Table of Contents*(cover page continued)*

For each share of Preferred Stock or Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value (the Exchange Value) set forth in the applicable table below. We refer to the number of shares of our Common Stock we will issue (based on the Relevant Price (as defined below)) for each share of Preferred Stock or Trust Preferred Security we accept in the Exchange Offer as the exchange ratio. The Relevant Price will be fixed at 4:30 p.m., New York City time, on the second business day immediately preceding the expiration date of the Exchange Offer (which we currently expect to be July 1, 2009, unless the Exchange Offer is extended), will be announced prior to 9:00 a.m., New York City time, on the immediately succeeding trading day (which we currently expect to be July 1, 2009, unless the Exchange Offer is extended) and will be equal to the greater of (1) the average Volume Weighted Average Price, or VWAP, of a share of our Common Stock during the five-trading day period ending on the second business day immediately preceding the expiration date of the Exchange Offer, determined as described in this prospectus and (2) the Minimum Share Price of \$2.50 per share of our Common Stock. Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock or Trust Preferred Security we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to above.

If the aggregate liquidation preference of all shares of Preferred Stock and the aggregate liquidation amount of all Trust Preferred Securities tendered in the Exchange Offer would result in the issuance, upon consummation of the Exchange Offer, of a number of shares of our Common Stock in excess of 390,000,000 shares, we will accept for tender only that number of Trust Preferred Securities of each series in accordance with the Acceptance Priority Levels set forth below that will ensure that not more than 390,000,000 shares of our Common Stock are issued in the Exchange Offer. Even if all shares of Preferred Stock and all Trust Preferred Securities with Acceptance Priority Level 1 below are tendered for exchange, all Trust Preferred Securities with Acceptance Priority Level 1 could be accepted for exchange, without prorationing. However, we may have to reduce (on a prorated basis) the number of Trust Preferred Securities of Acceptance Priority Level 2 that we accept in this Exchange Offer to remain within this limit. We will not reduce the number of shares of Preferred Stock that we accept in this Exchange Offer.

The tables below set forth certain information regarding the series of Preferred Stock and Trust Preferred Securities that are the subject of the Exchange Offer, along with the Acceptance Priority Levels for proration and acceptance of the Trust Preferred Securities.

Questions and answers about the Exchange Offer

The following are certain questions regarding the Exchange Offer that you may have as a holder of shares of Preferred Stock or Trust Preferred Securities and the answers to those questions. These questions and answers may not contain all of the information that is important to you and is qualified in its entirety by the more detailed information included or incorporated by reference in this prospectus. Before deciding to exchange your securities for shares of our Common Stock, you should carefully consider the information contained in and incorporated by reference in this prospectus, including the information set forth under the heading "Risk Factors" on page 31 in this prospectus and the information set forth under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009. For further information about us, see the section of this prospectus entitled "Where You Can Find More Information."

What is the purpose of the Exchange Offer?

As part of the U.S. Government's Financial Stability Plan, on February 25, 2009, the U.S. Treasury announced preliminary details of its Capital Assistance Program, or the CAP. To implement the CAP, the Board of Governors of the Federal Reserve System (the Federal Reserve), the Federal Reserve Banks, the FDIC and the Office of the Comptroller of the Currency commenced a review, referred to as the Supervisory Capital Assessment Program (the SCAP), of the capital of the 19 largest U.S. banking institutions. Popular was not included in the group of 19 banking institutions reviewed under the SCAP. On May 7, 2009, Federal banking regulators announced the results of the SCAP and determined that 10 of the 19 banking institutions were required to raise additional capital and to submit a capital plan to their Federal banking regulators by June 8, 2009 for their review.

Even though we were not one of the banking institutions included in the SCAP, we have closely assessed the announced SCAP results, particularly noting that (1) the SCAP credit loss assumptions applied to regional banking institutions included in the SCAP are based on more adverse economic and credit scenarios, and (2) Federal banking regulators are focused on the composition of regulatory capital. Specifically, the regulators have indicated that voting common equity should be the dominant element of Tier 1 capital and have established a 4% Tier 1 common/risk-weighted assets ratio as a threshold for determining capital needs. Although the SCAP results are not applicable to us, they do express general regulatory expectations. Our Tier 1 common/risk-weighted assets ratio was 3.13% as of March 31, 2009.

As a result, we are conducting the Exchange Offer in order to increase our common equity capital to accommodate the more adverse economic and credit scenarios assumed under the SCAP as applied to regional banking institutions and have structured the Exchange Offer to increase our Tier 1 common equity by up to approximately \$1.2 billion (based on the High Participation Scenario (as defined under "Unaudited Pro Forma Financial Information" below), based on a High Participation Scenario. Our future interest expense associated with our Trust Preferred Securities will also be reduced.

In addition, we may act opportunistically to raise further Tier 1 common equity or increase our Tier 1 common ratio through sales of non-core assets and businesses and, if necessary, the further issuance of common equity and other Tier 1 common qualifying instruments for cash.

The resulting capital issuances of the Exchange Offer and any additional transactions will likely be highly dilutive to our common stockholders and may affect the market price of our Common Stock. In addition,

Table of Contents**Questions and answers about the Exchange Offer**

our Federal banking regulators are re-emphasizing the importance of a number of risk, capital and liquidity management issues and are requiring us to maintain enhanced internal management processes geared towards achieving and maintaining capital levels that are commensurate with our business activities and risks of all types.

What are the key terms of the Preferred Stock Exchange Offer?

Ø We are offering to exchange newly issued shares of our Common Stock for any and all issued and outstanding shares of Series A and Series B Preferred Stock.

Ø For each share of Preferred Stock that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the Exchange Value set forth in the table below:

Title of Securities Represented by Shares of Preferred Stock	Exchange Value
6.375% Non-cumulative Monthly Income Preferred Stock, Series A	\$ 20
8.25% Non-cumulative Monthly Income Preferred Stock, Series B	\$ 20

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to above.

Ø We are seeking the consent of holders of shares of Series A Preferred Stock and Series B Preferred Stock, each acting as a separate class (the Preferred Stock Consent), to issue to the U.S. Treasury, as the holder of our shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series C (the Series C Preferred Stock), shares of preferred stock that will be senior (Senior Preferred Stock) to the shares of Preferred Stock, either in exchange for shares of the Series C Preferred Stock, by redesignating the Series C Preferred Stock as Senior Preferred Stock, or in another transaction in which the shares of Series C Preferred Stock are cancelled and new shares of Senior Preferred Stock are issued (collectively, the Series C Preferred Stock Exchange). We are requiring holders of shares of Preferred Stock that participate in the Preferred Stock Exchange Offer to grant their consent to such modifications or, if they did not hold their shares of Preferred Stock on June 1, 2009 (the Preferred Stock Record Date), to provide a Tender Certification to that effect. See The Exchange Offer Purpose and Background of the Transactions Preferred Stock Consent. In order to approve the Series C Preferred Exchange, we are required to receive the consent of 66% of the shares of Series A Preferred Stock and 66 2/3% of the shares of Series B Preferred Stock, each acting as a separate class. If such Consents are not obtained, we will seek the agreement of the U.S. Treasury, as holder of the Series C Preferred Stock, in consideration of their consent to the Exchange Offer without requiring any adjustment to the terms of the warrant that was issued to the U.S. Treasury at the time that the Series C Preferred Stock was issued, to exchange its Series C Preferred Stock for newly issued trust preferred securities having a distribution rate equal to the dividend rate on the Series C Preferred Stock.

Ø On June 8, 2009, we announced the suspension of dividends on our Common Stock and Series A and Series B Preferred Stock following the payment of the dividend for the month of June on June 30, 2009, and we intend to delist and, to the extent permitted by law to deregister, each series of Preferred Stock following the consummation of the Exchange Offer. We also announced the suspension of dividends on our Common Stock. Either as a result of giving effect to the Series C Preferred Stock Exchange or the exchange of Series C Preferred Stock into newly issued trust preferred securities, the U.S. Treasury will continue to receive dividends with respect to its investment in our securities without regard to the suspension of dividends on the Series A and Series B Preferred Stock.

What are the key terms of the Trust Preferred Securities Exchange Offer?

- ∅ We are offering to exchange newly issued shares of our Common Stock for any and all issued and outstanding Trust Preferred Securities, subject to prorationing based on the Acceptance Priority Levels set forth in the table below.
- ∅ For each Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the Exchange Value for the applicable series set forth in the table below.
- ∅ If the aggregate liquidation preference of all shares of Preferred Stock and the aggregate liquidation amount of all Trust Preferred Securities tendered in the Exchange Offer would result in the issuance, upon consummation of the Exchange Offer, of a number of shares of our Common Stock in excess of 390,000,000 shares, we will accept for tender only that number of Trust Preferred Securities for a series in accordance with the Acceptance Priority Levels set forth below that will ensure that not more than 390,000,000 shares of our Common Stock are issued in the Exchange Offer. Even if all shares of Preferred Stock and all Trust Preferred Securities with Acceptance Priority Level 1 below are tendered for exchange, all Trust Preferred Securities with Acceptance Priority Level 1 that are validly tendered will be accepted for exchange, without prorationing. However, we may have to reduce (on a prorated basis) the number of Trust Preferred Securities of Acceptance Priority Level 2 that we accept in this Exchange Offer to remain within this limit.
- ∅ The table below sets forth certain information regarding the series of Trust Preferred Securities that are the subject of the Exchange Offer, along with the Acceptance Priority Levels for proration and non-acceptance.

Acceptance Priority Level	Title of Securities	Issuer	Liquidation Amount Per Trust Preferred Security	Exchange Value
1	8.327% Trust Preferred Securities	BanPonce Trust I	\$ 1,000	\$ 750.00
1	6.564% Trust Preferred Securities	Popular North America Capital Trust I	\$ 1,000	\$ 750.00
2	6.70% Cumulative Monthly Income Trust Preferred Securities	Popular Capital Trust I	\$ 25	\$ 22.50
2	6.125% Cumulative Monthly Income Trust Preferred Securities	Popular Capital Trust II	\$ 25	\$ 22.50

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each Trust Preferred Security we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to above.

- ∅ The proration applicable to the Trust Preferred Securities with Acceptance Priority Level 2 cannot be calculated until the Exchange Offer has been completed. As a result, at the time you tender your Trust Preferred Securities of these two series, you will not know whether we will accept any or all of your tendered Trust Preferred Securities. For example, if all issued and outstanding shares of Preferred Stock are tendered for exchange in the Preferred Stock Exchange Offer and the Relevant Price is determined based on the Minimum Share Price of \$2.50 per

Edgar Filing: POPULAR INC - Form S-4

share, we will issue approximately 188 million shares of our Common Stock in the Preferred Stock Exchange Offer, leaving approximately 202 million shares of our Common Stock available for issuance in the Trust Preferred Securities Exchange Offer. In

that case, the remaining shares of our Common Stock will be enough such that any and all issued and outstanding 8.327% Trust Preferred Securities and 6.564% Trust Preferred Securities, comprising Acceptance Priority Level 1, would be accepted for exchange, without prorationing. However, assuming full participation of holders of the Preferred Stock, the 8.327% Trust Preferred Securities and the 6.564% Trust Preferred Securities, the 6.70% Cumulative Monthly Income Trust Preferred Securities and the 6.125% Cumulative Monthly Income Trust Preferred Securities, comprising Acceptance Priority Level 2, would be subject to prorationing on a pro rata basis.

- Ø If no shares of Preferred Stock are validly tendered in the Preferred Stock Exchange Offer, all validly tendered Trust Preferred Securities could be accepted for exchange pursuant to the Trust Preferred Securities Exchange Offer.
 - Ø We will pay cash for any accrued and unpaid distributions on any Trust Preferred Securities (but not in respect of any accumulated and unpaid dividends in respect of any shares of Preferred Stock) accepted in the Trust Preferred Securities Exchange Offer to but excluding the date of settlement of the Exchange Offer.
 - Ø As previously announced, we expect to continue to pay distributions on our Trust Preferred Securities in accordance with their current terms. However, there can be no assurance that those distributions will continue. If the Exchange Offer is not successful or if we otherwise have the need to further increase our Tier 1 common equity, a suspension of distributions on the Trust Preferred Securities is one of the possible actions that we might take in response.
 - Ø We are not seeking approval of holders of the Trust Preferred Securities to modify the terms of any series of Trust Preferred Securities. However, following the Exchange Offer we plan to merge each Trust into a new Delaware statutory trust as permitted by the terms of each Trust's governing documents. In connection with each merger, the Trust Preferred Securities of each series we acquire in the Exchange Offer will be exchanged for an equivalent aggregate principal amount of underlying debentures and all Trust Preferred Securities not acquired by us in the Exchange Offer will be converted into trust preferred securities of the applicable new trust with terms substantially identical to the terms of the Trust Preferred Securities of that series. No merger will adversely affect the rights of the holders of any series of Trust Preferred Securities.
- See The Exchange Offer Terms of the Trust Preferred Securities Exchange Offer.

What consideration are we offering in exchange for shares of Preferred Stock and Trust Preferred Securities?

For each share of Preferred Stock or Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value (the Exchange Value) set forth in the applicable table above. We refer to the number of shares of our Common Stock we will issue (based on the Relevant Price (as defined below)) for each share of Preferred Stock or Trust Preferred Security we accept in the Exchange Offer as the exchange ratio. The Relevant Price will be fixed at 4:30 p.m., New York City time, on the second business day immediately preceding the expiration date of the Exchange Offer (which we currently expect to be July 1, 2009, unless the Exchange Offer is extended), and will be announced prior to 9:00 a.m., New York City time, on the immediately succeeding trading day (which we currently expect to be July 2, 2009, unless the Exchange Offer is extended) and will be equal to the greater of (1) the average Volume Weighted Average Price, or VWAP, of a share of our Common Stock during the five trading day period ending on the second business day immediately preceding the expiration date of the Exchange Offer, determined as described later in this prospectus and (2) the Minimum Share Price of \$2.50 per share of our Common Stock.

Questions and answers about the Exchange Offer

We will round the applicable exchange ratio for each series down to four decimal places.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock or Trust Preferred Security we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to above.

We will pay cash for any accrued and unpaid distributions on any Trust Preferred Securities (but not in respect of any accumulated and unpaid dividends in respect of any shares of Preferred Stock) accepted in the Trust Preferred Securities Exchange Offer to but excluding the date of settlement of the Exchange Offer.

How will the Average VWAP be determined?

Average VWAP during a period means the arithmetic average of VWAP for each trading day during that period. VWAP for any day means the per share volume weighted average price of our Common Stock on that day as displayed under the heading Bloomberg VWAP on Bloomberg Page BPOP US <equity> VAP (or its equivalent successor page if such page is not available) in respect of the period from the scheduled open of trading on the relevant trading day until the scheduled close of trading on the relevant trading day (or if such volume weighted average price is unavailable, the market price of one share of our Common Stock on such trading day determined, using a volume weighted average method, by a nationally recognized investment banking firm retained by us for that purpose).

How may I obtain information regarding the Relevant Price and applicable Exchange Ratios?

Throughout the Exchange Offer, indicative exchange ratios will be available at <http://www.popularinc.com/exchangeoffer> and from our information agent, Global Bondholder Services Corporation, the Information Agent, at one of its numbers listed on the back cover page of this prospectus. We will announce the final exchange ratio for each series of Preferred Stock and Trust Preferred Securities prior to 9:00 a.m., New York City time, on the business day immediately succeeding the second business day prior to the expiration date of the Exchange Offer (which we currently expect to be July , 2009, unless the Exchange Offer is extended), and those final exchange ratios will also be available by that time at <http://www.popularinc.com/exchangeoffer> and from the Information Agent. No additional information on our website is deemed to be part of or incorporated by reference in this prospectus.

Is there a limit on the number of shares of our Common Stock I can receive for each share of Preferred Stock or Trust Preferred Security that I tender?

Yes. As a result of the Minimum Share Price limitation, the maximum number of shares of our Common Stock that we may issue under the Exchange Offer per \$25 liquidation preference of Preferred Stock is 8 shares, per \$25 liquidation amount of Trust Preferred Securities is 9 shares and per \$1,000 liquidation amount of Trust Preferred Securities is 300 shares.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock or Trust Preferred Security we accept for exchange may be less than, equal to or greater than the relevant Exchange Value referred to above.

Table of Contents**Questions and answers about the Exchange Offer****Will all shares of Preferred Stock that I tender be accepted in the Exchange Offer?**

Yes. We will accept all tenders for shares of Preferred Stock in this Exchange Offer.

Will all Trust Preferred Securities that I tender be accepted in the Exchange Offer?

Not necessarily. We will issue no more than 390,000,000 shares of our Common Stock in the Exchange Offer. Depending on the number of Trust Preferred Securities tendered in the Exchange Offer and the exchange ratio determined as described above, we may have to prorate or not accept Trust Preferred Securities in the Exchange Offer to remain within this limit. Any Trust Preferred Securities of a series not accepted for exchange as a result of proration will be returned to tendering holders promptly after the final proration factor is determined. See The Exchange Offer Terms of the Trust Preferred Securities Exchange Offer Acceptance Priority Levels; Prorating.

The following table shows the percentage of tendered Trust Preferred Securities of each series that will be accepted at various assumed levels for Average VWAP in two scenarios: (1) 90% of the shares of Preferred Stock and Trust Preferred Securities are tendered and (2) 70% of the shares of Preferred Stock and Trust Preferred Securities are tendered:

Will fractional shares be issued in the Exchange Offer?

We will not issue fractional shares of our Common Stock in the Exchange Offer. Instead, the number of shares of Common Stock received by each holder whose shares of Preferred Stock or Trust Preferred Securities accepted for exchange in the Exchange Offer will be rounded down to the nearest whole number.

What are the key terms applicable to the Exchange Offer?

∅ The Exchange Offer will expire at 11:59 pm., New York time on July , 2009, unless extended or earlier terminated by us.

∅ You may withdraw any shares of Preferred Stock or Trust Preferred Securities that you previously tendered in the Exchange Offer on or prior to the expiration of the Exchange Offer. Table of Contents**Summary**

The following summary highlights material information contained in this prospectus. It may not contain all of the information that is important to you and is qualified in its entirety by the more detailed information included or incorporated by reference in this prospectus. Before deciding to exchange your securities for shares of our Common Stock, you should carefully consider the information contained in and incorporated by reference in this prospectus, including the information set forth under the heading "Risk Factors" on page 31 in this prospectus and the information set forth under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009.

THE COMPANY AND THE TRUSTS

Popular, Inc. is a full service financial institution with operations in Puerto Rico, the mainland United States, the Caribbean and Latin America. Headquartered in San Juan, Puerto Rico, Popular offers financial services in Puerto Rico and the mainland United States and processing services in the Caribbean and Latin America. As of March 31, 2009, Popular had approximately \$37.7 billion in assets, \$27.1 billion in deposits and \$3.1 billion in stockholders' equity.

Each of the four trusts (the "Trusts") that issued Trust Preferred Securities eligible to participate in the Trust Preferred Securities Exchange Offer is a Delaware statutory trust. Popular or its wholly-owned subsidiary Popular North America, is the sole stockholder of all the common securities of each of the Trusts. The sole asset and only source of funds to make payments on the Trust Preferred Securities of each Trust is junior subordinated indebtedness issued by Popular (or its wholly-owned subsidiary Popular North America). To the extent that a Trust receives interest payments on the indebtedness, it is obligated to distribute those amounts to the holders of Trust Preferred Securities in the form of monthly or semi-annual distributions. Popular has provided holders of Trust Preferred Securities a guarantee in support of each Trust's obligation to make distributions on the Trust Preferred Securities, but only to the extent the Trust has funds available for distribution. In the event that a Trust does not receive interest payments on the indebtedness, whether because of a permitted deferral or otherwise, the Trust has no obligation to make distributions to holders of Trust Preferred Securities. We currently expect to continue making distributions on each series of Trust Preferred Securities in accordance with their current terms. However, there can be no assurance that those distributions will continue. If the Exchange Offer is not successful or if we otherwise have the need to increase our Tier 1 common equity, a suspension of distributions on the Trust Preferred Securities is one of the possible actions that we might take in response.

Following the Exchange Offer we plan to merge each Trust into a new Delaware statutory trust as permitted by the terms of each Trust's governing documents. In connection with each merger, the Trust Preferred Securities of each series we acquire in the Exchange Offer will be exchanged for an equivalent aggregate principal amount of underlying debentures and all Trust Preferred Securities not acquired by us in the Exchange Offer will be converted into trust preferred securities of the applicable new trust with terms substantially identical to the terms of the Trust Preferred Securities of that series. No merger will adversely affect the rights of the holders of any series of Trust Preferred Securities.

Popular's principal executive offices are located at 209 Muñoz Rivera Avenue, Hato Rey, Puerto Rico 00918, and our telephone number is (787) 765-9800.

BACKGROUND TO THE TRANSACTION

The Exchange Offer

As part of the U.S. Government's Financial Stability Plan, on February 25, 2009, the U.S. Treasury announced preliminary details of its Capital Assistance Program, or the CAP. To implement the CAP, the Federal Reserve, the Federal Reserve Banks, the FDIC and the Office of the Comptroller of the Currency commenced a review, referred to as the Supervisory Capital Assessment Program, or the SCAP, of the capital of the 19 largest U.S. banking institutions. Popular was not included in the group of 19 banking institutions reviewed under the SCAP. On May 7, 2009, Federal banking regulators announced the results of the SCAP and determined that 10 of the 19 banking institutions were required to raise additional capital and to submit a capital plan to their Federal banking regulators by June 8, 2009 for their review.

Even though we were not one of the banking institutions included in the SCAP, we have closely assessed the announced SCAP results, particularly noting that (1) the SCAP credit loss assumptions applied to regional banking institutions included in the SCAP are based on more adverse economic and credit scenarios, and (2) Federal banking regulators are focused on the composition of regulatory capital. Specifically, they have indicated that voting common equity should be the dominant element of Tier 1 capital and have established a 4% Tier 1 common/risk-weighted assets ratio as a threshold for determining capital needs. Although the SCAP results are not applicable to us, they do express general regulatory expectations.

While Popular is well capitalized based on a Tier 1 Capital basis at 11.16%, we believe that an improvement in the composition of our regulatory capital, including Tier 1 common equity, will better position us in a more adverse economic and credit scenario. Our Tier 1 common/risk-weighted assets ratio was 3.13% as of March 31, 2009.

As a result, we are conducting the Exchange Offer in order to increase our common equity capital to accommodate the more adverse economic and credit scenarios assumed under the SCAP as applied to regional banking institutions and have structured the Exchange Offer to increase our Tier 1 common equity by up to approximately \$1.2 billion (based on the High Participation Scenario (as defined under Unaudited Pro Forma Financial Information below), based on a High Participation scenario. Our future interest expense associated with our Trust Preferred Securities will also be reduced.

The following table sets forth our regulatory capital ratios, as of March 31, 2009, on an as reported basis, as well as on a pro forma basis after giving effect to the Exchange Offer. The pro forma ratios presented reflect: (i) completion of the Exchange Offer under the Low Participation Scenario (as defined under Unaudited Pro Forma Financial Information below) and (ii) completion of the Exchange Offer under the High Participation Scenario (as defined under Unaudited Pro Forma Financial Information below). This table should be read in conjunction with the information set forth under Selected Financial Data and Unaudited Pro Forma Financial Information and our consolidated unaudited financial statements set forth in our Form 10-Q for the quarter ended March 31, 2009, which are incorporated by reference into this prospectus. See also Risk Factors.

In addition, we may act opportunistically to raise further Tier 1 common equity or increase our Tier 1 common ratio through sales of non-core assets and businesses and, if necessary, the further issuance of common equity and other Tier 1 common qualifying instruments for each.

Dividend Suspension on Common Stock and Preferred Stock

On June 8, 2009, we announced the suspension of dividends indefinitely on our Common Stock and on our Series A and Series B Preferred Stock following the payment of the dividend on the Preferred Stock for the month of June on June 30, 2009.

We currently expect to continue making distributions on each series of Trust Preferred Securities in accordance with their current terms. However, there can be no assurance that those distributions will continue. If the Exchange Offer is not successful or if we otherwise have need to increase our Tier 1 common equity, a suspension of distributions on the Trust Preferred Securities is one of the possible actions that we might take in response.

Either as a result of giving effect to the Series C Preferred Stock Exchange or the exchange of Series C Preferred Stock into newly issued trust preferred securities, as described below, the U.S. Treasury will continue to receive dividends with respect to its investment in our securities despite the suspension of dividends indefinitely on our Common Stock and on the Series A and Series B Preferred Stock.

Preferred Stock Consent

Together with this prospectus, we have delivered to holders of shares of Series A Preferred Stock and Series B Preferred Stock a Consent Solicitation Statement (as defined below) under which we are seeking consent from the holders of shares of Series A Preferred Stock and Series B Preferred Stock under the certificates of designation (each, a Certificate of Designation) of each such series of Preferred Stock, acting as a separate class (the Preferred Stock Consent) to the Series C Preferred Exchange by either:

- ∅ issuing to the U.S. Treasury, as the holder of our shares of Fixed Rate Cumulative Perpetual Preferred Stock, Series C (the Series C Preferred Stock), in exchange for shares of the Series C Preferred Stock, shares of preferred stock that will be senior (Senior Preferred Stock) to the shares of Preferred Stock;
 - ∅ by redesignating the Series C Preferred Stock as Senior Preferred Stock; or
 - ∅ entering into another form of transaction with the U.S. Treasury, as the holder of our Series C Preferred Stock, in which its shares of Series C Preferred Stock are cancelled and Senior Preferred Stock are issued.
- Pursuant to the Consent Solicitation Statement, we are soliciting Consents (as defined below) from holders of shares of the Preferred Stock as of the close of business on June 1, 2009 (the Preferred Stock Record Date).

Table of Contents

In order to validly tender your shares of Preferred Stock in the Exchange Offer, you must: (1) if you were a *record holder* of your shares of Preferred Stock as of the Preferred Stock Record Date, give a written consent in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock, in favor of the Preferred Stock Consent, or (2) if you were a *beneficial owner* of shares of Preferred Stock as of the Preferred Stock Record Date, contact your bank, broker, custodian, commercial bank, trust company or other nominee promptly and instruct it to give to a voting instruction in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock, in favor of the Preferred Stock Consent (each of the Consents and instructions referred to in (1) and (2) above, a Tendering Consent).

If you were not a record holder or a beneficial holder of your shares of Preferred Stock as of the Preferred Stock Record Date, you will not be required to grant a Tendering Consent with respect to such shares in order to tender your shares in the Exchange Offer, but you will be required to certify that you were not a holder of shares of Preferred Stock as of the Preferred Stock Record Date and are not entitled to consent with respect to such shares of Preferred Stock (a Tender Certification).

If you do not wish to tender your shares of Preferred Stock in the Exchange Offer, but you wish to take action with respect to the Preferred Stock Consent, you must: (1) if you were a *record holder* of your shares of Preferred Stock as of the Preferred Stock Record Date, using the detachable form provided in the accompanying letter of transmittal, to consent to, withhold consent on, or abstain on the applicable Preferred Stock Consent and discard the remaining portions of the accompanying letter of transmittal, or (2) if you were a *beneficial owner* of shares of Preferred Stock as of the Preferred Stock Record Date, contact your bank, broker, custodian, commercial bank, trust company or other nominee promptly and instruct it to give a voting instruction on your behalf in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock (each of the instructions referred to in (1) and (2) above, a Non-Tendering Consent and, together with each Tendering Consent, a Consent).

In order to approve the Series C Preferred Exchange, we are required to receive the consent of 66²/₃% of the shares of Series A Preferred Stock and 66²/₃% of the shares of Series B Preferred Stock, each acting as a separate class. If such Consents are not obtained, we will seek the agreement of the U.S. Treasury, as holder of the Series C Preferred Stock, in consideration of their consent to the Exchange Offer without requiring any adjustment to the terms of the warrant that was issued to the U.S. Treasury at the time that the Series C Preferred Stock was issued, to exchange its Series C Preferred Stock for newly issued trust preferred securities having a dividend rate equal to the dividend rate on the Series C Preferred Stock.

When acting on Preferred Stock Consent, the Preferred Stock votes by number of shares, with holders being entitled to one vote per share of Preferred Stock.

For additional information on the Preferred Stock Consent, please refer to the proxy statement on Schedule 14A filed by Popular on June 1, 2009, describing the Preferred Stock Consent (the Consent Solicitation Statement), which we are delivering to holders of shares of Preferred Stock together with this prospectus.

Summary Terms of the Exchange Offer

Preferred Stock Exchange Offer

We are offering to issue up to 390,000,000 newly issued shares of our Common Stock in exchange for any and all of the issued and outstanding shares of Preferred Stock, validly tendered and not validly withdrawn on or prior to the expiration date, upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal (including, if the Preferred Stock Exchange Offer is extended or amended, the terms and conditions of any such extension or amendment).

For each share of Preferred Stock that we accept for exchange in accordance with the terms of the Preferred Stock Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value set forth in the applicable table below. The Relevant Price is equal to the greater of (1) the average Volume Weighted Average Price, or VWAP, of a share of our Common Stock during the five trading day period ending on the second business day immediately preceding the expiration date of the Exchange Offer, determined as described later in this prospectus and (2) the Minimum Share Price of \$2.50 per share of our Common Stock.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to below.

Set forth below is a table that shows, with respect to each series of shares of Preferred Stock, the aggregate liquidation preference outstanding, the liquidation preference per share of Preferred Stock and the applicable Exchange Value for each series.

CUSIP	Title of Securities	Aggregate	Liquidation		Exchange Value
		Liquidation Preference Outstanding	Share	Preference Per	
733174304	6.375% Non-cumulative Monthly Income Preferred Stock, Series A	\$ 186,875,000	\$	25	\$ 20

Trust Preferred Securities Exchange Offer

Concurrently with the Preferred Stock Exchange Offer, we are also offering to exchange newly issued shares of our Common Stock for any and all issued and outstanding Trust Preferred Securities, subject to proration based on the Acceptance Priority Levels set forth in the table below. For each Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the Exchange Value set forth in the applicable table below. If the aggregate liquidation preference of all shares of Preferred Stock and the aggregate liquidation amount of all Trust Preferred Securities tendered in the Exchange Offer would result in the issuance, upon consummation of the Exchange Offer, of a number of shares of our Common Stock equal to or in excess of 390,000,000 shares, we will accept for tender only that number of Trust Preferred Securities of a series in accordance with the Acceptance Priority Levels set forth below that will ensure that not more than 390,000,000 shares of our Common Stock are issued in the Exchange Offer. Accordingly, we may have to reduce (on a prorated basis) the Trust Preferred Securities that we accept in this Exchange Offer to remain within this limit.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to below.

Table of Contents

The table below sets forth certain information regarding the series of Trust Preferred Securities that are the subject of the Exchange Offer, along with the Acceptance Priority Levels for proration and non-acceptance.

Acceptance

Priority	Level	CUSIP	Title of Securities	Issuer	Aggregate	Liquidation Amount	
					Liquidation Amount Outstanding	Per Trust Preferred Security	Exchange Value
1		066915AA7	8.327% Trust Preferred Securities	BanPonce Trust I	\$ 144,000,000	\$ 1,000	\$ 750.00
1		733186AA8	6.564% Trust Preferred Securities	Popular North America Capital Trust I	\$ 250,000,000	\$ 1,000	\$ 750.00
2		73317W203	6.70% Cumulative Monthly Income Trust Preferred Securities	Popular Capital Trust I	\$ 300,000,000	\$ 25	\$ 22.50
2		73317H206	6.125% Cumulative Monthly Income Trust Preferred Securities	Popular Capital Trust II	\$ 130,000,000	\$ 25	\$ 22.50

The proration applicable to the Trust Preferred Securities with Acceptance Priority Level 2 cannot be calculated until the Exchange Offer has been completed. As a result, at the time you tender your Trust Preferred Securities of those two series, you will not know whether we will accept any or all of your tendered Trust Preferred Securities with Acceptance Priority Level 2. For example, if all issued and outstanding shares of Preferred Stock are tendered for exchange in the Preferred Stock Exchange Offer and the Relevant Price is determined based on the Minimum Share Price of \$2.50 per share, we will issue approximately 188 million shares of our Common Stock in the Preferred Stock Exchange Offer, leaving approximately 202 million shares of our Common Stock available for issuance in the Trust Preferred Securities Exchange Offer. In that case, the remaining shares of our Common Stock will be enough such that any and all issued and outstanding 8.327% Trust Preferred Securities and 6.564% Trust Preferred Securities, comprising Acceptance Priority Level 1, would be accepted for exchange, without proration. However, assuming full participation of holders of the Preferred Stock, the 8.327% Trust Preferred Securities and the 6.564% Trust Preferred Securities, the 6.70% Cumulative Monthly Income

Table of Contents

Trust Preferred Securities and the 6.125% Cumulative Monthly Income Trust Preferred Securities, comprising Acceptance Priority Level 2, would be subject to prorationing on a pro rata basis.

If no shares of Preferred Stock are validly tendered in the Preferred Stock Exchange Offer, all validly tendered Trust Preferred Securities could be accepted for exchange pursuant to the Trust Preferred Securities Exchange Offer.

We will pay cash for any accrued and unpaid distributions on any Trust Preferred Securities (but not in respect of any accumulated and unpaid dividends on any shares of Preferred Stock) accepted in the Trust Preferred Securities Exchange Offer to but excluding the date of settlement of the Exchange Offer.

We are not seeking approval of holders of the Trust Preferred Securities to modify the terms of any series of Trust Preferred Securities. However, following the Exchange Offer we plan to merge each Trust into a new Delaware statutory trust as permitted by the terms of each Trust's governing documents. In connection with each merger, the Trust Preferred Securities of each series we acquire in the Exchange Offer will be exchanged for an equivalent aggregate principal amount of underlying debentures and all Trust Preferred Securities not acquired by us in the Exchange Offer will be converted into trust preferred securities of the applicable new trust with terms substantially identical to the terms of the Trust Preferred Securities of that series. No merger will adversely affect the rights of the holders of any series of Trust Preferred Securities.

Purpose of the Exchange Offer

The purpose of the Exchange Offer is to improve our capital structure by increasing our Tier 1 common equity and to reduce our interest expense liability associated with our Trust Preferred Securities.

Consideration Offered in the Exchange Offer

We are offering to exchange up to 390,000,000 newly issued shares of our Common Stock for outstanding shares of Preferred Stock and Trust Preferred Securities of the series identified on the cover page of this document, on the terms and subject to the conditions set forth in this

Table of Contents

prospectus and in the accompanying letter of transmittal.
As of May 31, 2009, we had approximately 282 million shares of Common Stock outstanding.

We will accept properly tendered shares of Preferred Stock and Trust Preferred Securities for exchange for the Exchange Value (as defined below), on the terms and subject to the conditions of the Exchange Offer and subject to the proration provisions described below. We will promptly return any securities that are not accepted for exchange following the expiration or termination, as applicable, of the Exchange Offer and the determination of the final proration factor, if any, for the two series with Acceptance Priority Level 2, described below.

For each share of Preferred Stock or Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value (the Exchange Value) set forth in the applicable table below. We refer to the number of shares of our Common Stock we will issue (based on the Relevant Price (as defined below)) for each share of Preferred Stock or Trust Preferred Security we accept in the Exchange Offer as the exchange ratio. The Relevant Price will be fixed at 4:30 p.m., New York City time, on the second business day immediately preceding the expiration date of the Exchange Offer (which we currently expect to be July 1, 2009, unless the Exchange Offer is extended), will be announced prior to 9:00 a.m., New York City time, on the immediately succeeding trading day (which we currently expect to be July 2, 2009, unless the Exchange Offer is extended) and will be equal to the greater of (1) the average Volume Weighted Average Price, or VWAP, of a share of our Common Stock during the five trading day period ending on the second business day immediately preceding the expiration date of the Exchange Offer, determined as described later in this prospectus and (2) the Minimum Share Price of \$2.50 per share of our Common Stock.

We will round the applicable exchange ratio for each series down to four decimal places.

Table of Contents

As a result of the Minimum Share Price limitation, the maximum number of shares of our Common Stock that we may issue under the Exchange Offer per \$25 liquidation preference of Preferred Stock is 8 shares, per \$25 liquidation amount of Trust Preferred Securities is 9 shares and per \$1,000 liquidation amount of Trust Preferred Securities is 300 shares.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock or Trust Preferred Security we accept for exchange may be less than, equal to or greater than the relevant Exchange Value referred to above.

We will also pay cash for any accrued and unpaid distributions on any Trust Preferred Securities (but not in respect of any accumulated and unpaid dividends on any shares of Preferred Stock) accepted in the Exchange Offer to, but excluding, the date of settlement of the Exchange Offer.

We are not making a recommendation as to whether you should exchange your shares of Preferred Stock or Trust Preferred Securities in the Exchange Offer. We have not retained, and do not intend to retain, any unaffiliated representative to act solely on behalf of the holders of the shares of Preferred Stock or Trust Preferred Securities for purposes of negotiating the Exchange Offer or preparing a report concerning the fairness of the Exchange Offer. You must make your own independent decision regarding your participation in the Exchange Offer.

Publication of Exchange Ratio Information

Throughout the Exchange Offer, the indicative Average VWAP, the Minimum Share Price, the resultant indicative Relevant Price, and the indicative exchange ratios will be available at <http://www.popularinc.com/exchangeoffer> and from our information agent, Global Bondholder Services Corporation, the Information Agent, at one of its numbers listed on the back cover page of this prospectus. We will announce the final exchange ratio for each series of Preferred Stock and Trust Preferred Securities prior to 9:00 a.m., New York City time, on the business day immediately succeeding the second business day

prior to the expiration date of the Exchange Offer (which we currently expect to be July , 2009, unless the Exchange Offer is extended), and those final exchange ratios will also be available by that time at <http://www.popularinc.com/exchangeoffer> and from the Information Agent. No additional information on our website is deemed to be part of or incorporated by reference in this prospectus.

Expiration Date

The Exchange Offer will expire at 11:59 pm., New York time, on July , 2009, unless the Exchange Offer is extended or earlier terminated by us. The term expiration date means such date and time or, if an Exchange Offer is extended, the latest date and time to which the Exchange Offer is so extended.

Proration

We will issue no more than 390,000,000 shares of our Common Stock in the Exchange Offer. Depending on the number of Trust Preferred Securities tendered in the Exchange Offer and the exchange ratio determined as described above, we may have to prorate Trust Preferred Securities of the series with Acceptance Priority Level 2 in the Exchange Offer to remain within this limit. Any Trust Preferred Securities not accepted for exchange as a result of proration will be returned to tendering holders promptly after the final proration factor for each series is determined. See The Exchange Offer Terms of the Trust Preferred Securities Exchange Offer Acceptance Priority Levels; Prorating.

Fractional Shares

We will not issue fractional shares of our Common Stock in the Exchange Offer. Instead, the number of shares of Common Stock received by each holder whose share of Preferred Stock or Trust Preferred Securities are accepted for exchange in the Exchange Offer will be rounded down to the nearest whole number.

Settlement Date

The settlement date with respect to the Exchange Offer will be a date promptly following the expiration date. We currently expect the settlement date to be three trading days after the expiration date.

Withdrawal Rights

You may withdraw previously tendered shares of Preferred Stock or Trust Preferred Securities at any time before the expiration date of the Exchange Offer. In addition, you may withdraw any shares

Table of Contents

of Preferred Stock or Trust Preferred Securities that you tender that are not accepted by us for exchange after the expiration of 40 business days after the commencement of the Exchange Offer. Unless you expressly revoke any Consent that you delivered with respect to those withdrawn shares of Preferred Stock, any Consent will be considered to remain in effect.

See The Exchange Offer Withdrawal of Tenders.

Conditions to the Exchange Offer

Our obligation to exchange shares of our Common Stock for shares of Preferred Stock and Trust Preferred Securities in the Exchange Offer is subject to a number of conditions that must be satisfied or waived by us, including, among others, that there has been no change or development (affecting our business or otherwise) that in our reasonable judgment may materially reduce the anticipated benefits to us of the Exchange Offer or that has had, or could reasonably be expected to have, a material adverse effect on us, our businesses, condition (financial or otherwise) or prospects. Our obligation to exchange is not subject to any minimum tender condition. The Exchange Offer is not subject to receiving the Preferred Stock Consent. See The Exchange Offer Conditions of the Exchange Offer.

Extensions; Waivers and Amendments; Termination

Subject to applicable law, we reserve the right to (1) extend the Exchange Offer; (2) waive any and all conditions to or amend the Exchange Offer in any respect, including amending the Exchange Value or the Minimum Share Price; or (3) terminate the Exchange Offer. Any extension, waiver, amendment or termination will be followed as promptly as practicable by a public announcement thereof, such announcement in the case of an extension to be issued no later than 9:00 a.m., New York City time, on the next business day after the last previously scheduled expiration date. See The Exchange Offer Expiration Date; Extension; Termination; Amendment.

United States Federal Income Tax Considerations

The exchange of the shares of Preferred Stock, 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer will be treated as a recapitalization for U.S. federal income tax purposes. Therefore, except with respect to accrued but unpaid distributions on the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities, no gain or loss will be recognized upon consummation of the Exchange Offer. The exchange of 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for shares of our Common Stock will be treated as a taxable sale or exchange for U.S. federal income tax purposes, and U.S. Holders will recognize gain or loss in an amount equal to the difference between their adjusted tax basis in the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities and the fair market value of the Common Stock received by you pursuant to the Exchange Offer. See Taxation Material U.S. Federal Income Tax Consequences to U.S. Holders. Puerto Rico Income Tax Considerations

The exchange of the shares of Preferred Stock, 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer will be treated as a recapitalization for Puerto Rico income tax purposes. Therefore, except with respect to accrued but unpaid distributions not previously taken into income on the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities, no gain or loss will be recognized upon consummation of the Exchange Offer. The exchange of 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for shares of our Common Stock will be treated as a taxable sale or exchange for Puerto Rico income tax purposes, and Puerto Rico residents and non-residents will recognize gain or loss in an amount equal to the difference between their adjusted tax basis in the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities and the fair market value of the Common Stock received by you pursuant to the Exchange Offer. See Taxation Certain Puerto Rico Tax Considerations. Each prospective investor should consult its own tax advisor regarding the application to its particular circumstances of the Puerto Rico income tax consequences summarized above as well as the application of any, state, local, and foreign income and other tax consequences of exchanging the shares of Preferred Stock or Trust Preferred Securities for our Common Stock and of owning and disposing of our Common Stock.

Consequences of Failure to Exchange Shares of Preferred Stock or Trust Preferred Securities

Shares of Preferred Stock not exchanged in the Exchange Offer will remain outstanding after consummation of the Exchange Offer. As previously announced, we will suspend dividends on the Preferred Stock after the dividend payment on June 30, 2009. We intend to delist any remaining shares of Preferred Stock from trading on the Nasdaq Stock Market and, to the extent permitted by law, we intend to deregister any such remaining shares. The reduction in the number of shares available for trading and the suspension of dividends on the Preferred Stock may have a significant and adverse effect on the liquidity of any trading market for, and the price of, shares of

Table of Contents

Preferred Stock not exchanged in the Preferred Stock Exchange Offer and may result in the shares of Preferred Stock being illiquid for an indefinite period of time. In addition, regardless of whether the Preferred Stock Consent is obtained, Series C Preferred Stock will have a senior right to dividends or distributions, either as Senior Preferred Stock or trust preferred securities. Therefore, we plan to continue to pay dividends or make distributions to the U.S. Treasury notwithstanding the dividend suspension on the Series A and Series B Preferred Stock.

Trust Preferred Securities not exchanged in the Trust Preferred Securities Exchange Offer, will remain outstanding after consummation of the Trust Preferred Securities Exchange Offer. As previously announced, we currently expect to continue making distributions on our Trust Preferred Securities in accordance with their current terms. However, there can be no assurance that those distributions will continue. If the Exchange Offer is not successful or if we otherwise have the need to increase our Tier 1 common equity, a suspension of distributions on the Trust Preferred Securities is one of the possible actions that we might take in response. As described above, we currently intend to deliver any Trust Preferred Securities accepted for exchange in the Trust Preferred Securities Exchange Offer to the applicable trustee for cancellation. As a result, the number of Trust Preferred Securities of any series available for trading may be substantially reduced, and this may have a significant and adverse effect on the liquidity of any trading market for, and the price of, the Trust Preferred Securities of that series not exchanged in the Trust Preferred Securities Exchange Offer and may result in the Trust Preferred Securities of that series being less liquid for an indefinite period of time.

Risk factors

You should carefully consider the risks described below and all of the information contained and incorporated by reference in this prospectus before you decide whether to participate in the Exchange Offer. In particular, you should carefully consider, among other things, the matters discussed below and under "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009.

RISKS RELATED TO THE FUTURE ISSUANCE OF A SIGNIFICANT AMOUNT OF OUR COMMON STOCK AND DILUTION OF HOLDERS OF OUR COMMON STOCK, INCLUDING PARTICIPANTS IN THE EXCHANGE OFFER

Additional assistance from the U.S. Government may further dilute existing holders of our Common Stock, including participants in the Exchange Offer.

In December 2008, Popular issued approximately \$935 million in shares of cumulative preferred stock together with a warrant to purchase up to approximately 21 million shares of our Common Stock at an exercise price of \$6.70 per share to the United States Treasury ("U.S. Treasury"). While the Exchange Offer does not involve any additional investment in Popular by the U.S. Treasury or the U.S. Government, there can be no assurance that there will not be any new regulatory requirements or standards or additional U.S. Government programs or requirements in the future that could result in, or require, additional equity issuances that would further dilute the existing holders of our Common Stock (including participants in the Exchange Offer) perhaps significantly.

Although not currently contemplated, we could obtain Tier 1 common equity by exchanging (with the approval of the U.S. Treasury) a number of shares of the Series C Preferred Stock we issued to the U.S. Treasury under the Capital Purchase Program (the "CPP") for shares of mandatory convertible preferred stock issued under the U.S. Treasury's Capital Assistance Program or the CAP, or for Common Stock or another common equivalent security that the U.S. Treasury otherwise agrees to purchase, directly or indirectly. Such an exchange could also involve the issuance of additional warrants to the U.S. Treasury to purchase additional shares of our common stock as contemplated by the published terms of the CAP. The issuance of additional shares of our Common Stock or common equivalent securities in future equity offerings, to the U.S. Treasury under the CAP or otherwise, or as a result of the exercise of the warrant the U.S. Treasury holds, will dilute the ownership interest of our existing common stockholders and could also involve U.S. Government constraints on our operations.

We may, in the future, determine that it is advisable, or we may encounter circumstances where we determine it is necessary, to issue additional shares of our Common Stock, securities convertible into or exchangeable for shares of our Common Stock, or common-equivalent securities to fund strategic initiatives or other business needs or to build additional capital. The market price of our Common Stock could decline as a result of this offering or other offerings, as well as other sales of a large block of shares of our Common Stock or similar securities in the market thereafter, or the perception that such sales could occur. We may need to increase our authorized capital in order to raise such equity capital.

If holders of our Preferred Stock and Trust Preferred Securities do not participate in the Exchange Offer in sufficient amounts, we may have to increase our Tier 1 common equity through other means, including through asset sales or by raising capital privately or issuing mandatory convertible preferred stock and related warrants to the U.S. Treasury, which could further dilute the existing holders of our Common Stock, including participants in the Exchange Offer.

Table of Contents

Risk factors

In addition, such equity issuances would reduce any earnings available to the holders of our Common Stock and the return thereon unless our earnings increase correspondingly. We cannot predict the size of future equity issuances, if any, or the effect that they may have on the market price of the Common Stock. The issuance of substantial amounts of equity, or the perception that such issuances may occur, could adversely affect the market price of our Common Stock. See also Risk Factors We may raise additional capital, which could have a dilutive effect on the existing holders of our common stock and adversely affect the market price of our Common Stock in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009.

We may need to receive stockholder approval to increase our authorized capital to raise such equity capital.

If holders of Preferred Stock and Trust Preferred Securities participate in the Exchange Offer to a significant extent and/or the Relevant Price of our Common Stock (on which the Exchange Value is based) is at or near the Minimum Share Price, we will issue a significant number of shares of our Common Stock in the Exchange Offer, which will leave us with only a limited number of authorized and unreserved shares of Common Stock to issue in the future.

In order to raise equity capital to any significant extent thereafter, we would be required to obtain stockholder approval to increase our authorized capitalization. Although we obtained approval at our Annual Meeting of Stockholders on May 1, 2009 to increase the authorized number of shares of our Common Stock, from 470,000,000 to 700,000,000, there can be no assurances that our stockholders would approve a further increase. Any failure to receive such approval would impair our ability to raise additional equity capital.

We will not accept shares of Preferred Stock for exchange unless, in the case of tenders by holders of shares of Preferred Stock as of the Preferred Stock Record Date, the tendering holder grants a Consent to approve the Preferred Stock Consent.

Tendering holders of shares of Preferred Stock that were holders of shares of Preferred Stock as of the Preferred Stock Record Date must grant a Consent to approve the Preferred Stock Consent. As a result, even if you believe that the Preferred Stock Consent would not be in your best interest (for example, if you elect to tender some, but not all of your shares of Preferred Stock in the Preferred Stock Exchange Offer), if you were a holder of shares of Preferred Stock as of the Preferred Stock Record Date and wish to tender any of such shares of Preferred Stock you must nonetheless follow the instructions in the accompanying letter of transmittal to execute a written consent in favor of the Preferred Stock Consent with respect to the shares of Preferred Stock you tender.

RISKS RELATED TO THE MARKET PRICE AND VALUE OF THE COMMON STOCK OFFERED IN THE EXCHANGE OFFER

The Exchange Offer will result in a substantial amount of our Common Stock entering the market, which could adversely affect the market price of our Common Stock.

As of May 31, 2009, we had approximately 282 million shares of our Common Stock outstanding. Following consummation of the Exchange Offer, assuming the Exchange Offer is fully subscribed, this figure will increase to approximately 672 million shares of our Common Stock. The issuance of such a large number of shares of our Common Stock will significantly reduce earnings per common share and in such a short period of time could adversely affect the market price of our Common Stock.

Table of Contents

Risk factors

Our performance has declined sharply in recent periods.

Our performance has declined sharply in recent periods largely due to credit quality issues, including increases in nonperforming loans, loan charge-offs and provisions for loan losses. Our ability to regain meaningful profitability is dependent upon a reduction of credit-related costs. This reduction, in turn, is dependent upon a number of economic factors that are beyond our control, including employment and housing price levels.

The Minimum Share Price limitation may result in your receiving shares of our Common Stock worth significantly less than the shares you would receive in the absence of that constraint.

If the Average VWAP is less than the Minimum Share Price, we will use the Minimum Share Price and not the Average VWAP to calculate the number of shares of our Common Stock you will receive. In that case you could receive shares of our Common Stock with a value that may be significantly less than the value of the shares you would receive in the absence of that limitation.

Although the number of shares of our Common Stock offered in the Exchange Offer for each share of Preferred Stock and each Trust Preferred Security will be determined based on the Average VWAP of our Common Stock during the five trading-day period ending on the second business day prior to the currently scheduled expiration date (subject to the Minimum Share Price of \$2.50/share), the market price of our Common Stock will fluctuate, and the market price of such shares of our Common Stock upon settlement of the Exchange Offer could be less than the market price used to determine the number of shares you will receive.

The number of shares of our Common Stock offered for each share of Preferred Stock and Trust Preferred Security accepted for exchange will be determined based on the Average VWAP of the Common Stock during the five trading day period ending on the second business day prior to currently scheduled expiration date (subject to the Minimum Share Price of \$2.50/share) and will not be adjusted regardless of any increase or decrease in the market price of our Common Stock, the Preferred Stock or the Trust Preferred Securities between the expiration date of the Exchange Offer and the settlement date. Therefore, the market price of the Common Stock at the time you receive your Common Stock on the settlement date could be significantly less than the market price used to determine the number of shares you will receive. The market price of our Common Stock has recently been subject to significant fluctuations and volatility.

The market price of our Common Stock may be subject to continued significant fluctuations and volatility.

The stock markets have recently experienced high levels of volatility. These market fluctuations have adversely affected, and may continue to adversely affect, the trading price of our Common Stock. In addition, the market price of our Common Stock has been subject to significant fluctuations and volatility because of factors specifically related to our businesses and may continue to fluctuate or further decline. Factors that could cause fluctuations, volatility or further decline in the market price of our Common Stock, many of which could be beyond our control, include the following:

- ∅ changes or perceived changes in the condition, operations, results or prospects of our businesses and market assessments of these changes or perceived changes;

- ∅ announcements of strategic developments, acquisitions and other material events by us or our competitors;

Risk factors

- Ø changes in governmental regulations or proposals, or new governmental regulations or proposals, affecting us, including those relating to the current financial crisis and global economic downturn and those that may be specifically directed to us;
 - Ø the continued decline, failure to stabilize or lack of improvement in general market and economic conditions in our principal markets;
 - Ø the departure of key personnel;
 - Ø changes in the credit, mortgage and real estate markets;
 - Ø operating results that vary from the expectations of management, securities analysts and investors;
 - Ø operating and stock price performance of companies that investors deem comparable to us; and
 - Ø market assessments as to whether and when the Exchange Offer will be consummated.
- Holders are urged to obtain current market quotations for our Common Stock when they consider the Exchange Offer.

The price of our Common Stock is depressed and may not recover.

The price of our Common Stock has declined significantly from a closing price of \$13.02 on May 1, 2008, to a closing price of \$ on June , 2009, the last trading day prior to the date of this prospectus. There can be no assurance that our stock price will recover to prior levels or to any particular level. Many factors that we cannot predict or control, including the factors listed under The market price of our Common Stock may be subject to continued significant fluctuations and volatility, and factors over which we may only have limited control, including the factors listed under Our performance has declined sharply in recent periods may cause sudden changes in the price of our Common Stock or prevent the price of our Common Stock from recovering.

RISKS RELATED TO THE RIGHTS OF OUR COMMON STOCK COMPARED TO THE RIGHTS OF OUR DEBT OBLIGATIONS AND SENIOR EQUITY SECURITIES, INCLUDING THE SHARES OF PREFERRED STOCK OR TRUST PREFERRED SECURITIES

All of our debt obligations and our senior equity securities, including any shares of Preferred Stock or Trust Preferred Securities that remain outstanding after the Exchange Offer and the securities held by the U.S. Treasury, will have priority over our Common Stock with respect to payment in the event of liquidation, dissolution or winding up, and with respect to the payment of dividends.

In any liquidation, dissolution or winding up of Popular, our Common Stock would rank below all debt claims against us and claims of all of our outstanding shares of preferred stock and other senior equity securities, including any shares of Preferred Stock or Trust Preferred Securities that are not exchanged for Common Stock in the Exchange Offer and the securities held by the U.S. Treasury, which will be either Senior Preferred Stock or newly issued trust preferred securities. As a result, holders of our Common Stock, including holders of shares of Preferred Stock or Trust Preferred Securities whose securities are accepted for exchange in the Exchange Offer, will not be entitled to receive any payment or other distribution of assets upon the liquidation, dissolution or winding up of Popular until after all our obligations to our debt holders have been satisfied and holders of senior equity securities have received any payment or distribution due to them.

Risk factors

In addition, we are required to pay dividends on our preferred stock before we pay any dividends on our Common Stock. Holders of our Common Stock will not be entitled to receive payment of any dividends on their shares of our Common Stock unless and until we resume payments of dividends on our preferred stock.

Holders of Trust Preferred Securities whose securities are accepted in the Exchange Offer will be giving up their right to future distributions on those Trust Preferred Securities.

We have announced that we currently intend to continue paying distributions on our Trust Preferred Securities in accordance with their current terms. However, if your Trust Preferred Securities are tendered and accepted for exchange in the Trust Preferred Securities Exchange Offer, you will be giving up your right to any future distributions on your Trust Preferred Securities and we cannot offer any assurance that we will pay, or that we will be permitted to pay, dividends on our Common Stock in the future.

Dividends on our Common Stock have been suspended and you may not receive funds in connection with your investment in our Common Stock without selling your shares of our Common Stock.

Holders of our Common Stock are only entitled to receive such dividends as our board of directors may declare out of funds legally available for such payments. We have announced the suspension of dividend payments on our Common Stock. In addition, we will be unable to pay dividends on our Common Stock unless and until we resume payments of dividends on our Preferred Stock. Furthermore, prior to December 5, 2011, unless we have redeemed all of the Series C Preferred Stock (or any successor security) or the U.S. Treasury has transferred all of the Series C Preferred Stock (or any successor security) to third parties, the consent of the U.S. Treasury will be required for us to, among other things, increase the dividend rate per share of Common Stock above \$0.08 per share or to repurchase or redeem equity securities, including our Common Stock, subject to certain limited exceptions. This could adversely affect the market price of our Common Stock. Also, we are a bank holding company and our ability to declare and pay dividends is dependent on certain federal regulatory considerations, including the guidelines of the Federal Reserve regarding capital adequacy and dividends. Moreover, the Federal Reserve and the FDIC have issued policy statements stating that the bank holding companies and insured banks should generally pay dividends only out of current operating earnings. In the current financial and economic environment, the Federal Reserve has indicated that bank holding companies should carefully review their dividend policy and has discouraged dividend pay-out ratios that are at the 100% or higher level unless both asset quality and capital are very strong.

In addition, the terms of our outstanding junior subordinated debt securities held by each Trust that has issued Trust Preferred Securities prohibit us from declaring or paying any dividends or distributions on our capital stock, including our Common Stock, or purchasing, acquiring, or making a liquidation payment on such stock, if we have given notice of our election to defer interest payments but the related deferral period has not yet commenced or a deferral period is continuing.

Accordingly, you may have to sell some or all of your shares of our Common Stock in order to generate cash flow from your investment. You may not realize a gain on your investment when you sell the Common Stock and may lose the entire amount of your investment.

Risk factors

Offerings of debt, which would be senior to our Common Stock upon liquidation, and/or preferred equity securities, which may be senior to our Common Stock for purposes of dividend distributions or upon liquidation, may adversely affect the market price of our Common Stock.

We may attempt to increase our capital resources or, if our or the capital ratio of our banking subsidiaries falls below the required minimums, we or our banking subsidiaries could be forced to raise additional capital by making additional offerings of debt or preferred equity securities, including medium-term notes, trust preferred securities, senior or subordinated notes and preferred stock. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings will receive distributions of our available assets prior to the holders of our Common Stock. Additional equity offerings may dilute the holdings of our existing stockholders or reduce the market price of our Common Stock, or both. Holders of our Common Stock are not entitled to preemptive rights or other protections against dilution.

Our board of directors is authorized to issue one or more classes or series of preferred stock from time to time without any action on the part of the stockholders. Our board of directors also has the power, without stockholder approval, to set the terms of any such classes or series of preferred stock that may be issued, including voting rights, dividend rights, and preferences over our Common Stock with respect to dividends or upon our dissolution, winding up and liquidation and other terms. If we issue preferred shares in the future that have a preference over our Common Stock with respect to the payment of dividends or upon liquidation, or if we issue preferred shares with voting rights that dilute the voting power of the Common Stock, the rights of holders of our Common Stock or the market price of our Common Stock could be adversely affected.

ADDITIONAL RISKS RELATED TO THE EXCHANGE OFFER

The value of the Common Stock you receive may be lower than the Exchange Value of your shares of Preferred Stock or Trust Preferred Securities.

Depending on the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock or Trust Preferred Security we accept for exchange may be less than, equal to or greater than the applicable Exchange Value referred to above.

We may fail to realize all of the anticipated benefits of the Exchange Offer.

The primary goal of the Exchange Offer is to increase our Tier 1 common equity. A view has recently developed that Tier 1 common equity is an important metric for analyzing a financial institution's financial condition and capital strength. We believe that increasing our Tier 1 common equity will enhance our standing with our Federal banking regulators and improve market and public perception of our financial strength. However, given the relatively recent emergence of Tier 1 common equity as an important metric for analyzing a financial institution's financial condition and capital strength, and the rapidly changing and uncertain financial environment, there can be no assurance that we will achieve these objectives or that the benefits, if any, realized from the Exchange Offer will be sufficient to restore market and public perception of our financial strength.

Table of Contents

Risk factors

We have not obtained a third-party determination that the terms of the Exchange Offer are fair to holders of the shares of Preferred Stock or Trust Preferred Securities.

We are not making a recommendation as to whether you should exchange your shares of Preferred Stock or Trust Preferred Securities in the Exchange Offer. Certain of our executive officers and directors own shares of Preferred Stock and they have advised us that they intend to participate in the Exchange Offer. We have not retained, and do not intend to retain, any unaffiliated representative to act solely on behalf of the holders of the shares of Preferred Stock or Trust Preferred Securities for purposes of negotiating the Exchange Offer or preparing a report concerning the fairness of the Exchange Offer. You must make your own independent decision regarding your participation in the Exchange Offer.

Failure to successfully complete the Exchange Offer could negatively affect the price of our Common Stock.

Several conditions must be satisfied or waived in order to complete the Exchange Offer, including that no event has occurred that in our reasonable judgment would materially impair the anticipated benefits to us of the Exchange Offer or that has had, or could reasonably be expected to have, a material adverse effect on us, our businesses, condition (financial or otherwise) or prospects. See The Exchange Offer Conditions of the Exchange Offer. The foregoing conditions may not be satisfied, and if not satisfied or waived, the Exchange Offer may not occur or may be delayed.

If the Exchange Offer is not completed or is delayed, we may be subject to the following material risks:

- ∅ the market price of our Common Stock may decline to the extent that the current market price of our Common Stock is positively affected by market assumption that the Exchange Offer has been or will be completed;
- ∅ the market price of our shares of Preferred Stock and Trust Preferred Securities may decline to the extent that the current market price of our shares of Preferred Stock and Trust Preferred Securities is positively affected by market assumption that the Exchange Offer has been or will be completed;
- ∅ we may not be able to increase our Tier 1 common equity and thus fail to increase a key measure of financial strength as viewed by our Federal banking regulators and the market; and
- ∅ we may be required to attempt to raise capital privately or issue mandatory convertible stock and related warrants to the U.S. Treasury under its CAP.

We may not accept all Trust Preferred Securities tendered in the Exchange Offer.

We will issue no more than 390,000,000 shares of our Common Stock in the Exchange Offer. Depending on the number of Trust Preferred Securities tendered in the Exchange Offer and the final exchange ratio, we may have to prorate and limit the number of Trust Preferred Securities that we accept in this Exchange Offer to remain within this limit. See The Exchange Offer Terms of the Trust Preferred Securities Exchange Offer Acceptance Priority Levels; Prorating.

Table of Contents

Risk factors

RISKS RELATED TO NOT PARTICIPATING IN THE EXCHANGE OFFER

If the Exchange Offer is successful, there may no longer be a trading market for the shares of Preferred Stock or Trust Preferred Securities and the price for shares of Preferred Stock or Trust Preferred Securities may be depressed.

The Preferred Stock Exchange Offer is for any and all shares of Preferred Stock. Any shares of Preferred Stock not exchanged in the Preferred Stock Exchange Offer will remain outstanding after the completion of the Exchange Offer. As previously announced, we will suspend dividends on the Preferred Stock after the dividend payment on June 30, 2009, and even if we wished to resume dividends on the Preferred Stock, we may be prevented from doing so by regulatory policy. We intend to delist any remaining shares of Preferred Stock from trading on the Nasdaq Stock Market and, to the extent permitted by law, we intend to deregister any such remaining securities. The reduction in the number of shares available for trading and the suspension of dividends on the Preferred Stock may have a significant and adverse effect on the liquidity of any trading market for, and the price of, shares of Preferred Stock not exchanged in the Preferred Stock Exchange Offer and may result in the shares of Preferred Stock being illiquid for an indefinite period of time. In addition, regardless of whether the Preferred Stock Consent is obtained, Series C Preferred Stock held by the U.S. Treasury will have a senior right to dividends or distributions, either as Senior Preferred Stock or trust preferred securities. Therefore, we plan to continue to pay dividends or make distributions to the U.S. Treasury notwithstanding the dividend suspension on the Series A and Series B Preferred Stock.

Trust Preferred Securities not exchanged in the Trust Preferred Securities Exchange Offer will remain outstanding after consummation of the Trust Preferred Securities Exchange Offer. As previously announced, we currently expect to continue making distributions on our Trust Preferred Securities in accordance with their current terms. However, there can be no assurance that those distributions will continue as a matter of our own decision or regulatory policy. If the Exchange Offer is not successful or if we otherwise have the need to increase our Tier 1 common equity, a suspension of distributions on the Trust Preferred Securities is one of the possible actions that we might take in response. As described above, we currently intend to deliver any Trust Preferred Securities accepted for exchange in the Trust Preferred Securities Exchange Offer to the applicable trustee for cancellation. As a result, the number of Trust Preferred Securities of any series available for trading may be substantially reduced, and this may have a significant and adverse effect on the liquidity of any trading market for, and the price of, the Trust Preferred Securities of that series not exchanged in the Trust Preferred Securities Exchange Offer and may result in the Trust Preferred Securities of that series being less liquid for an indefinite period of time.

Unaudited pro forma financial information

The following selected unaudited pro forma financial information has been presented to give effect to and show the pro forma impact of the Exchange Offer on Popular's balance sheet as of March 31, 2009, and also describes the impact of the Exchange Offer on Popular's results of operations for the fiscal year ended December 31, 2008 and for the quarter ended March 31, 2009.

The unaudited pro forma financial information is presented for illustrative purposes only and does not necessarily indicate the financial position or results that would have been realized had the Exchange Offer been completed as of the dates indicated or that will be realized in the future when and if the Exchange Offer is consummated. The selected unaudited pro forma financial information has been derived from, and should be read in conjunction with, the summary historical consolidated financial information included elsewhere in this prospectus and Popular's historical consolidated financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2008 and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2009 filed with the SEC, which are incorporated by reference into this prospectus.

UNAUDITED PRO FORMA BALANCE SHEETS

The unaudited pro forma consolidated balance sheets of Popular as of March 31, 2009 have been presented as if the Exchange Offer had been completed on March 31, 2009. We have shown the pro forma impact of a High Participation Scenario and a Low Participation Scenario prepared using the assumptions set forth below. In both scenarios, (1) holders of both series of Preferred Stock have approved the Preferred Stock Consent and the Series C Preferred Stock has been exchanged for a new series of Senior Preferred Stock with an equal aggregate liquidation preference and (2) all Trust Preferred Securities accepted in exchange for shares of our Common Stock are exchanged for underlying debentures, which we will then submit for cancellation by the indenture trustee under the applicable indenture.

The High Participation Scenario assumes (i) the exchange of 90% of the outstanding shares of Preferred Stock (\$528.2 million aggregate liquidation preference) for shares of our Common Stock, (ii) the exchange of 90% of the Trust Preferred Securities of BanPonce Trust I and Popular North America Trust I (\$354.6 million aggregate liquidation amount) for shares of our Common Stock, (iii) the exchange of 90% (subject to a share cap of 390,000,000) of the Trust Preferred Securities of Popular Capital Trust I and II (\$374.7 million aggregate liquidation amount) for shares of our Common Stock, and (iv) in each case assuming a Relevant Price of \$2.63 per share (the closing sales price of our stock as of June 5, 2009).

The Low Participation Scenario assumes (i) the exchange of 70% of the outstanding shares of Preferred Stock (\$410.8 million aggregate liquidation preference) for shares of our Common Stock, (ii) the exchange of 70% of the Trust Preferred Securities of BanPonce Trust I and Popular North America Trust I (\$275.8 million aggregate liquidation amount) for shares of our Common Stock, (iii) the exchange of 70% of the Trust Preferred Securities of Popular Capital Trust I and II (\$301.0 million aggregate liquidation amount) for shares of our Common Stock, and (iv) in each case assuming a Relevant Price of \$2.63 per share (the closing sales price of our stock as of June 6, 2009).

If the Relevant Price is greater than the \$2.63 per share amount assumed in the preceding paragraph, there will be a decrease in the number of shares of Common Stock being issued and an increase in surplus, and increase in earnings per share relative to the pro forma financial statement information. Conversely, if the Relevant Price is less than the \$2.63 per share amount assumed above, there will be an increase in the number of shares of Common Stock being issued and a decrease in surplus, and a decrease in earnings per share relative to the pro forma financial statement information.

The following presents the pro forma impact of the Exchange Offer on certain statement of operations items and losses per common share for the fiscal year ended December 31, 2008 and the quarter ended March 31, 2009 as if the Exchange Offer had been completed on January 1, 2008. We have calculated the pro forma information below by (1) eliminating all the actual dividends paid to holders of shares Series A and Series B Preferred Stock (but not the Series C Preferred Stock) in 2008 and in the first quarter of 2009, and (2) assuming that the new shares of our Common Stock issuable in the Exchange Offer were issued on January 1, 2008. The retained earnings impact of the Exchange Offer has not been included in the analysis because it is not recurring.

The Exchange Offer

PURPOSE AND BACKGROUND OF THE TRANSACTIONS

Purpose of the Exchange Offer

As part of the U.S. Government's Financial Stability Plan, on February 25, 2009, the U.S. Treasury announced preliminary details of its Capital Assistance Program, or the CAP. To implement the CAP, the Federal Reserve, the Federal Reserve Banks, the FDIC and the Office of the Comptroller of the Currency commenced a review, referred to as the Supervisory Capital Assessment Program, or the SCAP, of the capital of the 19 largest U.S. banking institutions. Popular was not included in the group of 19 banking institutions reviewed under the SCAP. On May 7, 2009, Federal banking regulators announced the results of the SCAP and determined that 10 of the 19 banking institutions were required to raise additional capital and to submit a capital plan to their Federal banking regulators by June 8, 2009 for their review.

Even though we were not one of the banking institutions included in the SCAP, we have closely assessed the SCAP results, particularly noting that (1) the SCAP credit loss assumptions applied to regional banking institutions included in the SCAP are based on more adverse economic and credit scenarios, and (2) Federal banking regulators are focused on the composition of regulatory capital. Specifically the regulators have indicated that voting common equity should be the dominant element of Tier 1 capital and have established a 4% Tier 1 common/risk-weighted assets ratio as a threshold for determining capital needs. Although the SCAP results are not applicable to us, they do express general regulatory expectations.

While Popular is well capitalized based on a Tier 1 Capital basis at 11.16%, we believe that an improvement in the composition of our regulatory capital, including Tier 1 common equity, will better position us in the event of a more adverse economic and credit scenario. Our Tier 1 common/risk-weighted assets ratio was 3.13% as of March 31, 2009.

As a result, we are conducting the Exchange Offer in order to increase our common equity capital to accommodate the more adverse economic and credit scenarios assumed under the SCAP as applied to regional banking institutions and have structured the Exchange Offer to increase our Tier 1 common equity by up to approximately \$1.2 billion, based on a High Participation scenario. Our future interest expense associated with our Trust Preferred Securities will also be reduced.

In addition, we may act opportunistically to raise further Tier 1 common equity or increase our Tier 1 common ratio through sales of non-core assets and businesses and, if necessary, the issuance of common equity and other Tier 1 common qualifying instruments for cash.

The resulting capital issuances of the Exchange Offer and any additional transactions will likely be highly dilutive to our common stockholders and may affect the market price of our Common Stock. In addition, our Federal banking regulators are re-emphasizing the importance of a number of risk, capital and liquidity management issues and are requiring us to maintain enhanced internal management processes geared towards achieving and maintaining capital levels that are commensurate with our business activities and risks of all types.

The Exchange Offer

Preferred Stock Consent

Together with this prospectus, we have delivered to holders of shares of Series A Preferred Stock and Series B Preferred Stock a Consent Solicitation Statement under which we are seeking the Preferred Stock Consent from the holders of shares of Series A Preferred Stock and Series B Preferred Stock under the Certificate of Designation of each such series of Preferred Stock, acting as a separate class, to the Series C Preferred Exchange by either:

Ø issuing to the U.S. Treasury, as the holder of our shares of Series C Preferred Stock, in exchange for shares of the Series C Preferred Stock, shares of Senior Preferred Stock; or

Ø by redesignating the Series C Preferred Stock as Senior Preferred Stock; or

Ø entering into another form of transaction with the U.S. Treasury, as the holder of our Series C Preferred Stock, in which its shares of Series C Preferred Stock are cancelled and shares of Senior Preferred Stock are issued.

Pursuant to the Consent Solicitation Statement, we are soliciting Consents from holders of shares of Preferred Stock as of the close of business on June __, 2009, which is the Preferred Stock Record Date.

In order to approve the Series C Preferred Exchange, we are required to receive the consent of 66 ²/₃% of the shares of Series A Preferred Stock and 66 ²/₃% of the shares of Series B Preferred Stock, each acting as a separate class. If such Consents are not obtained, we will seek the agreement of the U.S. Treasury, as holder of the Series C Preferred Stock, in consideration of their consent to the Exchange Offer without requiring any adjustment to the terms of the warrant that was issued to the U.S. Treasury at the time that the Series C Preferred Stock was issued, to exchange its Series C Preferred Stock for newly issued trust preferred securities having a distribution rate equal to the dividend rate on the Series C Preferred Stock.

In order to validly tender your shares of Preferred Stock in the Exchange Offer, you must: (1) if you were a *record holder* of your shares of Preferred Stock as of the Preferred Stock Record Date, give a written consent in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock, in favor of the Preferred Stock Consent, or (2) if you were a *beneficial owner* of shares of Preferred Stock as of the Preferred Stock Record Date, contact your bank, broker, custodian, commercial bank, trust company or other nominee promptly and instruct it to give to a voting instruction in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock, in favor of the Preferred Stock Consent (each of the Consents and instructions referred to in (1) and (2) above, a Tendering Consent).

If you were not a record or beneficial holder of your shares of Preferred Stock as of the Preferred Stock Record Date, you will not be required to grant a Tendering Consent with respect to such shares in order to tender your shares in the Exchange Offer, but you will be required to certify that you were not a holder of shares of Preferred Stock as of the Preferred Stock Record Date and are not entitled to consent with respect to such shares of Preferred Stock (a Tender Certification).

If you do not wish to tender your shares of Preferred Stock in the Exchange Offer, but you wish to take action with respect to the Preferred Stock Consent, you must: (1) if you were a *record holder* of your shares of Preferred Stock as of the Preferred Stock Record Date, using the detachable form provided in the accompanying letter of transmittal, consent to, withhold consent on, or abstain on the applicable Preferred Stock Consent and discard the remaining portions of the accompanying letter of transmittal, or

The Exchange Offer

(2) if you were a *beneficial owner* of shares of Preferred Stock as of the Preferred Stock Record Date, contact your bank, broker, custodian, commercial bank, trust company or other nominee promptly and instruct it to give a voting instruction on your behalf in the manner specified in the accompanying letter of transmittal with respect to such shares of Preferred Stock (the instructions referred to in (1) and (2) above, a Non-Tendering Consent and, together with each Tendering Consent, a Consent).

When acting on the Preferred Stock Consent, the Preferred Stock votes by number of shares, with holders being entitled to one vote per share of Preferred Stock.

For additional information on the Preferred Stock Consent, please refer to the Consent Solicitation Statement filed by Popular on June 8, 2009, describing the Preferred Stock Consent, which we are delivering to holders of shares of Preferred Stock together with this prospectus.

Single Exchange Offer

The Exchange Offer consists of the Preferred Stock Exchange Offer and Trust Preferred Securities Exchange Offer. The Exchange Offer is subject to terms and conditions that must be satisfied with respect to the Exchange Offer. See Conditions of the Exchange Offer below.

TERMS OF THE PREFERRED STOCK EXCHANGE OFFER

Generally

We are offering to issue shares of our Common Stock in exchange for any and all issued and outstanding shares of Preferred Stock, validly tendered and not validly withdrawn, on or prior to the expiration date, upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal (including, if the Preferred Stock Exchange Offer is extended or amended, the terms and conditions of any such extension or amendment). You may exchange any or all of your shares of Preferred Stock in the Preferred Stock Exchange Offer only in amounts equal to the liquidation preference per Preferred Stock (or integral multiples thereof). All shares of Preferred Stock accepted for exchange in the Exchange Offer will be retired by the board of directors and restored to the status of authorized but unissued shares of preferred stock without designation as to series.

Offer Consideration

For each share of Preferred Stock that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value (based on the Relevant Price) equal to the Exchange Value set forth in the table below. We refer to the number of shares of our Common Stock we will issue for each share of Preferred Stock we accept in the Exchange Offer as the exchange ratio applicable to such share of Preferred Stock and we will round the exchange ratio down to four decimal places. As used in this prospectus:

- Ø The Relevant Price will be equal to the greater of (1) the average Volume Weighted Average Price, or VWAP, of a share of our Common Stock during the five trading day period ending on the second business day immediately preceding the expiration date of the Exchange Offer, determined as described later in this prospectus and (2) the Minimum Share Price of \$2.50 per share of our Common Stock;
- Ø Average VWAP during a period means the arithmetic average of VWAP for each trading day during that period; and

Table of Contents**The Exchange Offer**

Ø VWAP for any day means the per share volume weighted average price of our Common Stock on the Nasdaq from 9:30 a.m. to 4:00 p.m., New York City time, on that day as displayed under the heading Bloomberg VWAP on Bloomberg Page BPOP US <equity> VAP (or its equivalent successor page if such page is not available) in respect of the period from the scheduled opening of trading on the relevant trading day until the scheduled close of trading on the relevant trading day (or if such volume weighted average price is unavailable, the market price of one share of our Common Stock on such trading day determined, using a volume weighted average method, by a nationally recognized investment banking firm retained by us for this purpose).

Due to the Minimum Share Price referred to above, there is a limitation on the maximum number of shares of our Common Stock that we may issue for the shares of Preferred Stock that we accept for exchange in accordance with the terms of the Exchange Offer. The maximum number of shares of our Common Stock per \$25 liquidation preference of Preferred Stock that we may issue is 8 shares. In addition, depending upon fluctuations in the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of Preferred Stock we accept for exchange may be less than, equal to or greater than the relevant Exchange Value referred to above.

Set forth below is a table that shows, with respect to each series of shares of Preferred Stock, the aggregate liquidation preference outstanding, the liquidation preference per share of Preferred Stock and the applicable Exchange Value that we are offering in exchange for each share of Preferred Stock.

CUSIP	Title of Securities Represented by Public shares of Preferred Stock	Aggregate Liquidation Preference Outstanding	Liquidation Preference Per Share	Exchange Value

TERMS OF THE TRUST PREFERRED SECURITIES EXCHANGE OFFER**Generally**

We are also offering to exchange newly issued shares of our Common Stock for any and all issued and outstanding Trust Preferred Securities, subject to prorationing based on the Acceptance Priority Levels set forth in the table below. For each Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the Exchange Value set forth in the table below. If the aggregate liquidation preference of all shares of Preferred Stock and the aggregate liquidation amount of all Trust Preferred Securities tendered in the Exchange Offer would result in the issuance, upon consummation of the Exchange Offer, of a number of shares of our Common Stock or in excess of 390,000,000 shares, we will accept for tender only that number of Trust Preferred Securities of each series in accordance with the Acceptance Priority Levels set forth below that will ensure that not more than 390,000,000 shares of our Common Stock are issued in the Exchange Offer.

Even if all shares of Preferred Stock and all Trust Preferred Securities with Acceptance Priority Level 1 below are tendered for exchange, all Trust Preferred Securities with Acceptance Priority Level 1 would be accepted for exchange, without prorationing. However, we may have to reduce (on a prorated basis) the number of Trust Preferred Securities of Acceptance Priority Level 2 that we accept in this Exchange Offer to remain within this limit.

Table of Contents

The Exchange Offer

The proration applicable to the Trust Preferred Securities with Acceptance Priority Level 2 cannot be calculated until the Exchange Offer has been completed. As a result, at the time you tender your Trust Preferred Securities of those two series, you will not know whether we will accept all of your tendered Trust Preferred Securities. For example, if all issued and outstanding shares of Preferred Stock are tendered for exchange in the Preferred Stock Exchange Offer and the Relevant Price is determined based on the Minimum Share Price of \$2.50 per share, we will issue approximately 188 million shares of our Common Stock in the Preferred Stock Exchange Offer, leaving 202 million shares of our Common Stock available for issuance in the Trust Preferred Securities Exchange Offer. In that case, the remaining shares of our Common Stock will be enough such that any and all issued and outstanding 8.327% Trust Preferred Securities and 6.564% Trust Preferred Securities, comprising Acceptance Priority Level 1, would be accepted for exchange, without prorationing. However, assuming full participation of holders of Preferred Stock, the 8.327% Trust Preferred Securities and the 6.564% Trust Preferred Securities, the 6.70% Cumulative Monthly Income Trust Preferred Securities and 6.125% Cumulative Monthly Income Trust Preferred Securities, comprising Acceptance Priority Level 2, would be subject to prorationing on a pro rata basis.

If no shares of Preferred Stock are validly tendered in the Preferred Stock Exchange Offer, all validly tendered Trust Preferred Securities could be accepted for exchange pursuant to the Trust Preferred Securities Exchange Offer.

Upon the terms and subject to the conditions set forth in this prospectus and in the accompanying letter of transmittal (including, if the Trust Preferred Securities Exchange Offer is extended or amended, the terms and conditions of any such extension or amendment), we will accept for exchange all Trust Preferred Securities within Acceptance Priority Level 1 that are validly tendered and not validly withdrawn on or prior to the expiration date, and subject to prorationing, as described below under Acceptance Priority Levels; Prorationing, all other Trust Preferred Securities of Acceptance Priority Level 2 that are validly tendered and not validly withdrawn on or prior to the expiration date.

Following the Exchange Offer, we plan to merge each Trust into a new Delaware statutory trust as permitted by the terms of each Trust's governing documents. In connection with each merger, the Trust Preferred Securities of each series we acquire in the Exchange Offer will be exchanged for an equivalent aggregate principal amount of underlying debentures and all Trust Preferred Securities not acquired by us in the Exchange Offer will be converted into trust preferred securities of the applicable new trust with terms substantially identical to the terms of the Trust Preferred Securities of that series. No merger will adversely affect the rights of the holders of any series of Trust Preferred Securities.

Offer Consideration

For each Trust Preferred Security that we accept for exchange in accordance with the terms of the Exchange Offer, we will issue a number of shares of our Common Stock having the aggregate dollar value (based on the Relevant Price) equal to the Exchange Value set forth in the table below. We also refer to the number of shares of our Common Stock we will issue for each Trust Preferred Security we accept in the Exchange Offer as the exchange ratio.

As a result of the Minimum Share Price limitation, the maximum number of shares of our Common Stock that we may issue under the Exchange Offer per \$25 liquidation amount of Trust Preferred Security is 9 shares and per \$1,000 liquidation amount is 300 shares. Similar to the case of the Preferred Stock, depending upon fluctuations in the trading price of our Common Stock compared to the Relevant Price described above, the market value of the Common Stock we issue in exchange for each share of

Table of Contents**The Exchange Offer**

Trust Preferred Security we accept for exchange may be less than, equal to or greater than the relevant Exchange Value referred to above.

We will pay cash for any accrued and unpaid distributions on any Trust Preferred Securities (but not in respect of any accumulated and unpaid dividends on any shares of Preferred Stock) accepted in the Trust Preferred Securities Exchange Offer to but excluding the date of settlement of the Exchange Offer.

Set forth below is a table that shows, with respect to each series of Trust Preferred Securities, the aggregate liquidation amount outstanding, the liquidation amount per Trust Preferred Security and the Exchange Value that we are offering in exchange for each Trust Preferred Security.

The following summarizes the exchange ratio information that will be available during the Exchange Offer:

- Ø By 4:30 p.m., New York City time, on each trading day before the five trading day period referred to in the next bullet, the web page referred to above will show an indicative exchange ratio for each series of Preferred Stock and Trust Preferred Securities calculated using VWAP for that day and the preceding five trading days (as though that day were the second business day prior to the expiration date).
- Ø During the five trading day period ending on and including the currently scheduled expiration date, the web page referred to above will show indicative exchange ratios for each series of Preferred Stock and Trust Preferred Securities using cumulative actual trading data, updated every three hours starting at 10:30 a.m., New York City time. In particular:
 - Ø On the first trading day of that five trading day period, indicative ratios will reflect actual Intra-day VWAP during the elapsed portion of that day.
 - Ø On each subsequent trading day during that five trading day period, indicative ratios will reflect the arithmetic average of VWAP on the preceding trading days in that five trading day period and actual Intra-day VWAP during the elapsed portion of that subsequent trading day, weighting VWAP for each preceding trading day in the period the same as such actual Intra-day VWAP. For example, on the last trading day of the five trading day period the arithmetic average will equal (i) the combined VWAP for the preceding four trading days plus the actual Intra-day VWAP during the elapsed portion of the last trading day divided by (ii) five.
- Ø The five day VWAP period will end two business days prior to the Expiration Date.
Intra-day VWAP at any time on any day means the volume weighted average price of one share of Common Stock on the Nasdaq for the period beginning at the official open of trading on that day and ending as of that time on that day, as calculated by Bloomberg. The data used to derive the Intra-day VWAP during the last five trading days will reflect a 20-minute reporting delay.
- Ø We will announce the final exchange ratio for each series of Preferred Stock and the Trust Preferred Securities prior to 9:00 a.m., New York City time, on the business day immediately succeeding the second business day prior to the expiration date of the Exchange Offer, and those final exchange ratios will also be available by that time at <http://www.popularinc.com/exchangeoffer>. No additional information on our website is deemed to be part of or incorporated by reference in this prospectus.
- Ø At any time during the Exchange Offer, you may also contact the Information Agent to obtain the indicative Average VWAP, the Minimum Share Price, the resultant indicative Relevant Price and the indicative exchange ratios (and, once it is determined, the final exchange ratio for the Preferred Stock and the Trust Preferred Securities) at its toll-free number provided on the back cover page of this prospectus.

In addition to the conditions describe above, and notwithstanding any other provision of the Exchange Offer, we will not be required to accept for exchange, or to issue Common Stock in respect of, any shares of Preferred Stock or Trust Preferred Securities tendered pursuant to the Exchange Offer, and may terminate, extend or amend the Exchange Offer and may (subject to Rule 13e-4(f) and Rule 14e-1 under the Exchange Act) postpone the acceptance for exchange of, and issuance of shares of our Common Stock in respect of, any shares of Preferred Stock or Trust Preferred Securities so tendered in the Exchange Offer unless the registration statement of which this prospectus forms a part becomes effective and no stop order suspending the effectiveness of the registration statement and no proceedings for that purpose has been instituted or be pending, or to our knowledge, be contemplated or threatened by the SEC.

The Exchange Offer will expire at 11:59 pm., New York time, on July , 2009, unless extended or earlier terminated by us. The term expiration date means such date and time or, if the Exchange Offer is extended, then the latest date and time to which the Exchange Offer is so extended. In any event, we will hold the Exchange Offer open for at least 20 business days.

We reserve the right to extend the period of time that the Exchange Offer is open, and delay acceptance for exchange of the shares of Preferred Stock or Trust Preferred Securities tendered in the Exchange

The Exchange Offer

The term "Agent's Message" means a message transmitted by DTC, received by the Exchange Agent and forming a part of the Book-Entry Confirmation (defined below), which states that DTC has received an express acknowledgment from the DTC participant tendering shares of Preferred Stock or Trust Preferred Securities that are the subject of such Book-Entry Confirmation that such participant has received and agrees to be bound by the terms of the Exchange Offer, as set forth in this prospectus and the accompanying letter of transmittal and that we may enforce such agreement against such participant. **You should allow sufficient time for completion of the ATOP procedures during the normal business hours of DTC on the expiration date. Tenders not received by the Exchange Agent on or prior to the expiration date will be disregarded and have no effect.**

Signature Guarantees

Signatures on the accompanying letter of transmittal must be guaranteed by a firm that is a participant in the Security Transfer Agents Medallion Program or the Stock Exchange Medallion Program or is otherwise an "eligible guarantor institution" as that term is defined in Rule 17Ad-15 under the Exchange Act (generally a member of a registered national securities exchange, a member of the Financial Industry Regulatory Authority, Inc. ("FINRA") or a commercial bank or trust company having an office in the United States) (an "Eligible Institution"), unless (i) such accompanying letter of transmittal is signed by the registered holder of the shares of Preferred Stock or Trust Preferred Securities tendered therewith and the Common Stock issued in exchange for shares of Preferred Stock or Trust Preferred Securities is to be issued in the name of and delivered to, or if any shares of Preferred Stock or Trust Preferred Securities not accepted for exchange are to be returned to, such holder, or (ii) such shares of Preferred Stock or Trust Preferred Securities are tendered for the account of an Eligible Institution.

Book-Entry Transfer

The Exchange Agent, promptly after the date of this prospectus (to the extent such arrangements have not been previously made), will establish and maintain an account with respect to the shares of Preferred Stock or Trust Preferred Securities at DTC, and any financial institution that is a DTC participant and whose name appears on a security position listing as the owner of shares of Preferred Stock or Trust Preferred Securities may make book-entry delivery of such shares of Preferred Stock or Trust Preferred Securities by causing DTC to transfer such shares of Preferred Stock or Trust Preferred Securities into the Exchange Agent's account in accordance with DTC's procedures for such transfer. The confirmation of a book-entry transfer of shares of Preferred Stock or Trust Preferred Securities into the Exchange Agent's account at DTC as described above is referred to herein as a "Book-Entry Confirmation." Although delivery of shares of Preferred Stock or Trust Preferred Securities may be effected through book-entry transfer into the Exchange Agent's account at DTC, an Agent's Message, and any other required documents, must, in any case, be transmitted to and received by the Exchange Agent at its address set forth on the back cover of this prospectus on or before the expiration date. Delivery of documents to DTC does not constitute delivery to the Exchange Agent.

Validity

All questions as to the form of all documents and the validity (including time of receipt) and acceptance of all tenders of shares of Preferred Stock or Trust Preferred Securities will be determined by us, in our sole discretion, the determination of which shall be final and binding. Alternative, conditional or contingent tenders of shares of Preferred Stock or Trust Preferred Securities will not be considered valid. We reserve the absolute right, in our sole discretion, to reject any or all tenders of shares of Preferred Stock or Trust Preferred Securities that are not in proper form or the acceptance of which, in our opinion

would be unlawful. We also reserve the right to waive any defects, irregularities or conditions of tender as to particular shares of Preferred Stock or Trust Preferred Securities.

Any defect or irregularity in connection with tenders of shares of Preferred Stock or Trust Preferred Securities must be cured within such time as we determine, unless waived by us. Tenders of shares of Preferred Stock or Trust Preferred Securities shall not be deemed to have been made until all defects and irregularities have been waived by us or cured. A defective tender (which defect is not waived by us) will not constitute a valid tender of shares of Preferred Stock or Trust Preferred Securities. None of Popular, the Exchange Agent, the Information Agent, the Dealer Managers or any other person will be under any duty to give notice of any defects or irregularities in the tenders of shares of Preferred Stock or Trust Preferred Securities, or will incur any liability to holders for failure to give any such notice.

Guaranteed Delivery

We have not provided guaranteed delivery provisions in connection with the Exchange Offer. Holders must tender their shares of Preferred Stock or Trust Preferred Securities in accordance with the procedures set forth in this prospectus.

Compliance with Short Tendering Rule

It is a violation of Rule 14e-4 (promulgated under the Exchange Act) for a person, directly or indirectly, to tender Trust Preferred Securities for his own account unless the person so tendering (a) has a net long position equal to or greater than the aggregate liquidation preference of the Trust Preferred Securities being tendered and (b) will cause such Trust Preferred Securities to be delivered in accordance with the terms of the Exchange Offer. Rule 14e-4 provides a similar restriction applicable to the tender or guarantee of a tender on behalf of another person.

A tender of Preferred Stock or Trust Preferred Securities in response to the Exchange Offer under any of the procedures described above will constitute a binding agreement between the tendering holder and us with respect to the Exchange Offer upon the terms and subject to the conditions of the Exchange Offer, including the tendering holder's acceptance of the terms and conditions of the Exchange Offer, as well as the tendering holder's representation and warranty that (a) such holder has a net long position in the Preferred Stock or Trust Preferred Securities being tendered pursuant to the Exchange Offer within the meaning of Rule 14e-4 under the Exchange Act and (b) the tender of such Preferred Stock or Trust Preferred Securities complies with Rule 14e-4.

WITHDRAWAL OF TENDERS

You may withdraw your tender of shares of Preferred Stock or Trust Preferred Securities at any time prior to the expiration date. In addition, if not previously returned, you may withdraw shares of Preferred Stock or Trust Preferred Securities that you tender that are not accepted by us for exchange after the expiration of 40 business days following commencement of the applicable Exchange Offer. For a withdrawal to be effective, the Exchange Agent must receive a computer generated notice of withdrawal, transmitted by DTC on behalf of the holder in accordance with DTC's procedures or a written notice of withdrawal, sent by facsimile, receipt confirmed by telephone, or letter before the expiration date. Any notice of withdrawal must:

Ø specify the name of the person that tendered the shares of Preferred Stock or Trust Preferred Securities to be withdrawn;

Ø identify the shares of Preferred Stock or Trust Preferred Securities to be withdrawn and liquidation preference and amount of such shares of Preferred Stock or Trust Preferred Securities;

Table of Contents**The Exchange Offer**

Ø include a statement that the holder is withdrawing its election to exchange the shares of Preferred Stock or Trust Preferred Securities; and

Ø be signed by the holder in the same manner as the original signature on the accompanying letter of transmittal by which such shares of Preferred Stock or Trust Preferred Securities were tendered or otherwise as described above, including any required signature guarantee. Any notice of withdrawal must specify the name and number of the account at DTC to be credited with the withdrawn shares of Preferred Stock or Trust Preferred Securities or otherwise comply with DTC's procedures.

Any shares of Preferred Stock or Trust Preferred Securities withdrawn will not have been validly tendered for purposes of the Exchange Offer. Unless you expressly revoke any Consent that you delivered with respect to those withdrawn shares of Preferred Stock, any Consent will be considered to remain in effect. Any shares of Preferred Stock or Trust Preferred Securities that have been tendered for exchange, but which are not exchanged for any reason will be credited to an account with DTC specified by the holder, as soon as practicable after withdrawal, rejection of tender or termination of the Exchange Offer. Properly withdrawn shares of Preferred Stock or Trust Preferred Securities may be re-tendered by following one of the procedures described under Procedures for Tendering Shares of Preferred Stock or Trust Preferred Securities.

If you wish to withdraw shares of Preferred Stock or Trust Preferred Securities that you previously tendered through a bank, broker, custodian or other nominee, you should contact your bank, broker, custodian, commercial bank, trust company or other nominee for instructions on how to withdraw your shares of Preferred Stock or Trust Preferred Securities.

CONSEQUENCES OF FAILURE TO EXCHANGE SHARES OF PREFERRED STOCK OR TRUST PREFERRED SECURITIES

Shares of Preferred Stock not exchanged in the Exchange Offer will remain outstanding after consummation of the Exchange Offer. As previously announced, we will suspend dividends on the Preferred Stock after the dividend payment on June 30, 2009. We intend to delist any remaining shares of Preferred Stock from trading on the Nasdaq Stock Market and, to the extent permitted by law, we intend to deregister any such remaining securities. The reduction in the number of shares of Common Stock available for trading and the suspension of dividends indefinitely on the Preferred Stock may have a significant and adverse effect on the liquidity of any trading market for, and the price of, shares of Preferred Stock not exchanged in the Preferred Stock Exchange Offer and may result in the shares of Preferred Stock being illiquid for an indefinite period of time. In addition, regardless of whether the Preferred Stock Consent is obtained, the Series C Preferred Stock will have a senior right to dividends or distributions, either as Senior Preferred Stock or trust preferred securities. Therefore, we plan to continue to pay dividends or make distributions to the U.S. Treasury notwithstanding the dividend suspension on the Series A and Series B Preferred Stock

Trust Preferred Securities, whether or not exchanged in the Trust Preferred Securities Exchange Offer, will remain outstanding after consummation of the Trust Preferred Securities Exchange Offer. As previously announced, we currently expect to continue making distributions on our Trust Preferred Securities in accordance with their current terms. However, if your Trust Preferred Securities are tendered and accepted for exchange in the Trust Preferred Securities Exchange Offer, you will be giving up your right to any future distributions on your Trust Preferred Securities and we cannot offer any assurance that we will pay, or that we will be permitted to pay, dividends on our Common Stock in the future. As described above, we currently intend to deliver any Trust Preferred Securities accepted for exchange in the Trust Preferred Securities Exchange Offer to the applicable trustee for cancellation. As a result, the number of Trust Preferred Securities of any series available for trading may be substantially reduced, and this may have a significant and adverse effect on the liquidity of any trading market for, and the price of, the Trust Preferred Securities of that series not exchanged in the Trust Preferred Securities Exchange Offer and may result in the Trust Preferred Securities of that series being illiquid for an indefinite period of time.

NO APPRAISAL/DISSENTERS RIGHTS

No appraisal or dissenters rights are available to holders of shares of Preferred Stock or Trust Preferred Securities under applicable law in connection with the Exchange Offer.

ACCOUNTING TREATMENT

We will derecognize the net carrying amount of the shares of Preferred Stock (currently recorded as stockholders equity) tendered for Common Stock. The excess of the carrying amount of the shares of Preferred Stock retired over the fair value of the Common Stock issued will be recorded in retained earnings and will result in a decrease in net losses per common share. The excess of the fair value over the par value of the Common Stock issued will be recorded in surplus. The par value of \$0.01 per share will be recorded in Common Stock.

For Trust Preferred Securities exchanged for Common Stock, we will derecognize the carrying amount of those securities, which are currently recorded as long-term debt, following the merger of the Trust into a new Delaware statutory trust and our exchange of all Trust Preferred Securities received in the Exchange

Table of Contents**The Exchange Offer**

Offer for underlying debentures. We will record the par amount of the shares issued as Common Stock. The excess of the stock fair value over their par amount will be recorded in surplus. The excess of the carrying amount of the Trust Preferred Securities retired over the fair value of the Common Stock issued will be recorded in the current earnings of the period during which the transaction will occur.

SECURITIES ISSUABLE IN THE EXCHANGE OFFER

The following table shows the approximate number of shares that could be issued in connection with the Exchange Offer assuming that the Relevant Price is based on the Minimum Share Price of \$2.50 per share.

Transaction	Security	Number of Securities Issuable (assuming 70% Participation in Exchange Offer)(1)(2)	Number of Securities Issuable (assuming 90% Participation in Exchange Offer)(1)(2)
Exchange Offer(1)	Common Stock	322,600,000	390 million

(1) As of May 6, 2009, 282,034,819 shares of our Common Stock were outstanding.

(2) 322,600,000 shares will be issued assuming 70% participation in Exchange Offer and 390,000,000 shares will be issued assuming 90% participation in Exchange Offer, assuming \$2.50 Relevant Stock Price.

SUBSEQUENT REPURCHASES

Following completion of the Exchange Offer, we may repurchase additional shares of Preferred Stock or Trust Preferred Securities that remain outstanding in the open market, in privately negotiated transactions or otherwise. Future purchases of shares of Preferred Stock or Trust Preferred Securities that remain outstanding after the Exchange Offer may be on terms that are more or less favorable than the Exchange Offer. However, Exchange Act Rules 14e-5 and 13e-4 generally prohibit us and our affiliates from purchasing any shares of Preferred Stock or Trust Preferred Securities other than pursuant to the Exchange Offer until 10 business days after the expiration date, although there are some exceptions. Future repurchases, if any, will depend on many factors, including market conditions and the condition of our business.

In addition, if a sufficiently small number of shares of Series A Preferred Stock remains outstanding, we may redeem the outstanding shares of Series A Preferred Stock with the consent of the Federal Reserve.

SOLICITING DEALER FEE

With respect to any tender of a series of shares of Preferred Stock or Trust Preferred Securities, we will pay the relevant soliciting dealer a fee of 0.50% of the liquidation preference or liquidation amount accepted for exchange; provided that such fee will only be paid with respect to tenders by a beneficial owner of a series of shares of Preferred Stock or Trust Preferred Securities having an aggregate liquidation preference or liquidation amount of \$250,000 or less (the Soliciting Dealer Fee). In order to be eligible to receive the Soliciting Dealer Fee, a properly completed soliciting dealer form must be delivered by the relevant soliciting dealer to the Exchange Agent prior to the expiration date. We will, in our sole discretion, determine whether a broker has satisfied the criteria for receiving a Soliciting Dealer Fee (including, without limitation, the submission of the appropriate documentation without defects or irregularities and in respect of *bona fide* tenders). Other than the foregoing, no fees or commissions have

The Exchange Offer

been or will be paid by us to any broker, dealer or other person, other than the Dealer Managers, the Information Agent and the Exchange Agent, in connection with the Exchange Offer.

A soliciting dealer is a retail broker designated in the soliciting dealer form and is:

Ø a broker or dealer in securities which is a member of any national securities exchange in the United States or of FINRA; or

Ø a bank or trust company located in the United States.

Soliciting dealers will include any of the organizations described above even when the activities of such organization in connection with the Exchange Offer consist solely of forwarding to clients materials relating to the Exchange Offer and tendering shares of Preferred Stock or Trust Preferred Securities as directed by beneficial owners thereof. Each soliciting dealer will confirm that each holder of shares of Preferred Stock or Trust Preferred Securities that it solicits has received a copy of this prospectus and the Consent Solicitation Statement relating to the Preferred Stock Consent, or concurrently with such solicitation provide the holder with a copy of this prospectus and such Consent Solicitation Statement. No soliciting dealer is required to make any recommendation to holders of shares of Preferred Stock or Trust Preferred Securities as to whether to tender or refrain from tendering in the Exchange Offer. No assumption is made, in making payment to any soliciting dealer, that its activities in connection with the Exchange Offer included any activities other than those described in this paragraph. For all purposes noted in materials relating to the Exchange Offer, the term *solicit* shall be deemed to mean no more than *processing* shares of Preferred Stock or Trust Preferred Securities tendered or *forwarding* to customers material regarding the Exchange Offer.

Soliciting dealers are not entitled to a Soliciting Dealer Fee with respect to shares of Preferred Stock or Trust Preferred Securities beneficially owned by such soliciting dealer or with respect to any shares of Preferred Stock or Trust Preferred Securities that are registered in the name of a soliciting dealer unless such shares of Preferred Stock or Trust Preferred Securities are held by such soliciting dealer as nominee and are tendered for the beneficial owner of such shares of Preferred Stock or Trust Preferred Securities.

Soliciting dealers should take care to ensure that proper records are kept to document their entitlement to any Soliciting Dealer Fee. We and the Exchange Agent reserve the right to require additional information at our discretion, as deemed warranted.

Some of the shares of Preferred Stock or Trust Preferred Securities are held at DTC as a number of securities rather than a liquidation preference or liquidation amount. Therefore, in order to assist a soliciting dealer in determining whether a beneficial owner tenders shares of Preferred Stock or Trust Preferred Securities having an aggregate liquidation preference or liquidation amount of \$250,000 or less, the following tables show the quantity of shares of Preferred Stock or Trust Preferred Securities that equates to a liquidation preference or liquidation amount, as applicable, of \$250,000.

Global Bondholder Services Corporation is the Information Agent for the Exchange Offer. Questions concerning the terms of the Exchange Offer or tender procedures and requests for additional copies of this prospectus or the accompanying letter of transmittal should be directed to the Information Agent at the address and telephone number on the back cover page of this prospectus. Holders of shares of Preferred Stock or Trust Preferred Securities may also contact their bank, broker, custodian, or other nominee concerning the Exchange Offer. We will pay the Information Agent reasonable and customary fees for its services and will reimburse it for its reasonable out-of-pocket expenses.

DEALER MANAGERS

The Dealer Managers for the Exchange Offer are UBS Securities LLC, Popular Securities, Inc. and Citigroup Global Markets Inc. As Dealer Managers for the Exchange Offer, they will perform services customarily provided by investment banking firms acting as dealer managers of Exchange Offers of a like nature, including, but not limited to, soliciting tenders of shares of Preferred Stock or Trust Preferred Securities pursuant to the Exchange Offer and communicating generally regarding the Exchange Offer with banks, brokers, custodians, nominees and other persons, including the holders of the shares of Preferred Stock or Trust Preferred Securities. We will pay the Dealer Managers reasonable and customary fees for their services, will reimburse them for their reasonable out-of-pocket expenses, and indemnify them against certain liabilities in connection with the Exchange Offer, including certain liabilities under Federal securities laws.

TRANSFER TAXES

We will pay all transfer taxes, if any, imposed by the United States and Puerto Rico or any jurisdiction therein with respect to the exchange of shares of Preferred Stock or Trust Preferred Securities pursuant to the Exchange Offer (for the avoidance of doubt, transfer taxes do not include income or back-up

withholding taxes). If a transfer tax is imposed for any reason other than the exchange of shares of Preferred Stock or Trust Preferred Securities pursuant to the Exchange Offer or by any jurisdiction outside the United States or Puerto Rico, then the amount of any such transfer tax (whether imposed on the registered holder or any other person) will be payable by the tendering holder.

BROKERAGE COMMISSIONS

Holders that tender their shares of Preferred Stock or Trust Preferred Securities to the Exchange Agent do not have to pay a brokerage fee or commission to us or the Exchange Agent. However, if a tendering holder handles the transaction through its bank, broker, custodian or nominee, that holder may be required to pay brokerage fees or commissions to its bank, broker, custodian or other nominee.

FEES AND EXPENSES

We will bear the expenses of soliciting tenders of the shares of Preferred Stock or Trust Preferred Securities. The principal solicitation is being made by mail. Additional solicitation may, however, be made by e-mail, facsimile transmission, and telephone or in person by our officers and other employees and those of our affiliates and others acting on our behalf.

FAIRNESS OPINION

We are not making a recommendation as to whether you should exchange your shares of Preferred Stock or Trust Preferred Securities in the Exchange Offer. We have not retained, and do not intend to retain, any unaffiliated representative to act solely on behalf of the holders of the shares of Preferred Stock or Trust Preferred Securities for purposes of negotiating the Exchange Offer or preparing a report concerning the fairness of the Exchange Offer. The value of the Common Stock to be issued in the Exchange Offer may not equal or exceed the value of the shares of Preferred Stock or Trust Preferred Securities tendered. You must make your own independent decision regarding your participation in the Exchange Offer.

CERTAIN MATTERS RELATING TO NON-U.S. JURISDICTIONS

Although Popular will mail this prospectus to holders of the shares of Preferred Stock or Trust Preferred Securities to the extent required by U.S. law, this prospectus is not an offer to sell or exchange and it is not a solicitation of an offer to buy securities in any jurisdiction in which such offer, sale or exchange is not permitted. Countries outside the United States generally have their own legal requirements that govern securities offerings made to persons resident in those countries and often impose stringent requirements about the form and content of offers made to the general public. Popular has not taken any action under those non-U.S. regulations to facilitate a public offer to exchange outside the United States. Therefore, the ability of any non-U.S. person to tender shares of Preferred Stock or Trust Preferred Securities in the Exchange Offer will depend on whether there is an exemption available under the laws of such person's home country that would permit the person to participate in the Exchange Offer without the need for Popular to take any action to facilitate a public offering in that country or otherwise. For example, some countries exempt transactions from the rules governing public offerings if they involve persons who meet certain eligibility requirements relating to their status as sophisticated or professional investors. Non-U.S. holders should consult their advisors in considering whether they may participate in the Exchange Offer in accordance with the laws of their home countries and, if they do participate, whether there are any restrictions or limitations on transactions in the Common Stock that may apply in their home countries. Popular and the Dealer Managers cannot provide any assurance about whether such limitations may exist.

We urge you to read these documents for a more complete understanding of the differences between the shares of Preferred Stock or Trust Preferred Securities and the Common Stock.

GOVERNING DOCUMENTS

Shares of Preferred Stock: Holders of shares of Preferred Stock have their rights set forth in our Certificate of Incorporation, including the applicable Certificate of Designation, the Bylaws and Puerto Rico law. Certain provisions of the Certificate of Incorporation and the Certificates of Designation would be amended by the Preferred Stock Consent; see *Summary* *The Amendments* and the *Consent Solicitation Statement*.

Trust Preferred Securities: Holders of Trust Preferred Securities have their rights set forth in the applicable Declaration of Trust, the Statutory Trust Act of the State of Delaware and the Trust Indenture Act.

Common Stock: Holders of shares of our Common Stock will have their rights set forth in the Certificate of Incorporation, the Bylaws and Puerto Rico law.

DIVIDENDS AND DISTRIBUTIONS

Shares of Preferred Stock: The shares of Preferred Stock rank senior to the Common Stock and any other stock that is expressly junior to the Preferred Stock as to payment of dividends. Dividends on shares of Preferred Stock are not mandatory and are not cumulative. Holders of shares of Preferred Stock are entitled to receive dividends, when, as, and if declared by our board of directors, out of assets legally available under Puerto Rico law for payment, payable monthly. On June 8, 2009, we announced the suspension of dividends on our Common Stock and on our Series A and Series B Preferred Stock following the payment of the dividend on the Preferred Stock for the month of June on June 30, 2009. Either as a result of giving effect to the Series C Preferred Stock Exchange or the exchange of Series C Preferred Stock into newly issued trust preferred securities, as described below, the U.S. Treasury will continue to receive dividends with respect to its investment in our securities despite the suspension of dividends on our Common Stock and on the Series A and Series B Preferred Stock.

We must pay, or declare and set apart for payment, dividends on each series of Preferred Stock before we may pay dividends or make any distributions relating to, or redeem, purchase, acquire or make a liquidation payment relating to, any of Popular's junior stock, including the Common Stock, subject to certain exceptions.

Trust Preferred Securities: Holders of the Trust Preferred Securities are entitled to receive cumulative distributions at a fixed annual percentage rate, payable either monthly or semi-annually, depending on

the series of Trust Preferred Security. Distributions not paid when due accumulate additional interest. The funds available to each trust for distributions on the Trust Preferred Securities are limited to payments received from Popular or Popular North America on the series of junior subordinated debt held by the applicable trust.

If we defer interest payments on a series of junior subordinated debt, distributions on the related series of Trust Preferred Securities will also be deferred. During a deferral period, also called an extension period, we cannot pay any dividends or make any distributions relating to, or redeem, purchase, acquire or make a liquidation payment relating to, any of Popular's capital stock, including the Common Stock and the Preferred Stock, or make an interest, principal or premium payments on or repurchase any of our debt securities that rank equally with or junior to the relevant series of junior subordinated debt, subject to certain exceptions.

Common Stock: Subject to the preferential rights of any other class or series of capital stock, including the Preferred Stock, holders of our Common Stock will be entitled to receive such dividends when, as and if declared by our board of directors. On June 8, 2009, we announced that dividend payments on our Common Stock were being suspended.

The Preferred Stock Consent would permit us to declare and pay dividends on Common Stock, without paying or setting apart for payment any dividends on any series of shares of Preferred Stock. However, regardless of whether the Preferred Stock Consent is obtained, Series C Preferred Stock will have a senior right to dividends or distributions, either as Senior Preferred Stock or trust preferred securities.

RANKING

Shares of Preferred Stock: Each series of Preferred Stock currently ranks senior to the Common Stock with respect to dividend rights and rights upon liquidation, dissolution or winding-up of Popular. Each series of shares of Preferred Stock is equal in right of payment with the other outstanding series of shares of Preferred Stock. The shares of Preferred Stock rank junior in right of payment to all of our existing and future indebtedness and the Trust Preferred Securities. The liquidation preference of the shares of Preferred Stock is \$25 per share, plus any accrued and unpaid dividends on such share.

Trust Preferred Securities: Each series of Trust Preferred Securities currently ranks senior with respect to rights upon liquidation, dissolution or winding-up of Popular to the Common Stock and the shares of Preferred Stock. Each series of Trust Preferred Securities is equal in right of payment with the other outstanding series of Trust Preferred Securities, and each series of Trust Preferred Securities is equal in right of payment with the other outstanding series of Trust Preferred Securities. Generally, the Trust Preferred Securities rank junior in right of payment to all of our senior indebtedness (as defined in the relevant junior subordinated debt indenture, as amended). The liquidation amount of the Trust Preferred Securities may be either \$25 or \$1,000 per share, plus any accrued and unpaid distributions on such Trust Preferred Security.

Common Stock: The Common Stock will rank junior with respect to dividend rights and rights upon liquidation, dissolution or winding-up of Popular to all other securities and indebtedness of Popular.

If the Preferred Stock Consent becomes effective, holders of shares of Preferred Stock will no longer be entitled to receive dividends in preference or priority to the holders of our Common Stock. If the Series C Preferred Stock Exchange is approved, the Series C Preferred Stock will receive dividends in preference or priority to holder of our Common Stock and Preferred Stock not tendered in the Exchange Offer.

CONVERSION RIGHTS

None of the shares of Preferred Stock, Trust Preferred Securities or Common Stock are convertible into other securities.

VOTING RIGHTS

Shares of Preferred Stock: Whenever dividends remain unpaid on the shares of Preferred Stock or any other class or series of preferred stock that ranks on parity with shares of Preferred Stock as to payment of dividends and having equivalent voting rights (Parity Stock) for at least 18 monthly dividend periods (whether or not consecutive), the number of directors constituting the board of directors will be increased by two members and the holders of the shares of Preferred Stock together with holders of Parity Stock, voting separately as a single class, will have the right to elect the two additional members of the board of directors. When Popular has paid full dividends on any class or series of non-cumulative Parity Stock for at least 12 consecutive months following such non-payment, and has paid cumulative dividends in full on any class or series of cumulative Parity Stock, the voting rights will cease and the authorized number of directors will be reduced by two.

In addition, holders of shares of Preferred Stock currently have the right to vote as a separate class with all other series of Parity Stock adversely affected by and entitled to vote thereon (except preferred stock currently held by the U.S. Treasury, which votes as a separate class), with respect to:

- ∅ any amendment, alteration or repeal of the provisions of the Certificate of Incorporation, including the relevant Certificate of Designations, or Bylaws that would alter or change the voting powers, preferences or special rights of such series of shares of Preferred Stock so as to affect them adversely;
- ∅ any amendment or alteration of the Certificate of Incorporation to authorize or increase the authorized amount of any shares of, or any securities convertible into shares of, any of Popular's capital stock ranking prior to such series of shares of Preferred Stock; or
- ∅ the consummation of a binding share exchange or reclassification involving such series of shares of Preferred Stock or a merger or consolidation of Popular with another entity.
Approval of two-thirds of such shares is required.

Trust Preferred Securities: Generally, holders of the Trust Preferred Securities do not have any voting rights with respect to Popular, but do not have the right to vote on modifications to certain documents governing the Trust Preferred Securities.

Common Stock: Holders of shares of our Common Stock will be entitled to one vote per share on all matters voted on by Popular's stockholders.

MATERIAL U.S. FEDERAL INCOME TAX CONSEQUENCES TO U.S. HOLDERS AND PUERTO RICO CORPORATIONS

The following summary describes the material U.S. federal income tax consequences relating to the exchange of the shares of Preferred Stock or Trust Preferred Securities pursuant to the Exchange Offer and to the receipt, ownership and disposition of shares of our Common Stock received upon such exchange by U.S. Holders (as defined below) and corporations organized under the laws of Puerto Rico (PR Corporations). It applies to you only if you acquire the shares of our Common Stock in the Exchange Offer and you hold your shares of Preferred Stock or Trust Preferred Securities and your shares of our Common Stock as capital assets for U.S. federal income tax purposes. This section does not apply to you if you are a member of a class of holders subject to special rules under the U.S. federal income tax laws, such as:

- ∅ a dealer in securities or currencies,

- ∅ a trader in securities that elects to use a mark-to-market method of accounting for your securities holdings,

- ∅ a bank,

- ∅ an insurance company,

- ∅ a tax-exempt organization,

- ∅ a person who owns shares of Preferred Stock or Trust Preferred Securities that are a hedge or that are hedged against interest rate risks,

- ∅ a person who owns shares of Preferred Stock or Trust Preferred Securities or Common Stock as part of a straddle or conversion transaction for tax purposes,

- ∅ a U.S. Holder (as defined below) whose functional currency for tax purposes is not the U.S. dollar, or

- ∅ a U.S. expatriate.

As used herein, the term U.S. Holder means a beneficial owner of shares of Preferred Stock or Trust Preferred Securities that does not own directly, constructively or by attribution 10% or more of the voting stock of Popular and is, for U.S. federal income tax purposes:

- ∅ a citizen or resident individual of the U.S.,

Ø a domestic corporation,

Ø an estate the income of which is subject to U.S. federal income tax regardless of its source, or

Ø a trust if a U.S. court can exercise primary supervision over the trust's administration and one or more U.S. persons are authorized to control all substantial decisions of the trust.

The term "U.S. Holder" does not include individual Puerto Rico residents who are not citizens or residents of the United States nor does it include PR Corporations. As used herein, the term "Puerto Rico U.S. Holder" means an individual U.S. Holder who is a bona fide resident of Puerto Rico during the entire taxable year (or, in certain cases, a portion thereof) within the meaning of Sections 933 and 937 of the Internal Revenue Code of 1986, as amended (the "Code").

the laws of any state, local or foreign taxing jurisdiction. This section is based on the tax laws of the United States, including the Code, existing and proposed regulations, and administrative and judicial interpretations, all as currently in effect. These laws are subject to change, possibly on a retroactive basis.

If a partnership holds the shares of Preferred Stock or Trust Preferred Securities, the U.S. federal income tax treatment of a partner will generally depend on the status of the partner and the tax treatment of the partnership. A partner in a partnership holding the shares of Preferred Stock or Trust Preferred Securities should consult its tax advisor with regard to the U.S. federal income tax treatment of the Exchange Offer and of receiving, owning and disposing of shares of our Common Stock received by you pursuant to the Exchange Offer.

Please consult your own tax advisor concerning the consequences of owning the shares of Preferred Stock or Trust Preferred Securities, participating in the Exchange Offer and of receiving, owning, and disposing of shares of our Common Stock received in the Exchange Offer in your particular circumstances, as well as any tax consequences that may arise under the laws of any state, local or foreign taxing jurisdiction.

TREATMENT OF THE EXCHANGE OFFER

Exchange of Shares of Preferred Stock for Common Stock pursuant to the Exchange Offer

The exchange of the shares of Preferred Stock for shares of our Common Stock pursuant to the Exchange Offer will be treated as a recapitalization for U.S. federal income tax purposes. Therefore, no gain or loss will be recognized by you upon the exchange. Accordingly, your U.S. federal income tax basis in the shares of our Common Stock received in such an exchange will be the same as your adjusted U.S. federal income tax basis in the shares of Preferred Stock surrendered, and your holding period for such shares of Common Stock will include your holding period for the shares of Preferred Stock that were exchanged.

Exchange of the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for Common Stock pursuant to the Exchange Offer

This subsection is based on the treatment of the Trusts as grantor trusts and on the treatment of the debt securities held by the related trusts (the Underlying Debt Securities) as our indebtedness for U.S. federal income tax purposes, and the rest of this subsection so assumes.

A holder of a 6.70% Trust Preferred Security or a 6.125% Trust Preferred Security is treated for U.S. federal income tax purposes as the beneficial owner of a ratable share of the Underlying Debt Securities. Therefore, the exchange of the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer will be treated as an exchange of the Underlying Debt Securities for shares of our Common Stock for U.S. federal income tax purposes, and will be a recapitalization. Therefore, except as described below with respect to any payments for accrued and unpaid distributions, no gain or loss will be recognized by you upon the exchange. Accordingly, your U.S. federal income tax basis in the Common Stock received in such an exchange will be the same as your adjusted U.S. federal income tax basis in the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities surrendered, and your holding period for such shares of Common Stock received by you pursuant to the Exchange Offer will include your holding period for the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities that were exchanged.

Taxation

Unless you are a Puerto U.S. Holder, payment of any accrued and unpaid distributions on your 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities in the exchange will be taxable as ordinary interest income (to the extent not previously taken into income).

If you acquired a 6.70% Trust Preferred Security or 6.125% Trust Preferred Security for an amount that is less than the stated principal amount of a ratable share of the Underlying Debt Securities, the amount of such difference is generally treated as market discount on the Underlying Debt Securities for U.S. federal income tax purposes, unless such difference is less than a specified *de minimis* amount. In general, market discount will be considered to accrue ratably during the period from the date of the purchase of the 6.70% Trust Preferred Security or 6.125% Trust Preferred Security to the maturity date of the Underlying Debt Securities, unless you make an irrevocable election (on an instrument-by-instrument basis) to accrue market discount under a constant yield method. Unless you are a Puerto U.S. Holder, if you exchange 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities with accrued market discount for shares of our Common Stock received by you pursuant to the Exchange Offer, any gain on the subsequent disposition of such shares of our Common Stock will be treated as ordinary interest income to the extent of such accrued market discount that has not previously been included in income.

If you are Puerto Rico U.S. Holder, any payments of accrued and unpaid distributions you receive or gain attributable to market discount with respect to the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities will constitute gross income from sources within Puerto Rico and will not be included in your gross income for, and will be exempt from, U.S. federal income taxation. In addition, for U.S. federal income tax purposes, no deduction or credit will be allowed that is allocable to or chargeable against amounts so excluded from the Puerto Rico U.S. Holder's gross income.

If you are a PR Corporation, generally any payments of accrued and unpaid distributions you receive or gain attributable to market discount with respect to the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities will not be subject to U.S. federal income tax if the distributions or gain is not effectively connected with a United States trade or business of the PR Corporation. The Code provides special rules for PR Corporations that are Controlled Foreign Corporations, Personal Holding Companies, or Passive Foreign Investment Companies for U.S. federal income tax purposes.

Exchange of the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for Common Stock pursuant to the Exchange Offer

This subsection is based on the treatment of the Trusts as grantor trusts and on the treatment of the Underlying Debt Securities as indebtedness of Banponce Financial Corp. (in the case of the 8.327% Trust Preferred Securities) and Popular North America, Inc. (in the case of the 6.564% Trust Preferred Securities) for U.S. federal income tax purposes, and the rest of this subsection so assumes.

General. A holder of an 8.327% Trust Preferred Security or a 6.564% Trust Preferred Security is treated for U.S. federal income tax purposes as the beneficial owner of a ratable share of the Underlying Debt Securities. Therefore, the exchange of the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer will be treated as an exchange of the Underlying Debt Securities for shares of our Common Stock for U.S. federal income tax purposes.

and your adjusted U.S. federal income tax basis in the 8.327% Trust Preferred Security or 6.564% Trust Preferred Security. Subject to the discussion below regarding market discount, such gain or loss generally constitutes a capital gain or loss. Capital gain of a non-corporate U.S. Holder is generally taxed at a maximum rate of 15 percent where the holder has a holding period for U.S. federal income tax purposes in the property of more than one year. There are limits on the deductibility of capital losses for both corporate and non-corporate holders.

Your initial U.S. federal income tax basis in the shares of our Common Stock received in the exchange will be equal to its fair market value, and your holding period with respect to the shares of our Common Stock received by you will begin on the day following the settlement date.

Payment of any accrued and unpaid distributions on your 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities in the exchange will be taxable as ordinary interest income (to the extent not previously taken into income).

If you acquired an 8.327% Trust Preferred Security or 6.564% Trust Preferred Security for an amount that is less than the stated principal amount of a ratable share of the Underlying Debt Securities, the amount of such difference is generally treated as market discount on the Underlying Debt Securities for U.S. federal income tax purposes, unless such difference is less than a specified *de minimis* amount. In general, market discount will be considered to accrue ratably during the period from the date of the purchase of the 8.327% Trust Preferred Security or 6.564% Trust Preferred Security to the maturity date of the Underlying Debt Securities, unless you make an irrevocable election (on an instrument-by-instrument basis) to accrue market discount under a constant yield method. If you exchange 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities with accrued market discount for shares of our Common Stock pursuant to the Exchange Offer, any gain recognized will be treated as ordinary interest income to the extent of such accrued market discount that has not previously been included in income.

Puerto Rico U.S. Holders. In general, subject to the discussion below concerning market discount, gain from the exchange of 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for our Common Stock pursuant to the Exchange Offer by a Puerto Rico U.S. Holder that is a resident of Puerto Rico will constitute income from sources within Puerto Rico and will not be includible in said holder's gross income for, and will be exempt from U.S. federal income taxation. Also, no deduction or credit will be allowed that is allocable to or chargeable against amounts so excluded from the Puerto Rico U.S. Holder's gross income.

Payment of any accrued and unpaid distributions on 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities in the exchange will be taxable and included by a Puerto Rico U.S. Holder in such holder's gross income as ordinary interest income (to the extent not previously taken into income). In addition, though not entirely free from doubt, any amount of gain attributable to market discount (as described above under U.S. Holders other than Puerto Rico U.S. Holders) should also be taxable and included by a Puerto Rico U.S. Holder in such holder's gross income as ordinary interest income.

PR Corporations. Generally, if you are a PR Corporation, you will not recognize any gain or loss on the exchange of 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer for U.S. federal income tax purposes.

The accrued but unpaid distributions on the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities paid to you in the exchange will not be subject to U.S. federal income and withholding tax provided that (a) the distributions on the 8.327% Trust Preferred Securities or 6.564%

U.S. HOLDERS OF COMMON STOCK

Taxation of Dividends

General. Under the source of income rules of the Code, dividends on shares Common Stock will constitute gross income from sources outside the United States if less than 25% of Popular's gross income for the previous three taxable years is effectively connected with a trade or business in the United States. Since its incorporation in 1984, Popular has not, nor does it expect in the future, that 25% or more of its gross income will be effectively connected with a trade or business in the United States. Accordingly, dividends paid on shares of our Common Stock distributed by Popular will constitute gross income from sources outside the United States so long as Popular continues to meet the gross income test described above.

U.S. Holders other than Puerto Rico U.S. Holders. Subject to the discussion under Passive Foreign Investment Company Rules below, distributions made with respect to shares of our Common Stock, including the amount of any Puerto Rico taxes withheld on the distribution, will be includible in the gross income of a U.S. Holder, other than a Puerto Rico U.S. Holder, as foreign source gross income to the extent the distributions are paid out of current or accumulated earnings and profits of Popular as determined for U.S. federal income tax purposes. These dividends will not be eligible for the dividends received deduction generally allowed to U.S. Holders that are corporations. To the extent, if any, that the amount of any distribution by Popular exceeds its current and accumulated earnings and profits as determined under U.S. federal income tax principles, it will be treated first as a tax-free return of the U.S. Holder's tax basis in the shares of our Common Stock and thereafter as gain on the sale or exchange of the Common Stock.

Subject to certain conditions and limitations contained in the Code, any Puerto Rico income tax imposed on dividends distributed by Popular in accordance with Puerto Rico income tax law will be eligible for credit against the U.S. Holder's U.S. federal income tax liability. See Certain Puerto Rico Tax Considerations Ownership and Disposition of Common Stock Taxation of Dividends below. For purposes of calculating a U.S. Holder's U.S. foreign tax credit limitation, dividends distributed by Popular will be income from sources outside the United States, and, depending on your circumstances, will be either passive category income or general category income.

For non-corporate U.S. Holders who are not Puerto Rico U.S. Holders, dividends paid in taxable years beginning before January 1, 2011 that constitute qualified dividend income will be taxable at a maximum tax rate of 15% provided that the shares of our Common Stock are held for more than 60 days during the 121-day period beginning 60 days before the ex-dividend date and meet other holding period requirements. Subject to the discussion under Passive Foreign Investment Company Rules below, dividends paid with respect to the shares of our Common Stock generally will be qualified dividend income.

Puerto Rico U.S. Holders. In general, and subject to the discussion under Passive Foreign Investment Company Rules below, distributions of dividends made by Popular on the shares of our Common Stock

to a Puerto Rico U.S. Holder will constitute gross income from sources within Puerto Rico and will not be includible in the stockholder's gross income for, and will be exempt from, U.S. federal income taxation. In addition, for U.S. federal income tax purposes, no deduction or credit will be allowed that is allocable to or chargeable against amounts so excluded from the Puerto Rico U.S. Holder's gross income.

PR Corporations. In general, distributions of dividends made by Popular on the shares of our Common Stock to a PR Corporation will not, in the hands of the PR Corporation, be subject to U.S. federal income tax if the dividends are not effectively connected with a United States trade or business of the PR Corporation. The Code provides special rules for PR Corporations that are Controlled Foreign Corporations, Personal Holding Companies, or Passive Foreign Investment Companies for U.S. federal income tax purposes.

Taxation of Capital Gains

U.S. Holders other than Puerto Rico U.S. Holders. A U.S. Holder, other than a Puerto Rico U.S. Holder, will recognize gain or loss on the sale or other disposition of shares of our Common Stock, including redemptions treated as sales or exchanges of shares of our Common Stock under Section 302 of the Code, in an amount equal to the difference between the amount realized on the sale or other disposition and the U.S. Holder's adjusted U.S. federal income tax basis in the shares of our Common Stock. Subject to the discussion under Passive Foreign Investment Company Rules below, the gain or loss will be a capital gain or loss if the shares of our Common Stock are held as a capital asset. Capital gain of a non-corporate U.S. Holder that is recognized in taxable years beginning before January 1, 2011 is generally taxed at a maximum rate of 15% where the holder has a holding period greater than one year. Redemptions of shares of our Common Stock that are not treated as sales or exchanges under Section 302 of the Code will generally be subject to income tax under the Code as dividends to the extent of current and accumulated earnings and profits of Popular and would be treated as described above under Taxation of Dividends U.S. Holders other than Puerto Rico U.S. Holders.

Gain or loss recognized by a U.S. Holder on the sale or other disposition of our Common Stock generally will be treated as income or loss from sources within the United States for foreign tax credit limitation purposes.

Puerto Rico U.S. Holders. In general, and subject to the discussion under Passive Foreign Investment Company Rules below, gain from the sale or exchange of shares of our Common Stock, including redemptions treated as sales or exchanges of shares of our Common Stock under Section 302 of the Code, by a Puerto Rico U.S. Holder that is a resident of Puerto Rico will constitute income from sources within Puerto Rico, and will not be includible in such stockholder's gross income for, and will be exempt from U.S. federal income taxation. Also, no deduction or credit will be allowed that is allocable to or chargeable against amounts so excluded from the Puerto Rico U.S. Holder's gross income. Redemptions of shares of Common Stock that are not treated as sales or exchanges under Section 302 of the Code will generally be treated under the Code as dividends to the extent of current and accumulated earnings and profits of Popular and would be treated as described above under Taxation of Dividends Puerto Rico U.S. Holders.

PR Corporations. In general, any gain derived by a PR Corporation from the sale or exchange of Common Stock will not be subject to U.S. federal income tax if the gain is not effectively connected with a United States trade or business of the PR Corporation. The Code provides special rules for PR Corporations that are Controlled Foreign Corporations, Personal Holding Companies, or Passive Foreign Investment Companies for U.S. federal income tax purpose. Redemptions of shares of our Common Stock that are not treated as sales or exchanges under Section 302 of the Code will generally be

treated under the Code as dividends to the extent of current and accumulated earnings and profits of Popular and would be treated as described above under Taxation of Dividends PR Corporations.

Passive Foreign Investment Company Rules

We believe that we should not be treated as a passive foreign investment company (or PFIC) for U.S. federal income tax purposes, but this conclusion is a factual determination that is made annually and thus may be subject to change.

In general, if you are a U.S. Holder, we will be a PFIC with respect to you if for any taxable year in which you held shares of our Common Stock:

Ø at least 75% of our gross income for the taxable year is passive income; or

Ø at least 50% of the value, determined on the basis of a quarterly average, of our assets is attributable to assets that produce or are held for the production of passive income.

Passive income generally includes dividends, interest, royalties, rents (other than certain rents and royalties derived in the active conduct of a trade or business), annuities and gains from assets that produce passive income. If a foreign corporation owns directly or indirectly at least 25% by value of the stock of another corporation, the foreign corporation is treated for purposes of the passive foreign investment company tests as owning its proportionate share of the assets of the other corporation, and as receiving directly its proportionate share of the other corporation's income.

If we are treated as a PFIC, and you are a U.S. Holder that does not make a mark-to-market election, as described below, you will be subject to special rules with respect to:

Ø any gain you realize on the sale or other disposition of your shares of our Common Stock; and

Ø any excess distribution that we make to you (generally, any distributions to you during a single taxable year that are greater than 125% of the average annual distributions received by you in respect of shares of our Common Stock during the three preceding taxable years or, if shorter, your holding period for such shares of our Common Stock).

Under these rules:

- (1) the gain or excess distribution will be allocated ratably over your holding period for the shares of our Common Stock;
- (2) the amount allocated to the taxable year in which you realized the gain or excess distribution will be taxed as ordinary income;
- (3) the amount allocated to each prior year, with certain exceptions, will be taxed at the highest tax rate in effect for that year; and

Edgar Filing: POPULAR INC - Form S-4

(4) the interest charge generally applicable to underpayments of tax will be imposed in respect of the tax attributable to each such year. Special rules apply for calculating the amount of the foreign tax credit with respect to excess distributions by a PFIC.

If we are a PFIC and you own shares of our Common Stock that is treated as marketable stock, you may make a mark-to-market election. If you make this election, you will not be subject to the PFIC rules described above. Instead, in general, you will include as ordinary income each year the excess, if any, of

the fair market value of your Common Stock at the end of the taxable year over your adjusted basis in your shares of our Common Stock. You will also be allowed to take an ordinary loss in respect of the excess, if any, of the adjusted basis of your shares of our Common Stock over its fair market value at the end of the taxable year (but only to the extent of the net amount of previously included income as a result of the mark-to-market election). Your basis in the shares of our Common Stock will be adjusted to reflect any such income or loss amounts. Your gain, if any, recognized upon the sale of your shares of our Common Stock will be taxed as ordinary income.

In addition, notwithstanding any election you make with regard to the shares of our Common Stock, dividends that you receive from us will not constitute qualified dividend income to you if we are a PFIC either in the taxable year of the distribution or the preceding taxable year. Moreover, your shares of our Common Stock will be treated as stock in a PFIC if we were a PFIC at any time during your holding period in your shares of our Common Stock, even if we are not currently a PFIC. For purposes of this rule, if you make a mark-to-market election with respect to your shares of our Common Stock, you will be treated as having a new holding period in your shares of our Common Stock beginning on the first day of the first taxable year beginning after the last taxable year for which the mark-to-market election applies. Dividends that you receive that do not constitute qualified dividend income are not eligible for taxation at the 15% maximum rate applicable to qualified dividend income. Instead, you must include the gross amount of any such dividend paid by us out of our accumulated earnings and profits (as determined for U.S. federal income tax purposes) in your gross income, and it will be subject to tax at rates applicable to ordinary income.

Under certain proposed Treasury Regulations under the PFIC provisions of the Code, Puerto Rico U.S. Holders would be subject to the rules described in (3) and (4) above only to the extent that any excess distribution or gain is allocated to a taxable year during which the individual held the shares of our Common Stock and was not a bona fide resident of Puerto Rico during the entire taxable year within the meaning of Sections 933 and 937 of the Code or, in certain cases, a portion thereof. The portion of the excess distribution or gain allocated to the current taxable year of the Puerto Rico U.S. Holders will not be subject to U.S. federal income taxation pursuant to Code Section 933.

If you own shares of our Common Stock during any year that we are a PFIC, you must file Internal Revenue Service Form 8621.

BACKUP WITHHOLDING AND INFORMATION REPORTING

U.S. Holders other than Puerto Rico U.S. Holders. For non-corporate U.S. Holders, information reporting requirements, on Internal Revenue Service Form 1099, generally will apply to dividend payments or other taxable distributions made within the United States, and the payment of proceeds to holders from the sale of shares of our Common Stock effected at a United States office of a broker.

Additionally, backup withholding may apply to such payments for non-corporate U.S. holders if: such holder fails to provide an accurate taxpayer identification number, or if Popular is notified by the Internal Revenue Service that the holder has failed to report all interest and dividends required to be shown on federal income tax returns, or in certain circumstances, if the holder fails to comply with applicable certification requirements.

receipt, ownership and disposition of shares of our Common Stock received upon exchange. It applies to you only if you acquire the shares of our Common Stock in the Exchange Offer and you hold your shares of Preferred Stock or Trust Preferred Securities and your shares of our Common Stock as capital assets for Puerto Rico income tax purposes. It does not purport to be a comprehensive description of all of the tax considerations that may be relevant to a decision to exchange the shares of Preferred Stock or Trust Preferred Securities by any particular investor and does not describe any tax consequences arising under the laws of any state, locality or taxing jurisdiction other than Puerto Rico. It does not address special classes of holders, such as life insurance companies, special partnerships, corporations of individuals, registered investment companies, estate and trusts and tax-exempt organizations.

This discussion is based on the tax laws of Puerto Rico as in effect on the date of this prospectus, as well as regulations, administrative pronouncements and judicial decisions available on or before such date and now in effect. All of the foregoing are subject to change, which change could apply retroactively and could affect the continued validity of this summary.

You should consult your own tax advisor as to the application to your particular situation of the tax considerations discussed below, as well as the application of any state, local, foreign or other tax.

For purposes of the following discussion, the term "Puerto Rico Corporation" is used to refer to a corporation organized under the laws of Puerto Rico and the term "foreign corporation" is used to refer to a corporation organized under the laws of a jurisdiction other than Puerto Rico.

TREATMENT OF THE EXCHANGE OFFER

Exchange of shares of Preferred Stock for Common Stock pursuant to the Exchange Offer

Puerto Rico Residents

The exchange of the shares of Preferred Stock for shares of our Common Stock pursuant to the Exchange Offer will be treated as a recapitalization. Therefore, no gain or loss will be recognized by you upon the exchange. Accordingly, your Puerto Rico income tax basis in the shares of our Common Stock received in such an exchange should be the same as your Puerto Rico income tax basis in the shares of Preferred Stock surrendered, and your holding period for such shares of our Common Stock should include your holding period for the shares of Preferred Stock that were exchanged.

Non-Puerto Rico Residents

Generally, the exchange of the shares of Preferred Stock for our shares of Common Stock pursuant to the Exchange Offer should not result in the recognition of gain or loss for Puerto Rico income tax purposes since the exchange will be treated as a recapitalization.

Exchange of the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for Common Stock pursuant to the Exchange Offer

This subsection is based on the treatment of the Trusts as grantor trusts and on the treatment of the debt securities held by the related trusts (the "Underlying Debt Securities") as our indebtedness for Puerto Rico income tax purposes, and the rest of this subsection so assumes.

Table of Contents
Taxation

A holder of a 6.70% Trust Preferred Security or a 6.125% Trust Preferred Security is treated for Puerto Rico income tax purposes as the beneficial owner of a ratable share of the Underlying Debt Securities. Therefore, the exchange of the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities for shares of our Common Stock pursuant to the Exchange Offer will be treated as an exchange of the Underlying Debt Securities for shares of our Common Stock for Puerto Rico income tax purposes, and will be a recapitalization. Therefore, except as described below with respect to any payments for accrued and unpaid distributions, no gain or loss will be recognized by you upon the exchange. Accordingly, your Puerto Rico income tax basis in the shares of our Common Stock received in such an exchange will be the same as your adjusted Puerto Rico income tax basis in the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities surrendered, and your holding period for such shares of our Common Stock received pursuant to your tender of securities in the Exchange Offer will include your holding period for the 6.70% Trust Preferred Securities or 6.125% Trust Preferred Securities that were exchanged.

The fair market value of any shares of Common Stock received by you attributable to accrued but unpaid interest on the Underlying Debt Securities, although not free from doubt, should be taxable as ordinary income (to the extent not previously taken into income) for individual residents of Puerto Rico up to a maximum of 33% and in the case of Puerto Rico corporations up to a maximum of 39%. All other holders of Trust Preferred Securities should consult their tax advisors with respect to the Puerto Rico income taxation of accrued but unpaid interest on the Underlying Debt Securities subject to the exchange. Your initial Puerto Rico income tax basis in any shares of our Common Stock treated as an interest payment should be equal to its fair market value immediately after the settlement date, and your holding period with respect to such shares of our Common Stock should begin on the day following the settlement date.

If you acquired a 6.70% Trust Preferred Security or 6.125% Trust Preferred Security for an amount that is less than the stated principal amount of a ratable share of the Underlying Debt Securities, the amount of such difference is generally treated as market discount on the Underlying Debt Securities for Puerto Rico income tax purposes. Such security holders are advised to consult their tax advisors as to the Puerto Rico income tax consequences of the disposition of shares of our Common Stock acquired pursuant to the Exchange Offer.

Exchange of the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for Common Stock pursuant to the Exchange Offer

This subsection is based on the treatment of the Trusts as grantor trusts and on the treatment of the Underlying Debt Securities as indebtedness of Banponce Financial Corp. (in the case of the 8.327% Trust Preferred Securities) and Popular North America, Inc. (in the case of the 6.564% Trust Preferred Securities) for Puerto Rico income tax purposes, and the rest of this subsection so assumes.

General. A holder of an 8.327% Trust Preferred Security or a 6.564% Trust Preferred Security is treated for Puerto Rico income tax purposes as the beneficial owner of a ratable share of the Underlying Debt Securities. Therefore, the exchange of the 8.327% Trust Preferred Securities or 6.564% Trust Preferred Securities for our Common Stock pursuant to the Exchange Offer will be treated as an exchange of the Underlying Debt Securities for our shares of Common Stock for Puerto Rico income tax purposes.

Puerto Rico and Non-Puerto Rico Residents. Such exchange will generally result in a taxable gain or loss in an amount equal to the difference between the fair market value of the shares of our Common Stock received and your adjusted Puerto Rico income tax basis in the 8.327% Trust Preferred Security or

6.564% Trust Preferred Security. Subject to the discussion below regarding market discount, such gain or loss generally constitutes a capital gain or loss. Capital gain on the exchange would be subject to the tax treatment applicable to the shares of our Common Stock as described under the heading Taxation of Gains Upon Sales or Exchanges.

Your initial Puerto Rico income tax basis in the shares of our Common Stock received in the exchange will be equal to its fair market value, and your holding period with respect to the shares of our Common Stock will begin on the day following the settlement date.

The fair market value of any shares of our Common Stock received by you attributable to accrued but unpaid interest on the Underlying Debt Securities, although not free from doubt, should be taxable as ordinary income (to the extent not previously taken into income) for individual residents of Puerto Rico up to a maximum 33% and in the case of corporations up to a maximum of 39%. All holders of Trust Preferred Securities should consult their tax advisers with respect to Puerto Rico income taxation of accrued but unpaid interest on the Underlying Debt Securities subject to the exchange. Your initial Puerto Rico income tax basis in the shares of our Common Stock treated as an interest payment should be equal to its fair market value immediately after the settlement date, and your holding period with respect to such shares of our Common Stock should begin on the day following the settlement date.

If you acquired an 8.327% Trust Preferred Security or 6.564% Trust Preferred Security for an amount that is less than the stated principal amount of a ratable share of the Underlying Debt Securities, the amount of such difference is generally treated as market discount on the Underlying Debt Securities for Puerto Rico income tax purposes. Such security holders are advised to consult their tax advisors as to the Puerto Rico income tax consequences of the disposition of shares of our Common Stock acquired pursuant to the Exchange Offer.

OWNERSHIP AND DISPOSITION OF COMMON STOCK

Taxation of Dividends

General. Distributions of cash or other property made by Popular, Inc. on the shares of our Common Stock will be treated as dividends to the extent that Popular, Inc. has current or accumulated earnings and profits. To the extent that a distribution exceeds Popular, Inc.'s current and accumulated earnings and profits, the distribution will be applied against and reduce the adjusted Puerto Rico income tax basis of the shares of our Common Stock in the hands of the holder. The excess of any distribution of this type over the adjusted Puerto Rico income tax basis will be treated as gain on the sale or exchange of the shares of our Common Stock and will be subject to income tax as described below.

The following discussion regarding the income taxation of dividends on shares of our Common Stock received by individuals not residents of Puerto Rico and foreign corporations not engaged in a trade or business in Puerto Rico assumes that dividends will constitute income from sources within Puerto Rico. Generally, a dividend declared by a Puerto Rico corporation will constitute income from sources within Puerto Rico unless the corporation derived less than 20% of its gross income from sources within Puerto Rico for the three taxable years preceding the year of the declaration. Popular, Inc. has represented that it has derived more than 20% of its gross income from Puerto Rico sources on an annual basis since its incorporation in 1984.

Individual Residents of Puerto Rico and Puerto Rico Corporations. In general, individuals who are residents of Puerto Rico will be subject to a 10% income tax on dividends paid on the shares of our

Table of Contents
Taxation

Common Stock. This tax is generally required to be withheld by Popular, Inc. An individual may elect for this withholding not to apply, by following the procedures described in *Special Withholding Tax Considerations* below. In that case he or she will be required to include the amount of the dividend as ordinary income and will be subject to income tax thereon at the normal income tax rates, which may be up to 33%. Even if the withholding is actually made, the individual may elect, upon filing his income tax return for the year the dividend is paid, for the dividends to be taxed at the normal income tax rates applicable to individuals. In this case, the 10% Puerto Rico income tax withheld is creditable against the normal tax so determined.

Puerto Rico Corporations will be subject to income tax on dividends paid on the shares of our Common Stock at the normal corporate income tax rates, subject to the dividend received deduction discussed below. In the case of Puerto Rico Corporations, no withholding will be imposed on dividends paid on the shares of our Common Stock provided the procedures described in *Special Withholding Tax Considerations* below are followed. The dividend received deduction will be equal to 85% of the dividend received, but the deduction may not exceed 85% of the corporation's net taxable income. Based on the applicable maximum Puerto Rico normal corporate income tax rate of 39%, the maximum effective income tax rate on these dividends will be 5.85% after accounting for the dividend received deduction.

Individual residents of Puerto Rico are subject to alternative minimum tax on the alternative minimum tax net income if the regular tax liability is less than the alternative minimum tax liability. The alternative minimum tax net income includes certain income exempt from the regular tax and income subject to special tax rates, such as the 10% tax on dividends described above. The tax rates on net income subject to alternative minimum tax are as follows: from \$75,000 to \$125,000, the tax rate is 10%; in excess of \$125,000 but not greater than \$175,000, the tax rate is 15%; and in excess of \$175,000 the tax rate is 20%.

The alternative minimum tax liability of a Puerto Rico Corporation is not affected by the receipt of dividends on the shares of our Common Stock.

United States citizens not residents of Puerto Rico. Dividends paid on the shares of our Common Stock to a United States citizen who is not a resident of Puerto Rico will be subject to a 10% Puerto Rico income tax which will be withheld by Popular, Inc. These individuals may also elect for the dividends to be taxed in Puerto Rico at the normal income tax rates applicable to individuals in the same way as Puerto Rico resident individuals. The 10% Puerto Rico income tax withheld is creditable against the normal income tax so determined by said individual shareholder. No 10% Puerto Rico income tax withholding will be made if such individual shareholder opts out of the 10% withholding tax by following the procedures described in *Special Withholding Tax Considerations* below.

A United States citizen who is not a resident of Puerto Rico will be subject to Puerto Rico alternative minimum tax as provided in the rules described under the heading *Individuals Residents of Puerto Rico and Puerto Rico Corporations*.

Individuals not citizens of the United States and not residents of Puerto Rico. Dividends paid on the shares of our Common Stock to any individual who is not a citizen of the United States and who is not a resident of Puerto Rico will generally be subject to a 10% tax which will be withheld at source by Popular, Inc.

Foreign corporations. The income taxation of dividends paid on the shares of our Common Stock to a foreign corporation will depend on whether or not the corporation is engaged in a trade or business in Puerto Rico.

Table of Contents**Taxation**

A foreign corporation that is engaged in a trade or business in Puerto Rico will be subject to the normal corporate income tax rates applicable to Puerto Rico corporations on its net income that is effectively connected with the trade or business in Puerto Rico. This income will include net income from sources within Puerto Rico and certain items of net income from sources outside Puerto Rico that are effectively connected with the trade or business in Puerto Rico. Net income from sources within Puerto Rico will include dividends on the shares of our Common Stock. A foreign corporation that is engaged in a trade or business in Puerto Rico will be entitled to claim the 85% dividend received deduction discussed above in connection with dividends received from Puerto Rico corporations.

In general, foreign corporations that are engaged in a trade or business in Puerto Rico are also subject to a 10% branch profits tax. However, dividends on the shares of our Common Stock received by these corporations will be excluded from the computation of the branch profits tax liability of these corporations.

A foreign corporation that is not engaged in a trade or business in Puerto Rico will be subject to a 10% withholding tax on dividends received on the shares of our Common Stock.

Partnerships. Partnerships are generally taxed in the same manner as corporations. Accordingly, the preceding discussion with respect to Puerto Rico and foreign corporations is equally applicable in the case of most Puerto Rico and foreign partnerships, respectively.

Special Withholding Tax Considerations. By agreeing to exchange the shares of Preferred Stock or Trust Preferred Securities for shares of our Common Stock investors will be agreeing that all dividends distributed to them will be subject to a 10% Puerto Rico income tax withholding at source. The 10% tax will be withheld at source unless your broker or other direct or indirect participant of DTC certifies to Popular, Inc. through DTC that either (i) the holder of the shares of our Common Stock is not an individual, estate or trust, or (ii) the holder of the shares of our Common Stock is an individual, estate or trust that has provided a written statement to the broker/dealer opting-out of such withholding. A United States citizen not resident of Puerto Rico must also timely file with the broker/dealer a withholding exemption certificate to the effect that the individual's gross income from sources within Puerto Rico during the taxable year does not exceed \$1,300 if single or \$3,000 if married.

Taxation of Gains upon Sales or Exchanges

General. The sale or exchange of shares of our Common Stock will give rise to gain or loss equal to the difference between the amount realized on the sale or exchange and the Puerto Rico income tax basis of the shares of our Common Stock in the hands of the holder. Any gain or loss that is required to be recognized will be a capital gain or loss if the shares of our Common Stock are held as a capital asset by the holder and will be a long-term capital gain or loss if the stockholder's holding period of the shares of our Common Stock exceeds six months.

Individual Residents of Puerto Rico and Puerto Rico Corporations. Gain on the sale or exchange of shares of our Common Stock by an individual resident of Puerto Rico or a Puerto Rico corporation will generally be required to be recognized as gross income and will be subject to income tax. If the stockholder is an individual and the gain is a long-term capital gain, the gain will be taxable at a maximum rate of 10%. If the stockholder is a Puerto Rico corporation and the gain is a long-term capital gain, the gain will qualify for an alternative tax rate of 15%.

Individual residents of Puerto Rico are subject to alternative minimum tax on the alternative minimum tax net income if the regular tax liability is less than the alternative minimum tax liability. The

Table of Contents
Taxation

alternative minimum tax net income includes certain income exempt from the regular tax and income subject to special tax rates, such as long-term capital gains, if any, recognized by the individual on the disposition of the shares of our Common Stock. The tax rates on net income subject to alternative minimum tax are as follows: from \$75,000 to \$125,000, the tax rate is 10%; in excess of \$125,000 but not greater than \$175,000, the tax rate is 15%; and in excess of \$175,000, the tax rate is 20%.

The alternative minimum tax liability of a Puerto Rico Corporation is not affected by the recognition of long-term capital gains on the disposition of the shares of our Common Stock.

United States citizens not residents of Puerto Rico. A United States citizen who is not a resident of Puerto Rico will not be subject to Puerto Rico income tax on the sale or exchange of shares of our Common Stock if the gain resulting therefrom constitutes income from sources outside Puerto Rico. Generally, gain on the sale or exchange of shares of our Common Stock will be considered to be income from sources outside Puerto Rico if all rights, title and interest in or to the shares of our Common Stock are transferred outside Puerto Rico, and if the delivery or surrender of the instruments that evidence the shares of our Common Stock is made to an office of a paying or exchange agent located outside Puerto Rico. If the gain resulting from the sale or exchange constitutes income from sources within Puerto Rico, an amount equal to 10% of the payments received will be withheld at the source; and if the gain constitutes a long-term capital gain, it will be subject to a tax at a maximum rate of 10%. The amount of tax withheld at source will be creditable against the shareholder's Puerto Rico income tax liability.

A United States citizen who is not a resident of Puerto Rico will be subject to alternative minimum tax as provided in the rules described under the above heading Individuals Residents of Puerto Rico and Puerto Rico Corporations.

Individuals not citizens of the United States and not residents of Puerto Rico. An individual who is not a citizen of the United States and who is not a resident of Puerto Rico will be subject to the rules described above under United States Citizens Not Residents of Puerto Rico. However, if the gain resulting from the sale or exchange of shares of our Common Stock constitutes income from sources within Puerto Rico, an amount equal to 25% of the payments received will be withheld at the source; provided, that if the gain resulting from the sale or exchange represents a capital gain from sources within Puerto Rico, the individual will generally be subject to tax on this gain at a fixed rate of 29%. The amount of tax withheld at source will be creditable against the shareholder's Puerto Rico income tax liability.

Foreign corporations. A foreign corporation that is engaged in a trade or business in Puerto Rico will generally be subject to Puerto Rico corporate income tax on any gain realized on the sale or exchange of shares of our Common Stock if the gain is (1) from sources within Puerto Rico, or (2) from sources outside Puerto Rico and effectively connected with a trade or business in Puerto Rico. Any such gain will qualify for an alternative tax of 15% if it qualifies as a long-term capital gain.

In general, foreign corporations that are engaged in a trade or business in Puerto Rico will also be subject to a 10% branch profits tax. In the computation of this tax, any gain realized by these corporations on the sale or exchange of shares of our Common Stock and that is subject to Puerto Rico income tax will be taken into account. However, a deduction will be allowed in the computation for any income tax paid on the gain realized on the sale or exchange.

A foreign corporation that is not engaged in a trade or business in Puerto Rico will generally be subject to a corporate income tax rate of 29% on any capital gain realized on the sale or exchange of shares of

our Common Stock if the gain is from sources within Puerto Rico. Gain on the sale or exchange of shares of our Common Stock will generally not be considered to be from sources within Puerto Rico if all rights, title and interest in or to the shares of our Common Stock are transferred outside Puerto Rico, and if the delivery or surrender of the instruments that evidence the shares of our Common Stock is made to an office of a paying or exchange agent located outside Puerto Rico. If the gain resulting from the sale or exchange constitutes income from sources within Puerto Rico, an amount equal to 25% of the payments received will be withheld at the source and be creditable against the shareholder's Puerto Rico income tax liability. In the case of such foreign corporation, no income tax will be imposed if the gain constitutes income from sources outside Puerto Rico.

Partnerships. Partnerships are generally taxed as corporations. Accordingly, the discussion with respect to Puerto Rico and foreign corporations is equally applicable to most Puerto Rico and foreign partnerships, respectively.

Estate and Gift Taxation. The transfer of shares of our Common Stock by inheritance by a decedent who was a resident of Puerto Rico at the time of his or her death will not be subject to estate tax if the decedent was a citizen of the United States who acquired his or her citizenship solely by reason of birth or residence in Puerto Rico. The transfer of shares of our Common Stock by gift by an individual who is a resident of Puerto Rico at the time of the gift will not be subject to gift tax. Other individuals should consult their own tax advisors in order to determine the appropriate treatment for Puerto Rico estate and gift tax purposes of the transfer of the shares of our Common Stock by death or gift.

Municipal License Taxation. Individuals and corporations that are not engaged in a trade or business in Puerto Rico will not be subject to municipal license tax on dividends paid on the shares of our Common Stock or on any gain realized on the sale, exchange or redemption of the shares of our Common Stock.

Individuals, residents or non-residents, and corporations, Puerto Rico or foreign, that are engaged in a trade or business in Puerto Rico will generally be subject to municipal license tax on dividends paid on the shares of our Common Stock and on the gain realized on the sale, exchange or redemption of the shares of our Common Stock if the dividends or gain are attributable to that trade or business. The municipal license tax is imposed on the volume of business of the taxpayer, and the tax rates vary by municipalities with the maximum rate being 1.5% in the case of financial businesses and 0.5% for other businesses.

Property Taxation. The shares of our Common Stock will not be subject to Puerto Rico property tax.

Table of Contents**Benefit plan investor considerations****Benefit plan investor considerations**

The following is a summary of certain considerations associated with the exchange of the Trust Preferred Securities for Common Stock and the acquisition, holding and, to the extent relevant, disposition of our Common Stock by a pension, profit-sharing or other employee benefit plan subject to the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA) (each, a Plan).

A fiduciary with respect to any assets of a Plan should consider the fiduciary standards of ERISA in the context of the Plan 's particular circumstances before authorizing an exchange of Trust Preferred Securities for Common Stock. Among other factors, the fiduciary should consider whether the investment in Common Stock would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the Plan, and whether the investment would involve a prohibited transaction under ERISA or the U.S. Internal Revenue Code (the Code).

Section 406 of ERISA and Section 4975 of the Code prohibit Plans, as well as individual retirement accounts, Keogh plans and any other plans that are subject to Section 4975 of the Code (also Plans), from engaging in certain transactions involving plan assets with persons who are parties in interest under ERISA or disqualified persons under the Code with respect to the Plan. A violation of these prohibited transaction rules may result in excise tax or other liabilities under ERISA or the Code for those persons, unless exemptive relief is available under an applicable statutory, regulatory or administrative exemption. Employee benefit plans that are governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (Non-ERISA Arrangements) are not subject to the requirements of Section 406 of ERISA or Section 4975 of the Code but may be subject to similar provisions under applicable federal, state, local, non-U.S or other laws (Similar Laws).

The exchange of Trust Preferred Securities for Common Stock by a Plan or any entity whose underlying assets include plan assets by reason of any Plan 's investment in the entity (a Plan Asset Entity) with respect to which we or certain of our affiliates is or becomes a party in interest or disqualified person may result in a prohibited transaction under ERISA or Section 4975 of the Code, unless the Common Stock is acquired pursuant to an applicable exemption. The U.S. Department of Labor has issued five prohibited transaction class exemptions, or PTCEs, that may provide exemptive relief if required for direct or indirect prohibited transactions that may arise from the acquisition or holding of our Common Stock. These exemptions are PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers), PTCE 90-1 (for certain transactions involving insurance company pooled separate accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 95-60 (for transactions involving certain insurance company general accounts), and PTCE 96-23 (for transactions managed by in-house asset managers). In addition, ERISA Section 408(b)(17) and Section 4975(d)(20) of the Code provide an exemption for the acquisition and sale of securities offered hereby, provided that neither the issuer of securities offered hereby nor any of its affiliates have or exercise any discretionary authority or control or render any investment advice with respect to the assets of any Plan involved in the transaction, and provided further that the Plan pays no more and receives no less than adequate consideration in connection with the transaction (the service provider exemption). There can be no assurance that all of the conditions of any such exemptions will be satisfied.

Any person acquiring or holding Common Stock or any interest therein will be deemed to have represented by its acquisition and holding of our Common Stock offered hereby that it either (1) is not a Plan, a Plan Asset Entity or a Non-ERISA Arrangement and is not acquiring the Common Stock on

Table of Contents

behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement or (2) the acquisition and holding of the Common Stock will not constitute a non-exempt prohibited transaction or a similar violation under any applicable Similar Laws.

Due to the complexity of these rules and the penalties that may be imposed upon persons involved in non-exempt prohibited transactions, it is important that fiduciaries or other persons considering participating in the exchange on behalf of or with the assets of any Plan, a Plan Asset Entity or Non-ERISA Arrangement consult with their counsel regarding the availability of exemptive relief under any of the PTCEs listed above, the service provider exemption or the potential consequences of any purchase or holding under Similar Laws, as applicable. Participants in the exchange have exclusive responsibility for ensuring that their acquisition and holding of our Common Stock do not violate the fiduciary or prohibited transaction rules of ERISA or the Code or any similar provisions of Similar Laws. The exchange of any Trust Preferred Securities for Common Stock by a Plan, Plan Asset Entity or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives that such an investment meets all relevant legal requirements with respect to investments by any such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement or that such investment is appropriate for such Plans, Plan Asset Entities or Non-ERISA Arrangements generally or any particular Plan, Plan Asset Entity or Non-ERISA Arrangement.

ITEM 20. INDEMNIFICATION OF DIRECTORS AND OFFICERS.

Popular, Inc. is a Puerto Rico corporation.

(a) Article ELEVENTH of the Certificate of Incorporation of Popular, Inc. provides the following:

(1) Popular, Inc. shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of Popular, Inc.) by reason of the fact that he is or was a director, officer, employee or agent of Popular, Inc., or is or was serving at the written request of Popular, Inc. as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by him in connection with such action, suit or proceeding if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of Popular, Inc., and, with respect to any criminal action or proceeding, had no reasonable cause to believe his conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which he reasonably believed to be in or not opposed to the best interests of Popular, Inc. and, with respect to any criminal action or proceeding, had reasonable cause to believe that his conduct was unlawful.

(2) Popular, Inc. shall indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of Popular, Inc. to procure a judgment in its favor by reason of the fact that he is or was a director, officer, employee or agent of Popular, Inc., or is or was serving at the written request of Popular, Inc. as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees) actually and reasonably incurred by him in connection with the defense or settlement of such action or suit if he acted in good faith and in a manner he reasonably believed to be in or not opposed to the best interests of Popular, Inc., except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable for negligence or misconduct in the performance of his duty to Popular, Inc. unless and only to the extent that the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which such court shall deem proper.

(3) To the extent that a director, officer, employee or agent of Popular, Inc. has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in paragraph 1 or 2 of this Article ELEVENTH, or in defense of any claim, issue or matter therein, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by him in connection therewith.

(4) Any indemnification under paragraph 1 or 2 of this Article ELEVENTH (unless ordered by a court) shall be made by Popular, Inc. only as authorized in the specific case upon a determination that indemnification of the director, officer, employee or agent is proper in the circumstances because he has met the applicable standard of conduct set forth therein. Such determination shall be made (a) by the Board of Directors by a majority vote of a quorum consisting of directors who were not parties to such action, suit or proceeding, or (b) if such a quorum is not

obtainable, or, even if obtainable, a quorum of disinterested directors so directs, by independent legal counsel in a written opinion, or (c) by the stockholders.

(5) Expenses incurred in defending a civil or criminal action, suit or proceeding may be paid by Popular, Inc. in advance of the final disposition of such action, suit or proceeding as authorized by the Board of Directors in the specific case upon receipt of an undertaking by or on behalf of the director, officer, employee or agent to repay such amount unless it shall untimely be determined that he is entitled to be indemnified by Popular, Inc. as authorized in this Article ELEVENTH.

(6) The indemnification provided by this Article ELEVENTH shall not be deemed exclusive of any other rights to which those seeking indemnification may be entitled under any statute, by-law, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in his official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

(7) By action of its Board of Directors, notwithstanding any interest of the directors in the action, Popular, Inc. may purchase and maintain insurance, in such amounts as the Board of Directors deems appropriate, on behalf of any person who is or was a director, officer, employee or agent of Popular, Inc., or is or was serving at the written request of Popular, Inc. as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against any liability asserted against him and incurred by him in any such capacity, or arising out of his status as such, whether or not Popular, Inc. would have the power or would be required to indemnify him against such liability under the provisions of this Article ELEVENTH or of the General Corporation Law of the Commonwealth of Puerto Rico or of any other state of the United States or foreign country as may be applicable.

(b) Article 1.02(B)(6) of the Puerto Rico General Corporation Act (the "PR-GCA") provides that a corporation may include in its certificate of incorporation a provision eliminating or limiting the personal liability of members of its board of directors or governing body for breach of a director's fiduciary duty of care. However, no such provision may eliminate or limit the liability of a director for breaching his duty of loyalty, failing to act in good faith, engaging in intentional misconduct or knowingly violating a law, paying an unlawful dividend or approving an unlawful stock repurchase or obtaining an improper personal benefit.

(c) Article 4.08 of the PR-GCA authorizes a Puerto Rico Corporation to indemnify its officers and directors against liabilities arising out of pending or threatened actions, suits or proceedings to which such officers and directors may be made parties by reason of being officers or directors. Such rights of indemnification are not exclusive of any other rights to which such officers or directors may be entitled under any by-law, agreement, vote of stockholders or otherwise.

(d) The Company maintains a directors' and officers' liability insurance policy.

ITEM 22. UNDERTAKINGS.

The undersigned registrant hereby undertakes:

- (1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - (i) To include any prospectus required by Section 10(a)(3) of the Securities Act of 1933;
 - (ii) To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Securities and Exchange Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than a 20 percent change in the maximum aggregate offering price set forth in the Calculation of Registration Fee table in the effective registration statement;
 - (iii) To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;
- (2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof;
- (3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering;
- (4) That, for the purpose of determining liability under the Securities Act of 1933 to any purchaser, each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use; and

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities:

The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- (i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- (ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- (iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- (iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

The undersigned registrant hereby undertakes that, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.

The undersigned registrant hereby undertakes to respond to requests for information that is incorporated by reference into the prospectus pursuant to Item 4, 10(b), 11, or 13 of this form, within one business day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means. This includes information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.

The undersigned registrant hereby undertakes to supply by means of a post-effective amendment all information concerning a transaction, and the company being acquired involved therein, that was not the subject of and included in the registration statement when it became effective.
