Explanatory Note

On July 7, 2015, Horizon Pharma plc (the Company) filed a Current Report on Form 8-K (the Initial Form 8-K) to report certain information regarding the Company's original proposal to acquire Depomed, Inc. (Depomed). The Company is filing this amendment to the Initial Form 8-K to, among other things, provide additional information with respect to the original proposal.

Item 8.01. Other Events.

On July 7, 2015, the Company (i) issued a press release announcing its original proposal to acquire all of the outstanding shares of common stock of Depomed for a per share consideration of \$29.25 in an all-stock transaction valued at approximately \$3.0 billion (the Proposal) and (ii) held a conference call to discuss the Proposal. A copy of the press release and the transcript from the conference call are attached hereto as Exhibit 99.1 and Exhibit 99.2, respectively. On July 21, 2015, the Company issued a press release announcing that it had increased the per share price of its Proposal from \$29.25 per share to \$33.00 per share, contingent on Depomed entering into good faith discussions regarding the proposed transaction.

The Company has proposed a merger transaction that it intends to structure as a reorganization within the meaning of Section 368(a) of the Internal Revenue Code of 1986, as amended (the Code), that would not be a taxable transaction under Section 367(a) of the Code. Under the proposed merger, Depomed shareholders would exchange their Depomed shares for ordinary shares of the Company and would not recognize gain or loss for U.S. income tax purposes upon the exchange, except with respect to cash received in lieu of fractional ordinary shares of the Company. The Company has made certain assumptions about Depomed and the proposed transaction that could be inaccurate, including that the parties will agree on a transaction with a structure that would qualify as a reorganization under Section 368(a) of the Code, that the parties will satisfy the requirements for a reorganization under Section 368(a) and/or that the Internal Revenue Service (IRS) will agree with the parties' conclusions about the qualification of the transaction as a reorganization that would not be a taxable transaction under Section 367(a) of the Code. If the proposed merger does not qualify as a reorganization within the meaning of Section 368(a) of the Code or if it does so qualify but it is taxable under Section 367(a) of the Code, the U.S. holders of Depomed shares who received the Company's ordinary shares in the merger would generally recognize a capital gain or capital loss on the transaction.

The Company is incorporated in Ireland and maintains subsidiaries in multiple jurisdictions, including Ireland, the United States, Switzerland, Luxembourg, Germany and Bermuda. Prior to the Company's acquisition of Vidara Therapeutics International Public Limited Company (Vidara) in September 2014, Vidara was able to achieve a favorable tax rate through the performance of certain functions and ownership of certain assets in tax-efficient jurisdictions, including Ireland and Bermuda, together with intra-group service and transfer pricing agreements, each on an arm's length basis. The Company is continuing a substantially similar structure and arrangement. As reported on Depomed's Annual Report on Form 10-K for the year ended December 31, 2014 filed on February 26, 2015, the effective tax rate of Depomed for 2014 was approximately 38.2% compared to an effective tax rate for the Company of approximately negative 2.3%. If the proposed merger is consummated, subject to certain post acquisition reorganization tax costs, the Company expects that its effective tax rate on the income of the combined companies will be substantially lower than 38.2%. The Company anticipates that the effective tax rate on earnings generated from the sale of Depomed products would be reduced materially after the merger due to (i) an increase in foreign sales of its products vis-à-vis U.S. sales, (ii) the recognition of those sales under the umbrella of the Company's international subsidiaries and (iii) the replacement of certain Depomed external debt with internal inter-company debt and the recapitalization of Depomed. However, tax authorities such as the IRS may actively audit or otherwise challenge these arrangements, and have done so in the pharmaceutical industry and there is no assurance that the combined company will be able to achieve a substantially lower effective tax rate than the effective tax rate of Depomed.

Interest of the Company's Directors and Executive Officers in proposed Merger

The following table sets forth certain information regarding the ownership of the Company's ordinary shares as of June 30, 2015 by (i) each director of the Company; (ii) each executive officer of the Company; and (iii) all executive officers and directors of the Company as a group.

Beneficial ownership is determined in accordance with the rules of the Securities and Exchange Commission (SEC) and includes voting and investment power with respect to the securities. Except as indicated by footnote, and subject to applicable community property laws, the persons named in the table have sole voting and investment power with respect to all ordinary shares shown as beneficially owned by them. The number of ordinary shares used to calculate the percentage ownership of each listed person includes the ordinary shares underlying options, warrants or other rights held by such persons that are exercisable as of August 29, 2015, which is 60 days after June 30, 2015.
