community Bankshares were to declare and pay a dividend to its shareholders.

Conversion of FSB Community Bankshares, MHC to Stock Form. FRB regulations permit FSB Community Bankshares, MHC to convert from the mutual form of organization to the capital stock form of organization. There can be no assurance when, if ever, a conversion transaction would occur, and the board of directors has no current intention or plan to undertake a conversion transaction. In a conversion transaction a new stock holding company would be formed as the successor to FSB Community Bankshares, Inc., FSB Community Bankshares, MHC's corporate existence would end, and certain depositors and borrowers of Fairport Savings Bank would receive the right to subscribe for additional shares of the new holding company. In a conversion transaction, each share of common stock held by shareholders other than FSB Community Bankshares, MHC would be automatically converted into a number of shares of common stock of the new holding company determined pursuant an exchange ratio that ensures that shareholders other than FSB Community Bankshares, MHC own the same percentage of common stock in the new holding company as they owned in FSB Community Bankshares, Inc. immediately prior to the conversion transaction, subject to adjustment for any assets held by FSB Community Bankshares, MHC.

Federal Securities Laws

Our common stock is registered with the Securities and Exchange Commission under the Securities Exchange Act of 1934, and we are subject to the information, proxy solicitation, insider trading restrictions and other requirements under the Securities Exchange Act of 1934.

Sarbanes-Oxley Act

The Sarbanes-Oxley Act addresses, among other issues, corporate governance, auditing and accounting, executive compensation, and enhanced and timely disclosure of corporate information. As directed by the Sarbanes-Oxley Act, our Chief Executive Officer and Chief Financial Officer are each required to certify that our quarterly and annual reports do not contain any untrue statement of a material fact. The rules adopted by the Securities and Exchange Commission under the Sarbanes-Oxley Act have several requirements, including having these officers certify that: they are responsible for establishing, maintaining and regularly evaluating the effectiveness of our internal control over financial reporting; they have made certain disclosures to our auditors and the audit committee of the board of directors about our internal control over financial reporting; and they have included information in our quarterly and annual reports about their evaluation and whether there have been changes in our internal control over financial reporting or in other factors that could materially affect internal control over financial reporting.

ITEM 1A. RISK FACTORS

Not applicable.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 2. PROPERTIES

We operate from our main office in Fairport, New York which we own, our four branch offices, located in the towns of Penfield, Irondequoit, Webster, and Perinton and our three mortgage origination offices, each of which is leased, located in the towns of Pittsford, Canandaigua, and Watertown. The consolidated net book value of our premises, land and equipment was \$3.7 million at December 31, 2011. The following is a list of our locations:

Fairport (Main Office) 45 South Main Street Fairport, New York 14450 (585) 223-9080	Penfield 2163 Rte 250 Fairport, New York 14450 (585) 377-8970	Irondequoit 2118 Hudson Ave. Irondequoit, New York 14617 (585) 266-4100	Webster 1075 Ridge Road East Suite 100 Webster, New York 14580 (585) 872-0100
Pittsford 1173 Pittsford Victor Rd, Suite 150 Pittsford, New York 14534 (585) 381-4040	Canandaigua 502 South Main Street Canandaigua, New York 14424 (585) 305-2470	Watertown 19805 Orchard Drive Watertown, New York 13601 (315) 783-5628	Perinton 6797 Pittsford-Palmyra Rd Fairport, New York 14450 (585) 223-2200

ITEM 3. LEGAL PROCEEDINGS

We are periodically involved in various claims and lawsuits that arise incident to our financial services business. At December 31, 2011 we were not involved in any legal proceedings, the outcome of which would be material to our financial condition or results of operations.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

(a) The information required by this item is incorporated by reference to our Annual Report to Shareholders. No equity securities were sold during the year ended December 31, 2011 that were not registered under the Securities Act.

(b) Not applicable.

(c) FSB Community Bankshares, Inc. did not repurchase any of its equity securities during the year ended December 31, 2011

ITEM 6. SELECTED FINANCIAL DATA

This item is not applicable to smaller reporting companies.

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The information contained in the section captioned "Management's Discussion and Analysis of Financial Condition and Results of Operations" is incorporated by reference to our Annual Report to Shareholders.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Incorporated by reference to the Annual Report to Shareholders included as Exhibit 13 to this Form 10-K.

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

The consolidated financial statements included in our Annual Report to Shareholders are incorporated herein by reference.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

(a) Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of the end of the period covered by this report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective.

There were no significant changes made in our internal controls over financial reporting during the registrant's last fiscal quarter covered by this report or, to our knowledge, in other factors that could significantly affect these controls subsequent to the date of their evaluation.

(b) Management's annual report on internal control over financial reporting.

Management of FSB Community Bankshares, Inc. (the "Company") is responsible for establishing and maintaining adequate internal control over financial reporting.

The Company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. The Company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2011, based on the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO") in "Internal Control-Integrated Framework." Based on the assessment, management determined that, as of December 31, 2011, the Company's internal control over financial reporting is effective, based on those criteria.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to provisions of the Dodd-Frank Act that permit the Company to provide only management's report in this annual report.

ITEM 9B. OTHER INFORMATION

None.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

FSB Community Bankshares, Inc. has adopted a Code of Ethics that applies to FSB Community Bankshares, Inc.'s principal executive officer, principal financial officer and all other employees and directors. The Code of Ethics is available on our website at www.fairportsavingsbank.com.

Information concerning directors and executive officers of FSB Community Bankshares, Inc. is incorporated herein by reference from the Proxy Statement, specifically the section captioned "Proposal I—Election of Directors."

ITEM 11. EXECUTIVE COMPENSATION

Information concerning executive compensation is incorporated herein by reference from the Proxy Statement; specifically the section captioned "Executive Compensation."

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS
