Item 8.01 Other Events

PSEG and Power

On September 1, 2016, Power submitted to the PJM Independent Market Monitor and the PJM Office of Interconnection a preliminary request for an exception to PJM's Reliability Pricing Model must-offer requirement for the Hudson and Mercer generating stations in connection with the 2020-2021 capacity auction to be held in May 2017. The two stations have not cleared the PJM capacity auction for the prior two years, and would need significant investment to achieve the performance standards associated with PJM's Capacity Performance construct. The submission provides Power the opportunity to fully analyze the market conditions and economics, among other factors, associated with maintaining station operations, including any necessary capital improvements, prior to making a final determination by December 1, 2016 whether or not to bid in the 2020-2021 capacity auction.
