Section 1 - Conflict Minerals Disclosure

Item 1.01 Conflict Minerals Disclosure and Report

Conflict Minerals Disclosure

Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) defines “Conflict Minerals” as columbite-tantalite (coltan), cassiterite, wolframite (and their derivatives tantalum, tin and tungsten) and gold, and defines the “Covered Countries” as the Democratic Republic of the Congo or an adjoining country. From July 1, 2015 through December 31, 2015, SeaSpine Holdings Corporation, through its subsidiaries, sold certain medical devices that contained Conflict Minerals. In accordance with the rules promulgated pursuant to the Dodd-Frank Act, we conducted a reasonable country of origin inquiry with respect to Conflict Minerals that were contained in the medical devices that we sold in 2015 and were not outside of the supply chain prior to January 31, 2013. All of these medical devices were manufactured for us by third party suppliers.

To conduct our reasonable country of origin inquiry, we engaged with third party suppliers of our medical devices that we determined contained Conflict Minerals and made inquiries to those suppliers regarding the source of those Conflict Minerals. In making such inquiry, we used the Conflict Minerals Reporting Template developed by the Conflict-Free Sourcing Initiative to request information from such suppliers about their supply chain and to gather information about the country of origin of the Conflict Minerals contained in our products. All such suppliers provided the name of the smelter that processed such Conflict Minerals and declared that the Conflict Minerals contained in materials supplied to us were not sourced from Covered Countries.

Conclusion

Based on our reasonable country of origin inquiry, we have no reason to believe that any Conflict Minerals contained in medical devices manufactured for us in 2015 originated in any Covered Country.
