FORWARD-LOOKING INFORMATION

This prospectus and the information incorporated herein by reference contains forward-looking statements within the meaning of Section 21E of the Exchange Act and Section 27A of the Securities Act of 1933 (the Securities Act), which may be identified by their use of words like plans, expects, will, anticipates, intends, projects, estimates, words of similar meaning. All statements that address expectations or projections about the future, including statements about our strategy for growth, product development, market position, expenditures, and financial results, are forward-looking statements.

Forward-looking statements are based on certain assumptions and expectations of future events. We cannot guarantee that these assumptions and expectations are accurate or will be realized. In addition, the following are some of the important factors that could cause our actual results to differ materially from those projected in any forward-looking statements:

Price increases for energy and raw materials could have a significant impact on our ability to sustain and grow earnings.

Failure to develop and market new products could impact our competitive position and have an adverse effect on our financial results.

Our results of operations could be adversely affected by litigation and other commitments and contingencies.

As a result of our current and past operations, including operations related to divested businesses, we could incur significant environmental liabilities.

Our ability to generate sales from genetically enhanced products, particularly seeds and other agricultural products, could be adversely affected by market acceptance, government policies, rules or regulations and competition.

Changes in government policies and laws could adversely affect our financial results.

Economic factors, including inflation and fluctuations in currency exchange rates, interest rates and commodity prices could affect our financial results.

Business disruptions could seriously impact our future revenue and financial condition and increase costs and expenses.

Inability to protect and enforce our intellectual property rights could adversely affect our financial results.

The foregoing list of important factors is not inclusive, or necessarily in order of importance. Additional risks and uncertainties not presently known to us or that we currently believe to be immaterial also could affect our businesses.

These risk factors may be amended, supplemented or superseded from time to time by risk factors contained in other Exchange Act reports that we file with the SEC, which will be subsequently incorporated by reference herein; by any prospectus supplement accompanying this prospectus; or by a post-effective amendment to the registration statement of which this prospectus forms a part. In addition, new risks may emerge at any time and we cannot predict such risks or estimate the extent to which they may affect our financial performance. See Incorporation Of Certain Documents By Reference and Cautionary Statement Regarding Forward-Looking Statements.

USE OF PROCEEDS

Unless we inform you otherwise in a prospectus supplement, we will use the net proceeds from the sale of the offered securities for general corporate purposes. These purposes may include repayment and refinancing of debt, acquisitions, working capital, capital expenditures and repurchases and redemptions of securities. Pending any specific application, we may initially invest funds in short-term marketable securities or apply them to the reduction of short-term indebtedness.

RATIO OF EARNINGS TO FIXED CHARGES

The following table sets forth our ratio of earnings to fixed charges for each of the periods indicated:

	Three Months ended March 31, 2008	2007	Years ended December 31,			
		2006	2005	2004	2003	
Ratio of earnings to fixed charges	13.2	7.8	6.6	6.7	5.0	2.3

For purposes of calculating the ratio of earnings to fixed charges, (i) earnings represent the sum of income before cumulative effect of changes in accounting principles, provision for (benefit from) income taxes, minority interests in earnings (losses) of consolidated subsidiaries, adjustment for companies accounted for by the equity method, capitalized interest and amortization of capitalized interest plus fixed charges, and (ii) fixed charges represent the sum of interest and debt expense, capitalized interest and rental expense representative of interest factor. The ratio is based solely on historical financial information.

DESCRIPTION OF DEBT SECURITIES

We will issue the debt securities under one of two indentures:

an indenture dated as of June 1, 1992 between us and Deutsche Bank Trust Company Americas (formerly Bankers Trust Company), as trustee; or

an indenture dated as of June 1, 1992 between us and The Bank of New York Trust Company, N.A., successor to The Chase Manhattan Bank and Chemical Bank, as trustee.

Each indenture is incorporated into or filed as an exhibit to the registration statement, of which this prospectus is a part. The trustee will be designated in the prospectus supplement for each offering of debt securities. All references to the trustee mean the trustee identified in the prospectus supplement. The following summaries of certain provisions of the indentures are not complete. We encourage you to read the indentures.

General

The indentures do not limit the amount of debt securities that we may issue. Each provides that debt securities may be issued up to the aggregate principal amount that we authorize from time to time. The debt securities will be unsecured and will rank on a parity with all of our other unsecured and unsubordinated indebtedness.

The prospectus supplement relating to a series of debt securities will describe the terms of that series, including, where applicable:

the designation, aggregate principal amount, currency or currencies and denominations of the debt securities;

whether the debt securities may be convertible into or exchangeable for other securities;

the price or prices, expressed as a percentage of aggregate principal amount, at which the debt securities will be issued;

the date or dates on which the debt securities will mature;

the currency or currencies in which the debt securities are being sold and in which the principal of and any interest on the debt securities will be payable and whether the holder of the debt securities may elect the currency in which payments are to be made, and, if so, the manner of such election;

the rate or rates, which may be fixed or variable, at which the debt securities will bear interest, if any;

the date from which interest on the debt securities will accrue, the dates on which interest will be payable and the date on which payment of interest will commence;

the dates on which and the price or prices at which the debt securities will, under any mandatory sinking fund provision, or may, under any optional redemption or required repayment provisions, be redeemed or repaid and the other terms and provisions of any mandatory sinking fund, optional redemption or required repayment;

whether the debt securities are to be issuable as registered securities, bearer securities or both and the terms upon which any bearer securities of a series may be exchanged for registered securities of that series;

whether the debt securities are to be issued in whole or in part in the form of one or more global securities and, if so, the identity of the depository or depositaries for the global security or securities;

any special provisions for the payment of additional amounts on the debt securities;

if a temporary global security is to be issued for a series, the requirements for certification of ownership by non-United States persons that will apply before (a) the issuance of a definitive bearer security or (b) the

payment of interest on an interest payment date that occurs before the issuance of a definitive bearer security;

4

if a temporary global security is to be issued with respect to the series, the terms upon which interests in the temporary global security may be exchanged for interests in a definitive global security or for definitive debt securities of the series and the terms upon which interests in a definitive global security, if any, may be exchanged for definitive debt securities of the series;

any additions, modifications or deletions to the restrictive covenants included for the benefit of holders of the debt securities;

any additions, modifications or deletions to the events of default provided with respect to the debt securities;

if the debt securities of the series are subject to defeasance at our option, the provisions, federal income tax consequences and other considerations applicable thereto;

the designated trustee for the debt securities; and

any other terms of the debt securities not inconsistent with the provisions of the applicable indenture. (Section 301)

Debt securities of a series may be issuable in whole or in part in the form of one or more global securities, as described below under **Global Securities**. Registered securities denominated in U.S. dollars will ordinarily be issued only in denominations of \$1,000 or any integral multiple of \$1,000. (Section 302) One or more global securities will be issued in a denomination or aggregate denominations equal to the aggregate principal amount of outstanding debt securities of the series. (Section 303) The prospectus supplement relating to a series of debt securities denominated in a foreign or composite currency will specify the allowable denominations and any special U.S. federal income tax and other considerations. No service charge will be made for any tender or exchange of debt securities but we may require payment of a sum sufficient to cover any tax or other governmental charge. (Section 305)

Debt securities may be presented for exchange, and registered securities that are not in global form may be presented for transfer, with the form of transfer endorsed thereon duly executed, at the office of any transfer agent or at the office of the security registrar, without service charge and upon payment of any taxes and other governmental charges as described in the indenture. Transfers or exchanges will be effected once the transfer agent or the security registrar, as the case may be, is satisfied with the documents of title and identity of the person making the request. (Section 305)

Debt securities may be issued under the indenture as original issue discount securities to be offered and sold at a substantial discount below their stated principal amount. **Original issue discount securities** means any debt securities that provide for an amount less than their principal amount to be due and payable upon a declaration of acceleration of maturity upon the occurrence and continuation of an event of default and any debt securities issued with original issue discount for U.S. federal income tax purposes. (Section 101) A prospectus supplement will describe U.S. federal income tax consequences and other special considerations applicable to any original issue discount securities.

Global Securities

The debt securities of a series may be issued in whole or in part in the form of one or more global securities that will be deposited with, or on behalf of, a depository identified in the prospectus supplement relating to that series. Global securities may be issued in either registered or bearer form and in either temporary or definitive form. Unless and until it is exchanged in whole or in part for debt securities in definitive form, a global security may not be transferred except as a whole by the depository to a nominee of the depository or by a nominee of the depository to the depository or another nominee of the depository or by the depository or any nominee to a successor of the depository or a nominee of that successor. (Sections 303 and 305)

The specific terms of the depository arrangement with respect to any debt securities of a series will be described in the prospectus supplement relating to that series. We anticipate that the following provisions will apply to all depository arrangements.

Upon the issuance of a global security, the depository will credit, on its book-entry registration and transfer system, the respective principal amounts of the debt securities represented by the global security to the accounts of participants that have accounts with the depository. The accounts to be credited shall be designated by the

underwriters of debt securities, by certain of our agents or by us if we sell debt securities directly. Ownership of beneficial interests in a global security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in a global security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the depository or by participants or persons that hold through participants. The laws of some states require that certain purchasers of securities take physical delivery of securities in definitive form. These limits and laws may impair the ability to transfer beneficial interests in a global security.

So long as the depository or its nominee is the owner of a global security, the depository or its nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by that global security for all purposes under the indenture. Except as set forth below, owners of beneficial interests in a global security will not be entitled to have debt securities of the series represented by that global security registered in their names, will not receive or be entitled to receive physical delivery of debt securities in definitive form and will not be considered the owners or holders of the debt securities under the indenture governing the debt securities. Accordingly, each person owning a beneficial interest in a global security must rely on the procedures of the depository and, if such person is not a participant, on the procedures of the participant and, if applicable, the indirect participant, through which such person owns its interest, to exercise any right of a holder under the indenture.

Principal, premium, if any, and interest payments on debt securities registered in the name of or held by a depository or its nominee will be made to the depository or its nominee, as the case may be, as the registered owner or the holder of the global security representing those debt securities. Neither we, the trustee, any paying agent nor the security registrar will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in a global security or for maintaining, supervising or reviewing any records relating to beneficial ownership interests. (Section 308)

We expect that the depository for debt securities of a series, upon receipt of any payment of principal, premium or interest in respect of a definitive global security, will credit immediately participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of the global security as shown on the records of the depository. We also expect that payments by participants to owners of beneficial interests in a global security held through those participants will be governed by standing instructions and customary practices, as is now the case with securities held for the accounts of customers in bearer form or registered in street name, and will be the responsibility of those participants.

If a depository for debt securities of a series is at any time unwilling or unable to continue as depository and we do not appoint a successor depository within 90 days, we will issue debt securities of that series in definitive form in exchange for the global security or securities representing the debt securities of that series. In addition, we may at any time and in our sole discretion determine not to have any debt securities of a series represented by one or more global securities. In that event, we will issue debt securities of that series in definitive form in exchange for the global security or securities representing those debt securities. An owner of a beneficial interest in a global security representing debt securities of a series may, on terms acceptable to us and the depository for such global security, receive debt securities of that series in definitive form. In any of these instances, an owner of a beneficial interest in a global security will be entitled to physical delivery in definitive form of debt securities of the series represented by that global security equal in principal amount to that beneficial interest and to have debt securities registered in its name if the debt securities of that series are issuable as registered securities. Debt securities of that series issued in definitive form will be issued only in authorized denominations. (Section 305)

Payment and Paying Agents

Payment of principal of and any premium on registered securities will be made in the designated currency against surrender of any registered securities at the corporate trust office of the trustee in New York City. Payment of any installment of interest on registered securities will ordinarily be made to the person in whose name the debt security is registered at the close of business on the regular record date for that interest payment. Payments of interest will be made, at our option, by a check in the designated currency mailed to each holder at the holder's registered address or by wire transfer to an account designated by the holder pursuant to an arrangement that is satisfactory to the trustee and us. (Sections 307 and 1001)

The paying agents outside the United States that we initially appoint for a series of debt securities will be named in the prospectus supplement. We may terminate the appointment of any of the paying agents from time to time, except that we will maintain at least one paying agent in New York City for payments on registered securities.

So long as any series of debt securities is listed on The International Stock Exchange of the United Kingdom and the Republic of Ireland Limited or the Luxembourg Stock Exchange or any other stock exchange located outside the United States and it is a requirement of that stock exchange, we will maintain a paying agent in London or Luxembourg or any other required city located outside the United States, as the case may be, for that series of debt securities. (Section 1002)

All moneys that we pay to a paying agent for the payment of principal of or any premium, or interest on any debt security that remains unclaimed at the end of two years after it became due and payable will be repaid to us and the holder of that debt security will thereafter look only to us for payment. (Section 1003)

Certain Covenants

Liens. We covenant that, so long as any of the debt securities remain outstanding, we will not, nor will we permit any Restricted Subsidiary (as defined below, in Definition of Certain Terms) to issue, assume, or guarantee any debt for money borrowed if that debt is secured by a mortgage on any Principal Property (as defined), or on any shares of stock or indebtedness of any Restricted Subsidiary (whether the Principal Property, shares of stock, or indebtedness are now owned or hereafter acquired) without in any such case effectively providing that the debt securities shall be secured equally and ratably with such debt. This restriction, however, shall not apply to:

mortgages on property, shares of stock, or indebtedness of any corporation existing at the time such corporation becomes a Restricted Subsidiary;

mortgages on property existing at the time that it is acquired, or to secure debt incurred for the purpose of financing the purchase price of such property or improvements or construction on the property, which debt is incurred prior to, at the time of or within one year after such acquisition, completion of such construction, or the commencement of commercial operation of such property thereon;

mortgages securing debt owing by any Restricted Subsidiary to us or another Restricted Subsidiary;

mortgages on property of a corporation existing at the time that corporation is merged into or consolidated with us or a Restricted Subsidiary or at the time of a sale, lease or other disposition of the properties of a corporation as an entirety or substantially as an entirety to us or a Restricted Subsidiary;

mortgages on property of us or a Restricted Subsidiary in favor of the United States of America or any State thereof, or any department, agency or instrumentality or political subdivision of the United States of America or any State thereof, or in favor of any other country, or any political subdivision thereof, to secure certain payments pursuant to any contract or statute or to secure any indebtedness incurred for the purpose of financing all or any part of the purchase price or the cost of construction of the property subject to such mortgages, including without limitation mortgages incurred in connection with pollution control, industrial revenue or similar financings;

mortgages existing at the date of the indenture;

mortgages on particular property, or any proceeds of the sale of that property, to secure all or any part of the cost of exploration, drilling, mining or development of that property, including construction of facilities for field processing of minerals, intended to obtain or materially increase the production and sale or other disposition of oil, gas, coal, uranium, copper or other minerals of that property, or any indebtedness created, issued, assumed or guaranteed to provide funds for any or all such purposes; or

any extension, renewal or replacement or successive extensions, renewals or replacements, in whole or in part, of any mortgage referred to in the clauses immediately above.

Notwithstanding the above, we and one or more of our Restricted Subsidiaries may, without securing the debt securities issued under this prospectus, issue, assume, or guarantee debt secured by mortgages which would otherwise

be subject to the above restrictions, provided that the aggregate amount of that debt that would then be outstanding, with certain exceptions, does not at any one time exceed 10% of the Consolidated Net Tangible Assets (as defined) of us and our consolidated subsidiaries. (Section 1004)

For the purposes of this covenant, the following types of transactions shall not be deemed to create debt secured by a mortgage: the sale or other transfer of

oil, gas, coal, uranium, copper or other minerals in place for a period of time until, or in an amount such that, the purchaser will realize therefrom a specified amount of money (however determined) or a specified amount of such minerals; or

any other interest in property of the character commonly referred to as a production payment. (Section 1004) *Sale and Leaseback Transactions.* Sale and leaseback transactions by us or any Restricted Subsidiary of any Principal Property are prohibited unless (a) we or such Restricted Subsidiary would be entitled to issue, assume, or guarantee debt secured by a mortgage upon the property involved at least equal in amount to the Attributable Debt (as defined) for that transaction without equally and ratably securing the debt securities or (b) an amount in cash equal to the Attributable Debt for that transaction is applied to the retirement of our nonsubordinated debt or debt of a Restricted Subsidiary, which by its terms matures at or is extendible or renewable at the option of the obligor to a date more than twelve months after its creation. (Section 1005)

Consolidation or Merger. We will not consolidate or merge with or dispose of all or substantially all of our property to any corporation unless the surviving corporation, if other than us, shall assume our obligations under the indenture and under the debt securities. (Section 801) If on any consolidation or merger of us or any Restricted Subsidiary with or into any other corporation, or on any sale, conveyance, or lease of substantially all our or a Restricted Subsidiary's properties, any Principal Property or any shares of stock or indebtedness of any Restricted Subsidiary would then become subject to any mortgage, pledge, lien or encumbrance, we, prior to such event, will secure the debt securities by a direct lien on that Principal Property, shares of stock or indebtedness, prior to all liens other than any previously existing. (Section 802)

Except for the limitations on secured debt and sale and leaseback transactions described above, the indenture and debt securities do not contain any covenants or other provisions designed to afford holders of the debt securities protection in the event of a highly leveraged transaction involving us.

Definition of Certain Terms

Subsidiary is defined to mean any corporation which is consolidated in our accounts and any corporation of which at least a majority of the outstanding stock having voting power under ordinary circumstances to elect a majority of the board of directors of that corporation shall at the time be owned or controlled by us, or by us and one or more Subsidiaries, or by one or more Subsidiaries. (Section 101)

Restricted Subsidiary is defined to mean any wholly-owned subsidiary substantially all the property of which is located within the continental United States of America,

which owns a Principal Property, and

in which our investment exceeds 1% of our consolidated assets as of the end of the preceding year. The term **Restricted Subsidiary** does not include any wholly-owned subsidiary which is principally engaged in leasing or in financing installment receivables or which is principally engaged in financing our operations outside the continental United States. (Section 101)

Principal Property is defined as any manufacturing plant or facility or any mineral producing property or any research facility located within the continental United States owned by us or any Restricted Subsidiary, unless, in the opinion of our Board of Directors, such plant, facility, property or research facility is not of material importance to the total business conducted by us and our Restricted Subsidiaries. (Section 101)

Attributable Debt is defined as the present value, discounted as provided in the indenture, of the obligation of a lessee for rental payments during the remaining term of any lease. (Section 1005)

Consolidated Net Tangible Assets means the total amount of assets less applicable reserves and other properly deductible items after deducting (a) all current liabilities excluding any thereof which are by their terms extendible or renewable at the option of the obligor thereon to a time more than 12 months after the time as of which the amount thereof is being computed, and (b) all goodwill, trade names, trademarks, patents, purchased technology, unamortized debt discount and other like intangible assets, all as set forth on our most recent quarterly balance sheet and computed in accordance with generally accepted accounting principles. (Section 101)

Modification of the Indenture

The indenture permits us and the trustee, with the consent of the holders of not less than a majority in principal amount of the debt securities at the time outstanding and affected, to execute a supplemental indenture modifying the indenture or the rights of the holders of debt securities and any related coupons. No modification shall, without the consent of the holder of each debt security affected thereby,

change the maturity of any debt security or coupon, or reduce its principal amount, or reduce the rate or change the time of payment of interest, or change any place of payment or change the coin or currency in which a debt security or coupon is payable or impair the right of any holder to institute suit for the enforcement of payment in accordance with the foregoing, or

reduce the percentage of debt securities, the consent of the holders of which is required for any modification. (Section 902)

The indenture contains provisions for convening meetings of the holders of debt securities of a series. (Section 1401) A meeting may be called at any time by the trustee or upon our request or the request of holders of at least 10% in principal amount of the outstanding debt securities of the series, upon notice given in accordance with the indenture. (Section 1402) Except as limited in the preceding paragraph, any resolution presented at a meeting or adjourned meeting at which a quorum is present may be adopted by the affirmative vote of the holders of not less than a majority in principal amount of the outstanding debt securities of that series. Except as limited in the preceding paragraph, any resolution with respect to any demand, consent, waiver or other action that may be made, given or taken by the holders of a specified percentage, which is less than a majority in principal amount of outstanding debt securities of a series, may be adopted at a meeting or adjourned meeting at which a quorum is present by the affirmative vote of the holders of such specified percentage in principal amount of the outstanding debt securities of that series. (Section 1404)

Any resolution passed or decision taken at any meeting of holders of debt securities of any series duly held in accordance with the indenture will be binding on all holders of debt securities of that series and the related coupons. The quorum at any meeting called to adopt a resolution, and at any reconvened meeting, will be persons holding or representing not less than a majority in principal amount of the outstanding debt securities of a series. (Section 1404)

Events of Default

The indenture defines an event of default with respect to any series of debt securities as any one of the following events and any other event that is established for the debt securities of a particular series:

default for 30 days in any payment of interest on the series;

default in any payment of principal and premium, if any, on the series;

default in the payment of any sinking fund installment;

default for 60 days after appropriate notice in performance of any other covenant in the indenture; or

certain events involving bankruptcy, insolvency or reorganization.

No event of default with respect to a particular series of debt securities issued under the indenture necessarily constitutes an event of default with respect to any other series of debt securities. (Section 501).

We are required to file with the trustee annually an officer's certificate indicating whether we are in default under the indenture. (Section 1008)

The indenture provides that if an event of default shall occur and be continuing with respect to any series of debt securities, either the trustee or the holders of 25% in principal amount of the debt securities of the series (in the case of defaults under the final two clauses listed above, the holders of 25% in principal amount of all the debt securities) then outstanding may declare the principal, or in the case of original issue discount securities, that portion of the principal amount as may be specified, of the debt securities of the series or of all the debt securities, as the case may be, to be due and payable immediately. (Section 502) In certain cases, the holders of a majority in principal amount of the

outstanding debt securities of any series, or in the case of defaults under the final two clauses listed above, the holders of a majority in principal amount of all the debt securities may on behalf of the

9

holders of all the debt securities of any such series or of all the debt securities, as the case may be, waive any past default or event of default except a default not previously cured in payment of the principal of or premium, if any, or interest on any of the debt securities of such series or of all the debt securities. (Section 513)

The indenture contains a provision entitling the trustee, subject to the duty of the trustee during default to act with the required standard of care, to be indemnified by the holders of the debt securities of any series before exercising any right or power under the indenture at the request of the holders. (Section 603) The indenture provides that no holder of any debt securities of any series may institute any proceeding, judicial or otherwise, to enforce the indenture except, among other things, where the trustee has, for 60 days after it is given notice of default, failed to act, and where there has been both a request to enforce the indenture by the holders of not less than 25% in aggregate principal amount of the then outstanding debt securities of that series and an offer of reasonable indemnity to the trustee. (Section 507) This provision will not prevent any holder of debt securities from enforcing payment of the principal thereof and premium, if any, and interest thereon at their due dates. (Section 508) The holders of a majority in aggregate principal amount of the debt securities of any series then outstanding may direct the time, method and place of conducting any proceedings for any remedy available to the trustee or exercising any trust or power conferred on it for the debt securities of that series. However, the trustee may refuse to follow any direction that conflicts with law or the indenture or which would be unjustly prejudicial to the other holders. (Section 512)

The indenture provides that the trustee will, within 90 days after the occurrence of a default on any series of debt securities known to it, give to the holders of that series notice of the default if not cured or waived. Except in the case of a default in the payment of principal of, any premium, or interest on, any debt securities, the trustee shall be protected in withholding such notice if it determines in good faith that doing so is in the holders' interests. (Section 602)

Discharge and Defeasance

The indenture provides that we may specify that, for debt securities of a certain series, we will be discharged from any and all obligations regarding those debt securities if we irrevocably deposit with the trustee, in trust, money and/or U.S. government obligations which through the payment of interest and principal will provide enough money to pay any installment of principal, any premium, and, any interest, and any mandatory sinking fund payments of such debt securities on their stated maturity in accordance with the terms of the indenture and the debt securities. A trust may only be established if it would not cause the debt securities of a series listed on any nationally recognized securities exchange to be de-listed. Establishment of a trust may be conditioned on our delivery to the trustee of an opinion of counsel, who may be our counsel, to the effect that, based upon applicable U.S. federal income tax law or a ruling published by the United States Internal Revenue Service, a defeasance and discharge will not be deemed, or result in, a taxable event to holders of the debt securities. (Section 1301) Defeasance, however, will not end our obligations to register the transfer or exchange of debt securities, to replace stolen, lost or mutilated debt securities, to maintain paying agencies and hold monies for payment in trust and, if so specified for debt securities of a certain series, to pay the principal of and premium, if any, and interest, if any, on those debt securities.

UNITED STATES FEDERAL TAXATION

The following summary describes the material United States federal income and certain estate tax consequences of ownership and disposition of the debt securities. This summary provides general information only and is directed solely to original beneficial owners purchasing debt securities at the issue price, that is, the first price at which a substantial amount of debt securities is sold to the public (excluding sales to bond houses, brokers or similar persons or organizations acting in the capacity of underwriters, placement agents or wholesalers). This summary is based on the Internal Revenue Code of 1986, as amended to the date hereof (the Code), existing administrative pronouncements and judicial decisions, existing and proposed Treasury Regulations currently in effect, and interpretations of the foregoing, changes to any of which subsequent to the date of this prospectus may affect the tax consequences described herein, possibly with retroactive effect. This summary deals only with debt securities held as capital assets within the meaning of Section 1221 of the Code. This summary does not discuss all of the tax consequences that may be relevant to a beneficial owner in light of his particular circumstances or to beneficial owners subject to special rules, such as certain financial institutions, insurance companies, dealers in securities, persons holding debt securities in connection with a hedging transaction, straddle, conversion transaction or other integrated transaction or persons who have ceased to be United States citizens or to be taxed as resident aliens. Persons considering the purchase of debt securities should consult their own tax advisors with regard to the application of the United States federal income and estate tax laws to their particular situations, as well as any tax consequences arising under the laws of any state, local or foreign taxing jurisdiction.

Tax Consequences to United States Persons

For purposes of the following discussion, United States person means a beneficial owner of the debt securities that is, for United States federal income tax purposes, (i) a citizen or resident of the United States, (ii) a corporation or other entity treated as a corporation for United States federal income tax purposes created or organized in or under the laws of the United States, any State or the District of Columbia, (iii) an estate the income of which is subject to United States federal income taxation regardless of its source, or (iv) a trust (A) if a court within the United States is able to exercise primary supervision over the administration of the trust and one or more United States persons have the authority to control all substantial decisions of the trust or (B) that has made a valid election to be treated as a U.S. person for U.S. federal income tax purposes. Partnerships are subject to special tax rules and should contact their own tax advisors.

Payments of Interest

Interest on the debt securities will generally be taxable to a United States person as ordinary interest income at the time it is accrued or is received in accordance with the United States person's method of accounting for tax purposes.

Sale, Exchange or Retirement of the Debt Securities

Upon the sale, exchange or retirement of the debt securities, a United States person will recognize taxable gain or loss equal to the difference between the amount realized on the sale, exchange or retirement and the United States person's adjusted tax basis in the debt securities. For these purposes, the amount realized does not include any amount attributable to accrued but unpaid interest on the debt securities. Amounts attributable to accrued but unpaid interest are treated as

interest as described under **Payments of Interest** above. A United States person's adjusted tax basis in the debt securities generally will equal the cost of the debt securities to the United States person.

In general, gain or loss realized on the sale, exchange or redemption of the debt securities will be capital gain or loss. Prospective investors should consult their own tax advisors regarding the treatment of capital gains (which may be taxed at lower rates than ordinary income for taxpayers who are individuals, trusts or estates) and losses (the deductibility of which is subject to limitations).

Backup Withholding and Information Reporting

Backup withholding and information reporting requirements may apply to certain payments of principal, premium and interest on the debt securities, and to payments of proceeds of the sale or redemption of the debt securities, to certain non-corporate United States persons. We, our agent, a broker, or any paying agent, as the case may be, will be required to withhold from any payment a tax at a rate currently equal to 28 percent of such payment if the United States person fails to furnish or certify its correct taxpayer identification number to the payor in the manner required, fails to certify that such United States person is not subject to backup withholding, or otherwise fails to comply with the applicable requirements of the backup withholding rules. Any amounts withheld under the backup withholding rules from a payment to a United States person may be credited against such United States person's United States federal income tax and may entitle such United States person to a refund, provided that the required information is furnished to the Internal Revenue Service.

Tax Consequences to Non-United States Persons

As used herein, the term **non-United States person** means a beneficial owner of the debt securities that is not a United States person.

Income and Withholding Tax

Subject to the discussion of backup withholding below:

(a) Payments of principal and interest on the debt securities that is beneficially owned by a non-United States person will not be subject to United States federal withholding tax; provided, that in the case of interest, (1)(i) the beneficial owner does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote, (ii) the beneficial owner is not a controlled foreign corporation that is related, directly or indirectly, to us through stock ownership, (iii) the beneficial owner of the debt securities is not a bank whose receipt of interest is described in Section 881(c)(3)(A) of the Code; and (iv) either (A) the beneficial owner of the debt securities provides an IRS Form W-8 BEN (or successor form) certifying to the person otherwise required to withhold United States federal income tax from such interest, under penalties of perjury, that it is not a United States person and provides its name and address or (B) a securities clearing organization, bank or other financial institution that holds customers' securities in the ordinary course of its trade or business (a **financial institution**) and holds an interest in the debt securities certifies to the person otherwise required to withhold United States federal income tax from such interest, under penalties of perjury, that such statement has been received from the beneficial owner by it or by a financial institution between it and the beneficial owner and furnishes the payor with a copy thereof; (2) the beneficial owner is entitled to the benefits of an income tax treaty under which the interest is exempt from United States federal withholding tax and the beneficial owner of the debt securities or such owner's agent provides an IRS Form W-8 BEN (or successor form) claiming the exemption; or (3) the beneficial owner conducts a trade or business in the United States to which the interest is effectively connected and the beneficial owner of the debt securities or such owner's agent provides an IRS Form W-8 ECI (or successor form) provided that in each such case, the relevant certification or IRS Form is delivered pursuant to applicable procedures and is properly transmitted to the person otherwise required to withhold United States federal income tax, and none of the persons receiving the relevant certification or IRS Form has actual knowledge that the certification or any statement on the IRS Form is false. The Forms W-8 ECI and W-8 BEN must be periodically updated.

(b) A non-United States person will not be subject to United States federal withholding tax on any gain realized on the sale, exchange or other disposition of the debt securities unless the gain is effectively

connected with the beneficial owner's trade or business in the United States or, in the case of an individual, the beneficial owner is present in the United States for 183 days or more in the taxable year in which the sale, exchange or other disposition occurs and certain other conditions are met, or the non-United States person is subject to U.S. tax under provisions applicable to certain U.S. expatriates.

(c) The debt securities owned by an individual who at the time of death is not, for United States estate tax purposes, a citizen or resident of the United States generally will not be subject to United States federal estate tax as a result of such individual's death if the individual does not actually or constructively own 10% or more of the total combined voting power of all classes of our stock entitled to vote and, at the time of such individual's death the income on the debt securities would not have been effectively connected with a United States trade or business of the individual.

If a non-United States person owning the debt securities is engaged in a trade or business in the United States, and if interest on the debt securities (or gain realized on its sale, exchange or other disposition) is effectively connected with the conduct of such trade or business, such owner, although exempt from the withholding tax discussed in the preceding paragraphs, will generally be subject to regular United States income tax on such effectively connected income in the same manner as if it were a United States person. In addition, if such owner is a foreign corporation, it may be subject to a 30% branch profits tax (unless reduced or eliminated by an applicable treaty) of its effectively connected earnings and profits for the taxable year, subject to certain adjustments. For purposes of the branch profits tax, interest on, and any gain recognized on the sale, exchange or other disposition of, the debt securities will be included in the effectively connected earnings and profits of such owner if such interest or gain, as the case may be, is effectively connected with the conduct by such owner of a trade or business in the United States.

Each owner of the debt securities should be aware that if it does not properly provide the required IRS form, or if the IRS form (or, if permissible, a copy of such form) is not properly transmitted to and received by the United States person otherwise required to withhold United States federal income tax, interest on the debt securities may be subject to United States withholding tax at a 30% rate or a lower applicable treaty rate. Such tax, however, may in certain circumstances be allowed as a refund or as a credit against such owner's United States federal income tax. The foregoing does not deal with all aspects of federal income tax withholding that may be relevant to foreign owners of the debt securities. Investors are advised to consult their own tax advisors for specific advice concerning the ownership and disposition of debt securities.

Backup Withholding and Information Reporting

Under current Treasury Regulations, backup withholding (imposed at a rate currently equal to 28 percent) will not apply to payments made by us or a paying agent to an owner in respect of the debt securities if the certifications described above are received, provided in each case that we or the paying agent, as the case may be, does not have actual knowledge that the payee is a United States person.

Backup withholding is not a separate tax, but is allowed as a refund or credit against the owner's United States federal income tax, provided the necessary information is furnished to the Internal Revenue Service.

Interest on the debt securities that is beneficially owned by a non-United States person will be reported annually on IRS Form 1042S, which must be filed with the Internal Revenue Service and furnished to such beneficial owner.

The United States federal income tax discussion set forth above is included for general information only and may not be applicable depending upon an owner's particular situation. Owners should consult their own tax advisors with respect to the tax consequences to them of the ownership and disposition of the debt securities, including the tax consequences under state, local, foreign and other tax laws and the possible effects of changes in federal or other tax laws.

PLAN OF DISTRIBUTION

We may sell the debt securities in and outside the United States (a) through underwriters or dealers, (b) directly to purchasers or (c) through agents. The prospectus supplement will include the following information:

the terms of the offering

the names of any underwriters or agents

the purchase price from us of the securities

the net proceeds to us from the sale of the securities

any delayed delivery arrangements

any underwriting discounts and other items constituting underwriters' compensation

any initial public offering price

any discounts or concessions allowed or reallocated or paid to dealers

If we use underwriters in the sale, the underwriters will acquire the debt securities for their own account. The underwriters may resell the securities from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. Underwriters may offer securities to the public either through underwriting syndicates represented by one or more managing underwriters or directly by one or more firms acting as underwriters. Unless we inform you otherwise in the prospectus supplement, the obligations of the underwriters to purchase the securities will be subject to certain conditions, and the underwriters will be obligated to purchase all the offered securities if they purchase any of them. The underwriters may change from time to time any initial public offering price and any discounts or concessions allowed or re-allowed or paid to dealers.

During and after an offering through underwriters, the underwriters may purchase and sell the securities in the open market. These transactions may include over-allotment and stabilizing transactions and purchases to cover syndicate short positions created in connection with the offering. The underwriters may also impose a penalty bid, whereby selling concessions allowed to syndicate members or other broker-dealers for the offered securities sold for their account may be reclaimed by the syndicate if those offered securities are repurchased by the syndicate in stabilizing or covering transactions. These activities may stabilize, maintain or otherwise affect the market price of the offered securities, which may be higher than the price that might otherwise prevail in the open market. If commenced, these activities may be discontinued at any time.

If we use dealers in the sale of securities, we will sell the securities to them as principals. They may then resell those securities to the public at varying prices determined by the dealers at the time of resale. We will include in the prospectus supplement the names of the dealers and the terms of the transaction.

We may sell the securities directly. In that case, no underwriters or agents would be involved. We may also sell the securities through agents we designate from time to time. In the prospectus supplement, we will name any agent involved in the offer or sale of the offered securities, and we will describe any commissions payable by us to the agent. Unless we inform you otherwise in the prospectus supplement, any agent will agree to use its reasonable best efforts to solicit purchases for the period of its appointment.

We may sell the securities directly to institutional investors or others who may be deemed to be underwriters within the meaning of the Securities Act with respect to any sale of those securities. We will describe the terms of any such sales in the prospectus supplement.

If we so indicate in the prospectus supplement, we may authorize agents, underwriters or dealers to solicit offers from certain types of institutions to purchase securities from us at the public offering price under delayed delivery contracts. These contracts would provide for payment and delivery on a specified date in the future. The contracts

would be subject only to those conditions described in the prospectus supplement. The prospectus

supplement will describe the commission payable for solicitation of those contracts.

We may have agreements with the agents, dealers and underwriters to indemnify them against certain civil liabilities, including liabilities under the Securities Act, or to contribute to payments that the agents, dealers or underwriters may be required to make. Agents, dealers and underwriters may be customers of, engage in transactions with or perform services for us in the ordinary course of their businesses.

LEGAL OPINION

Stacey J. Mobley, our General Counsel, or another of our lawyers, will issue an opinion about the legality of the offered securities for us. Any underwriters will be advised about other issues relating to any offering by their own legal counsel.

* Deferred in reliance on Rules 456(b) and 457(r) under the Securities Act of 1933.

Item 15. Indemnification of Directors and Officers.

Under provisions of our Bylaws, each person who is or was one of our directors or officers shall be indemnified by us as of right to the full extent permitted or authorized by the General Corporation Law of Delaware, or the DGCL.

Under the DGCL, to the extent that a person is successful on the merits in defense of a suit or proceeding brought against him because he is or was one of our directors or officers, he shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred in connection with such action.

If unsuccessful in defense of a third-party civil suit or a criminal suit, or if such a suit is settled, that person shall be indemnified against both (1) expenses, including attorneys' fees, and (2) judgments, fines and amounts paid in settlement if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, our best interests, and with respect to any criminal action, had no reasonable cause to believe his conduct was unlawful.

If unsuccessful in defense of a suit brought by or in our right, or if such suit is settled, that person shall be indemnified only against expenses, including attorneys' fees, incurred in the defense or settlement of the suit if he acted in good faith and in a manner he reasonably believed to be in, or not opposed to, our best interests except that if he is adjudged to be liable for negligence or misconduct in the performance of his duty to us, he cannot be made whole even for expenses unless the court determines that he is fairly and reasonably entitled to indemnity for such expenses.

Under our Bylaws, the right to indemnification includes the right to be paid by us the expenses incurred in defending any action, suit or proceeding in advance of its final disposition, subject to the receipt by us of undertakings as may be legally defined. In any action by an indemnitee to enforce a right to indemnification or by us to recover advances made, the burden of proving that the indemnitee is not entitled to be indemnified is placed on us.

We have purchased liability insurance policies covering our directors and officers to provide protection where we cannot legally indemnify a director or officer and where a claim arises under the Employee Retirement Income Security Act of 1974 against a director or officer based on an alleged breach of fiduciary duty or other wrongful act.

In connection with an offering of the securities registered hereunder, we may enter into an underwriting agreement which may provide that the underwriters are obligated, under certain circumstances, to indemnify our directors, officers and controlling persons against certain liabilities, including liabilities under the Securities Act of 1933.

See also the undertakings set out in response to Item 17 herein.

(i) Each prospectus filed by the registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and

(ii) Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5), or (b)(7) as part of a registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act of 1933 shall be deemed to be part of and included in the registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however*, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

(5) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in an initial distribution of the securities, the undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

(i) Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;

(ii) Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;

(iii) The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and

(iv) Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.

(6) That, for purposes of determining any liability under the Securities Act of 1933, each filing of the registrant's annual report pursuant to Section 13(a) or 15(d) of the Securities

Exchange Act of 1934 (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Securities Exchange Act of 1934) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the provisions described under Item 15 above, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act of 1933 and will be governed by the final adjudication of such issue.
