PROXY STATEMENT

This proxy statement and the accompanying form of proxy are being mailed on or about April 6, 2009, in connection with the solicitation by the Board of Directors of Computer Task Group, Incorporated of proxies to be voted at the annual meeting of shareholders on May 13, 2009, and any adjournment or postponement of the meeting. The mailing address of the Company's executive office is 800 Delaware Avenue, Buffalo, New York 14209.

The Board has selected the close of business on March 27, 2009 as the record date for the determination of shareholders entitled to vote at the annual meeting. On that date, the Company had outstanding and entitled to vote 18,219,069 shares of common stock, par value \$.01 per share. A list of stockholders entitled to vote at the 2009 annual meeting will be available for examination during the annual meeting by any stockholder who is present at the meeting.

Each outstanding share of common stock is entitled to one vote. Shares cannot be voted at the meeting unless the shareholder is present or represented by proxy. If a properly executed proxy in the accompanying form is returned, the shares represented thereby will be voted at the meeting in accordance with the instructions contained in the proxy, unless the proxy is revoked prior to its exercise. Any shareholder may revoke a proxy either by executing a subsequently dated proxy or notice of revocation, provided that the subsequent proxy or notice is delivered to the Company prior to the taking of a vote, or by voting in person at the meeting.

Under the New York Business Corporation Law (BCL) and the Company's By-laws, the presence, in person or by proxy, of one-third of the outstanding common stock is necessary to constitute a quorum of the shareholders to take action at the annual meeting. The shares that are present at the meeting, or represented by a proxy, will be counted for quorum purposes regardless of whether or not a broker with discretionary authority exercises its discretionary voting authority with respect to any particular matter. Once a quorum is established, under the BCL and the Company's By-laws, the directors standing for election may be elected by a plurality of the votes cast. Abstentions will not count as votes cast.

For voting purposes, all votes cast for, against, abstain, or withhold authority will be counted in accordance with such instructions as to each item. Broker non-votes will not be counted for any item. In accordance with the rules of the Securities and Exchange Commission, we have elected to deliver a full set of proxy materials to you and make the proxy materials available on our website at www.ctg.com. You may vote by completing, signing, dating and returning your proxy card in the envelope provided. Any stockholder attending the annual meeting may vote in person. If you have returned a proxy card, you may revoke your prior instructions and cast your vote at the annual meeting by following the procedures described in this proxy statement.

THE BOARD OF DIRECTORS AND COMMITTEES

The Board of Directors is divided into three classes serving staggered three-year terms. The Board has seven directors and the following four committees: (i) Audit, (ii) Compensation, (iii) Nominating and Corporate Governance, and (iv) Executive. During 2008, the Board held a total of six meetings. Each director attended at least 75% of the total number of Board meetings and the total number of Board committee meetings for the committees on which the directors served.

Director Independence and Executive Sessions

The Board of Directors affirmatively determined in February 2009 that each of the Company's six non-management directors, which include Thomas E. Baker, Randall L. Clark, Randolph A. Marks, William D. McGuire, John M. Palms and Daniel J. Sullivan, is an independent director in accordance with our corporate governance policies and the standards of the NASDAQ Stock Market (NASDAQ). As a result of these six directors being independent, a majority of our Company's seven-person Board of Directors is currently independent as so defined. The Board of Directors has determined that there are no relationships between the Company and the directors classified as independent other than service on our Company's Board of Directors.

The foregoing independence determination of the Board of Directors also included the conclusions of the Board of Directors that:

each member of the Audit Committee, Governance and Nominating Committee, and Compensation Committee described in this proxy statement is respectively independent under the standards listed above for purposes of membership on each of these committees; and

each of the members of the Audit Committee also meets the additional independence requirements under Rule 10A-3(b) of the Securities and Exchange Act of 1934, as amended (the Exchange Act).

Mr. Marks is currently serving as the lead independent director for purposes of scheduling and setting the agenda for the executive sessions of the independent directors. It is presently contemplated that these executive sessions will occur at least once during the fiscal year ending December 31, 2009, in conjunction with a regularly scheduled Board meeting, in addition to the separate meetings of the standing committees of the Board of Directors.

The Board of Directors has also adopted a statement of corporate governance principles that is available on the Company's website as described under Corporate Governance and Website Information.

Audit Committee

The Audit Committee is composed of five directors: Thomas E. Baker, Chairman, Randall L. Clark, William D. McGuire, John M. Palms and Daniel J. Sullivan, and operates under a written charter adopted by the Board of Directors. The charter of the Audit Committee is available on our Company's website as described below under Corporate Governance and Website Information. The Audit Committee met four times during 2008.

The primary purposes of the Audit Committee are to oversee on behalf of the Company's Board of Directors: (1) the accounting and financial reporting processes of the Company and integrity of the Company's financial statements, (2) the audits of the Company's financial statements and appointment, compensation, qualifications, independence and performance of the Company's independent registered public accounting firm, (3) the Company's compliance with legal and regulatory requirements, (4) the Company's internal audit function, and (5) preparation of the audit committee report that SEC rules require to be included in the annual proxy statement. The Committee's job is one of oversight. Management is responsible for the Company's financial reporting process including its system of internal control, and for the preparation of consolidated financial statements in accordance with U.S. generally accepted accounting principles. The Company's independent

registered public accounting firm is responsible for auditing those financial statements. It is the Committee's responsibility to monitor and review these processes. It is not the Committee's duty or responsibility to conduct auditing or accounting reviews. Therefore, the Committee has relied on management's representation that the financial statements have been prepared with integrity and objectivity and in conformity with U.S. generally accepted accounting principles, on its discussions with the independent registered public accounting firm and on the representations of the independent registered public accounting firm included in their report on the Company's financial statements.

The Board of Directors has determined that the members of the Audit Committee are independent as described above under "Director Independence and Executive Sessions" and that each of them is able to read and understand fundamental financial statements. The Board of Directors has determined that Thomas E. Baker is an audit committee financial expert as defined in Item 407 of Regulation S-K. Under the rules of the SEC, the designation or identification of a person as an audit committee financial expert does not impose on such person any duties, obligations or liability that are greater than the duties, obligations and liability imposed on such person as a member of the Audit Committee and Board of Directors in the absence of such designation or identification. Moreover, the designation of a person as an audit committee financial expert does not affect the duties, obligations or liability of any other member of the Audit Committee or Board of Directors.

Audit Committee Report

The Audit Committee has reviewed and discussed the audited financial statements with management; and has discussed with the Company's independent auditors the matters required to be discussed pursuant to the Statement on Auditing Standards No. 114, The Auditor's Communication with Those Charged with Governance (as modified or superseded). In addition, the Audit Committee has received the written disclosures and the letter from the independent registered public accountant required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent registered public accountant's communications with the Audit Committee concerning independence, and has discussed with the independent registered public accountant the independent registered public accountant's independence.

Based on the review and discussions referred to above, the Audit Committee has recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the last fiscal year for filing with the SEC.

Executive Committee

The Executive Committee is composed of James R. Boldt, Chairman, Thomas E. Baker, John M. Palms and Daniel J. Sullivan. The Committee did not meet during 2008. The Executive Committee is empowered to act for the Board of Directors in intervals between Board meetings, with the exception of certain matters that by law or under NASDAQ rules cannot be delegated. The Committee meets as necessary.

Nominating and Corporate Governance Committee and Director Nomination Process

The Nominating and Corporate Governance Committee is composed of John M. Palms, Chairman, Thomas E. Baker, Randall L. Clark, Randolph A. Marks, William D. McGuire and Daniel J. Sullivan. This Committee held three meetings during 2008.

This Committee has a charter that is available on our Company's website as described below under Corporate Governance and Website Information. The primary purposes of the Committee are to (a) recommend to the Board of Directors the individuals qualified to serve on the Company's Board of Directors for election by shareholders at each annual meeting of shareholders and to fill vacancies on the Board of Directors, (b) implement the Board's criteria for selecting new directors, (c) develop, recommend to the Board, and assess corporate governance policies for the Company, and (d) oversee the evaluation of the Board.

The Board of Directors has determined that the members of this Committee are independent as described above under Director Independence and Executive Sessions.

Director Nominations Made by Shareholders. The Committee will consider nominations timely made by shareholders pursuant to the requirements of our Company's By-laws, which are referred to under Stockholder Proposals. This Committee has not formally adopted any specific elements of this policy, such as minimum specific qualifications or specific qualities or skills that must be possessed by qualified nominees, beyond the Committee's willingness to consider candidates proposed by shareholders.

Procedure for Stockholders to Nominate Directors. Any shareholder who intends to present a director nomination proposal for consideration at the 2010 annual meeting and intends to have that proposal included in the proxy statement and related materials for the 2010 annual meeting, must deliver a written copy of the proposal to the Company's principal executive offices no later than the deadline, and in accordance with the notice procedures, specified under Shareholder Proposals in this proxy statement and in accordance with the applicable requirements of Rule 14a-8 of the Exchange Act.

If a shareholder does not comply with the foregoing Rule 14a-8 procedures, the shareholder may use the procedures set forth in the Company's By-laws, although the Company would in the latter case not be required to include the nomination proposal as a proposal in the proxy statement and proxy card mailed to shareholders in connection with the next annual meeting of shareholders. For shareholder nominations of directors to be properly brought before an annual meeting by a shareholder pursuant to the By-laws, the shareholder must have given timely notice thereof in writing to the Secretary of the Company. To be timely, any shareholder entitled to vote for the election of directors at a meeting may nominate persons for election as directors only if written notice of such shareholder's intent to make such nomination is given, either by personal delivery or by United States mail, postage prepaid, to and received by the Secretary of the Company not later than 60 days in advance of the originally scheduled date of the annual meeting of shareholders.

The shareholder's notice referred to above must set forth (1) the name and address of the shareholder who intends to make the nomination and of the person or persons to be nominated; (2) a representation that the shareholder is a holder of record of stock of the Company entitled to vote at such meeting and intends to appear in person or by proxy at the meeting to nominate the person or persons specified in the notice; (3) a description of all arrangements or understandings between the shareholder and each nominee and any other person or persons (naming such person or persons) pursuant to which the nomination or nominations are to be made by the shareholder; (4) such other information regarding each nominee proposed by such shareholder as would have been required to be included in a proxy statement filed pursuant to the proxy rules of the SEC had each nominee been nominated, or intended to be nominated by the Board of Directors; and (5) the consent of each nominee to serve as a director of the Company if so elected. The chairman of the meeting may refuse to acknowledge the nomination of any person not made in compliance with the foregoing procedure.

Process for Identifying Director Candidates. The Committee's current process for identifying and evaluating nominees for director consists of general periodic evaluations of the size and composition of the Board of Directors with a goal of maintaining continuity of appropriate industry expertise and knowledge of the Company. Since neither the Board nor this Committee has received any shareholder nominations in the past, the Committee has not considered whether there would be any differences in the manner in which the Committee evaluates nominees for director based on whether the nominee is recommended by a shareholder.

Source of Recommendation for Current Nominees. The nominees for director included in this proxy statement have been formally recommended by the incumbent independent directors who serve on the Nominating and Governance Committee. The Company did not pay a fee to any third party to identify or evaluate or assist in identifying or evaluating potential nominees.

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Committee Composition and Primary Purposes

The Compensation Committee of the Board of Directors is composed of Daniel J. Sullivan, Chairman, Thomas E. Baker, Randall L. Clark, William D. McGuire and John M. Palms. The Committee is responsible for overseeing the administration of the Company's employee stock and benefit plans, establishing policies relating to the compensation of employees and setting the terms and conditions of employment for executive officers. During 2008, this Committee held a total of three meetings. The Board of Directors has determined that the members of this Committee are independent as described above under Director Independence and Executive Sessions.

This Committee has a charter that is available on our Company's website as described below under Corporate Governance and Website Information. The Committee reviews the charter annually and updates the charter as necessary. The primary purposes of the Committee are to: (1) review and approve corporate goals and objectives relevant to the Company's compensation philosophy, (2) evaluate the CEO's performance and

determine the CEO's compensation in light of those goals and objectives, (3) review and approve executive officer compensation, incentive compensation plans and equity-based plans; and (4) produce an annual report on executive compensation, and approve the Compensation Discussion and Analysis, for inclusion in the Company's annual proxy statement.

Compensation Philosophy and Executive Compensation Objectives

Given the exceptionally competitive nature of the IT Industry, the Company's Compensation Committee and management believe it is strategically critical to attract, retain and motivate the most talented employees possible by providing competitive total compensation packages. This general philosophy on compensation applies to all employees of the Company. With regard to executive officer compensation, the Company seeks to accomplish the following high-level objectives:

Offer a Competitive Total Compensation Package. To attract the most talented executive officers possible, the Company should tailor each executive officer's total compensation plan to reflect average total compensation offered at similar organizations. This is accomplished by means of routine compensation surveying, the process for which is described further below.

Tie Total Compensation to Performance in a Meaningful Manner. To promote the Company's overall annual and long-term financial and operating objectives, a significant portion of total compensation should be based upon the accomplishment of specific Company objectives within an executive officer's purview. This is accomplished by means of various performance-based incentive plans described further below.

Encourage Executives to Think Like Shareholders. To promote the best interests of shareholders, executive officers should be encouraged to maintain a significant equity interest in the Company. This is accomplished by means of various equity award plans described further below.

How Executive Compensation is Determined

In order to promote the Company's objective of tying total compensation to performance in a meaningful manner, the Company has adopted a top-down approach to compensation planning. In short, once the Board of Directors has reviewed and approved the corporate goals and objectives for the entire Company, the Compensation Committee begins the process of setting compensation for the CEO. Once compensation has been set for the CEO, the CEO is then able to make recommendations to the Board on performance objectives and commensurate compensation for each of the executive officers reporting to the CEO. Similarly, once compensation has been set for the executive officers, they in turn are able to set performance-based objectives for their direct reports. This approach to compensation planning continues to trickle down to employees throughout the organization. In this manner, the compensation planning process seeks to optimize shareholder value by integrating appropriate employee responsibilities with corporate objectives.

In an effort to accomplish the Company's objective of offering competitive total compensation packages, the Compensation Committee routinely surveying total compensation packages for all executive officers. In 2008, as has been the practice for several years, the Compensation Committee retained the services of Towers Perrin, a highly-regarded compensation consulting firm, to undertake an annual compensation review for each of the Company's executive officers. Towers Perrin does not provide any other material services to the Company, or any of the Company's executive officers individually, aside from those services provided to the Compensation Committee. Prior to conducting the study, Towers Perrin was provided with job descriptions for each of the executive officers and was instructed to provide the Compensation Committee with a written report for each executive officer reflecting the competitive range of total compensation at similar organizations. Information concerning trends with executive compensation was also requested as part of Tower Perrin's report.

Surveying Methodology Used. Towers Perrin used its proprietary Executive Compensation Database to create the report. This database contains compensation data from over 820 companies. From this data, Towers

Perrin identified a sample of firms that were comparable to the Company in terms of size and industry. Regression analyses were then performed on the sample to provide a competitive range for jobs with similar responsibilities. The competitive range identified in the Towers Perrin report approximates the statistical mean of the sample within one standard deviation. As such, the competitive range tends to fall within approximately fifteen percentage points on either side of the Mean. The deviation in this range is usually explained by differences in experience, length of service and/or differences in responsibilities. For executives identified as named executive officers in the 2007 proxy statement, Towers Perrin further cross-compared this competitive range against a peer group of companies chosen by the Compensation Committee.¹ However, this comparison was merely provided for validation purposes and had no impact on the original competitive range included in the Towers Perrin report.

Upon completion of the report, the Compensation Committee met personally with a representative of Towers Perrin to review the document. The Compensation Committee used the Towers Perrin study, in conjunction with the Company's overall long-term financial and operating objectives for 2008, to set total compensation for the CEO. Prior to approving Mr. Boldt's total compensation package for 2008, the Committee also reviewed a tally sheet delineating the details of each aspect of Mr. Boldt's compensation. The details of Mr. Boldt's total compensation for 2008 are discussed in more detail below.

The CEO used the Towers Perrin study, in conjunction with the Company's overall long-term financial and operating objectives for 2008, to make compensation recommendations to the Board for each executive officer. It has been the practice of the Board to approve total compensation packages that contain a significant portion of tailored, performance-based incentives within the executive officer's purview. The details of each named executive officer's total compensation for 2008 are discussed below in more detail.

Components of Executive Compensation

The compensation paid to the Company's executive officers, as reflected in the tables set forth in this Proxy Statement, can be broken down into the following three general categories: (i) Baseline Compensation, (ii) Performance-Based Incentives and (iii) Equity-Based Incentives.

Baseline Compensation

Baseline Compensation includes: annual base salary, standard employee benefits available to all employees generally and participation in certain executive level employee benefit programs. Once awarded, compensation payments made under this component are provided during the course of the year without regard to achievement of specific performance-based objectives. The Company chooses to pay this component of compensation because it comprises the very foundation of executive compensation. As such, the Company considers maintaining competitive levels of baseline compensation essential to attracting and retaining talented personnel.

Annual Base Salary In an effort to stay competitive, annual salaries for executive officers are reviewed by the Compensation Committee on a yearly basis. With respect to determining the base salary of executive officers, the Committee takes into consideration the compensation report prepared by Towers Perrin, the executive's individual performance as well as length of service and internal equity considerations. Of these factors, the Towers Perrin report is generally given the most weight.

Standard Employee Benefits Executive officers are entitled to participate in the same benefit programs afforded generally to all other employees of the Company. Such benefits generally include a 401(k) program, Medical/Dental/Vision Health Plans, Employee Stock Purchase Plan, Short-Term and Long-Term Disability Plans and Flexible Spending Account Plan.

¹ The peer group cited by the Compensation Committee for validation consisted of the following entities: Analysts International Corp. (ANLY), CIBER Inc. (CBR), Compuware Corp. (CPWR), iGATE Corp. (IGTE), Sapient Corp. (SAPE) and Technology Solutions Co. (TSCC).

Executive Level Benefits In addition to the benefits afforded to employees generally, executive officers are also eligible to participate in or receive the benefit of the following Company sponsored Executive Benefits: Long-Term Executive Disability Plan, Executive Life Insurance Plan, Accidental Death & Dismemberment and Travel Accident Plan, Income Tax Preparation and Advice program, Executive Medical and Dental Plan program, and the Company's change in control agreement.² A synopsis of these executive level benefits is provided below:

Long-Term Executive Disability Plan. The Company will pay, on the executive's behalf, the premiums associated with maintaining a long-term disability policy with seventy percent (70%) salary replacement up to \$25,000 per month. The benefits provided under the Long-Term Executive Disability Plan are provided in lieu of the Long-Term Disability Plan afforded to employees generally.

Executive Life Insurance Plan. The Company will pay, on the executive's behalf, the premiums associated with maintaining a life insurance policy with coverage equal to three times current annual salary.

Accidental Death & Dismemberment & Travel Accident Plan. The Company will pay, on the executive's behalf, the premiums associated with maintaining an accidental death and dismemberment policy with coverage equal to four times current annual salary.

Income Tax Preparation and Advice Program. The Company will generally reimburse executives for out-of-pocket fees expended, up to \$2,000, on tax preparation, planning or advice.

Executive Medical and Dental Plan Program. The Company will reimburse executives for out-of-pocket fees expended, up to \$10,000, on qualifying medical or dental expenditures.

Change in Control Agreement. Pursuant to the terms of these agreements, executives are generally entitled to the following benefits in the event of a Change in Control (as defined in the agreements): (a) immediate vesting of all stock-related awards granted under the 1991 Stock Option Plan, the 2000 Equity Award Plan or the 1991 Restricted Stock Plan; (b) immediate vesting and cash payout of any Deferred Compensation accruing pursuant to the Company's Nonqualified Key Employee Deferred Compensation Plan; and (c) to the extent that the executive's stock option rights are impeded or adversely affected by the resulting Change in Control (i.e., no comparable Conversion Options offered), an executive is entitled to an immediate lump sum payout of the Built in Gain on all unexercised stock options, calculated as of the date of the Change in Control. Further, additional severance benefits apply in the event the executive's employment is terminated for Good Reason by the executive or without Cause by the Company within twenty-four (24) months of the date of Change in Control, or in anticipation thereof.³ These additional severance benefits include: two times⁴ the executive's annual rate of salary, two times the executive's highest annual Incentive (calculated from the preceding three years), a lump sum payout equal to twenty-five percent (25%) of current salary and highest annual Incentive, indemnification coverage for a period of sixty (60) months, a cash-out of equity-based compensation; and payout of any and all deferred compensation accruing up to the date of termination. The agreement also provides for gross-up payments to cover the executive's taxes, to the extent that payments under this agreement should otherwise be subject to the excise tax imposed by Section 4999 of the Internal Revenue Code. For more information on Potential Change in Control related payments, see Potential Payments upon Termination or Change in Control.

² Since Belgium law designates the calculation of separation benefits, Mr. Gydé does not have a change in control agreement.

³ In Mr. Boldt's case, these severance benefits may also be triggered by his termination for any reason within six (6) months following the Change in Control.

⁴ In Mr. Boldt's case, 2.99 times current salary, and 2.99 times the highest annual Incentive (calculated from the preceding three years), is provided.

Performance-Based Incentives

Performance-based incentives include an annual cash incentive (Incentive) and participation in the Company's Nonqualified Key Employee Deferred Compensation Plan (Deferred Compensation Plan). Compensation payments provided under these programs are conditional upon the accomplishment of specific performance-based goals. The Company chooses to pay this component of compensation because it believes such compensation programs are critical to motivating executive officers in a manner that directly impacts shareholder value.

Annual Cash Incentive Compensation Each executive officer's total annual compensation includes a potential Incentive award. Incentive payments are contingent upon the accomplishment of certain performance-based objectives selected by the Compensation Committee annually. In selecting objectives, the Compensation Committee seeks to individually tailor performance criteria for each executive officer. The amounts of the Incentive, and the formula for calculating actual payments, are regularly reviewed and surveyed in conjunction with the Towers Perrin study discussed earlier. In 2008, the Compensation Committee established performance objectives for the executive officers based on targeted levels of revenue and income. To the extent an executive officer has specific operational responsibilities, performance objectives were split between: (i) consolidated revenues and operating income for the entire Company and (ii) business unit revenues and gross profit for that executive officer's focus of operation. Targets for non-operational executive officers, including the CEO, were based solely on consolidated revenues and operating income for the entire Company.

The formula for calculating each executive officer's Incentive provides that at least eighty percent (80%) of the stipulated plan target (Threshold) must be achieved before any remuneration is awarded for that objective. If the Threshold is achieved, the executive officer receives fifty percent (50%) of the designated plan award for that objective. Then, for each additional percentage point (1%) achieved above the Threshold, up to one hundred percent (100%) of the plan target (Objective Goal), the executive officer receives another two and one-half percent (2.5%) of the designated plan award for that objective. For each additional percentage point (1%) achieved above the Objective Goal, the executive officer receives another five percent (5%) of the designated plan award for that objective. Each plan prohibits the receipt of amounts in excess of two hundred percent (200%) of the designated plan award for that objective.

The designated plan award is generally calculated as a percentage of annual base salary. In 2008, the designated plan awards were: (i) for Mr. Boldt, CEO, one hundred percent (100%) of base salary actually paid, (ii) for Mr. Harrington, CFO, fifty percent (50%) of base salary actually paid, (iii) for Mr. Gydé, SVP, forty-five percent (45%) of base salary actually paid, (iv) for Mr. Colson, SVP, seventy-five percent (75%) of base salary actually paid, and (v) for Mr. Niehaus, SVP, seventy-five percent (75%) of base salary actually paid.

The Compensation Committee believes that each executive officer's Incentive plan targets for 2008 involve a reasonably challenging degree of difficulty commensurate with historical levels. In this manner, the Compensation Committee believes that each executive officer's Incentive plan targets are reasonably tailored to promote the Company's overall annual and long-term financial goals.

Deferred Compensation This component of executive compensation consists of employee and Company contributions under the CTG Nonqualified Key Employee Deferred Compensation Plan for those executives chosen to participate in the plan. Executives chosen to participate in the plan are eligible to elect to defer a percentage of their annual cash compensation. In addition, executives are also eligible to receive a Company contribution under the plan in an amount equal to a specified percentage of the sum of the executive's 2008 Base Salary and Incentive compensation. Payment of the Company's contribution is contingent on the accomplishment of certain performance targets recommended by the CEO and approved by the Compensation Committee. Actual amounts paid under the Company contributions, and the formula for calculating actual payments, are regularly

⁵ In 2008, the performance targets for the Deferred Compensation Plan were based upon the Company's attainment of certain operating income targets.

reviewed and approved by the Compensation Committee. The contribution can be made in cash or CTG common stock, as determined by the Committee. In 2008, for those executives chosen to participate in the plan, the Company's contribution percentage was ten percent (10%) of the annual amounts received from both salary and annual Incentive amounts.

Equity-Based Incentives

This component of executive compensation consists of grants of restricted stock and stock options under the Company's 2000 Equity Award Plan and the 1991 Restricted Stock Plan. In making such grants, the Committee considers an executive's past contributions and expected future contributions towards Company performance. Grants are made to key employees of the Company who, in the opinion of the Committee, have had and are expected to continue to have a significant impact on the long-term performance of the Company. The awards are designed to reward individuals who remain with the Company; and further align employee interests with those of the Company's shareholders. The Company chooses to pay this component of compensation because it believes that stock ownership by management is beneficial in aligning management's activities and decisions with shareholders' interests of maximizing share value.

Except in circumstances of new or recently promoted executive officers, the Committee grants equity compensation on a set date each year. The Company does not time or plan the release of material non-public information for the purpose of affecting the value of compensation. The traditional annual grant date chosen by the Committee has been either the day of, or the day immediately before, the annual meeting of shareholders. Equity awards may also be granted at other meetings of the Committee to individuals who become executive officers, are given increased responsibilities during the year or in recognition of special accomplishments.

Restricted Stock Grants During 2008 The Compensation Committee granted restricted stock awards to various executive officers as identified in the tables below. In general, recipients of restricted stock awards receive a specified number of non-transferable restricted shares to be held by the Company, in the name of the grantee, until satisfaction of stipulated vesting requirements. Upon satisfaction of such vesting requirements, restrictions prohibiting transferability will be removed from the vested shares. In determining whether to grant an individual restricted stock, the Compensation Committee considers an executive's contribution toward Company performance, expected future contribution and the number of options and shares of common stock presently held by the executive. For awards of restricted stock granted in 2008 to executive officers, shares vest in four equal installments over the next four years, beginning on the first anniversary of the date of grant. Similar to awards of stock options, restricted stock awards directly align compensation with increases in shareholder value; and provide benefits of share ownership (such as voting rights, right to earn dividends, etc.) immediately upon grant.

Stock Options Granted During 2008 The Compensation Committee granted stock options to various executive officers as identified in the tables below. In general, recipients of the stock options receive the right to purchase shares of common stock of the Company in the future at a price equal to the value of the Company's common stock, as reported on NASDAQ, at closing on the date of grant. The Compensation Committee determines the dates and terms upon which options may be exercised, as well as whether the options will be incentive stock options or nonqualified stock options. For awards granted to executive officers in 2008, options vest in four equal installments over the next four years, beginning on the first anniversary of the date of grant. In determining whether to grant an individual stock options, the Compensation Committee considers an executive's contribution toward Company performance, expected future contribution and the number of options and shares of common stock presently held by the executive. Any value that might be received from an equity grant depends upon increases in the price of the Company's common stock. Accordingly, the amount of compensation to be received by an executive is directly aligned with increases in shareholder value.

Grants of Plan-Based Awards

Each of the Non-Equity Incentive Plan Awards represented in the table above were Incentive awards granted to the named executive officers during 2008. Such Incentive awards are described earlier in this proxy Statement under the heading *Performance-Based Incentives*. The formula for calculating each executive officer's Incentive provides that at least eighty percent (80%) of the stipulated plan target (*Threshold*) must be achieved before any remuneration is awarded for that objective. If the Threshold is achieved, the executive officer receives fifty percent (50%) of the designated plan award¹¹ for that objective. Then, for each additional percentage point achieved above the Threshold, up to one hundred percent (100%) of the plan target (*Objective Goal*), the executive officer receives another two and one-half percent (2.5%) of the designated plan award for that objective. For each additional percentage point (1%) achieved above the Objective Goal, the executive officer receives another five percent (5%) of the designated plan award for that objective. Each plan prohibits the receipt of amounts in excess of two hundred percent (200%) of the designated plan award for that objective.

Each of the equity awards represented in the table above were granted pursuant to the 2000 Equity Award Plan or the 1991 Restricted Stock Plan. Stock options represented in the table were granted by the Board on May 13, 2008; and the exercise price of all such options was set at \$4.79 the closing price of the Company's common stock on the date of grant. Restricted stock awards represented in the table were also granted by the Board of Directors on May 13, 2008. Recipients of both stock option and restricted stock awards were required to enter into agreements with the Company governing the vesting, exercise and/or transferability (as applicable) of such awards. Vesting requirements for both stock option awards and restricted stock awards are based solely on continued employment. There are no performance-based vesting requirements. Under the terms of all awards delineated in this table, shares or options vest in four equal installments over the next four years, beginning on the first anniversary of the date of grant.

¹¹ The designated plan award is generally calculated as a percentage of annual base salary. In 2008, the designated plan awards were: (i) for Mr. Boldt, CEO, one hundred percent (100%) of base salary actually paid, (ii) for Harrington, CFO, fifty percent (50%) of base salary actually paid, (iii) for Mr. Gydé, SVP, forty-five percent (45%) of base salary actually paid, (iv) for Mr. Colson, SVP, seventy-five percent (75%) of base salary actually paid, and (v) for Mr. Niehaus, seventy-five percent (75%) of base salary actually paid.

2008 OPTION EXERCISES AND STOCK VESTED

The following table provides information for each of the Company's Named Executive Officers regarding stock option exercises and vesting of stock awards during 2008.

Name of Executive Officer	Option Awards		Stock Awards	
	Number of Shares Acquired on Exercise (#) (1)	Value Realized on Exercise (\$ (1)	Number of Shares Acquired on Vesting (#) (1)	Value Realized on Vesting (\$ (1)
James R. Boldt			5,000	\$ 24,125
Brendan M. Harrington			1,125	\$ 5,393
Michael J. Colson			2,000	\$ 9,650
Filip J.L. Gydé	2,500	\$ 3,813	2,000	\$ 9,650
Thomas J. Niehaus			1,625	\$ 7,734

(1) For stock options, the value realized is the difference between the fair market value of the underlying stock at the time of exercise and the exercise price. For Stock Awards, the value realized is based on the fair market value of the underlying stock on the vesting date.

Pension Benefits

The Company maintains an Executive Supplemental Benefit Plan (Supplemental Plan) which provides certain former executives, including current director Randy Marks, with deferred compensation benefits. The Supplemental Plan was amended as of December 1, 1994 in order to freeze the then current benefits, provide no additional benefit accruals for participants and to admit no new participants. None of the named executive officers participate in the Supplemental Plan. In 2008, Mr. Marks received \$90,000 under the Supplemental Plan.

Generally, the Supplemental Plan provides for retirement benefits of up to 50% of a participating employee's base compensation at termination or as of December 1, 1994, whichever is earlier, and pre-retirement death benefits calculated using the same formula that is used to calculate normal and early retirement benefits. Benefits are based on service credits earned each year of employment prior to and subsequent to admission to the Supplemental Plan through December 1, 1994. Retirement benefits and pre-retirement death benefits are paid during the 180 months following retirement or death, respectively, while disability benefits are paid until normal retirement age. Normal retirement is age 60. For any participant who is also a participant in the Deferred Compensation Plan, the normal retirement age is increased to 65.

Filip J.L. Gydé					
Thomas J. Niehaus (1)		\$ 42,189	\$ (45,276)		\$ 102,139

(1) During 2008, Messrs. Boldt, Harrington, Colson and Niehaus were eligible to receive a contribution under the Deferred Compensation Plan. The contributions reflected above for these individuals reflect the current year's calculation of the Company's contribution under the plan resulting from contributions paid on the basis of the operating results for 2008. These contributions are reflected in the Summary Compensation Table under the heading Non-Equity Incentive Plan Compensation. The amounts under Aggregate Earnings in Last FY are not included in the Summary Compensation Table as the earnings were not deemed to be above-market or preferential.

On February 2, 1995, the Compensation Committee approved the creation of a Nonqualified Key Employee Deferred Compensation Plan (Deferred Compensation Plan). The Deferred Compensation Plan is intended as a successor plan to the Supplemental Plan. Participants in the Deferred Compensation Plan are eligible to (1) elect to defer a percentage of their annual cash compensation and (2) receive a Company contribution of a percentage of their base compensation and annual Incentive if the Company attains annual defined performance objectives for the year. These performance objectives are established on an annual basis for the upcoming year.

The Chief Executive Officer, subject to the approval of the Compensation Committee, recommends (1) those key employees who will be eligible to participate and (2) the percentage of a participant's base and Incentive compensation the participant will be able to contribute each year to the Deferred Plan if the Company attains annual defined performance objectives. All amounts credited to the participant are invested, as approved by the Compensation Committee, and the participant is credited with actual earnings of the investments. Company contributions, including investment earnings, may be cash or the stock of the Company.

Plan participants have a 100% non-forfeitable right to the value of their corporate contribution account after the fifth anniversary of employment with the Company. If a participant terminates employment due to death, disability, retirement at age 65, or upon the occurrence of a Change in Control Event (as defined in the plan), the participant or his or her estate will be entitled to receive the benefits accrued for the participant as of the date of

such event. Company contributions will be forfeited in the event a participant incurs a separation from service for cause. Participants are 100% vested in their own contributions. All amounts in the Deferred Plan, including elective deferrals, are held as general assets of the Company and are subject to the claims of creditors of the Company. In 2008, the Company contributed ten percent (10%) of eligible named executive officer's total cash compensation towards this plan.

Potential Payments upon Termination or Change in Control

Agreements with Mr. Boldt. On July 16, 2001, the Company entered into a change in control agreement with Mr. Boldt. The agreement provides that upon the occurrence of a change in control, Mr. Boldt will become fully vested in and entitled to exercise immediately all stock related awards he has been granted under any plans or agreements of the Company. The agreement goes on to provide that upon the termination of Mr. Boldt's employment (a) without cause by the Company or by himself with good reason within 24 months following a change in control or (b) by himself for any reason within 6 months after a change in control, Mr. Boldt will receive 2.99 times his full salary and Incentive as well as a lump sum to cover fringe benefits. A change in control will occur if (1) the Company's stockholders approve (a) the dissolution or liquidation of the Company, (b) the merger or consolidation or other reorganization of the Company with any other entity other than a subsidiary of the Company, or (c) the sale of all or substantially all of the Company's business or assets or (2) any person other than the Company or its subsidiaries or employee benefit plans becomes the beneficial owner of more than 20% of the combined voting power of the Company's then outstanding securities or (3) during any period not longer than two consecutive years, individuals who at the beginning of such period constituted the Board cease to constitute at least a majority thereof, unless the election of each new Board member was approved by a vote of at least three-quarters of the Board members then still in office who were Board members at the beginning of such period.

If a change in control had occurred on December 31, 2008, all of Mr. Boldt's unvested stock options and restricted stock awards would have become fully vested as of that date.¹² If the Company's stock price was \$3.22 (which was the closing price of the stock on December 31, 2008), Mr. Boldt could potentially have realized gains, before tax, from the sale of securities that had vested solely as a result of a change in control in the following amounts: (i) \$152,950 from the sale of restricted stock, and (ii) \$28,000 from the exercise of those stock options.

Had Mr. Boldt's employment been terminated: (i) without cause by the Company, or by himself with good reason, within 24 months following such change in control, or (ii) by himself for any reason within 6 months after such change in control; he would have been entitled to receive a lump sum cash payment from the Company totaling \$3,616,012 by the tenth day following his termination. This payment equals 2.99 times the sum of Mr. Boldt's current annual salary¹³ (Salary) and his highest annual Incentive payment from the last three years (Incentive); and includes an amount equal to twenty-five percent of Mr. Boldt's Salary and Incentive.¹⁴ In addition, Mr. Boldt's change in control agreement would provide for an excise tax gross-up payment totaling \$521,157 under such circumstances.

Mr. Boldt is the only executive officer with an employment agreement affording severance benefits upon termination. Pursuant to the terms of such agreement, in the event of termination by Mr. Boldt for Good Reason (as that term is defined in the agreement), or by the Company other than for Cause (as that term is defined in the agreement), Mr. Boldt will receive continued cash payments and medical and dental benefits for a period of twelve (12) months. The amount of such cash payments shall equal the average annual total cash compensation paid to Mr. Boldt during the most recent three year period. In the event Mr. Boldt remains unemployed after such

¹² Such awards are more fully described in the table entitled "Outstanding Equity Awards at Fiscal Year-End".

¹³ Mr. Boldt's salary was \$450,000, as of December 31, 2008.

¹⁴ This amount is intended to cover fringe benefits such as 401(k), health, medical, dental, disability and similar benefits for a period twenty four months.

twelve (12) month period, the Company must extend severance payments until an additional six (6) months time has elapsed or until employment is secured, whichever occurs first.

Payments made to Mr. Boldt pursuant to this agreement are contingent upon his adherence to certain restrictive covenants, which are effective from the date of the agreement and continue until one year after his separation from the Company. These restrictive covenants generally prohibit Mr. Boldt from, directly or indirectly: (i) engaging in any business activity which competes with the Company, (ii) soliciting or hiring any of the Company's employees, (iii) canvassing or soliciting customers of the Company, (iv) willfully dissuading or encouraging any person from conducting business with the Company or (v) intentionally disrupting any supplier relationship.

Had Mr. Boldt's employment been terminated on December 31, 2008, he would have been eligible to receive twenty (26) bi-weekly cash payments from the Company totaling \$930,715 for the subsequent twelve month period. This amount reflects Mr. Boldt's average annual cash compensation (i.e. annual salary and Incentive) for the prior three years. Mr. Boldt would also receive, for a period of twelve months, continuing medical and dental coverage under any plans he participates in as of the effective date of such termination. Continued medical and dental benefits would likely total approximately \$10,195.¹⁶ In the event Mr. Boldt remains unemployed at the expiration of the twelve (12) month period subsequent to his termination, the agreement provides for an extension of these payments for up to an additional six (6) month period.¹⁷ Pursuant to the terms of Mr. Boldt's employment agreement, the termination benefits afforded under the change in control agreement will supersede in the event his termination triggers payments under that Agreement.

Agreements with Other Executive Officers. Excepting Mr. Gydé,¹⁸ each of the executive officers named herein has entered into a change in control agreement with the Company. These agreements contain provisions that are generally similar to those of Mr. Boldt except that, in the event their employment is terminated by the Company without cause or by themselves with good reason within 24 months after a change in control, such executives would receive two times their salary and Incentive. At the time these agreements were approved by the Compensation Committee, it was considered customary to include the trigger mechanisms contained in the named executive officers agreements. For this reason, such mechanisms were considered important to attracting, retaining and motivating executive officers.

If a change in control occurred on December 31, 2008, then each of the named executive officers (excluding Mr. Boldt) would have immediately become fully vested in any stock option or restricted stock awards previously granted.¹⁹ If the stock price of the Company was \$3.22, which was the closing price of the stock on December 31, 2008, then the named executive officers could potentially have realized gains, before tax, from the sale of vested securities in the following amounts:

Named Executive Officer	Restricted Stock (\$)	Stock Options (\$)
Brendan M. Harrington	\$ 22,138	\$ 0
Michael J. Colson	\$ 28,980	\$ 0
Thomas J. Niehaus	\$ 26,565	\$ 0

¹⁵ The severance trigger requires that the termination be made either by Mr. Boldt for Good Reason or by the Company other than for Cause.

¹⁶ This amount reflects the total costs paid for medical, dental and disability insurance during 2008.

¹⁷ Total payments through the expiration of the six (6) month extension would amount to: (1) \$465,358 in bi-weekly cash payments, and (2) approximately \$5,098 in continued medical, dental and disability benefits.

¹⁸ Since Belgium law mandates certain separation benefits, Mr. Gydé does not maintain a change in control agreement with the Company.

¹⁹ Such awards are more fully described in the table entitled "Outstanding Equity Awards at Fiscal Year-End".

Had the above mentioned executive officers' employment been terminated without cause by the Company, or by themselves with good reason, within 24 months following such a change in control, they would also have been entitled to receive, by the tenth day following their termination, lump sum cash payments from the Company in the following amounts:

Mr. Harrington would have received a lump sum payment of \$916,799;

Mr. Colson would have received a lump sum payment of \$1,247,659; and

Mr. Niehaus would have received a lump sum payment of \$970,225.

These payments equal two (2) times the sum of each individual's current annual salary²⁰ (Salary) and their highest annual Incentive payment from the last three years (Incentive); and also includes an amount equal to twenty-five percent (25%) of such Salary and Incentive amounts. No excise tax gross-up payments would be made to any of the above mentioned executive officers other than Mr. Boldt.

Certain Relationships and Related Person Transactions

During 2008, Mr. Marks, a director of the Company, received an annual sum of \$90,000 payable monthly under the terms of the Supplemental Plan.
