Amendment No. 1

Explanatory Note

Unifi, Inc. (the “Company” or the “Registrant”) is filing this Form 10-K/A to amend Item 15 of its Annual Report on Form 10-K (the “Form 10-K”) for the fiscal year ended June 28, 2015 in order to, pursuant to Rule 3-09 of Regulation S-X under the Securities Exchange Act of 1934, as amended, include the financial statements and related notes of Parkdale America, LLC (“PAL”), an unconsolidated joint venture in which the Company holds a 34% equity ownership interest.

Rule 3-09 of Regulation S-X provides that if a 50%-or-less-owned person accounted for by the equity method meets the first or third condition of the significant subsidiary tests set forth in Rule 1-02(w), substituting 20% for 10%, separate financial statements for such 50%-or-less-owned person shall be filed.

PAL met the significant subsidiary test described above for the Company’s fiscal years ending June 28, 2015, June 29, 2014 and June 30, 2013 and the Company has included in this Form 10-K/A the required audited financial statements for PAL’s corresponding fiscal years ending January 2, 2016, January 3, 2015 and December 28, 2013. The Company’s significance test is calculated as of the end of its fiscal year and for its fiscal year.

Item 15 is also being amended by this Form 10-K/A to (i) include reference to the PAL financial statements and the related reports of PAL’s independent auditors, (ii) file the consents of the independent auditors related to their opinions contained in this filing and (iii) include certifications under Sections 302 and 906 of the Sarbanes-Oxley Act of 2002. This Form 10-K/A does not otherwise update or amend any other items or disclosures as originally filed and does not otherwise reflect events occurring after the original filing date of the Annual Report. Accordingly, this Form 10-K/A should be read in conjunction with the Company’s filings with the Securities and Exchange Commission subsequent to the original filing. In accordance with Rule 12b-15 of the Securities Exchange Act of 1934, as amended, the text of the amended Item 15 is set forth in its entirety in the attached pages hereto.

PART IV

Item 15. EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

(a) 1. Financial Statements

The financial statements and schedules listed in the accompanying Index to Consolidated Financial Statements on page F-1 are filed as part of this Report.

2. Financial Statement Schedules

Financial Statements of Parkdale America, LLC (“PAL”) as of January 2, 2016 and January 3, 2015 and for PAL’s fiscal years ended January 2, 2016, January 3, 2015 and December 28, 2013.

PAL is an unconsolidated joint venture in which the Company holds a 34% equity ownership interest. Accordingly, pursuant to Rule 3-09(b)(2) of Regulation S-X under the Exchange Act, the Company is filing the required financial statements and related notes of PAL via this Form 10-K/A. PAL’s most recent fiscal year end was January 2, 2016, which is more than 90 days after the Company’s corresponding fiscal year, which ended June 28, 2015.

PAL’s prior fiscal year end was January 3, 2015, which was more than 90 days after the Company’s corresponding fiscal year, which ended June 29, 2014. Accordingly, pursuant to Rule 3-09(b)(2) of Regulation S-X under the Exchange Act, the Company filed the required financial statements and related notes of PAL on April 2, 2015 via an amendment to the Annual Report on Form 10-K for the fiscal year ended June 29, 2014 (the “2014 10-K/A”).

PricewaterhouseCoopers LLP (“PwC”) was the independent registered public accounting firm that issued audit reports on the financial statements of PAL for PAL’s fiscal years ended January 3, 2015, December 28, 2013 and December 29, 2012, which reports were included in the 2014 10-K/A. Subsequent to the Company’s fiscal year 2015, but prior to the filing of the Annual Report on Form 10-K for such fiscal year, PwC informed the Company that PwC had performed certain non-audit services, as engaged by the Company, that were not in accordance with the auditor independence standards of Regulation S-X. The non-audit services performed by PwC for the Company were related to internal audit associate-level staff secondments. Total fees paid by the Company to PwC for these non-audit services were approximately \$151,000, \$108,000, \$147,000 and \$49,000 for the Company’s fiscal years 2015, 2014, 2013 and 2012, respectively.

The Audit Committee of the Company's Board of Directors and PwC separately considered the impact that these non-audit services may have had on PwC's independence with respect to PAL. Both the Company's Audit Committee and PwC concluded that the services identified above did not affect PwC's ability to be objective and impartial in the conduct of its audits of the January 3, 2015, December 28, 2013 and December 29, 2012 PAL financial statements. In making this determination, both the Company's Audit Committee and PwC considered, among other things, that at all times the Company retained all decision making over the scope of work and the conclusions formed, the insignificant amount of fees involved, the nature of the services provided and that the services were not the subject of, or related to, PwC's audits of PAL's financial statements.

BDO USA, LLP is the independent auditor that has issued an audit report on the financial statements of PAL for PAL's fiscal year ended January 2, 2016, which report is included within this Form 10-K/A.

To the Board of Members of

Parkdale America, LLC

Gastonia, North Carolina

We have audited the accompanying consolidated financial statements of Parkdale America, LLC and its subsidiaries, which comprise the consolidated balance sheet as of January 2, 2016 and the related consolidated statements of operations, comprehensive income, members' equity and cash flows for the year then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but

not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Parkdale America, LLC and its subsidiaries as of January 2, 2016 and the results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Members of

Parkdale America, LLC

We have audited the accompanying consolidated financial statements of Parkdale America, LLC and its subsidiaries, which comprise the consolidated balance sheet as of January 3, 2015 and the related consolidated statements of operations, comprehensive income, members' equity and cash flows for each of the two fiscal years in the period ended January 3, 2015.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements, referred to above present fairly, in all material respects, the financial position of Parkdale America, LLC and its subsidiaries as of January 3, 2015 and the results of their operations and their cash flows for each of the two fiscal years in the period ended January 3, 2015 in accordance with accounting principles generally accepted in the United States of America.

Notes to Consolidated Financial Statements

1. Summary of Significant Accounting Policies

Nature of Business

On June 30, 1997, Parkdale Mills, Inc. (“Mills”) and Unifi, Inc. (“Unifi”) entered into a Contribution Agreement (the “Agreement”) that sets forth the terms and conditions by which the two companies contributed all of the assets of their spun cotton yarn operations utilizing open- end and air-jet spinning technologies to create Parkdale America, LLC (the “Company”). In exchange for their respective contributions, Mills and Unifi received a 66% and 34% ownership interest in the Company, respectively.

On January 1, 2012, Mills contributed its interest in the Company to its newly formed parent company, Parkdale, Incorporated (“Parkdale Inc.”).

Principles of Consolidation

The accompanying consolidated financial statements include the consolidated accounts of the Company and its wholly-owned subsidiaries Summit Yarn, LLC (“Summit Yarn”) and Summit Yarn Holding I, Inc. (“Summit Holding”) and its subsidiary Grupo Burlpark, S.A. de C.V. (“Grupo”), a Mexican Company. Summit Yarn and Summit Holding are collectively referred to as the “Summit Entities.”

On August 28, 2014 the Company entered into an Equity Redemption Agreement (“Redemption Agreement”) through the Summit Entities and International Textile Group, Inc. (“ITG”) to redeem and retire ITG’s 50% interest in the Summit Entities. The statement of financial position, results of operations, and cash flows of Summit Yarn and Summit Holding are consolidated in the financial statements from the date of the Redemption Agreement. Prior to the

Redemption Agreement, the Company accounted for its 50% interest in the Summit Entities using the equity method (see Note 3).

All significant intercompany transactions and accounts have been eliminated in consolidation.

Operations

The Company is a producer of cotton and synthetic yarns for sale to the textile and apparel industries, both foreign and domestic. As of January 2, 2016, the Company has 16 manufacturing facilities located in North America.

The Company's fiscal year end is the Saturday nearest to December 31. The Company's fiscal years 2015, 2014, and 2013 ended on January 2, 2016, January 3, 2015, and December 28, 2013, respectively. Fiscal year 2014 contained 53 weeks while fiscal years 2015 and 2013 contained 52 weeks.

Notes to Consolidated Financial Statements

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenues upon shipment of goods, when persuasive evidence of an arrangement exists, the price is fixed or determinable, and collectability is reasonably assured. Revenue for product sales is recognized as risk and title to the product transfers to the customer, which usually occurs at the time shipment is made. Product sales are typically under the terms of free on board shipping point. As such, title to the product passes when the product is delivered to the freight carrier. Revenue is recorded net of sales returns and allowances.

Cash and Cash Equivalents

The Company considers all highly liquid investments with a maturity of three months or less to be cash equivalents. The carrying value of these cash equivalents approximates their fair values. The Company maintains cash deposits with major banks that may exceed federally insured limits. The Company periodically assesses the financial condition of the institutions and believes the risk of loss to be remote.

Concentration of Credit Risk

Substantially all of the Company's accounts receivable is due from companies in the textile and apparel markets located primarily throughout North America. The Company generally does not require collateral for its accounts receivable. The Company performs ongoing credit evaluations of its customers' financial condition and establishes an allowance for doubtful accounts based upon factors surrounding the credit risk of specific customers, historical trends, and other information. Allowances provided for doubtful accounts were \$3,811,000 and \$3,721,000 as of January 2, 2016 and January 3, 2015, respectively.

Sales to five customers accounted for approximately 77%, 76%, and 74% of total sales during fiscal years 2015, 2014, and 2013, respectively. As of January 2, 2016 and January 3, 2015, accounts receivable from five customers composed 86% and 78%, respectively, of total gross accounts receivable outstanding.

Notes to Consolidated Financial Statements

Fair Value Measurements

The Company follows the guidance in Accounting Standards Codification (“ASC”) 820, “*Fair Value Measurement*”, to account for fair value measurements. The guidance emphasizes that fair value is a market based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering market participant assumptions in fair value measurements, the guidance establishes a fair value hierarchy, which prioritizes the inputs used in measuring fair values as follows:

Level 1 – Observable inputs, such as quoted prices in active markets

Level 2 – Inputs, other than quoted prices in active markets, that are observable either directly or indirectly

Level 3 – Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions

The Company’s derivative instruments represent the only balances which are measured at fair value on a recurring basis. The fair value of derivative instruments is based primarily on either quoted prices in active markets (Level 1 for cotton futures contracts) or based on market observable inputs (Level 2 for cotton purchase agreements). See Note 10 for separate disclosure of derivatives measured at fair value.

The carrying amount of money market funds, receivables, and accounts payable approximate fair value because of the short-term maturity of such instruments.

Self-Insurance

The Company is self-insured for certain losses relating to workers' compensation, and medical and dental claims. The Company has stop-loss coverage to limit the exposure arising from these claims. Self-insurance claims filed and claims incurred but not reported are accrued based upon management's estimates of the ultimate cost for self-insured claims incurred using actuarial assumptions followed in the insurance industry and historical experience. Accruals for workers' compensation are reported on a discounted basis.

Basis of Foreign Currency Translation

The functional currency for Grupo is the Mexican peso. Grupo's financial statements are translated into U.S. dollars for consolidation purposes. Investment and equity accounts are translated at historical values. All other asset and liability accounts are translated at quoted year end rates. Revenue and expenses are translated on a monthly basis at the average rates of exchange in effect during the periods. Gains and losses on translation are recorded in accumulated other comprehensive income (loss) as a component of members' equity on the accompanying consolidated balance sheets.

Notes to Consolidated Financial Statements

Property, Plant, and Equipment

Property, plant, and equipment are recorded at cost. Repairs and maintenance, which do not extend the life of the applicable assets, are expensed. Provisions for depreciation are determined principally by an accelerated method over the estimated useful lives of the assets.

Impairment of Long-Lived Assets

The Company evaluates long-lived assets to determine impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of an asset to undiscounted future net cash flows expected to be generated by the asset. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

In fiscal years 2015, 2014 and 2013, no impairment charges were recorded.

Economic Assistance Program

During August 2008, a federal government program commenced providing economic adjustment assistance to domestic users of upland cotton. A cotton subsidy is paid to manufacturers for cotton consumed in domestic production. The subsidy must be used within 18 months after the marketing year earned to purchase qualifying capital expenditures in the United States for production of goods from upland cotton. The marketing year is from August 1 to July 31. During the period beginning on August 1, 2008, and ending on July 31, 2012, the value of the assistance was four cents per pound of consumed cotton. Effective August 1, 2012, the value of the assistance decreased to three

cents per pound of consumed cotton.

The Company recognizes income for the cotton subsidy when the cotton has been consumed and the qualifying assets have been acquired. The Company recognized income of \$16,570,000, \$15,980,000, and \$21,087,000 for the cotton consumption portion of the subsidy earned during the fiscal years ended January 2, 2016, January 3, 2015, and December 28, 2013, respectively, as a reduction to cost of goods sold in the accompanying statements of operations. The Company records the portion of the cotton subsidy deemed to be associated with the qualifying capital expenditures as a reduction of the cost of the equipment purchased. The portion of the subsidy earned associated with the qualifying capital expenditures for 2015, 2014 and 2013 was \$662,000, \$553,000, and \$963,000, respectively. This amount was capitalized and is amortized over the nine year useful life on a double declining methodology, consistent with the useful life of the assets acquired.

The Company had receivables totaling \$1,192,000 and \$1,153,000 related to the subsidy program as of January 2, 2016 and January 3, 2015, respectively, which is included as a component of other receivables on the accompanying consolidated balance sheets.

Shipping Costs

The costs to ship products to customers of approximately \$24,394,000, \$20,911,000 and \$17,873,000 during the fiscal years ended January 2, 2016, January 3, 2015, and December 28, 2013, respectively, are included as a component of cost of goods sold in the accompanying consolidated statements of operations.

Recent Accounting Pronouncements

In May 2014, the FASB issued "*Revenue From Contracts With Customers*" (ASU 2014-09), that outlines a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance. The pronouncement is based on the principle that an entity should recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. As amended by ASU 2015-14, this pronouncement is effective for fiscal years beginning after December 15, 2018. The Company is currently evaluating the new guidance to determine the method of adoption and the impact it will have on its consolidated financial statements.

In July 2015, the FASB issued "*Simplifying the Measurement of Inventory*" (ASU 2015-11), that requires inventory within the scope of the ASU (e.g., FIFO or average cost) to be measured using the lower of cost and net realizable value. Previous guidance required inventory to be measured at the lower of cost or market (where market was defined as replacement cost with a ceiling of net realizable value and floor of net realizable value less a normal profit margin). Inventory excluded from the scope of the ASU will continue to be measured at the lower of cost or market. The ASU is effective for fiscal years beginning after December 15, 2016, and for interim periods within fiscal years beginning after December 15, 2017. Early adoption is permitted. The Company is currently evaluating the impact this standard will have on its consolidated financial statements.

In February 2016, the FASB issued "*Leases*" (ASU 2016-02) that requires companies to recognize lease assets and lease liabilities by lessees for all operating leases. The pronouncement is effective for fiscal years beginning after December 15, 2019. The Company is currently evaluating the impact this new guidance will have on its consolidated financial statements.

2. Business Combination

On February 27, 2015, the Company acquired certain real property, machinery and equipment, and inventory from a yarn manufacturer (“Seller”) for cash consideration totaling \$13,340,000. The acquisition qualified as a business combination. In connection with the acquisition, the Company recorded the assets acquired based on their estimated fair values at the date of acquisition. The results of operations of these facilities has been included in these consolidated financial statements commencing with the date of acquisition. The fair values of acquired real property and machinery and equipment were approximately \$19,382,000, and the fair value of acquired inventory was approximately \$3,340,000, resulting in a bargain purchase gain of \$9,382,000. There were no liabilities assumed in connection with the acquisition. Concurrent with the transaction, the Company and the Seller entered into an eight year yarn supply agreement with terms approximating market value.

The Company has assessed the key valuation assumptions and business combination accounting procedures for this acquisition and believes that the recognition of a bargain purchase gain is appropriate. The most significant factor contributing to the bargain purchase gain was the yarn supply agreement that provides the Seller with the flexibility to meet the changing demands of their customer.

3. Investment in Summit Yarn Joint Venture

On June 4, 1998, Mills and Burlington Industries, Inc. (“Burlington”) entered into a Joint Venture and Contribution Agreement (the “JV Agreement”) whereby Mills and Burlington agreed to contribute certain assets and cash for the purpose of constructing, operating, and managing a yarn manufacturing facility (the “Joint Venture”), which qualifies under the Maquiladora program in accordance with applicable Mexican law and for the marketing and sale of yarn manufactured by Summit Yarn. In exchange for their respective contributions, Mills and Burlington each received a 50% ownership interest in Summit Yarn. Concurrent with the formation of Summit Yarn, Mills and Burlington formed Summit Holding which serves as the holding company for Mills’ and Burlington’s investment in various Mexican corporations related to the Joint Venture. Mills and Burlington each received a 50% ownership interest in Summit Holding.

Effective January 15, 2002, Mills transferred its ownership in the Summit Entities to the Company. The investment was transferred at Mills’ historical basis of \$14,257,000, which included notes receivable from Summit totaling \$5,227,000.

Effective August 2, 2004, Burlington transferred its ownership in the Summit Entities to ITG. Summarized financial information of the Summit Entities for the fiscal year ended December 28, 2013 is as follows:

	Amount
Revenue	\$60,379,000
Expenses	59,059,000
Net income	1,320,000

On August 28, 2014 the Company entered into an Equity Redemption Agreement (“Redemption Agreement”), through the Summit Entities, with ITG to redeem and retire ITG’s 50% interest in the Summit Entities. The purchase price was

\$10,125,000 and a gain of \$4,430,000 was recognized in the accompanying consolidated statement of operations. The results of the Summit Entities are consolidated in the financial statements from the date of the Redemption Agreement. Prior to the Redemption Agreement, the Company accounted for its 50% interest in the Summit Entities using the equity method. In conjunction with the Redemption Agreement, Summit Yarn executed a yarn supply contract with ITG. The yarn supply agreement was at market rates at the transaction date and accordingly no intangible asset was recorded as a result of the agreement.

Subsequent to the Redemption Agreement, the Summit Entities had revenue of \$19,847,000 and a net loss of \$911,000 for the period from August 28, 2014 to January 3, 2015. The following unaudited pro forma summary presents consolidated information of the Company as if the business combination had occurred on December 30, 2012.

Parkdale America, LLC and Subsidiaries**(A Limited Liability Company)****Notes to Consolidated Financial Statements**

	Pro Forma Year Ended	Pro Forma Year Ended
	January 3, 2015	December 28, 2013
	(unaudited)	(unaudited)
Revenue	\$876,333,000	\$888,114,000
Net income	41,702,000	57,681,000

Pro forma amounts have been calculated after applying the Company's accounting policies and adjusting the results of the Summit Entities to reflect the additional depreciation that would have been charged assuming the fair value adjustments to property, plant, and equipment had been applied from December 30, 2012 with consequential tax effects. The Company did not have any material, nonrecurring pro forma adjustments directly attributable to the business combination included in the reported pro forma revenue and earnings.

In 2014, the Company incurred \$158,000 of acquisition-related costs. These expenses are included in general and administrative expense on the accompanying consolidated statement of operations for the year ended January 3, 2015 and are reflected in pro forma earnings for the year ended December 28, 2013, in the table above.

The following table summarizes the fair values of the assets acquired and liabilities assumed as a result for the Redemption Agreement date:

	Amount
Cash and cash equivalents	\$950,000
Trade accounts receivable	11,448,000
Inventories	3,496,000
Property, plant, and equipment	11,480,000
Other assets	1,765,000
Trade accounts payable and other liabilities	(5,495,000)
	23,644,000
Fair value of previously held equity investment	(11,822,000)
Bargain purchase gain	(1,697,000)
Purchase Price	\$10,125,000

We have assessed the key valuation assumptions and business combination accounting procedures for this acquisition and believe the recognition of a bargain purchase gain is appropriate for this acquisition. The most significant factor contributing to the bargain purchase gain was the JV Agreement which restricted the sale of either party's interest to a third party. The bargain purchase gain has been recorded in the accompanying consolidated statements of operations for the year ended January 3, 2015.

4. Inventories

Inventories are stated at the lower of cost or market. Cost was determined using the specific identification method for raw materials, yarn-in-process, and finished yarn inventories. Inventories as of January 2, 2016 and January 3, 2015, consist of the following:

	2015	2014

6. Income Taxes

The Company is a limited liability company treated as a partnership for federal and state income tax reporting purposes. As a result, the Company's results of operations are included in the income tax returns of its individual members. Accordingly, income taxes are accounted for at the individual member level. Therefore, the Company has not recorded a separate provision for income taxes.

The Company through Grupo computes deferred taxes based on the after tax effects of temporary differences between the basis of assets and liabilities for financial reporting purposes and the basis for income tax reporting purposes, using the applicable statutory tax rates. Summit Holding maintains that the undistributed earnings of Grupo will be indefinitely reinvested in foreign jurisdictions; therefore no deferred tax liability has been recorded with respect to this subsidiary's earnings.

The provision for income taxes for the years ended January 2, 2016 and January 3, 2015 is comprised of the following:

	2015	2014
Current Income tax	\$693,000	\$55,000
Deferred income tax	(45,000)	223,000
Total Income Tax	\$648,000	\$278,000

As a result of the elimination of the tax consolidation in Mexico for tax years beginning January 1, 2013, Grupo is required to pay \$575,000 in taxes computed under the previous regime over the next three years.

The most significant temporary difference that gives rise to deferred tax liabilities is fixed assets. Grupo has recorded a deferred tax liability of \$1,135,000 related to deferred tax basis differences which is included in other long-term liabilities. For Grupo, the effective tax rate differs from the statutory rates primarily due to inflationary adjustments under the Mexican tax regime.

The Company does not believe that it has taken any uncertain tax positions that would require recognition of a contingent liability. The tax returns of Summit Holding for tax years 2011 and forward remain subject to examination by U.S. tax authorities, while the tax years 2007 through 2010 remain subject to examination by U.S. tax authorities to the extent of net operating loss carryforwards, which are not significant. Grupo's tax returns remain subject to examination by Mexican tax authorities for tax years 2010 and forward.

7. Deferred Revenue

In connection with a 2009 business combination, the Company received equipment from Hanesbrands, Inc. in 2010 having a fair value of \$12,111,000. This equipment was contributed to the Company in connection with a vendor managed inventory program between the Company and Hanesbrands, Inc. The Company recorded the equipment received at its fair value at the date acquired, and recorded deferred revenue which is being amortized over the life of the yarn supply agreement. The remaining deferred revenue related to this agreement was \$1,741,000 at January 3, 2015 and became fully recognized during 2015.

8. Deferred Financing Costs

The Company capitalized financing costs of \$938,000 in 2013 related to a new revolving credit facility (see Note 9). These costs are being amortized on a straight-line basis over the term of the debt agreement, which matures on June 28, 2018. Amortization was \$188,000, \$191,000, and \$299,000 for fiscal years 2015, 2014, and 2013, respectively, and is included as a component of interest expense in the accompanying consolidated statements of operations. In addition, deferred financing costs of \$398,000 were written off in 2013 related to the extinguished credit facility, which were also included in interest expense. Estimated future amortization expense of deferred financing costs is summarized as follows:

<i>Fiscal Year</i>	<i>Amount</i>
2016	\$ 188,000
2017	188,000
2018	89,000

9. Long-Term Debt – Related Party

On June 28, 2013, the Company entered into a \$175,000,000 revolving credit facility with its parent company, having a maturity date of June 28, 2018. At the Company's option, borrowings under the facility may be maintained as (1) "Base Rate" loans or (2) "Eurodollar" (LIBOR) loans, plus applicable margins ranging from 0.00% to 2.49%. The agreement includes customary covenants that require the Company to maintain a minimum fixed-charge coverage ratio and restrict its leverage ratio. The Company was in compliance with these covenants as of January 2, 2016. There were \$5,000,000 and \$20,000,000 in borrowings outstanding on the credit facility as of January 2, 2016 and January 3, 2015, respectively. See Note 12 for other related party transactions.

10. Derivative Instruments

All derivatives, whether designated in hedging relationships or not, are required to be recorded on the balance sheet at fair value. If the derivative is designated as a cash flow hedge, the effective portions of changes in the fair value of the derivative is recorded in accumulated other comprehensive income or loss and are recognized in earnings when the hedged item affects earnings. Ineffective portions of changes in the fair value of derivatives designated as cash flow hedges are recognized in earnings as they occur.

Parkdale America, LLC and Subsidiaries**(A Limited Liability Company)****Notes to Consolidated Financial Statements**

The Company is subject to price risk related to anticipated fixed-price yarn sales. In the normal course of business, under procedures and controls established by the Company's financial risk management framework, the Company may enter into cotton futures contracts to manage changes in raw material prices in order to protect the gross margin of fixed-price yarn sales. The changes in fair value related to these cotton futures are reflected as an operating activity in the accompanying consolidated statement of cash flows. As of January 2, 2016 and January 3, 2015, the Company has recorded these instruments at their fair value of \$1,352,000 and \$329,000 respectively, in the accompanying consolidated balance sheets.

	Balance Sheet Location	Fair Value January 2, 2016	Fair Value January 3, 2015
Derivative assets, commodity contracts Nonhedges	Derivative assets	\$863,000	\$1,815,000
Derivative liabilities, commodity contracts Nonhedges	Derivative liabilities	(936,000)	(2,019,000)
Due from broker		1,425,000	533,000
Net derivative asset		\$1,352,000	\$329,000

The Company's derivative instruments are listed and traded on an exchange and are thus valued using quoted prices classified within Level 1 of the fair value hierarchy. The fair value of the derivative instruments are classified as current assets and liabilities as of January 2, 2016 and January 3, 2015. The Company did not have any assets or liabilities classified as Level 3 at January 2, 2016 or January 3, 2015.

During the first quarter of 2013, the Company elected to discontinue designating futures contracts as cash flow hedges. The amount remaining in accumulated other comprehensive income was released over time based on when the sale occurred. As of January 2, 2016 and January 3, 2015, there were no unrealized gains or losses recorded in members' equity.

The Company enters into forward contracts for certain cotton purchases, which qualify as derivative instruments. However, these contracts meet the applicable criteria to qualify for the “normal purchases and normal sales” exemption in ASC 815, “*Derivatives and Hedging*”. Therefore, the derivative accounting requirements are not applicable to these contracts.

The Company did not elect the “normal purchases and normal sales” exemption for certain other cotton purchase agreements, which qualify as derivatives for accounting purposes. As a result, such contracts were recorded at fair value on the Company’s balance sheets and changes in fair value for these contracts were included in cost of goods sold in the accompanying consolidated statements of operations. The Company used futures contracts to economically hedge changes in fair value of these contracts. As of January 3, 2015, \$4,990,000 of realized gains on these contracts was recorded as a reduction to inventory.

In January 2015, the Company elected the “normal purchases and normal sales” exemption, for all cotton purchase agreements, making the derivative accounting requirements not applicable for these contracts entered into after January 3, 2015. The \$4,990,000 of realized gains recorded as a reduction to inventory was released to cost of goods sold as the cotton was consumed during the year ended January 2, 2016.
