Cautionary Note Regarding Forward-Looking Statements

Certain statements in this report are “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created thereby. These statements relate to future events or the Company’s future financial performance and involve known and unknown risks, uncertainties and other factors that may cause the actual results, levels of activity, performance or achievements of the Company or its industry to be materially different from those expressed or implied by any forward-looking statements. In particular, statements about the Company’s expectations, beliefs, plans, objectives, assumptions, future events or future performance contained in this report, including certain statements contained in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” are forward-looking statements. In some cases, forward-looking statements can be identified by terminology such as “may,” “will,” “could,” “would,” “should,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “potential” or the negative of those terms or other comparable terminology.

Please see Item 1A of the Company’s Form 10-K for the year ended June 28, 2014 and Part II, Item 1A of this Form 10-Q for a discussion of certain important risk factors that relate to forward-looking statements contained in this report. The Company has based these forward-looking statements on its current expectations, assumptions, estimates and projections. While the Company believes these expectations, assumptions, estimates and projections are reasonable, such forward-looking statements are only predictions and involve known and unknown risks and uncertainties, many of which are beyond the Company’s control. These and other important factors may cause actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. The forward-looking statements in this report are made only as of the date hereof, and unless otherwise required by applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

PERRIGO COMPANY PLC
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
September 27, 2014

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) ("Perrigo" or "the Company"), was incorporated under the laws of Ireland on June 28, 2013, and became the successor registrant of Perrigo Company on December 18, 2013 in connection with the consummation of the acquisition of Elan Corporation, plc ("Elan"), which is discussed further in Note 2. From its beginnings as a packager of home remedies in 1887, Perrigo has grown to become a leading global healthcare supplier. Perrigo develops, manufactures, and distributes over-the-counter ("OTC") and generic prescription ("Rx") pharmaceuticals, nutritional products, and active pharmaceutical ingredients ("API"), and has a specialty sciences business comprised of assets focused predominantly on the treatment of Multiple Sclerosis (Tysabri®). The Company is the world's largest manufacturer of OTC healthcare products for the store brand market. Perrigo's mission is to offer uncompromised "Quality Affordable Healthcare Products®", and it does so across a wide variety of product categories primarily in the United States, United Kingdom, Mexico, Israel, and Australia, as well as many other key markets worldwide, including Canada, China, and Latin America.

Basis of presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. The unaudited condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and footnotes included in Perrigo Company plc's Annual Report on Form 10-K for the year ended June 28, 2014. In the opinion of management, all adjustments (consisting of normal recurring accruals and other adjustments) considered necessary for a fair presentation have been included.

The Company's sales of OTC pharmaceutical products are subject to the seasonal demands for cough/cold/flu and allergy products and consumer dynamics in the retail environments in which our customers operate. In addition, the Company's animal health products are subject to the seasonal demand for flea and tick products, which typically peaks during the warmer weather months. Accordingly, operating results for the three months ended September 27, 2014 are not necessarily indicative of the results that may be expected for a full fiscal year.

Principles of consolidation

The condensed consolidated financial statements include the accounts of the Company, all majority-owned subsidiaries, and for the three months ended September 28, 2013, a variable-interest entity ("VIE"). Activities related to the VIE were immaterial. All intercompany transactions and balances have been eliminated in consolidation.

Recently adopted accounting standards

In July 2013, the Financial Accounting Standards Board issued Accounting Standards Update 2013-11, "Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists" ("ASU 2013-11"). The amendments in ASU 2013-11 provide guidance on the financial statement presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a

tax credit carryforward exists. The Company prospectively adopted this guidance in fiscal 2015, and has presented \$90.2 million as a reclassification from Non-current deferred income taxes to Other non-current liabilities on the Condensed Consolidated Balance Sheets.

Table of Contents

NOTE 2 – ACQUISITIONS

All of the below acquisitions, with the exception of the Vedants transaction, have been accounted for under the acquisition method of accounting, and the related assets acquired and liabilities assumed were recorded at fair value as of the acquisition date. Fair value estimates are based on a complex series of judgments about future events and rely heavily on estimates and assumptions. The judgments used to determine the estimated fair value assigned to each class of assets and liabilities assumed, as well as asset lives, can materially impact the Company's results of operations.

The effects of all acquisitions described below were included in the Condensed Consolidated Financial Statements prospectively from the date of acquisition. Unless otherwise indicated, acquisition costs incurred were immaterial and were recorded in administration expense.

Fiscal 2014 acquisitions

Aspen Global Inc. – On February 28, 2014, the Company acquired a basket of value-brand OTC products sold in Australia and New Zealand from Aspen Global Inc. ("Aspen"). The acquisition of this product portfolio broadened the Company's product offering in Australia and New Zealand and furthered the Company's strategy to expand the Consumer Healthcare portfolio internationally. Operating results attributable to the acquired Aspen products are included in the Consumer Healthcare segment.

The intangible assets acquired consisted of trademarks and trade names, customer relationships, and non-compete agreements. Customer relationships were assigned a 15-year useful life. Trademarks and trade names were assigned a 25-year useful life and non-compete agreements were assigned a 5-year useful life. The goodwill that was recorded is deductible for tax purposes.

Fera Pharmaceuticals, LLC – On February 18, 2014, the Company acquired a distribution and license agreement for the marketing and sale of methazolomide from Fera Pharmaceuticals, LLC ("Fera"), a privately-held specialty pharmaceutical company. The acquisition of this agreement further expanded the Company's ophthalmic offerings. Operating results attributable to this agreement are included in the Rx Pharmaceuticals segment. The intangible asset acquired was assigned a 15-year useful life.

Elan Corporation, plc – On December 18, 2013, the Company acquired Elan in a cash and stock transaction as follows (in millions, except per share data):

Elan shares outstanding as of December 18, 2013	515.7
Exchange ratio per share	0.07636
Total Perrigo shares issued to Elan shareholders	39.4
Perrigo per share value at transaction close on December 18, 2013	\$155.34
Total value of Perrigo shares issued to Elan shareholders	6,117.2
Cash consideration paid at \$6.25 per Elan share	3,223.2
Cash consideration paid for vested Elan stock options and share awards	111.5
Total consideration	\$9,451.9

In addition, the Company paid cash consideration of \$16.1 million to the Elan stock option and share award holders for the unvested portion of their awards, which was charged to earnings during fiscal 2014.

At the completion of the transaction, the holder of each Elan ordinary share and each Elan American Depositary Share received from Perrigo \$6.25 in cash and 0.07636 of a Perrigo ordinary share. As a result of the transaction, based on the number of outstanding shares of Perrigo and Elan as of December 18, 2013, former Perrigo and Elan shareholders

held approximately 71% and 29%, respectively, of Perrigo's ordinary shares immediately after giving effect to the acquisition.

Elan, headquartered in Dublin, Ireland, provided the Company with assets focused on the treatment of Multiple Sclerosis (Tysabri®). The Company's management believed the acquisition of Elan would provide recurring annual operational synergies, related cost reductions and tax savings. Certain of these synergies resulted

7

Table of Contents

from the elimination of redundant public company costs while optimizing back-office support. The jurisdictional mix of income and the new corporate structure have and will continue to result in a lower worldwide effective tax rate.

The operating results for Elan are included in the Specialty Sciences segment. During fiscal 2014, the Company incurred acquisition-related costs totaling \$284.9 million, which were expensed as incurred. These costs were recorded in unallocated expenses and related primarily to general transaction costs (legal, banking and other professional fees), financing fees, and debt extinguishment. See Note 8 for further details on the loss on extinguishment of debt. The table below details these transaction costs and where they were recorded in the Consolidated Statement of Income for fiscal 2014 (in millions).

Line item	Fiscal 2014
Administration	\$108.9
Interest expense, net	10.0
Other expense (income), net	0.2
Loss on extinguishment of debt	165.8
Total acquisition-related costs	\$284.9

The Company acquired two definite-lived intangible assets in the acquisition, both of which are exclusive technology agreements:

Tysabri®: The Company is entitled to royalty payments from Biogen Idec Inc. ("Biogen") based on its Tysabri® revenues in all indications and geographies. The royalty was 12% for the 12-month period ended May 1, 2014. Subsequent to May 1, 2014, the Company is entitled to 18% royalty payments on annual sales up to \$2.0 billion and 25% royalty payments on annual sales above \$2.0 billion. The asset's value is \$5.8 billion, which is being amortized over a useful life of 20 years.

Prialt: The Company is also entitled to royalty payments based on Prialt revenues. The royalty rates range from 7% to 17.5% based on specific levels of annual U.S. sales. The asset's value is \$11.0 million, which is being amortized over a useful life of 10 years.

Additionally, the Company recorded \$2.3 billion of goodwill, which is not deductible for tax purposes, that represents the expected synergies of the combined company, as described above. The following table reflects the allocation by reportable segment (in millions):

Segment	Goodwill
Consumer Healthcare	\$1,110.0
Rx Pharmaceuticals	845.1
Nutritionals	177.4
Specialty Sciences	200.6
Total	\$2,333.1

Purchase price allocation of fiscal 2014 acquisitions

The purchase price allocation for Elan was finalized during the first quarter of fiscal 2015. Since June 28, 2014, revisions included a \$13.0 million decrease in net tax-related liabilities, resulting in a corresponding decrease in goodwill.

Table of Contents

The below table indicates the purchase price allocation for fiscal 2014 acquisitions (in millions):

	Aspen	Fera	Elan
Purchase price paid	\$53.7	\$17.3	\$9,451.9
Contingent consideration	—	0.8	—
Total purchase consideration	\$53.7	\$18.1	\$9,451.9
Assets acquired:			
Cash and cash equivalents	\$—	\$—	\$1,807.3
Investment securities	—	—	100.0

Total assets	53.7	18.1	10,225.3
Liabilities assumed:			
Accounts payable	—	—	2.0
Accrued liabilities	—	—	120.8
Deferred tax liabilities	—	—	631.8
Other non-current liabilities	—	—	18.8
Total liabilities	—	—	773.4
Net assets acquired	\$53.7	\$18.1	\$9,451.9

Vedants Drug & Fine Chemicals Private Limited – To further improve the long-term cost position of its API business, on August 6, 2009, the Company acquired an 85% stake in Vedants Drug & Fine Chemicals Private Limited ("Vedants"), an API manufacturing facility in India, for \$11.5 million in cash. The Company purchased the remaining 15% stake in Vedants during the second quarter of fiscal 2014 for \$7.2 million in cash. The transaction was accounted for as an equity transaction and resulted in the elimination of the noncontrolling interest.

Table of Contents

NOTE 3 – GOODWILL AND OTHER INTANGIBLE ASSETS

Goodwill

Changes in the carrying amount of goodwill, by reportable segment, were as follows (in millions):

Reporting Segments:	Balance at June 28, 2014	Business acquisitions	Purchase accounting adjustments	Currency translation adjustment	Balance at September 27, 2014
Consumer Healthcare	\$1,406.3	\$—	\$(6.2)) \$(4.6)) \$1,395.5
Nutritionals	510.1	—	(1.0)) —) 509.1
Rx Pharmaceuticals	1,258.3	—	(4.7)) (12.9)) 1,240.7
API	97.6	—	—) (6.7)) 90.9
Specialty Sciences	201.8	—	(1.1)) —) 200.7
Total goodwill	\$3,474.1	\$—	\$(13.0)) \$(24.2)) \$3,436.9

Intangible assets

Other intangible assets and related accumulated amortization consisted of the following (in millions):

	September 27, 2014		June 28, 2014	
	Gross	Accumulated Amortization	Gross	Accumulated Amortization
Amortizable intangibles:				
Distribution and license agreements	\$6,026.5	\$269.4	\$6,027.3	\$192.1
Developed product technology/formulation and product rights	916.9	316.5	931.7	302.5
Customer relationships	369.2	101.8	372.0	97.5
Trade names and trademarks	47.5	5.8	47.8	5.6
Non-compete agreements	15.1	9.9	15.3	9.4
Total	\$7,375.2	\$703.4	\$7,394.1	\$607.1
Non-amortizable intangibles:				
Trade names and trademarks	\$58.4	\$—	\$59.5	\$—
In-process research and development	7.7	—	10.2	—
Total	66.1	—	69.7	—
Total other intangible assets	\$7,441.3	\$703.4	\$7,463.8	\$607.1

Certain intangible assets are denominated in currencies other than the U.S. dollar; therefore, their gross and net carrying values are subject to foreign currency movements.

The Company recorded amortization expense of \$106.5 million and \$29.8 million for the three months ended September 27, 2014 and September 28, 2013, respectively. The increase in amortization expense was due primarily to the incremental amortization expense incurred on the amortizable intangible assets acquired as part of the Elan acquisition.

Table of Contents

NOTE 4 – INVENTORIES

Major components of inventory at September 27, 2014 and June 28, 2014, were as follows (in millions):

	September 27, 2014	June 28, 2014
Finished goods	\$322.9	\$307.0
Work in process	154.3	146.7
Raw materials	179.6	177.9
Total inventories	\$656.8	\$631.6

NOTE 5 – FAIR VALUE MEASUREMENTS

Fair value is the price that would be received upon sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The following fair value hierarchy is used in selecting inputs, with the highest priority given to Level 1, as these are the most transparent or reliable.

Level 1: Quoted prices for identical instruments in active markets.

Level 2: Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations in which all significant inputs are observable in active markets.

Level 3: Valuations derived from valuation techniques in which one or more significant inputs are not observable.

The following tables summarize the valuation of the Company's financial instruments carried at fair value by the above pricing categories at September 27, 2014 and June 28, 2014 (in millions):

	September 27, 2014			Total
	Level 1	Level 2	Level 3

Table of Contents

The tables below present a reconciliation for assets and liabilities measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the three months ended September 27, 2014 and September 28, 2013 (in millions):

	Balance at June 28, 2014	Net realized investment gains (losses) and net change in unrealized appreciation (depreciation) included in net income (loss)	Net change in unrealized appreciation (depreciation) included in other comprehensive income (loss)	Purchases or Additions	Sales	Settlements	Balance at September 27, 2014
Liabilities:							
Contingent consideration	\$ 17.4	\$ —	\$ —	\$ —	\$ —	\$(5.0))\$ 12.4
	Balance at June 29, 2013	Net realized investment gains (losses) and net change in unrealized appreciation (depreciation) included in net income (loss)	Net change in unrealized appreciation (depreciation) included in other comprehensive income (loss)	Purchases or Additions	Sales	Settlements	Balance at September 28, 2013
Liabilities:							
Contingent Consideration	\$ 22.2	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 22.2

Net realized gains (losses) in the tables above were recorded in Other expense (income), net in the Condensed Consolidated Statements of Operations. There were no transfers between Level 1, 2, and 3 during three months ended September 27, 2014 and September 28, 2013. The Company's policy regarding the recording of transfers between levels is to record any such transfers at the end of the reporting period. See [Note 6](#) for information on the Company's investment securities. See [Note 7](#) for a discussion of derivatives.

Israeli post-employment benefits represent amounts the Company has deposited in funds managed by financial institutions that are designated by management to cover post-employment benefits for its Israeli employees that are required by Israeli law. The funds are recorded in Other non-current assets on the Condensed Consolidated Balance Sheets and values are determined using prices for recently traded financial instruments with similar underlying terms, as well as directly or indirectly observable inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

Contingent consideration represents milestone payment obligations obtained through product acquisitions and is valued using estimates that utilize probability-weighted outcomes, sensitivity analysis, and discount rates reflective of the risk involved. The estimates are updated quarterly and the liabilities are adjusted to fair value depending on a number of assumptions, including the competitive landscape and regulatory approvals that may impact the future sales of a product.

As of September 27, 2014 and June 28, 2014, the carrying value and the fair value of the Company's fixed rate long-term debt was \$2.3 billion and \$2.4 billion, respectively. As of September 27, 2014 and June 28, 2014, the Company's fixed rate long-term debt consisted of private placement senior notes with registration rights. The fair value was determined by discounting the future cash flows of the financial instruments to their present value, using

interest rates currently offered for borrowings and deposits of similar nature and remaining maturities (Level 2).

The carrying amounts of the Company's other financial instruments, consisting of cash and cash equivalents, accounts receivable, accounts payable, short-term debt and variable rate long-term debt, approximate their fair value.

Table of Contents

NOTE 6 – INVESTMENTS

Available for sale securities

The Company's available for sale securities totaled \$21.6 million at September 27, 2014 and were reported in Investment securities on the Condensed Consolidated Balance Sheets. At June 28, 2014, available for sale securities totaled \$20.7 million, of which \$5.9 million were reported in Investment securities and \$14.8 million were reported in Other non-current assets on the Condensed Consolidated Balance Sheets.

Net unrealized investment gains (losses) on available for sale securities were as follows (in millions):

	September 27, 2014	June 28, 2014
Net unrealized investment gains (losses):		
Equity securities, at cost less impairments	\$17.1	\$17.1
Gross unrealized gains	4.9	3.8
Gross unrealized losses	(0.4) (0.2
Estimated fair value of equity securities	\$21.6	\$20.7

The factors affecting the assessment of impairments include both general financial market conditions and factors specific to a particular company. The equity securities in a gross unrealized loss position at September 27, 2014 were in that position for less than 12 months.

Cost method investments

The Company's cost method investments totaled \$8.7 million and \$9.0 million at September 27, 2014 and June 28, 2014, respectively, and are included in Other non-current assets on the Condensed Consolidated Balance Sheets.

Equity method investments

The Company's equity method investments totaled \$55.6 million and \$57.4 million at September 27, 2014 and June 28, 2014, respectively, and are included in Other non-current assets on the Condensed Consolidated Balance Sheets. The Company recorded a net loss of \$3.1 million during the three months ended September 27, 2014 related to equity method investments, which is included in Other expense (income), net on the Condensed Consolidated Statements of Operations. No material gains or losses on equity method investments were recorded during the three months ended September 28, 2013.

NOTE 7 – DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company enters into certain derivative financial instruments, when available on a cost-effective basis, to mitigate its risk associated with changes in interest rates and foreign currency exchange rates as follows:

Interest rate risk management - The Company is exposed to the impact of interest rate changes. The Company's objective is to manage the impact of interest rate changes on cash flows and the market value of the Company's borrowings. The Company utilizes a mix of debt maturities along with both fixed-rate and variable-rate debt to manage changes in interest rates. In addition, the Company may enter into treasury-lock agreements ("T-Locks") and interest rate swap agreements on certain investing and borrowing transactions to manage its interest rate changes and to reduce its overall cost of borrowing.

Foreign currency exchange risk management - The Company conducts business in several major international currencies and is subject to risks associated with changing foreign exchange rates. The Company's objective is to reduce cash flow volatility associated with foreign exchange rate changes on a consolidated basis to allow management to focus its attention on business operations. Accordingly, the Company enters into various contracts that change in value as foreign exchange rates change to protect the value of existing foreign currency assets and liabilities, commitments and anticipated foreign currency revenue and expenses.

Table of Contents

All derivative instruments are managed on a consolidated basis to efficiently net exposures and thus take advantage of any natural offsets. Gains and losses related to the derivative instruments are expected to be largely offset by gains and losses on the original underlying asset or liability. The Company does not use derivative financial instruments for speculative purposes. The notional amount of all derivatives outstanding was \$441.0 million and \$468.5 million at September 27, 2014 and June 28, 2014, respectively.

Derivatives instruments designated as hedges

At September 27, 2014 and June 28, 2014, all of the Company's designated hedging instruments were classified as cash flow hedges. For cash flow hedges that meet hedge accounting criteria, the fair value is recorded in shareholders' equity as a component of Other comprehensive income ("OCI"), net of tax. These deferred gains and losses are recognized in income in the period in which the hedged item and hedging instrument affect earnings. Any ineffective portion of the change in fair value is immediately recognized in earnings.

Interest rate swaps

Interest rate swap agreements are contracts to exchange floating rate for fixed rate payments (or vice versa) over the life of the agreement without the exchange of the underlying notional amounts. The notional amounts of the interest rate swap agreements are used to measure interest to be paid or received and do not represent the amount of exposure to credit loss. The differential paid or received on the interest rate swap agreements is recognized as an adjustment to interest expense.

During the second quarter of 2014, the Company entered into a \$1.0 billion Term Loan Agreement with floating interest rates priced off the LIBOR yield curve, as described in Note 8. The Company had preexisting forward interest rate swap agreements with a notional amount totaling \$240.0 million to hedge the change in the LIBOR rate of its previous term loans that were used to hedge the new Term Loan. The after-tax loss for the effective portion of the hedge remains in accumulated other comprehensive income ("AOCI") and continues to be amortized to earnings over the life of the debt.

During the first quarter of fiscal 2014, the Company entered into forward interest rate swap agreements to hedge against changes in the benchmark interest rate between the date the swap agreements were entered into and the date of the issuance of the Company's new senior notes (discussed collectively in Note 8 as the "Bonds"). These swaps were designated as cash flow hedges of expected future debt issuances with a notional amount totaling \$725.0 million. The interest rate swaps were settled upon the issuance of an aggregate of \$2.3 billion principal amount on December 18, 2013 for a cumulative after-tax gain of \$12.8 million, which was recorded in OCI and is being amortized to earnings over the life of the debt.

Foreign currency forward contracts

The Company enters into foreign currency forward contracts in order to hedge the impact of fluctuations of foreign exchange on expected future purchases and related payables denominated in a foreign currency and to hedge the impact of fluctuations of foreign exchange on expected future sales and related receivables denominated in a foreign currency. Both types of forward contracts have a maximum maturity date of 15 months.

Fair value hedges

During the first quarter of 2014, the Company entered into three pay-floating interest rate swaps with a total notional amount of \$425.0 million to hedge changes in the fair value of the Company's senior notes from fluctuations in interest rates. These swaps were designated and qualified as fair value hedges of the Company's fixed rate debt.

Accordingly, the gain or loss recorded on the pay-floating interest rate swaps was directly offset by the change in fair value of the underlying debt. Both the derivative instrument and the underlying debt were adjusted to market value at the end of each period with any resulting gain or loss recorded in Other expense (income), net. As a result, the Company recorded a net hedge loss of \$1.7 million in Other expense (income), net during the three months ended September 28, 2013. Due to the retirement of the underlying senior notes in the second quarter of fiscal year 2014, the hedge was terminated.

Table of Contents

Derivative instruments not designated as hedges

The Company also has forward foreign currency contracts that are not designated as hedging instruments. Accordingly, these derivative instruments are adjusted to current market value at the end of each period through earnings. The gains or losses on these instruments are substantially offset by the remeasurement adjustment on the foreign currency denominated asset or liability. The settlement of the derivative instrument and the remeasurement adjustment on the foreign currency denominated asset or liability are both recorded in Other expense (income), net at the end of each period. The Company recorded losses of \$3.3 million and \$1.5 million related to these contracts for the three months ended September 27, 2014 and September 28, 2013, respectively.

The balance sheet location and gross fair value of the Company's derivative instruments at September 27, 2014 and June 28, 2014 were as follows (in millions):

	Asset Derivatives Balance Sheet Location	Fair Value September 27, 2014	June 28, 2014
Hedging derivatives:			
Foreign currency forward contracts	Other current assets	\$0.4	\$2.8
Total hedging derivatives		\$0.4	\$2.8
Non-hedging derivatives:			
Foreign currency forward contracts	Other current assets	\$0.7	\$0.3
Total non-hedging derivatives		\$0.7	\$0.3
	Liability Derivatives Balance Sheet Location	Fair Value September 27, 2014	June 28, 2014
Hedging derivatives:			
Foreign currency forward contracts	Accrued liabilities	\$4.1	\$0.7
Interest rate swap agreements	Other non-current liabilities	6.9	8.3
Total hedging derivatives		\$11.0	\$9.0
Non-hedging derivatives:			
Foreign currency forward contracts	Accrued liabilities	\$2.4	\$0.1
Total non-hedging derivatives		\$2.4	\$0.1

Table of Contents

The effects (gross of tax) of the Company's cash flow hedges on the Condensed Consolidated Statements of Operations and Condensed Consolidated Statements of Other Comprehensive Income at September 27, 2014 and September 28, 2013 were as follows (in millions):

Derivatives Qualifying for Cash Flow Hedging	Amount of Gain/(Loss) Recognized in OCI on Derivative (Effective Portion)		Location and Amount of Gain/(Loss) Reclassified from Accumulated OCI into Income (Effective Portion)		Location and Amount of Gain/(Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)

NOTE 8 – INDEBTEDNESS

Debt

Total borrowings outstanding are summarized as follows (in millions):

	September 27, 2014	June 28, 2014
Short term debt	\$—	\$2.1
Term loans		
2013 Term Loan due December 15, 2015	300.0	300.0
2013 Term Loan due December 15, 2018	595.0	630.0
	895.0	930.0
Senior notes		
1.30% Unsecured Senior Notes due November 8, 2016, including unamortized discount of \$0.4 million ⁽¹⁾	499.6	499.6
2.30% Unsecured Senior Notes due November 8, 2018, including unamortized discount of \$0.7 million ⁽¹⁾	599.3	599.3
4.00% Unsecured Senior Notes due November 15, 2023, including unamortized discount of \$3.1 million ⁽¹⁾	796.8	796.8
5.30% Unsecured Senior Notes due November 15, 2043, including unamortized discount of \$1.7 million ⁽¹⁾	398.3	398.3
	2,294.0	2,294.0
Other financing	3.3	8.1
Total borrowings outstanding	3,192.3	3,234.2
Less short-term debt and current portion of long-term debt	(141.5)) (143.7)
Total long-term debt, less current portion	\$3,050.8	\$3,090.5

⁽¹⁾ Private placement unsecured senior notes with registration rights discussed below collectively as the "Bonds."

Unamortized deferred financing fees totaled \$26.2 million at September 27, 2014 and \$27.4 million at June 28, 2014. The Company was in compliance with all covenants under its various debt agreements at September 27, 2014.

Bridge agreements

In connection with the Elan acquisition described in Note 2, on July 28, 2013, the Company entered into a \$2.65 billion Debt Bridge Credit Agreement (the "Debt Bridge") and a \$1.7 billion Cash Bridge Credit Agreement (the "Cash Bridge") with HSBC Bank USA, N.A. as Syndication Agent, Barclays Bank PLC as Administrative Agent and certain other participant banks (together, the "Bridge Credit Agreements"). The funding commitment under the Debt Bridge was reduced by \$1.0 billion on September 6, 2013 upon completion of the Company's Term Loan Agreement (see below) and by an additional \$1.65 billion on November 8, 2013 upon funding into escrow of the Company's public bond offering (see below), at which time the Debt Bridge was terminated. The commitments under the Cash Bridge were terminated on December 24, 2013. At no time did the Company draw under the Bridge Credit Agreements.

Debt extinguishment

On December 18, 2013, the Company repaid the remaining principal balance with accrued interest and fees of \$360.0 million, then outstanding under its credit agreement dated as of October 26, 2011 with JPMorgan Chase Bank, N.A., as Administrative Agent, Bank of America, N.A. and Morgan Stanley Senior Funding, Inc., as Syndication Agents

and certain other participant banks (the "2011 Credit Agreement"). Upon completion of such payment, the 2011 Credit Agreement was terminated in its entirety.

On November 20, 2013, the Company priced a Tender Offer and Consent Solicitation in regard to the 2.95% Notes which were issued pursuant to the Indenture dated as of May 16, 2013 between the Company and Wells Fargo Bank, National Association (the "Indenture"). The total tender consideration was \$578.3 million. On

Table of Contents

December 26, 2013, pursuant to the Indenture, notice was given to holders that the remaining notes not duly tendered would be redeemed on December 27, 2013 at a redemption price of par plus accrued interest. On December 27, 2013, the redemption was completed for a total payment of \$28.5 million. Upon completion of the redemption, the Indenture was terminated.

On December 23, 2013, the Company completed the prepayment of all obligations under its private placement senior notes (the "Notes"). All of the Notes were outstanding under the Master Note Purchase Agreement dated May 29, 2008 with various institutional investors (the "Note Agreement"). The terms of the Note Agreement provided for prepayment at any time at the Company's option together with applicable make-whole premiums and accrued interest, which totaled \$1,099.6 million. Upon completion of the prepayment, the Note Agreement was terminated.

As a result of the debt retirements, the Company recorded a loss of \$165.8 million during the second quarter of fiscal 2014 as follows (in millions):

Make-whole payments	\$ 133.5
Write-off of financing fees on Bridge Credit Agreements	19.0
Write-off of deferred financing fees	10.5
Write-off of unamortized discount	2.8
Total loss on extinguishment of debt	\$ 165.8

Debt issuance

On September 6, 2013, the Company entered into a \$1.0 billion Term Loan Agreement (the "Term Loan") and a \$600.0 million Revolving Credit Agreement (the "Revolver") with Barclays Bank PLC as Administrative Agent, HSBC Bank USA, N.A. as Syndication Agent, Bank of America, N.A., JPMorgan Chase Bank, N.A. and Wells Fargo Bank, N.A. as Documentation Agents and certain other participant banks (together, the "Permanent Credit Agreements"). The Term Loan consists of a \$300.0 million tranche maturing December 18, 2015 and a \$700.0 million tranche maturing December 18, 2018. Both tranches were drawn in full on December 18, 2013. No amounts were outstanding under the Revolver as of September 27, 2014 or June 28, 2014.

Obligations of the Company under the Permanent Credit Agreements are guaranteed by the Company, certain U.S. subsidiaries of the Company, Elan, and certain Irish subsidiaries of Elan. Amounts outstanding under each of the Permanent Credit Agreements will bear interest at the Company's option (a) at the alternative base rate or (b) the eurodollar rate plus, in either case, applicable margins as set forth in the Permanent Credit Agreements.

On November 8, 2013, the Company issued \$500.0 million aggregate principal amount of its 1.30% Senior Notes due 2016 (the "2016 Notes"), \$600.0 million aggregate principal amount of its 2.30% Senior Notes due 2018 (the "2018 Notes"), \$800.0 million aggregate principal amount of its 4.00% Senior Notes due 2023 (the "2023 Notes") and \$400.0 million aggregate principal amount of its 5.30% Senior Notes due 2043 (the "2043 Notes" and, together with the 2016 Notes, the 2018 Notes and the 2023 Notes, the "Bonds") in a private placement with registration rights. Interest on the Bonds is payable semiannually in arrears in May and November of each year, beginning in May 2014. The Bonds are governed by a Base Indenture and a First Supplemental Indenture between the Company and Wells Fargo Bank N.A., as trustee (collectively the "2013 Indenture"). The Bonds are the Company's unsecured and unsubordinated obligations, ranking equally in right of payment to all of the Company's existing and future unsecured and unsubordinated indebtedness and are guaranteed on an unsubordinated, unsecured basis by the Company's subsidiaries that guarantee the Permanent Credit Agreements. The Company received net proceeds of \$2.3 billion from issuance of the Bonds after fees and market discount. The Bonds are not entitled to mandatory redemption or sinking fund payments. The Company may redeem the Bonds in whole or in part at any time and from time to time for cash at the redemption prices described in the 2013 Indenture.

On September 2, 2014, the Company offered to exchange its private placement senior notes with public bonds (the "Exchange Offer"). The Exchange Offer expired on October 1, 2014, at which time a substantial majority of the private placement notes had been exchanged for bonds registered with the Securities and Exchange Commission.

Table of Contents

Accounts receivable securitization

The Company has a one year accounts receivable securitization program with Wells Fargo Bank, National Association ("Wells Fargo") as sole agent, which was renewed on June 13, 2014. Under the terms of the securitization program, the subsidiaries sell certain eligible trade accounts receivables to a wholly owned bankruptcy-remote special purpose entity ("SPE"), Perrigo Receivables, LLC. The Company has retained servicing responsibility for those receivables. The SPE will then transfer an interest in the receivables to the Committed Investors. Under the terms of the securitization program, Wells Fargo has committed \$200.0 million, effectively allowing the Company to borrow up to that amount, subject to a maximum net investment calculation as defined in the agreement. At September 27, 2014, the entire \$200.0 million committed amount of the securitization program was available under this calculation. The annual interest rate on any borrowing is equal to thirty-day LIBOR plus 0.375%. In addition, an annual facility fee of 0.375% is applied to the entire \$200.0 million commitment whether borrowed or undrawn. Under the terms of the securitization program, the Company may elect to have the entire amount or any portion of the facility unutilized. There were no borrowings outstanding under the securitization program at September 27, 2014 or June 28, 2014.

NOTE 9 – EARNINGS PER SHARE AND SHAREHOLDERS' EQUITY

Earnings per share

A reconciliation of the numerators and denominators used in the basic and diluted earnings per share ("EPS") calculation is as follows (in millions):

	Three Months Ended	
	September 27, 2014	September 28, 2013
Numerator:		
Net income	\$96.3	\$111.4
Denominator:		
Weighted average shares outstanding for basic EPS	133.9	94.2
Dilutive effect of share-based awards	0.5	0.5
Weighted average shares outstanding for diluted EPS	134.4	94.7
Anti-dilutive share-based awards excluded from computation of diluted EPS	0.1	0.1

Shareholders' equity

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) was incorporated under the laws of Ireland on June 28, 2013 and became the successor registrant to Perrigo Company on December 18, 2013 in connection with the consummation of the acquisition of Elan. Perrigo Company shares were canceled and exchanged for Perrigo Company plc shares on a one-for-one basis (together with the payment of \$0.01 in cash per Perrigo Company share). All the remaining unsold shares of Perrigo Company were deregistered. Perrigo Company plc began trading on the New York Stock Exchange on December 19, 2013 and the Tel Aviv Stock Exchange on December 22, 2013 under the same symbol used by Perrigo Company ("PRGO") prior to December 18, 2013. See Note 2 for additional information about the acquisition of Elan.

The Company issued 186 thousand and 264 thousand shares related to the exercise and vesting of share-based compensation during the three months ended September 27, 2014 and September 28, 2013, respectively.

The Company does not currently have an ordinary share repurchase program.

Table of Contents

NOTE 10 – ACCUMULATED OTHER COMPREHENSIVE INCOME

Changes in the Company's AOCI balances, net of tax, for the three months ended September 27, 2014 were as follows (in millions):

	Foreign currency translation adjustments	Fair value of derivative financial instruments, net of tax	Fair value of investment securities, net of tax	Post- retirement and pension liability adjustments, net of tax	Total AOCI	
Balance at June 28, 2014	\$ 164.4	\$(16.1) \$2.4	\$(11.1) \$ 139.6	
OCI before reclassifications	(63.8) (1.7) 0.6	—	(64.9)
Amounts reclassified from AOCI	—	(0.4) —	—	(0.4)
Other comprehensive income	(63.8) (2.1) 0.6	—	(65.3)
Balance at September 27, 2014	\$ 100.6	\$(18.2) \$3.0	\$(11.1) \$ 74.3	

NOTE 11 – INCOME TAXES

The effective tax rate for the three months ended September 27, 2014 was 11.4% compared to 29.2% for the three months ended September 28, 2013. The effective tax rate for the three months ended September 27, 2014 was impacted by changes to the estimated jurisdictional mix of income and the new corporate structure attributable to the acquisition of Elan. Additionally, the effective tax rate for the three months ended September 28, 2013 was unfavorably impacted by Israel tax rate changes in the amount of \$1.8 million and favorably impacted by United Kingdom tax rate changes in the amount of \$4.7 million as discussed further below.

In fiscal 2011, Israel enacted new tax legislation that reduced the effective tax rate to 10% for 2011 and 2012, 7% for 2013 and 2014, and 6% thereafter for certain qualifying entities that elect to be taxed under the new legislation. This legislation was rescinded as announced in the Official Gazette on August 5, 2013. The new legislation enacted a 9% rate for certain qualifying entities that elect to be taxed under the new legislation. The Company has two entities that had previously elected the new tax legislation for years after fiscal 2011. For all other entities that do not qualify for this reduced rate, the tax rate has been increased from 25% to 26.5%. These rates were applicable to Perrigo as of the first quarter of fiscal 2014 and unfavorably impacted the effective tax rate in the amount of \$1.8 million.

In July 2013, the United Kingdom passed legislation reducing the statutory rate to 21% and 20% effective April 1, 2014 and April 1, 2015, respectively. These rates were applicable to Perrigo as of the first quarter of fiscal 2014 and favorably impacted the effective tax rate in the amount of \$4.7 million.

In December 2013, Mexico enacted legislation to rescind the scheduled rate reductions and maintain the 30% corporate tax rate for 2014 and future years. This rate was applicable to Perrigo as of June 30, 2013.

The Company's tax rate is subject to adjustment over the balance of the fiscal year due to, among other things, income tax rate changes by governments; the jurisdictions in which the Company's profits are determined to be earned and taxed, and the relative amounts of income in these jurisdictions; changes in the valuation of the Company's deferred tax assets and liabilities; adjustments to estimated taxes upon finalization of various tax returns; the resolution of any pending or future tax audit, examination or challenge; adjustments to the Company's interpretation of transfer pricing standards, changes in available tax credits, grants and other incentives; changes in stock-based compensation expense; changes in tax laws or the interpretation of such tax laws (for example, proposals for fundamental U.S. international tax reform); changes in U.S. generally accepted accounting principles; expiration or the inability to renew tax rulings or tax holiday incentives; and the repatriation of earnings with respect to which the Company has not previously provided for taxes.

The total liability for uncertain tax positions was \$291.5 million and \$205.4 million as of September 27, 2014 and June 28, 2014, respectively, before considering the federal tax benefit of certain state and local items. This increase is primarily due to the adoption of ASU 2013-11 concerning the offset of applicable deferred tax assets for net operating loss, tax credit or other similar carryforwards. See Note 1 for additional information regarding the adoption.

Table of Contents

The Company recognizes interest and penalties related to uncertain tax positions as a component of income tax expense. The total amount accrued for interest and penalties in the liability for uncertain tax positions was \$42.3 million and \$45.3 million as of September 27, 2014 and June 28, 2014, respectively.

The Company's primary income tax jurisdictions are Ireland, the U.S. and Israel. Because the Company files income tax returns in Ireland, the U.S. (including various state and local jurisdictions), Israel and numerous other jurisdictions, it is subject to audits by tax authorities from several jurisdictions.

Although we believe that our tax estimates are reasonable and that we prepare our tax filings in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from our estimates or from our historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements, penalties, or interest assessments.

Currently, the IRS is auditing fiscal years 2009 and 2010, and the Israel Tax Authority is auditing fiscal years 2011 and 2012. In regards to the IRS audit for fiscal years 2009 and 2010, the Company has agreed on certain adjustments and has made associated payments of \$8.0 million, inclusive of interest, but remains under audit for those years. On August 27, 2014, the Company received a statutory notice of deficiency from the IRS related to fiscal years 2009 and 2010. The incremental tax liability asserted by the IRS for these periods is approximately \$43.0 million, exclusive of interest and penalties. The IRS has asserted various positions, including transfer pricing. As the Company disagrees with positions asserted by the IRS, it intends to contest the IRS's positions through applicable procedures in either the U.S. Tax Court or U.S. Federal court, the latter of which would require the Company to pay the asserted liability, plus interest and penalties, prior to initiating any refund litigation. The unfavorable resolution of this matter could have a material impact on the Company's consolidated financial statements in future periods. There are numerous other income tax jurisdictions for which tax returns are not yet settled, none of which are individually significant. At this time, the Company cannot predict the outcome of any audit or related litigation.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

In addition to the discussions below, the Company has pending certain other legal actions and claims incurred in the normal course of business. The Company records accruals for such contingencies when it is probable that a liability will be incurred and the amount of the loss can be reasonably estimated. As of September 27, 2014, the Company has determined that the liabilities associated with certain litigation matters are probable and can be reasonably estimated. The Company has accrued for these matters and will continue to monitor each related legal issue and adjust accruals for new information and further development. Other than the items disclosed below, the Company considers the remainder of litigation matters to be immaterial individually and in the aggregate.

Texas Medicaid

In June 2013, the Company received notices from the Office of the Attorney General for the State of Texas, of civil investigative demands to two of the Company's affiliates, Perrigo Pharmaceuticals Company and Paddock Laboratories, LLC, for information under the Texas Medicaid Fraud Prevention Act relating to the submission of prices to Texas Medicaid in claims for reimbursement for drugs. The Company has cooperated with requests for information and is in the process of evaluating this and other information. While the Company does not know the full extent of its potential liability at this time and intends to vigorously defend against any claims, the Company could be subject to material penalties and damages. The Company has established a contingency loss accrual of \$15.0 million to cover potential settlement or other outcomes. The Company cannot predict whether settlement on terms acceptable to it will occur, or that a settlement or potential liability for these claims will not be higher than the amount recorded.

Eltroxin

During October and November 2011, nine applications to certify a class action lawsuit were filed in various courts in Israel related to Eltroxin, a prescription thyroid medication manufactured by a third party and distributed in Israel by Perrigo Israel Agencies Ltd. The respondents include Perrigo Israel Pharmaceuticals Ltd. and/or Perrigo

21

Table of Contents

Israel Agencies Ltd., the manufacturers of the product, and various health care providers who provide health care services as part of the compulsory health care system in Israel.

The nine applications arose from the 2011 launch of a reformulated version of Eltroxin in Israel. The applications generally alleged that the respondents (a) failed to timely inform patients, pharmacists and physicians about the change in the formulation; and (b) failed to inform physicians about the need to monitor patients taking the new formulation in order to confirm patients were receiving the appropriate dose of the drug. As a result, claimants allege they incurred the following damages: (a) purchases of product that otherwise would not have been made by patients had they been aware of the reformulation; (b) adverse events to some patients resulting from an imbalance of thyroid functions that could have been avoided; and (c) harm resulting from the patients' lack of informed consent prior to the use of the reformulation.

All nine applications were transferred to one court in order to determine whether to consolidate any of the nine applications. On July 19, 2012, the court dismissed one of the applications and ordered that the remaining eight applications be consolidated into one application. On September 19, 2012, a consolidated motion to certify the eight individual motions was filed by lead counsel for the claimants. Generally, the allegations in the consolidated motion are the same as those set forth in the individual motions; however, the consolidated motion excluded the manufacturer of the reformulated Eltroxin as a respondent. Several hearings on whether or not to certify the consolidated application took place in December 2013 and January 2014. As this matter is in its early stages, the Company cannot reasonably predict at this time the outcome or the liability, if any, associated with these claims.

Neot Hovav

In March and June of 2007, lawsuits were filed by three separate groups against both the State of Israel and the Council of Neot Hovav in connection with waste disposal and pollution from several companies, including the Company, that have operations in the Neot Hovav region of Israel. These lawsuits were subsequently consolidated into a single proceeding in the District Court of Beer-Sheva. The Council of Neot Hovav, in June 2008, and the State of Israel, in November 2008, asserted third-party claims against several companies, including the Company. The pleadings allege a variety of personal injuries arising out of the alleged environmental pollution. Neither the plaintiffs nor the third-party claimants were required to specify a maximum amount of damages, but the pleadings allege damages in excess of \$72.5 million, subject to foreign currency fluctuations between the Israeli shekel and the U.S. dollar. On January 9, 2013, the District Court of Beer-Sheva ruled in favor of the Company. On September 29, 2014, the Supreme Court of Israel affirmed the ruling of the District Court in favor of the Company and as a result, the matter is now closed.

Tysabri® product liability lawsuits

The Company and collaborator Biogen are co-defendants in product liability lawsuits arising out of the occurrence of Progressive Multifocal Leukoencephalopathy ("PML"), a serious brain infection, and serious adverse events, including deaths, which occurred in patients taking Tysabri®. The Company and Biogen will each be responsible for 50% of losses and expenses arising out of any Tysabri® product liability claims. While these lawsuits will be vigorously defended, management cannot predict how these cases will be resolved. Adverse results in one or more of these lawsuits could result in substantial judgments against the Company.

Table of Contents

NOTE 13 – RESTRUCTURING CHARGES

The Company periodically takes actions to reduce redundant expenses and improve operating efficiencies, typically in connection with its business acquisitions. The following summarizes the Company's restructuring activity for the three months ended September 27, 2014 and September 28, 2013 (in millions):

	Three Months Ended	
	September 27, 2014	September 28, 2013
Beginning balance	\$16.4	\$2.9
Additional charges	1.7	2.1
Payments	(13.5) (1.4
Non-cash adjustments	(0.7) —
Ending balance	\$3.9	\$3.6

Restructuring activity includes severance, lease exit, and asset impairments. Charges are shown in Restructuring on the Company's Condensed Consolidated Statements of Operations. Substantially all of the remaining liability for employee severance benefits and lease exit costs will be paid within the fiscal year.

NOTE 14 – SEGMENT INFORMATION

The Company has five reportable segments, aligned primarily by type of product: Consumer Healthcare, Nutritionals, Rx Pharmaceuticals, API, and Specialty Sciences, along with an Other category. In conjunction with the acquisition of Elan on December 18, 2013, the Company expanded its operating segments to include the Specialty Sciences segment, which is comprised of assets focused on the treatment of Multiple Sclerosis (Tysabri®). The majority of corporate expenses, which generally represent shared services, are charged to operating segments as part of a corporate allocation. Unallocated expenses relate to certain corporate services that are not allocated to the segments.

Table of Contents

NOTE 15 – GUARANTOR CONDENSED CONSOLIDATING FINANCIAL STATEMENTS

The Company and certain other of its principal 100% owned subsidiaries (the "Guarantors") fully and unconditionally guaranteed, on a joint and several basis, the Bonds. The following tables present condensed consolidated financial information for (a) the Company (for purposes of this discussion and table, "Parent"); (b) the guarantors of the Bonds, which include substantially all of the U.S., 100% owned subsidiaries of the Parent and specific Elan subsidiaries ("Subsidiary Guarantors"); and (c) the wholly- and partially-owned non-U.S. subsidiaries of the Parent, which do not guarantee the Notes ("Non-Guarantor Subsidiaries"). Separate financial statements of the Subsidiary Guarantors are not presented because they are fully and unconditionally, jointly and severally liable under the guarantees. The consolidating adjustments primarily relate to eliminations of investments in subsidiaries and intercompany balances and transactions. The condensed consolidating financial statements present investments in subsidiaries using the equity method of accounting.

Perrigo Company plc, which was formed on December 18, 2013, is the Parent Company. For periods prior to December 18, 2013, the Parent entity is Perrigo Company, which is a guarantor, therefore no Parent column is presented for the three months ended September 28, 2013.

NOTE 16 – SUBSEQUENT EVENTS

Omega Pharma Invest NV - On November 6, 2014, the Company entered into an Agreement for the Sale and Purchase of 685,348,257 Shares of Omega Pharma Invest NV (“Omega”) (the “Share Purchase Agreement”) with Alychlo NV (“Alychlo”) and Holdco I BE NV (“Holdco” and, together with Alychlo, the “Sellers”), limited liability companies incorporated under the laws of Belgium, pursuant to which the Company will purchase (the “Acquisition”) from the Sellers 685,348,257 shares (the “Shares”) of Omega Pharma Invest NV (“Omega”), a limited liability company incorporated under the laws of Belgium, representing 95.77% of the issued and outstanding share capital of Omega. The remaining shares of Omega (30,243,983 shares) will be held by Omega as treasury shares.

The Company agreed to acquire Omega for a total value of EUR 3.6 billion in equity and cash, which includes the assumption of EUR 1.1 billion in debt. The consideration will consist of cash of EUR 1.8 billion (the “Cash Consideration”) and 5,397,711 shares of the Company issued to Alychlo (the “Non-Cash Consideration” and, together with the Cash Consideration, the “Acquisition Consideration”). The Acquisition Consideration will be increased by interest from September 30, 2014 until the completion date on an amount of EUR 2.48 billion starting at a rate of 5% subject to monthly increases as set forth in the Share Purchase Agreement.

The Cash Consideration will be financed by borrowings under credit facilities of the Company and/or issuances of debt and/or equity of the Company and/or its subsidiaries.

The Sellers have agreed to indemnify the Company for certain losses. The Sellers’ indemnification and other obligations to the Company under the Share Purchase Agreement will be secured up to EUR 248.0 million.

In connection with the Acquisition, the Company will assume or repay/redeem all outstanding indebtedness of Omega and its subsidiaries, which includes (i) EUR 135.0 million of 5.1045% senior notes due 2023 and USD 20.0 million (after hedging arrangements, EUR 16.2 million) of 6.19% senior notes due 2016, (ii) EUR 300.0 million of 5.125% retail bonds due 2017, EUR 180.0 million of 4.500% retail bonds due 2017, and EUR 120.0 million of 5.000% retail bonds due 2019, (iii) approximately EUR 390.0 million outstanding (with additional amounts available

Table of Contents

to be drawn) under certain credit and overdraft facilities, and (iv) amounts incurred under various cash pooling and overdraft arrangements.

The Acquisition is conditioned upon customary closing conditions, including antitrust approval, accuracy of representations and warranties, compliance with covenants and no material adverse effect. The Company is obligated to use its best efforts to satisfy the antitrust approval condition, including making any required divestitures. Subject to the closing conditions, the Acquisition is expected to be completed during the third quarter of fiscal 2015.

Under the terms of the Share Purchase Agreement, Alychlo and its affiliates will be subject to a three-year non-compete in Europe and Belgium, and the Sellers will be subject to a two-year non-solicit, in each case subject to certain exceptions.

The Share Purchase Agreement contains other customary representations, warranties, and covenants of the parties thereto.

Also on November 6, 2014, the Company entered into a Senior Unsecured 364-Day Bridge Facility Commitment Letter (the "Bridge Commitment Letter") and a Senior Unsecured Credit Facilities Commitment Letter (the "Senior Commitment Letter" and, together with the Bridge Commitment Letter, the "Commitment Letters" and, the commitments thereunder, the "Commitments") pursuant to which JPMorgan Chase Bank, N.A. and Barclays Bank PLC have committed to: (i) provide up to EUR 1.75 billion under a 364-day senior unsecured bridge loan facility (the "Bridge Loan Facility"); (ii) (x) solicit consents to amend the terms of the Company's existing term loan credit agreement (the "Existing Term Loan Credit Agreement") to permit the Acquisition, (y) replace the Existing Term Loan Credit Agreement with a backstop term loan facility permitting the Acquisition and otherwise containing the same terms and commitments as the Existing Term Loan Agreement, or (z) replace the Existing Term Loan Credit Agreement by entering into a new term loan credit agreement providing for increased commitments up to an aggregate principal amount of USD 300.0 million and EUR 800.0 million (any such amended, backstop, or new agreement, the "New Term Loan Facility"); and (iii) (x) solicit consents to amend the terms of the Company's existing revolving credit agreement (the "Existing Revolving Credit Agreement") to permit the Acquisition, (y) replace the Existing Revolving Credit Agreement with a backstop revolving facility permitting the Acquisition and otherwise containing the same terms and commitments as the Existing Revolving Credit Agreement, or (z) replace the Existing Revolving Credit Agreement by entering into a new revolving credit agreement providing for increased commitments up to an aggregate principal amount of USD 1.0 billion (any such amended, backstop, or new agreement, the "New Revolving Facility" and, together with the Bridge Facility and the New Term Loan Facility, the "New Facilities"). The Commitments are subject to various conditions, including the absence of any Material Adverse Effect (as defined in the Commitment Letters) on Omega and its subsidiaries, the negotiation of definitive documentation with respect to the New Facilities, and the other closing conditions set forth in the Commitment Letters.

Concurrent with the announcement of the Acquisition, the Company entered into foreign currency option contracts to partly mitigate the currency exchange risk associated with the payment of the Euro-denominated purchase price. These foreign currency option contracts will not be designated as hedging instruments and therefore changes in the derivatives fair value will be recorded in Other expense/income (net) on the Condensed Consolidated Statement of Operations.

Lumara Health, Inc. - On September 29, 2014, the Company announced a definitive agreement to acquire a portfolio of women's healthcare products from Lumara Health, Inc., a privately-held, Chesterfield, Missouri-based specialty pharmaceutical company, for \$83.0 million in cash. The acquisition was completed on October 31, 2014.

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS
FIRST QUARTER OF FISCAL YEARS 2015 AND 2014

EXECUTIVE OVERVIEW

Perrigo Company plc (formerly known as Perrigo Company Limited, and prior thereto, Blisfont Limited) ("Perrigo" or "the Company"), was incorporated under the laws of Ireland on June 28, 2013, and became the successor registrant of Perrigo Company on December 18, 2013 in connection with the consummation of the acquisition of Elan Corporation, plc ("Elan"), which is discussed further in Note 2 to the Notes of Condensed Consolidated Statements. From its beginnings in 1887 as a small local proprietor selling medicinals to regional grocers, Perrigo has evolved into a leading global pharmaceutical company that manufactures and distributes more than 47 billion oral solid doses and more than 2 billion liquid doses, as well as dozens of other product dosage forms, each year. The Company's mission is to offer "Quality Affordable Healthcare Products®", and it does so across a wide variety of product categories primarily in the United States, United Kingdom, Mexico, Israel and Australia, as well as many other key markets worldwide, including Canada, China and Latin America.

Segments – The Company has five reportable segments, aligned primarily by type of product: Consumer Healthcare, Nutritionals, Rx Pharmaceuticals, API, and Specialty Sciences. In addition, the Company has an Other category that consists of the Israel Pharmaceutical and Diagnostic Products operating segment, which does not individually meet the quantitative thresholds required to be a separately reportable segment.

The Consumer Healthcare ("CHC") segment is the world's largest store brand marketer and manufacturer of over-the-counter ("OTC") pharmaceutical products. Major product categories include analgesics, cough/cold/allergy/sinus, gastrointestinal, smoking cessation, animal health, and secondary product categories include feminine hygiene, diabetes care and dermatological care.

The CHC business markets products that are comparable in quality and effectiveness to national brand products. The cost to the retailer of a store brand product is significantly lower than that of a comparable nationally advertised brand-name product. Generally, the retailers' dollar profit per unit of store brand product is greater than the dollar profit per unit of the comparable national brand product. The retailer, therefore, can price a store brand product below the competing national brand product and realize a greater profit margin. The consumer benefits by receiving a high quality product at a price below the comparable national brand product. Therefore, the Company's business model saves consumers on their healthcare spending. The Company, one of the original architects of private label pharmaceuticals, is the market leader for consumer healthcare products in many of the geographies where it currently competes – the U.S., U.K., and Mexico – and is developing its position in Australia. The Company's market share of OTC store brand products has grown in recent years as new products, retailer efforts to increase consumer education and awareness, and economic conditions have directed consumers to the value of store brand product offerings.

¶The Nutritionals segment develops, manufactures, markets and distributes store brand infant and toddler formula products, infant and toddler foods, and vitamin, mineral and dietary supplement ("VMS") products to retailers, distributors and consumers primarily in the U.S., Canada, Mexico and China. Similar to the Consumer Healthcare segment, this business markets store brand products that are comparable in quality and formulation to the national brand products. The cost to the retailer of a store brand product is significantly lower than that of a comparable nationally advertised brand-name product. The retailer, therefore, can price a store brand product below the competing national brand product yet realize a greater profit margin. All infant formulas sold in the U.S. are subject to the same regulations governing manufacturing and ingredients under the Infant Formula Act of 1980, as amended. Store brands, which offer substantial savings to consumers, must meet the same U.S. Food and Drug Administration

("FDA") requirements as the national brands. Substantially all products are developed using ingredients and formulas comparable to those of national brand products. In most instances, packaging is designed to increase visibility of store brand products and to invite and reinforce comparison to national brand products in order to communicate store brand value to the consumer.

Table of Contents

The Rx Pharmaceuticals segment develops, manufactures and markets a portfolio of generic prescription ("Rx") drugs primarily for the U.S. market. The Company defines this portfolio as predominantly "extended topical" and "specialty" as it encompasses a broad array of topical dosage forms such as creams, ointments, lotions, gels, shampoos, foams, suppositories, sprays, liquids, suspensions, solutions and powders. The portfolio also includes select controlled substances, injectables, hormones, oral solid dosage forms and oral liquid formulations. The strategy in the Rx Pharmaceuticals segment is to be the first to market with those new products that are exposed to less competition because they have formulations that are more difficult and costly to develop and launch (e.g., extended topicals, specialty solutions or products containing controlled substances). In addition, the Rx Pharmaceuticals segment offers OTC products through the prescription channel (referred to as "ORx®" marketing). ORx® products are OTC products available for pharmacy fulfillment and healthcare reimbursement when prescribed by a physician. The Company offers over 100 ORx® products that are reimbursable through many health plans and Medicaid and Medicare programs.

The API segment develops, manufactures and markets active pharmaceutical ingredients ("API") used worldwide by the generic drug industry and branded pharmaceutical companies. The API business identifies APIs critical to its pharmaceutical customers' future product launches and then works closely with these customers on the development processes. API development is focused on the synthesis of less common molecules for the U.S., European and other international markets. The Company is also focusing development activities on the synthesis of molecules for use in its own OTC and Rx pipeline products. This segment is undergoing a strategic platform transformation, moving certain production from Israel to the acquired API manufacturing facility in India to allow for lower cost production and to create space for other, more complex production in Israel.

As a result of the Elan acquisition on December 18, 2013, the Company expanded its operating segments to include the Specialty Sciences segment, which is comprised of assets focused on the treatment of Multiple Sclerosis (Tysabri®).

In addition to general management and strategic leadership, each business segment has its own sales and marketing teams focused on servicing the specific requirements of its customer base. Each of these business segments share Research & Development, Supply Chain, Information Technology, Finance, Human Resources, Legal and Quality services.

Seasonality – The Company's sales of OTC pharmaceutical products are subject to the seasonal demands for cough/cold/flu and allergy products and consumer dynamics in the retail environment in which our customers operate. In addition, the Company's animal health products are subject to the seasonal demand for flea and tick products, which typically peaks during the warmer weather months. Accordingly, operating results for the three months ended September 27, 2014 are not necessarily indicative of the results that may be expected for a full fiscal year.

Consolidated Results

Table of Contents

The increase in net sales of \$18.1 million for the first quarter of fiscal 2015 was driven primarily by \$91.9 million of incremental net sales attributable to the Elan acquisition and by new product sales of \$23.5 million. This increase was offset partially by lower sales volumes on certain products in the Consumer Healthcare and API segments.

First quarter fiscal 2015 gross profit and gross profit percentage decreased due primarily to intangible asset amortization incurred and product mix.

Operating expenses increased due to incremental expenses attributable to corporate business development, integration technology, and planned higher new product development spending. Interest and other, net included interest expense on incremental debt outstanding in connection with the Elan acquisition. See "Interest and Other (Consolidated)" for further details.

Further details related to current year results, including results by segment, are included below under Results of Operations.

Events impacting future results

On November 6, 2014, the Company entered into a Share Purchase Agreement, pursuant to which the Company will purchase 685,348,257 shares of Omega, representing 95.77% of the issued and outstanding share capital of Omega. The remaining 30,243,983 shares of Omega will be held by Omega as treasury shares.

The Company agreed to acquire Omega for a total value of EUR 3.6 billion in equity and cash, which includes the assumption of EUR 1.1 billion in debt. The consideration will consist of cash of EUR 1.8 billion and 5,397,711 shares of the Company issued to Alychlo. The Acquisition Consideration will be increased by interest from September 30, 2014 until the completion date on an amount of EUR 2.48 billion starting at a rate of 5% subject to monthly increases as set forth in the Share Purchase Agreement.

The Cash Consideration will be financed by borrowings under credit facilities of the Company and/or issuances of debt and/or equity of the Company and/or its subsidiaries.

The completion of the Acquisition is conditioned upon customary closing conditions, including antitrust approval, accuracy of representations and warranties, compliance with covenants and no material adverse effect.

Also on November 6, 2014, in connection with the entry into the Share Purchase Agreement, the Company entered into Commitment Letters, pursuant to which JPMorgan Chase Bank, N.A. and Barclays Bank PLC have committed to (i) provide the Bridge Loan Facility; (ii) (x) solicit consents to amend the terms of the Existing Term Loan Credit Agreement to permit the Acquisition (y) replace the Existing Term Loan Credit Agreement with a backstop term loan facility to permit the Acquisition, or (z) replace the Existing Term Loan Credit Agreement by entering into a New Term Loan Facility; and (iii) (x) solicit consents to amend the terms of the Existing Revolving Credit Agreement to permit the Acquisition, (y) replace the Existing Term Loan Credit Agreement with a backstop term loan facility to permit the Acquisition, or (z) replace the Existing Revolving Credit Agreement by entering into a New Revolving Facility.

For additional details on the Share Purchase Agreement, the Acquisition and the financing commitments, see Note 16 of the Notes to the Condensed Consolidated Financial Statements.

As discussed in Note 2 of the Notes to the Condensed Consolidated Financial Statements, the Company's subsidiary Elan has the right to receive royalties from Biogen Idec Inc. ("Biogen"). The amount of royalties received under this agreement is expected to be material to the future results of operations and cash flows. For the three months ended September 27, 2014, Elan recorded \$91.9 million in royalties associated with this agreement. Further, Elan incurs

costs associated with the ongoing business operations and maintains investments in various equity interests. In addition, the Company expects to incur approximately \$218.3 million of amortization expense annually associated with the intangible assets acquired with the acquisition of Elan discussed in Note 2 of the Notes to the Condensed Consolidated Financial Statements.

The Company realizes recurring annual operating expense and tax savings associated with the acquisition of Elan. Certain of these savings result from the elimination of redundant public company costs while optimizing

Table of Contents

back-office support. Additionally, for the remainder of fiscal 2015, the Company expects to have a lower annual effective tax rate compared to fiscal 2014 due to changes to the estimated jurisdictional mix of income and the new corporate structure attributable to the acquisition of Elan.

The Company is in the process of transitioning its long-term strategy for its API business from primarily third-party to a dual focus on third-party business, including products to be manufactured in India, and vertical integration of high value and more difficult-to-manufacture inputs to the Consumer Healthcare and Rx businesses in an effort to gain efficiencies and lower costs, thus increasing margins. With a limited pipeline of products in development for future third-party customer new product introductions, the API segment revenues will likely decrease in the future, while intercompany vertical integration revenues (which will be eliminated in consolidation) will potentially increase. The Company plans to continue to seek and execute upon niche, complex differentiated new product APIs opportunistically for its overall portfolio, commence production in the Company's new API site in India, and strive to develop unique collaborations and profit sharing agreements between the Company's API business and pharmaceutical companies globally.

Beginning in the third quarter of fiscal 2010, a branded competitor in the OTC market began to experience periodic interruptions of distribution of certain of its products in the adult and pediatric analgesic categories. These interruptions have included periods of time where supply of certain products has been suspended altogether. Due to this situation, which continued through fiscal 2013, the Company experienced an increase in demand for certain adult and pediatric analgesic products. This increased demand generally had a positive impact on the Consumer Healthcare segment's net sales over that period of time. The branded competitor re-entered the market in fiscal 2014 and continues to gain market position. The Company believes that this re-entry should largely be complete over the next three to six months. The Company is considering the impact of this ongoing development in its forward-looking sales forecast, but it cannot predict the extent of consumers' re-acceptance of the branded products, the extent of the branded competitor's marketing activities or the ultimate market share this competitor can be expected to achieve.

Table of Contents

RESULTS OF OPERATIONS

Consumer Healthcare

(\$ in millions)	Three Months Ended		Increase/(Decrease)% Change		
	September 27, 2014	September 28, 2013			
Net sales	\$493.3	\$538.5	\$ (45.2) (8)%
Gross profit	\$152.8	\$176.9	\$ (24.1) (14)%
Gross profit %	31.0	% 32.9			
Operating expenses	\$87.5	\$87.0	\$ 0.5	1	%
Operating expenses %	17.7	% 16.2			
Operating income	\$65.3	\$89.9	\$ (24.6) (27)%
Operating income %	13.2	% 16.7			

First quarter fiscal 2015 net sales decreased \$45.2 million compared to the prior year. This included a decrease of \$78.2 million primarily in the contract manufacturing, cough/cold, analgesics, gastrointestinal and animal health categories. A significant portion of the category decreases were driven by timing differences related to seasonal promotions in fiscal 2015 compared to fiscal 2014, lower contract sales, a cough/cold product that was taken off the market but was relaunched during the second quarter of fiscal 2015, and the previously mentioned branded competitor returning to the market. The decrease was offset partially by an increase of \$32.9 million in the smoking cessation category as well as incremental sales attributed to new products sales and the Aspen acquisition.

First quarter fiscal 2015 gross profit and gross profit percentage decreased primarily due to product mix as well as incremental amortization expense attributable to the Aspen acquisition.

First quarter fiscal 2015 operating expenses were \$87.5 million for the first quarter of fiscal 2015, which was comparable to the first quarter of fiscal 2014.

Nutritionals

(\$ in millions)	Three Months Ended		Increase/(Decrease)% Change		
	September 27, 2014	September 28, 2013			
Net sales	\$125.3	\$129.0	\$ (3.7) (3)%
Gross profit	\$33.4	\$30.8	\$ 2.6	8	%
Gross profit %	26.7	% 23.9			
Operating expenses	\$24.9	\$23.1	\$ 1.8	8	%
Operating expenses %	19.9	% 17.9			
Operating income	\$8.6	\$7.7	\$ 0.9	12	%
Operating income %	6.8	% 6.0			

First quarter fiscal 2015 net sales decreased \$3.7 million compared to the prior year due primarily to a decrease in sales of \$6.3 million in the infant/toddler food and multi-vitamin categories as well as \$4.6 million in discontinued products offset primarily by an increase of \$7.4 million in new product sales.

First quarter fiscal 2015 gross profit and gross profit percentage increased due primarily to improved product mix and improved efficiencies in manufacturing facilities.

First quarter fiscal 2015 operating expenses increased due primarily to higher administrative expenses as a result of the higher sales volume, as well as higher selling expenses related to the marketing of certain products.

Table of Contents

Rx Pharmaceuticals

(\$ in millions)	Three Months Ended		Increase/(Decrease)	% Change
	September 27, 2014	September 28, 2013		
Net sales	\$194.5	\$203.6	\$ (9.1) (4)%
Gross profit	\$96.4	\$112.5	\$ (16.1) (14)%
Gross profit %	49.6	% 55.2	%	
Operating expenses	\$31.7	\$29.4	\$ 2.3	8 %
Operating expenses %	16.3	% 14.4	%	
Operating income	\$64.7	\$83.1	\$ (18.4) (22)%
Operating income %	33.3	% 40.8	%	

First quarter fiscal 2015 net sales decreased by \$9.1 million partially due to planned contractual wholesaler chargebacks and stock adjustments associated with pricing programs which are expected to produce benefits beginning in the second quarter of fiscal 2015, as well as discontinued products of \$11.0 million. The decreases were offset partially by \$8.1 million related to new product launches and new business opportunities in the market, and \$3.8 million incremental sales attributed to the Fera methazolomide acquisition.

First quarter fiscal 2015 gross profit and gross profit percentage decreased due primarily to the explanations discussed above, offset partially by increases in margin product mix.

First quarter fiscal 2015 operating expenses increased due primarily to higher research and development expenses resulting from planned higher spending on new product development as well as increased selling and administration primarily related to the new branded ophthalmic sales force.

API

(\$ in millions)	Three Months Ended		Increase/(Decrease)	% Change
	September 27, 2014	September 28, 2013		
Net sales	\$24.8	\$43.2	\$ (18.4) (43)%
Gross profit	\$13.0	\$29.8	\$ (16.8) (56)%
Gross profit %	52.3	% 69.1	%	
Operating expenses	\$5.9	\$7.4	\$ (1.5) (20)%
Operating expenses %	24.0	% 17.1	%	
Operating income	\$7.1	\$22.4	\$ (15.3) (68)%
Operating income %	28.3	% 52.0	%	

First quarter fiscal 2015 net sales decreased \$18.4 million compared to the prior year due primarily to a decrease in the U.S. sales of temozolomide related to the expiration of an exclusivity period that was in effect during the first quarter of fiscal 2014, as well as competition on certain products. Sales of API are highly dependent on the level of competition in the marketplace for a specific material and the ordering patterns of customers on a quarter-over-quarter basis.

First quarter fiscal 2015 gross profit and gross profit percentage decreased in line with the net sales decrease noted above.

First quarter fiscal 2015 operating expenses decreased due primarily to lower selling and administrative costs.

Table of Contents

Specialty Sciences

(\$ in millions)	Three Months Ended	
	September 27, 2014	
Net sales	\$91.9	
Gross profit	\$19.4	
Gross profit %	21.1	%
Operating expenses	\$4.5	
Operating expenses %	4.9	%
Operating loss	\$14.9	
Operating loss %	16.2	%

The Specialty Sciences segment was created during the second quarter of fiscal 2014 as a result of the Elan acquisition. First quarter fiscal 2015 net sales resulted from royalties received from global sales of the Multiple Sclerosis drug Tysabri®, which is manufactured and distributed by Biogen. First quarter fiscal 2015 gross profit was impacted primarily by intangible asset amortization of \$72.8 million.

Other

The Other category consists of the Company's Israel Pharmaceutical and Diagnostic Products operating segment, which does not individually meet the quantitative thresholds required to be a reportable segment.

(\$ in millions)	Three Months Ended		Increase/(Decrease)% Change		
	September 27, 2014	September 28, 2013			
Net sales	\$21.7	\$19.1	\$ 2.6	14	%
Gross profit	\$6.7	\$6.3	\$ 0.4	6	%
Gross profit %	30.9	% 32.4			
Operating expenses	\$5.8	\$5.0	\$ 0.8	16	%
Operating expenses %	26.9	% 26.2			
Operating income	\$0.9	\$1.2	\$ (0.3) (25)%
Operating income %	4.0	% 6.2			

First quarter fiscal 2015 net sales and gross profit increased due to higher volume in the diagnostic business, while operating expenses increased due to higher administrative costs.

Unallocated Expenses

Unallocated expenses are comprised of certain corporate services that are not allocated to the segments. Unallocated expenses of \$24.2 million for the fiscal 2015 first quarter included business development expenses of \$4.1 million as well as additional planned corporate overhead subsequent to the Elan acquisition. Fiscal 2014 first quarter unallocated expenses of \$24.6 million included transaction fees related to the Elan acquisition.

Interest and Other (Consolidated)

Interest expense was \$26.1 million and \$22.1 million for the first quarter of fiscal 2015 and fiscal 2014, respectively. Interest expense increased due primarily to the issuance of \$2.3 billion of debt in a private placement to complete the Elan transaction, which was completed during the second quarter of fiscal 2014.

Interest income was \$0.2 million and \$0.7 million for the first quarter of fiscal 2015 and fiscal 2014, respectively.

Table of Contents

Income Taxes (Consolidated)

The effective tax rate for the three months ended September 27, 2014 was 11.4% compared to 29.2% for the three months ended September 28, 2013. The effective tax rate for the three months ended September 27, 2014 was impacted by changes to the estimated jurisdictional mix of income and the new corporate structure attributable to the acquisition of Elan. Additionally, the effective tax rate for the three months ended September 28, 2013 was unfavorably impacted by Israel tax rate changes in the amount of \$1.8 million and favorably impacted by United Kingdom tax rate changes in the amount of \$4.7 million as discussed below.

Although we believe that our tax estimates are reasonable and that we prepare our tax filings in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from our estimates or from our historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements, penalties, or interest assessments.

Currently, the IRS is auditing fiscal years 2009 and 2010, and the Israel Tax Authority is auditing fiscal years 2011 and 2012. In regards to the IRS audit for fiscal years 2009 and 2010, the Company has agreed on certain adjustments and has made associated payments of \$8.0 million, inclusive of interest, but remains under audit for those years. On August 27, 2014, the Company received a statutory notice of deficiency from the IRS related to fiscal years 2009 and 2010. The incremental tax liability asserted by the IRS for these periods is approximately \$43.0 million, exclusive of interest and penalties. The IRS has asserted various positions, including transfer pricing. As the Company disagrees with positions asserted by the IRS, it intends to contest the IRS's positions through applicable procedures in either the U.S. Tax Court or U.S. Federal court, the latter of which would require the Company to pay the asserted liability, plus interest and penalties, prior to initiating any refund litigation. The unfavorable resolution of this matter could have a material impact on the Company's consolidated financial statements in future periods. There are numerous other income tax jurisdictions for which tax returns are not yet settled, none of which are individually significant. At this time, the Company cannot predict the outcome of any audit or related litigation.

For additional information, see Note 11 of the Notes to the Condensed Consolidated Financial Statements.

Financial Condition, Liquidity and Capital Resources

The Company finances its operations with internally-generated funds, supplemented by credit arrangements with third parties and capital market financing. The Company routinely monitors current and expected operational requirements and financial market conditions to evaluate accessing other available financing sources, including revolving bank credit and securities offerings. Based on the Company's current financial condition and credit relationships, management believes that the Company's operations and borrowing resources are sufficient to provide for the Company's current and foreseeable capital requirements. However, the Company continues to evaluate the impact of commercial and capital market conditions on liquidity and may determine that modifications to the Company's capital structure are appropriate if market conditions deteriorate or if favorable capital market opportunities become available.

Cash

At September 27, 2014, the Company had cash and cash equivalents of \$891.5 million, an increase of \$92.0 million from June 28, 2014, and working capital, including cash, of \$1,616.1 million, an increase of \$139.9 million from June 28, 2014.

Cash, cash equivalents, cash flows from operations and borrowings available under the Company's credit facilities are expected to be sufficient to finance the known and/or foreseeable liquidity, capital expenditures, dividends, acquisitions and, to the extent authorized, share repurchases of the Company. Although the Company's lenders have made commitments to make funds available to it in a timely fashion, if economic conditions worsen or new information becomes publicly available impacting the institutions' credit rating or capital ratios, these lenders may be unable or unwilling to lend money pursuant to the Company's existing credit facilities.

Table of Contents

(in millions)	Three Months Ended	
	September 27, 2014	September 28, 2013
Net cash from (for) operating activities	\$195.1	\$98.7
Net cash from (for) investing activities	\$(30.7) \$(35.8
Net cash from (for) financing activities	\$(61.3) \$(28.8

Operating activities

The Company generated \$195.1 million from operating activities during the first quarter of fiscal 2015, a \$96.4 million increase over the first quarter of fiscal 2014. The majority of the increase was due to increased net earnings after adjusting for non-cash items such as depreciation and amortization, which resulted in an increase of \$66.7 million during the first quarter of fiscal 2015 as compared to the comparable prior year period. This increase was due largely to the Tysabri® royalties received during the first quarter of fiscal 2015. The remaining increase in cash from operating activities was due to changes in working capital. Cash received from payments on accounts receivable increased \$103.0 million due to higher sales in the fourth quarter of fiscal 2014 than in the fourth quarter of fiscal 2013. This was offset partially by a \$76.3 million decrease in accrued liabilities due to the timing of payments.

Investing activities

Cash used for investing activities totaled \$30.7 million for the first quarter of fiscal 2015, a decrease of \$5.1 million as compared to the first quarter of fiscal 2014. A decrease in capital expenditures from \$40.4 million during the first quarter of fiscal 2014 to \$31.7 million during the first quarter of fiscal 2015 accounted for the majority of the decrease. During the comparable prior year period, the additional cash used for capital expenditures was offset partially by \$4.6 million of proceeds from the sale of land.

Capital expenditures for fiscal 2015 are anticipated to be between \$140 million and \$170 million, related primarily to manufacturing productivity and capacity projects and investments at newly acquired entities. The Company expects to fund these estimated capital expenditures with funds from operational cash flows or revolving credit facilities.

Financing activities

Cash used for financing activities totaled \$61.3 million during the first quarter of fiscal 2015, an increase of \$32.5 million from the first quarter of fiscal 2014. The increase was due mainly to the Company using \$39.5 million to repay long-term debt during the first quarter of fiscal 2015, as well as an increase in dividends of \$5.6 million as compared to the comparable prior year period. During the first quarter of fiscal 2015 the Company also used \$5.0 million for a milestone payment on contingent consideration acquired with the acquisition of a distribution and license agreement from Fera Pharmaceuticals, LLC. These outflows were partially offset by the absence of \$24.8 million used for deferred financing fees related to the bridge financing associated with the Elan acquisition in the first quarter of fiscal 2014.

The declaration and payment of dividends, if any, is subject to the discretion of the Board of Directors and will depend on the earnings, financial condition, availability of distributable reserves and capital and surplus requirements of the Company and other factors the Board of Directors may consider relevant.

Debt

The Company had \$2.3 billion of senior notes and \$895.0 million of term loans outstanding at September 27, 2014. On September 2, 2014, the Company offered to exchange its private placement senior notes with public bonds (the "Exchange Offer"). The Exchange Offer expired on October 1, 2014, at which time a substantial majority of the private placement notes had been exchanged for bonds registered with the Securities and Exchange Commission.

Table of Contents

Revolving credit agreement

There were no borrowings outstanding under the Company's \$600.0 million Revolving Credit Agreement at September 27, 2014 or June 28, 2014.

Accounts receivable securitization

There were no borrowings outstanding under the Company's \$200.0 million accounts receivable securitization program at September 27, 2014 or June 28, 2014.

Credit ratings

The Company's credit ratings on September 27, 2014 were Baa3 (stable) and BBB (negative) by Moody's Investors Service and Standard and Poor's Rating Services, respectively.

Credit rating agencies review their ratings periodically and, therefore, the credit rating assigned to the Company by each agency may be subject to revision at any time. Accordingly, the Company is not able to predict whether current credit ratings will remain as disclosed above. Factors that can affect the Company's credit ratings include changes in operating performance, the economic environment, the Company's financial position, and changes in business strategy. If changes in the Company's credit ratings were to occur, they could impact, among other things, future borrowing costs, access to capital markets, and vendor financing terms.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the Company's quantitative or qualitative disclosures found in Item 7A, "Quantitative and Qualitative Disclosures about Market Risk", of Perrigo Company's Annual Report on Form 10-K for the year ended June 28, 2014.

Item 4. Controls and Procedures

Conclusion regarding the effectiveness of disclosure controls and procedures

As of September 27, 2014, the Company's management, including its Chief Executive Officer and its Chief Financial Officer, carried out an evaluation of the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) of the Securities Exchange Act of 1934. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in ensuring that all material information relating to the Company and its consolidated subsidiaries required to be included in the Company's periodic SEC filings would be made known to them by others within those entities in a timely manner and that no changes are required at this time.

Management's annual report on internal control over financial reporting

In connection with the evaluation by the Company's management, including its Chief Executive Officer and Chief Financial Officer, of the Company's internal control over financial reporting pursuant to Rule 13a-15(d) of the Securities Exchange Act of 1934, no changes during the quarter ended September 27, 2014, were identified that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting except as noted below.

Changes in internal control over financial reporting

The Company acquired Elan Corporation plc ("Elan") during the the second quarter of fiscal 2014 (see Note 2 of the Notes to the Condensed Consolidated Financial Statements). As permitted by Securities and Exchange Commission Staff interpretive guidance for newly acquired businesses, management excluded Elan from its evaluation of internal control over financial reporting as of September 27, 2014. The Company is in the process of documenting and testing Elan's internal controls over financial reporting. The Company will incorporate Elan into its annual report on internal control over financial reporting for its fiscal year ending June 27, 2015. As of September 27, 2014, assets excluded from management's assessment totaled \$312.1 million and contributed \$91.8 million of net sales and \$12.6 million of income to the Company's consolidated net sales and operating income for the three months ended September 27, 2014.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

Refer to Note 12 of the Notes to Condensed Consolidated Financial Statements.

Item 1A. Risk Factors

The Company's Annual Report on Form 10-K for the fiscal year ended June 28, 2014 includes a detailed discussion of the Company's risk factors. Other than the item noted below, there have been no material changes during the first quarter of fiscal 2015 to the risk factors that were included in the Form 10-K.

Changes in tax laws or income tax rates could have a material adverse effect on the Company's results of operations and the ability to utilize cash in a tax efficient manner.

The Company believes that under current law, it should be treated as a foreign corporation for U.S. federal tax purposes. However, changes to the inversion rules in section 7874 of the Code, or the IRS Treasury regulations promulgated thereunder, or other IRS guidance, could adversely affect the Company's status as a foreign corporation for U.S. federal tax purposes, and any such changes could have prospective or retroactive application to the Company, Perrigo Company, and/or their respective stockholders, shareholders and affiliates. In addition, recent legislative proposals have aimed to expand the scope of U.S. corporate tax residence, and such legislation, if passed, could have an adverse effect on the Company.

Moreover, the Office of the Revenue Commissioners, U.S. Congress, the Organisation for Economic Co-operation and Development and other Government agencies in jurisdictions where the Company and its affiliates do business have had an extended focus on issues related to the taxation of multinational corporations. One example is in the area of "base erosion and profit shifting", where payments are made between affiliates from a jurisdiction with high tax rates to a jurisdiction with lower tax rates. As a result, the tax laws in the U.S. and other countries in which the Company and its affiliates do business could change on a prospective or retroactive basis, and any such changes could adversely affect the Company.

A number of factors may adversely impact the Company's future effective tax rates, such as income tax rate changes by governments; the jurisdictions in which the Company's profits are determined to be earned and taxed; changes in the valuation of the Company's deferred tax assets and liabilities; adjustments to estimated taxes upon finalization of various tax returns; adjustments to the Company's interpretation of transfer pricing standards, changes in available tax credits, grants and other incentives; changes in stock-based compensation expense; changes in tax laws or the interpretation of such tax laws (e.g., proposals for fundamental U.S. international tax reform); changes in U.S. generally accepted accounting principles; expiration or the inability to renew tax rulings or tax holiday incentives; and the repatriation of non-U.S. earnings with respect to which the Company has not previously provided for U.S. taxes. A change in the Company's effective tax rate due to any of these factors may adversely impact the Company's future results from operations. Also, changes in tax laws could have a material adverse effect on the Company's ability to utilize cash in a tax efficient manner.

Although we believe that our tax estimates are reasonable and that we prepare our tax filings in accordance with all applicable tax laws, the final determination with respect to any tax audit, and any related litigation, could be materially different from our estimates or from our historical income tax provisions and accruals. The results of an audit or litigation could have a material effect on operating results and/or cash flows in the periods for which that determination is made. In addition, future period earnings may be adversely impacted by litigation costs, settlements,

penalties, and/or interest assessments.

On August 27, 2014, the Company received a statutory notice of deficiency from the IRS related to fiscal years 2009 and 2010. The incremental tax liability asserted by the IRS for these periods is approximately \$43.0 million, exclusive of interest and penalties. The IRS has asserted various positions, including transfer pricing. As the Company disagrees with positions asserted by the IRS, it intends to contest the IRS's positions through applicable procedures in either the U.S. Tax Court or U.S. Federal court, the latter of which would require the Company to pay the asserted liability, plus interest and penalties, prior to initiating any refund litigation. The unfavorable resolution of this matter could have a significant impact on our consolidated financial statements in future periods.
