Item 1.01 Entry into a Material Definitive Agreement

On January 25, 2006, Kulicke and Soffa Industries, Inc. (the Company) agreed to sell substantially all of the assets of its test division in two different transactions, one related to the Company's package test business and the other related to the Company's wafer test business.

On January 25, 2006, the Company, its wholly owned subsidiary, K&S Interconnect, Inc. and Tyler Acquisition Corp., an entity formed and controlled by Investcorp Technology Ventures II, L.P. and its affiliates (Purchaser) entered into an acquisition agreement pursuant to which the Company agreed to sell substantially all of the assets associated with its package test business, subject to certain liabilities, to Purchaser (the Package Agreement); provided that the sale of the Company's package test assets located in China will be governed by a separate agreement. The aggregate purchase price for the assets of the package test business is \$17,000,000, plus the assumption of accounts payable and certain other liabilities. The purchase price is subject to adjustment based on the working capital of the package test business as of the closing date. The closing of the sale of the non-Chinese-based assets under the Package Agreement is expected to occur by March 28, 2006, and is subject to closing conditions typical of this type of transaction. The closing of the purchase of the assets located in China is expected to occur by September 30, 2006 and also is subject to closing conditions typical of this type of transaction. Subject to certain limitations, the Company and Purchaser have agreed to indemnify each other against losses from breaches of their respective representations and warranties and covenants. The Company has also agreed to indemnify Purchaser against all losses arising in respect of any excluded liabilities and Purchaser has agreed to indemnify the Company against losses arising in respect of any assumed liabilities. The Company has agreed to place 10% of the purchase price into an escrow at the initial closing under the Package Agreement to secure its indemnification obligations.

In addition, on January 25, 2006, the Company and certain of its subsidiaries and SV Probe Pte. Ltd. and SV Probe, Inc. (collectively, SV Probe) entered into an asset purchase agreement pursuant to which the Company agreed to sell or cause its subsidiaries to sell substantially all of the assets associated with its wafer test business to SV Probe (the Wafer Agreement). The Wafer Agreement contemplates two separate and staggered closings, the later closing relating solely to the Company's wafer test operations in China. The aggregate purchase price for the assets of the wafer test business is \$10,000,000, plus the assumption of accounts payable and certain other liabilities. Approximately \$5.2 million of accounts receivable are excluded from the transferred assets under the Wafer Agreement. The purchase price is subject to adjustment based on the working capital of the wafer test business as of the first closing under the Wafer Agreement. The first closing under the Wafer Agreement is expected to occur by February 28, 2006, and is subject to closing conditions typical of this type of transaction. The closing of the purchase of the assets located in China is expected to occur by the sixth month anniversary of the first closing under the Wafer Agreement and

is effectively subject to the completion of the first closing. Subject to certain limitations, the Company and SV Probe have agreed to indemnify each other against losses from breaches of certain representations and warranties and covenants.

A copy of a press release announcing these transactions is furnished as Exhibit 99.1 to this report.
