GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

A.

Description of the Company

Great American Financial Resources, Inc. ("GAFRI" or "the Company") markets retirement products, primarily fixed and variable annuities, and various forms of life and supplemental health insurance through independent agents, payroll deduction plans, financial institutions and in-home sales.

American Financial Group, Inc. ("AFG") and its subsidiaries owned 83% of GAFRI's Common Stock at August 1, 2001.

B.

Accounting Policies

Basis of Presentation

The accompanying Consolidated Financial Statements for GAFRI and its subsidiaries are unaudited; however, management believes that all adjustments (consisting only of normal recurring accruals unless otherwise disclosed herein) necessary for fair presentation have been made. The results of operations for interim periods are not necessarily indicative of results to be expected for the year. The financial statements have been prepared in accordance with the instructions to Form 10-Q and therefore do not include all information and footnotes necessary to be in conformity with generally accepted accounting principles.

Certain reclassifications have been made to prior periods to conform to the current period's presentation. All significant intercompany balances and transactions have been eliminated. All acquisitions have been treated as purchases. The results of operations of companies since their formation or acquisition are included in the consolidated financial statements.

The preparation of the financial statements requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Changes in circumstances could cause actual results to differ materially from those estimates.

Investments

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

All fixed maturity securities are considered "available for sale" and reported at fair value with unrealized gains and losses reported as a separate component of stockholders' equity. Short-term investments are carried at cost; mortgage loans on real estate are generally carried at amortized cost; policy loans are stated at the aggregate unpaid balance. Premiums and discounts on mortgage-backed securities are amortized over a period based on estimated future principal prepayments and adjusted to reflect actual prepayments.

Gains or losses on securities are determined on the specific identification basis. When a decline in the value of a specific investment is considered to be other than temporary, a provision for impairment is charged to earnings and the carrying value of that investment is reduced.

Investment in Affiliate

GAFRI's investments in equity securities of companies that are 20% to 50% owned by AFG and its subsidiaries are generally carried at cost, adjusted for a proportionate share of their undistributed earnings or losses.

Due to Chiquita's announced intention to pursue a plan to restructure its public debt, GAFRI wrote down its investment in Chiquita common stock to market value at December 31, 2000. In 2001, GAFRI suspended accounting for the investment under the equity method due to the expected restructuring.

6

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

Insurance Acquisition Costs and Expenses

Insurance acquisition costs and expenses consist primarily of deferred policy acquisition costs and the present value of future profits on business in force of acquired insurance companies. In addition, certain marketing and commission costs are expensed as paid and included in insurance acquisition expenses.

Deferred Policy Acquisition Costs ("DPAC")

DPAC (principally commissions, advertising, underwriting, policy issuance and sales expenses that vary with and are primarily related to the production of new business) is deferred to the extent that such costs are deemed recoverable.

DPAC related to annuities and universal life insurance products is amortized, with interest, in relation to the present value of expected gross profits on the policies. These expected gross profits consist principally of estimated future net investment income and surrender, mortality and other policy charges, less estimated future interest on policyholders' funds, policy administration expenses and death benefits in excess of account values. DPAC is reported net of unearned revenue relating to certain policy charges that represent compensation for future services. These unearned revenues are recognized as income using the same assumptions and factors used to amortize DPAC.

To the extent that realized gains and losses result in adjustments to the amortization of DPAC, such adjustments are reflected as components of realized gains. To the extent that unrealized gains (losses) from securities would result in adjustments to DPAC, unearned revenues and policyholder liabilities had those gains (losses) actually been realized, such balance sheet amounts are adjusted, net of deferred taxes.

DPAC related to traditional life and health insurance is amortized over the expected premium paying period of the related policies, in proportion to the ratio of annual premium revenues to total anticipated premium revenues. Such anticipated premium revenues were estimated using the same assumptions used for computing liabilities for future policy benefits.

Present Value of Future Profits

Included in insurance acquisition costs are amounts representing the present value of future profits on business in force of acquired insurance companies, which represent the portion of the costs to acquire such companies that is allocated to the value of the right to receive future cash flows from insurance contracts existing at the date of acquisition.

These amounts are amortized with interest over the estimated remaining life of the acquired policies for annuities and universal life products and over the expected premium paying period for traditional life and health insurance products.

Annuity Benefits Accumulated

Annuity receipts and benefit payments are recorded as increases or decreases in "annuity benefits accumulated" rather than as revenue and expense. Increases in this liability for interest credited are charged to expense and decreases for surrender charges are credited to other income.

Life, Accident and Health Reserves

Liabilities for future policy benefits under traditional life, accident and health policies are computed using the net level premium method. Computations are based on anticipated investment yields, mortality, morbidity and surrenders and include provisions for unfavorable deviations. Reserves established for accident and health claims are modified as necessary to reflect actual experience and developing trends.

7

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

The liability for future policy benefits for interest sensitive life and universal life policies is equal to the sum of the accumulated fund balances under such policies.

Variable Annuity Assets and Liabilities

Separate accounts related to variable annuities represent deposits invested in underlying investment funds on which GAFRI earns a fee. Investment funds are selected and may be changed only by the policyholder.

Life, Accident and Health Premiums and Benefits

For traditional life, accident and health products, premiums are recognized as revenue when legally collectible from policyholders. Policy reserves have been established in a manner which allocates policy benefits and expenses on a basis consistent with the recognition of related premiums and generally results in the recognition of profits over the premium paying period of the policies.

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

For interest sensitive life and universal life products, premiums are recorded in a policyholder account which is reflected as a liability. Revenue is recognized as amounts are assessed against the policyholder account for mortality coverage and contract expenses. Surrender benefits reduce the account value. Death benefits are expensed when incurred, net of the account value.

Income Taxes

GAFRI and Great American Life Insurance Company ("GALIC") have separate tax allocation agreements with American Financial Corporation ("AFC"), a subsidiary of AFG, which designate how tax payments are shared by members of the tax group. In general, both companies compute taxes on a separate return basis. GALIC is obligated to make payments to (or receive benefits from) AFC based on taxable income or loss without regard to temporary differences. If GALIC's taxable income (computed on a statutory accounting basis) exceeds a current period net operating loss of GAFRI, the taxes payable or recoverable by GALIC associated with the excess are payable to or receivable from AFC. If the AFC tax group utilizes any of GAFRI's net operating losses or deductions that originated prior to GAFRI's entering AFC's consolidated tax group, AFC will pay to GAFRI an amount equal to the benefit received. The tax allocation agreements with AFC do not impact the recognition of income tax expense and income tax payable in GAFRI's financial statements.

Deferred income tax assets and liabilities are determined based on differences between financial reporting and tax basis and are measured using enacted tax rates. The Company recognizes deferred tax assets if it is more likely than not that a benefit will be realized. Current and deferred tax assets and liabilities of companies in AFC's consolidated tax group are aggregated with other amounts receivable from or payable to affiliates.

Stock-Based Compensation

As permitted under Statement of Financial Accounting Standards ("SFAS") No. 123, "Accounting for Stock-Based Compensation", GAFRI accounts for stock options and other stock-based compensation plans using the intrinsic value based method prescribed by Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees."

8

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

Benefit Plans

GAFRI sponsors an Employee Stock Ownership Retirement Plan ("ESORP") covering all employees who are qualified as to age and length of service. The ESORP, which invests primarily in securities of GAFRI, is a trustee, noncontributory plan for the benefit of the employees of GAFRI and its subsidiaries. Contributions are discretionary by the directors of GAFRI and are charged against earnings in the year for which they are declared.

Qualified employees having vested rights in the plan are entitled to benefit payments at age 60.

GAFRI and certain of its subsidiaries provide certain benefits to eligible retirees. The projected future cost of providing these benefits is expensed over the period the employees earn such benefits.

Derivatives

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

Effective October 1, 2000, GAFRI implemented SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities", which establishes accounting and reporting standards for derivative instruments (including derivative instruments that are embedded in other contracts) and for hedging activities. Prior year financial statements were not restated. SFAS No. 133 generally requires that derivatives (both assets and liabilities) be recognized in the balance sheet at fair value with changes in fair value included in current earnings.

Derivatives included in GAFRI's balance sheet consist primarily of investments in common stock warrants (included in other stocks), the equity-based component of certain annuity products (included in annuity benefits accumulated) and call options (included in other assets) used to mitigate the risk embedded in the equity-indexed annuity products.

Earnings Per Share

Basic earnings per share is calculated using the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share include the effect of the assumed exercise of dilutive common stock options.

Statement of Cash Flows

For cash flow purposes, "investing activities" are defined as making and collecting loans and acquiring and disposing of debt or equity instruments and property and equipment. "Financing activities" include annuity receipts, benefits and withdrawals and obtaining resources from owners and providing them with a return on their investments. All other activities are considered "operating." Short-term investments having original maturities of three months or less when purchased are considered to be cash equivalents for purposes of the financial statements.

9

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

C. Segments of Operations

GAFRI's life and annuity operations offer fixed and variable annuity products and traditional life insurance products. GAFRI's annuity products are sold through managing general agents and independent agents to employees of primary and secondary educational institutions, hospitals and in the non-qualified markets. Traditional term, universal and whole life insurance products are sold through national marketing organizations.

GAFRI's supplemental insurance businesses, United Teacher Associates Insurance Company ("UTA") and Loyal American Life Insurance Company, offer a variety of supplemental health and life products. Loyal's marketing strategy emphasizes third-party sponsorship, including employers and credit unions, while UTA offers its products through independent agents.

GA Life of Puerto Rico sells in-home life and supplemental health products through a network of company-employed agents. Sales in Puerto Rico accounted for approximately 20% of GAFRI's life, accident and health premiums in the first six months of 2001 compared to 25% in the comparable period in 2000.

Corporate and other consists primarily of GAFRI (parent) and AAG Holding.

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

D. Investment in Affiliate

Investment in affiliate reflects GAFRI's 4% ownership (2.7 million shares) of the common stock of Chiquita Brands International. AFG and its other subsidiaries own an additional 29% interest in the common stock of Chiquita. Chiquita is a leading international marketer, producer and distributor of quality fresh fruits and vegetables and processed foods.

In January 2001, Chiquita announced a restructuring initiative that included discontinuing all interest and principal payments on its public debt. A restructuring is expected to result in the conversion of a significant portion of Chiquita's \$862 million in public debt into common equity.

The market value of GAFRI's investment in Chiquita was approximately \$2.7 million at December 31, 2000.

E. Unamortized Insurance Acquisition Costs

Unamortized insurance acquisition costs consisted of the following (in millions):

June 30,	December 31,
<u>2001</u>	<u>2000</u>

Deferred policy acquisition costs	\$581.6	\$536.9
Present value of future profits acquired	87.6	93.4
Unearned revenues	<u>(141.7)</u>	<u>(142.4)</u>
))
	<u>\$527.5</u>	<u>\$487.9</u>

F. Notes Payable

Notes payable consisted of the following (in millions):

	June 30, <u>2001</u>	December 31, <u>2000</u>
Direct obligations of GAFRI	\$ 2.0	\$ 2.0
Obligations of AAG Holding (guaranteed by GAFRI):		
6-7/8% Senior Notes due 2008	100.0	100.0
Bank Credit Line	41.3	48.5
Other subsidiary debt	<u>1.1</u>	<u>1.4</u>
Total	<u>\$144.4</u>	<u>\$151.9</u>

In January 2001, AAG Holding replaced its existing bank line with a \$155 million unsecured credit agreement. Loans under the credit agreement mature on December 31, 2004. At June 30, 2001, the weighted-average interest rate on amounts borrowed under its credit line was 4.81%.

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

At June 30, 2001, scheduled principal payments on debt for the remainder of 2001 and the subsequent five years were as follows (in millions):

<u>2001</u>	<u>2002</u>	<u>2003</u>	<u>2004</u>	<u>2005</u>	<u>2006</u>
\$0.3	\$0.7	\$0.6	\$41.5	\$0.2	\$0.2

11

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

G. Mandatorily Redeemable Preferred Securities of Subsidiary Trusts

Wholly-owned subsidiary trusts of GAFRI issued \$225 million of preferred securities and, in turn, purchased a like amount of subordinated debt which provides interest and principal payments to fund the Trusts' obligations. The preferred securities are mandatorily redeemable upon maturity or redemption of the subordinated debt. GAFRI effectively provides an unconditional guarantee of the Trusts' obligations. The three preferred securities issues are summarized as follows:

<u>Date of Issuance</u>	<u>Issue (Maturity Date)</u>	<u>06/30/01</u>	<u>12/31/00</u>	<u>Optional Redemption Dates</u>
November 1996	9-1/4% TOPrS* (2026)	\$72,912,500	\$72,912,500	On or after 11/7/2001
March 1997	8-7/8% Pfd (2027)	70,000,000	70,000,000	On or after 3/1/2007
May 1997	7-1/4% ROPES** (2041)	75,000,000	75,000,000	After 9/28/2001

* Trust Originated Preferred Securities

** Remarketed Par Securities

Until September 28, 2001 (the "Remarketing Date"), the obligations of GAFRI under the ROPES indenture and guarantee are senior unsecured obligations of the Company. On that date, the distribution rate on the ROPES will be reset to current market rates (not to exceed 8.8%) and the ROPES will become subordinate to all senior indebtedness of the Company. Given the current interest rate environment for these types of securities, GAFRI expects to redeem its ROPES in September 2001 using bank borrowings.

H. Stockholders' Equity

The Company is authorized to issue 25,000,000 shares of Preferred Stock, par value \$1.00 per share.

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

At June 30, 2001, there were 4.0 million shares of GAFRI Common Stock reserved for issuance under GAFRI's stock option plans. Under the plans, the exercise price of each option equals the market price of GAFRI Common Stock at the date of grant. Options generally become exercisable at the rate of 20% per year commencing one year after grant. All options expire ten years after the date of grant.

The change in net unrealized gains (losses) on marketable securities for the six months ended June 30 included the following (in millions):

	<u>2001</u>			<u>2000</u>		
	<u>Pretax</u>	<u>Taxes</u>	<u>Net</u>	<u>Pretax</u>	<u>Taxes</u>	<u>Net</u>

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS - Continued

I. Earnings Per Share

The number of common shares outstanding used in calculating diluted earnings per share in both the second quarter and first six months of 2001 includes 0.4 million shares compared to 0.3 million shares for the same periods in 2000 for the effect of the assumed exercise of GAFRI's dilutive stock options.

J. Contingencies

In March 2000, a jury in Dallas, Texas, returned a verdict against GALIC with total damages of \$11.2 million in a lawsuit brought by two former agents of GALIC. The former agents had alleged that their agency agreement with GALIC had been wrongfully terminated. The Company believes the verdict was contrary to both the facts and the law

and expects to prevail on appeal. The ultimate outcome of this case will not have a material adverse impact on the financial condition of the Company.

K. Additional Information

Statutory Information of Great American Life Insurance Company

Insurance companies are required to file financial statements with state insurance regulatory authorities prepared on an accounting basis prescribed or permitted by such authorities (statutory basis). Certain statutory amounts for GALIC, GAFRI's primary insurance subsidiary, were as follows (in millions):

	June 30,	December 31,
	<u>2001</u>	<u>2000</u>
Capital and surplus	\$338.0	\$362.5
Asset valuation reserve	71.3	75.6
Interest maintenance reserve	2.6	3.3
	<u>Six months ended June 30,</u>	
	<u>2001</u>	<u>2000</u>
Pretax income from operations	\$30.7	\$38.2
Net income from operations	23.0	29.7
Net income	14.4	32.1

The amount of dividends which can be paid by GALIC without prior approval of regulatory authorities is subject to restrictions relating to capital and surplus and statutory net income. Based on net income for the year ended December 31, 2000, GALIC may pay \$52.1 million in dividends in 2001 without prior approval. In the first six months of 2001, GALIC paid \$8.0 million in dividends.

Condensed Consolidating Information

GAFRI has guaranteed all of the outstanding debt of AAG Holding and the preferred securities of the Trusts. Condensed consolidating financial statements for GAFRI are as follows (in millions):

GREAT AMERICAN FINANCIAL RESOURCES, INC. 10-Q

Management's Discussion and Analysis

of Financial Condition and Results of Operations

GENERAL

Great American Financial Resources, Inc. ("GAFRI" or "the Company") and its subsidiary, AAG Holding Company, Inc., are organized as holding companies with nearly all of their operations being conducted by their subsidiaries. These companies, however, have continuing expenditures for administrative expenses, corporate services and for the payment of interest and principal on borrowings and stockholder dividends.

Forward-Looking Statements

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

The Private Securities Litigation Reform Act of 1995 provides a safe harbor for forward-looking statements. Some of the forward-looking statements can be identified by the use of forward-looking words such as "believes", "expects", "may", "will", "should", "seeks", "intends", "plans", "estimates", "anticipates" or the negative version of those words or other comparable terminology. Actual results could differ materially from those contained in or implied by such forward-looking statements for a variety of factors including:

- changes in economic conditions, including interest rates, performance of securities markets, and the availability of capital;
- regulatory actions;
- changes in legal environment;
- tax law changes;
- availability of reinsurance; and
- competitive pressures.

Forward-looking statements included in this Form 10-Q are made only as of the date of this report and under Section 27A of The Securities Act and Section 21E of The Exchange Act; we do not have any obligation to update any forward-looking statement to reflect subsequent events or circumstances.

LIQUIDITY AND CAPITAL RESOURCES

Ratios

GAFRI's consolidated debt to capital ratio was 22% at June 30, 2001, compared to 27% one year ago. Consolidated debt includes the Company's notes payable and its Remarketed Par Securities ("ROPES"). Capital represents the sum of consolidated debt, redeemable preferred securities of subsidiary trusts and stockholders' equity (excluding unrealized gains on marketable securities).

The National Association of Insurance Commissioners' ("NAIC") risk-based capital ("RBC") formulas determine the amount of capital that an insurance company needs to ensure that it has an acceptable expectation of not becoming financially impaired. At June 30, 2001, the capital ratio of GAFRI's principal insurance subsidiary was 4.2 times its authorized control level RBC.

Sources and Uses of Funds

To pay interest and principal on borrowings and other holding company costs, GAFRI (parent) and AAG Holding use cash and investments on hand, capital distributions from their principal subsidiary, Great American Life Insurance Company ("GALIC") and bank borrowings. The amount of capital distributions which can be paid by GALIC is subject to restrictions relating to statutory surplus and earnings. The maximum amount of dividends payable by GALIC in 2001 without prior regulatory approval is \$52.1 million. In the first six months of 2001, GALIC paid \$8.0 million in dividends.

In the third quarter of 2000, GAFRI paid down approximately \$50 million of its bank credit line. In January 2001, the Company replaced its existing agreement with a \$155 million unsecured credit agreement which matures on December 31, 2004. At June 30, 2001, GAFRI (parent) had over \$100 million available under its bank credit line.

Given the current interest rate environment, GAFRI expects to redeem its ROPES in September 2001 using borrowings under the bank credit line. In May 2001, GAFRI filed to amend its shelf registration statement to provide for the issuance of up to \$250 million of debt and preferred securities.

Based upon the current level of operations and anticipated growth, GAFRI believes that it will have sufficient resources to meet its liquidity requirements.

Investments

GAFRI invests primarily in fixed income investments which, including loans and short-term investments, comprised 98% of its investment portfolio at June 30, 2001. GAFRI generally invests in securities having intermediate-term maturities with an objective of optimizing interest yields while maintaining an appropriate relationship of maturities between GAFRI's assets and expected liabilities.

The NAIC assigns quality ratings to publicly traded as well as privately placed securities. At June 30, 2001, 92% of GAFRI's fixed maturity portfolio was comprised of investment grade bonds (NAIC rating of "1" or "2"). Management believes that the high credit quality of GAFRI's investment portfolio should generate a stable and predictable investment return.

At June 30, 2001, GAFRI's mortgage-backed securities ("MBSs") portfolio represented approximately one-third of its fixed maturity investments. GAFRI invests primarily in MBSs which have a lower risk of prepayment. In addition, the majority of MBSs held by GAFRI were purchased at a discount. Management believes that the structure and discounted nature of the MBSs will reduce the effect of prepayments on earnings over the anticipated life of the MBS portfolio.

More than 90% of GAFRI's MBSs are rated "AAA" with substantially all being investment grade quality. The market in which these securities trade is highly liquid. Aside from interest rate risk, GAFRI does not believe a material risk (relative to earnings or liquidity) is inherent in holding such investments.

Management's Discussion and Analysis

of Financial Condition and Results of Operations - Continued

RESULTS OF OPERATIONS

General

Management believes the concept of net operating earnings (or "core" earnings) is helpful in comparing the operating performance of GAFRI with that of similar companies. However, core earnings should not be considered a substitute for net income as an indication of GAFRI's overall performance. The following table (in millions, except per share amounts) compares the Company's core earnings for the following periods.

Three months ended	Six months ended
<u>June 30,</u>	<u>June 30,</u>

Edgar Filing: GREAT AMERICAN FINANCIAL RESOURCES INC - Form 10-Q

<u>GAFRI (Consolidated):</u>	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>
Revenues per statement of operations	\$196.6	\$195.9	\$413.6	\$382.9
Add back realized losses	<u>22.7</u>	<u>0.8</u>	<u>24.5</u>	<u>3.7</u>
Core operating revenues	219.3	196.7	438.1	386.6
Expenses per statement of operations	189.5	202.0	380.3	365.9
Less litigation charges included in annuity benefits	-	14.2	-	14.2
Less litigation charges included in other expenses	<u>-</u>	<u>18.3</u>	<u>-</u>	<u>18.3</u>
Core operating expenses	<u>189.5</u>	<u>169.5</u>	<u>380.3</u>	<u>333.4</u>
Core operating earnings before tax	29.8	27.2	57.8	53.2
Income tax expense	<u>9.5</u>	<u>7.7</u>	<u>18.4</u>	<u>15.2</u>
Net core operating earnings	<u>\$ 20.3</u>	<u>\$ 19.5</u>	<u>\$ 39.4</u>	<u>\$ 38.0</u>
Net core operating earnings per common share (diluted)	\$ 0.47	\$ 0.46	\$ 0.92	\$ 0.89

Retirement Products

The following table summarizes GAFRI's premiums for its retirement annuities (in millions).

	Three months ended		Six months ended	
	<u>June 30,</u>		<u>June 30,</u>	
	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>
<u>Annuity Premiums</u>				
Single premium fixed rate annuities	\$ 96	\$ 65	\$174	\$131
Flexible premium fixed rate annuities	41	44	79	85

Single premium variable annuities	23	72	45	145
Flexible premium variable annuities	<u>24</u>	<u>19</u>	<u>48</u>	<u>36</u>
	<u>\$184</u>	<u>\$200</u>	<u>\$346</u>	<u>\$397</u>

Sales of annuity products linked to the performance of the stock market (variable and equity-indexed annuities) were down substantially in the second quarter and first six months of 2001 compared to the same periods in 2000. Management believes this decrease was attributable to the volatile equity markets.

Management's Discussion and Analysis

of Financial Condition and Results of Operations - Continued

Life, Accident and Health Premiums and Benefits

The following table summarizes GAFRI's life, accident and health premiums and benefits as shown in the Consolidated Statement of Operations (in millions).

	Three months ended		Six months ended	
		<u>June 30,</u>	<u>June 30,</u>	
	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>
<u>Premiums</u>				
Supplemental insurance products	\$49	\$31	\$ 97	\$ 62
GA Life of Puerto Rico	13	13	26	25
Life products	<u>9</u>	<u>6</u>	<u>17</u>	<u>13</u>
	<u>\$71</u>	<u>\$50</u>	<u>\$140</u>	<u>\$100</u>
<u>Benefits</u>				
Supplemental insurance products	\$40	\$25	\$ 79	\$ 50
GA Life of Puerto Rico	7	6	14	13
Life products	<u>5</u>	<u>6</u>	<u>13</u>	<u>11</u>

\$52 \$37 \$106 \$ 74

The increase in supplemental insurance premiums reflects the acquisition of a block of business in 2000.

Real Estate Operations

GAFRI is engaged in a variety of real estate operations including hotels and a marina; GAFRI also owns various parcels of land. Revenues and expenses of these operations, including gains on disposal, are included in GAFRI's Consolidated Statement of Operations as shown below (in millions).

	Three months ended		Six months ended	
	<u>June 30.</u>		<u>June 30.</u>	
	<u>2001</u>	<u>2000</u>	<u>2001</u>	<u>2000</u>
Other income	\$11.2	\$10.3	\$26.0	\$15.3
Other expenses	7.6	7.7	14.3	13.5

Other income included a pretax gain on the sale of real estate assets of \$2.1 million in the second quarter of 2001 and \$10.6 million in the first six months of 2001.

Other Income

Other income increased \$11.7 million in the first six months of 2001 compared to the same period in 2000 due primarily to income from the sale of real estate and, to a lesser extent, increased fees earned on GAFRI's variable annuity and life business.

Realized Losses

Realized losses on securities includes the following provisions for other than temporary impairment: second quarter of 2001 and 2000 - \$20.5 million and \$1.2 million; six months of 2001 and 2000 - \$23.0 million and \$1.2 million, respectively.

Annuity Benefits

Annuity benefits reflect amounts accrued on annuity policyholders' funds accumulated. In the second quarter and first six months of 2000, annuity benefits also included \$14.2 million related to a class action lawsuit settlement. The majority of GAFRI's fixed rate annuity products permit GAFRI to change the crediting rate at any time (subject to minimum interest rate guarantees of 3% or 4% per annum). As a result, management has been able to react to changes in market interest rates and maintain a desired interest rate spread.

On its deferred annuities (annuities in the accumulation phase), GAFRI generally credits interest to policyholders' accounts at their current stated "surrender" interest rates. Furthermore, for "two-tier" deferred annuities (annuities under which a higher interest amount can be earned if a policy is annuitized rather than

of Financial Condition and Results of Operations - Continued

surrendered), GAFRI accrues an additional liability to provide for expected deaths and annuitizations. Changes in crediting rates, actual surrender and annuitization experience or modifications in actuarial assumptions can affect this accrual.

GAFRI's equity-indexed fixed annuities provide policyholders with a crediting rate tied, in part, to the performance of an existing stock market index. GAFRI attempts to mitigate the risk in the equity-based component of these products through the purchase of call options on the appropriate index. GAFRI's strategy is designed so that an increase in the liabilities due to an increase in the market index will be substantially offset by unrealized gains on the call options. Under SFAS No. 133, both the equity-based component of the annuities and the related call options are considered derivatives and marked to market through current earnings as annuity benefits. Adjusting these derivatives to market value had virtually no net effect on annuity benefits in the first six months of 2001.

Insurance Acquisition Expenses

Insurance acquisition expenses include amortization of deferred policy acquisition costs ("DPAC") as well as commissions on sales of life insurance products. Insurance acquisition expenses also include amortization of the present value of future profits of businesses acquired amounting to \$5.7 million in the first six months of 2001 and \$6.4 million in the first six months of 2000.

Interest and Other Debt Expenses

The decrease in interest and other debt expenses in the second quarter and first six months of 2001 compared to the same periods in 2000 is due primarily to lower bank borrowings as well as lower interest rates on these borrowings.

Other Expenses

In the second quarter of 2000, the Company recorded a charge of \$32.5 million for liabilities related to various litigation in which the Company or one of its subsidiaries is a defendant (\$18.3 million of that charge was included in other expenses; \$14.2 million of that charge was included in annuity benefits expense). The charge represents amounts that the Company agreed to pay and estimates of the ultimate liability in certain cases not yet finalized. The most significant case included in this charge was a policyholder class action was approved for settlement in the fourth quarter of 2000.

Equity in Earnings of Affiliate

Equity in earnings of affiliate in 2000 represents GAFRI's proportionate share of the results of Chiquita Brands International. In 2001, due to Chiquita's restructuring plans, GAFRI suspended accounting for Chiquita under the equity method and reclassified its \$2.7 million investment to "Equity securities" in the consolidated balance sheet at June 30, 2001 (See Note B.)

Recent Accounting Standards

In July 2001, the Financial Accounting Standards Board issued SFAS No. 141, "Business Combinations", and No. 142, "Goodwill and Other Intangible Assets." Under SFAS No. 141, business combinations initiated after June 30, 2001 are required to be accounted for using the purchase method of accounting. Under SFAS No. 142, goodwill will no longer be amortized beginning January 1, 2002, but will be subject to an impairment test at least annually. A transitional test for impairment is required to be completed in 2002 with any resulting writedown reported during the first quarter as a cumulative effect of a change in accounting principle. Based on goodwill recorded at June 30, 2001, management expects that goodwill amortization in 2002 would have been

less than \$2 million.

PART II

OTHER INFORMATION

Item 3

Quantitative and Qualitative Disclosure at Market Risk

As of June 30, 2001, there were no material changes to the information provided in GAFRI's Form 10-K for 2000 under the caption "Exposure to Market Risk" in Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4

Submission of Matters to a Vote of Security Holders

The Registrant's Annual Stockholders' Meeting was held May 23, 2001. Proxies were solicited pursuant to Regulation 14A under the Securities Exchange Act of 1934. All of the nominees for director proposed by the Registrant were elected to the board of Directors.

In addition to the election of directors, stockholders (representing approximately 95% of the voting shares) also voted to approve an amendment to the GAFRI 1994 Stock Option Plan to increase the maximum number of options to be granted from 3,000,000 to 4,000,000 [Proposal 2.]

The votes cast for, against, and the number withheld or abstentions as to each matter voted on at the 2001 Annual Meeting is set forth below:

	<u>For</u>	<u>Against</u>	<u>Withheld/Abstain</u>
Election of Directors:			
Carl H. Lindner	40,892,299	NA	36,955
S. Craig Lindner	40,738,731	NA	190,523
Robert A. Adams	40,719,395	NA	209,859
Ronald G. Joseph	40,910,500	NA	18,754
John T. Lawrence	40,911,259	NA	17,995
William R. Martin	40,909,528	NA	19,726
