**REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

Flexsteel Industries, Inc.  
Salaried Employees Retirement and 401(k) Plan:

We have audited the accompanying statements of net assets available for benefits of the Flexsteel Industries, Inc. Salaried Employees Retirement and 401(k) Plan (the Plan ) as of December 31, 2011 and 2010, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2011 and 2010, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2011, is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedule is the responsibility of the Plan s management. Such supplemental schedule has been subjected to the auditing procedures applied in our audit of the basic 2011 financial statements and, in our opinion, is fairly stated, in all material respects, when considered in relation to the basic financial statements taken as a whole.

**FLEXSTEEL INDUSTRIES, INC. SALARIED EMPLOYEES  
RETIREMENT AND 401(K) PLAN**

**NOTES TO FINANCIAL STATEMENTS  
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2011 AND 2010**

**1. DESCRIPTION OF THE PLAN**

The following description of the Flexsteel Industries, Inc. Salaried Employees Retirement and 401(k) Plan (the Plan ) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

**General** The Plan is a defined contribution plan covering substantially all salaried employees of Flexsteel Industries, Inc. (the Company ) who have reached the age of 21 and have completed one year of service. Participation is voluntary. The Plan administrator controls and manages the operation and administration of the Plan. Assets of the Plan are held by Principal Life Insurance Company and American Trust & Savings Bank of Dubuque, Iowa (collectively, referred to as the Custodians ). American Trust & Savings Bank holds the Flexsteel Industries, Inc. common stock fund only. A committee appointed by the Board of Directors of the Company administers the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

**Transfers** During the years ended December 31, 2011 and 2010, the Plan recorded transfers from and to other of the Company s benefit plans totaling \$12,557 and \$(17,113), respectively, related to certain employee job classification changes.

**Contributions and Vesting** The Plan allows eligible employees to elect to have from 1% to 50% (sales personnel are subject to a 6% maximum) of their basic pretax pay contributed to the Plan. Employee contributions are by law subject to a maximum of \$16,500 in calendar year 2011 and 2010, respectively. The Company contributes a matching amount equal to 25% of the first 4% of pay the employee contributes. Participant contributions and Company matching contributions are 100% vested. In addition, the Company contributes 4% of pay up to the social security limit and 6% of pay in excess of this limit on a monthly basis. The Company, at its option, may also contribute additional amounts to be allocated among all participants based on the participants pay. There were no discretionary contributions made during the years ended December 31, 2011 and 2010. The Company s additional contributions and the discretionary contributions vest over six years (20% after two years, 40% after three years, 60% after four years, 80% after five years, and 100% after six years). Employees age 50 or older, or turning 50 during the Plan year, may make additional pre-tax (catch-up) contributions in excess of the Plan limit or statutory limit (not to exceed \$5,500 in 2011). Forfeited balances of terminated participants may first be applied to pay expenses, which would otherwise be paid by the Company. Forfeitures not used to pay expenses shall be applied to reduce future company contributions. In 2011 and 2010, forfeitures totaled \$9,600 and \$14,057, respectively.

**Participant Accounts** Individual accounts are maintained for each Plan participant. Each participant s account is credited with the Company s contribution and allocations of Plan earnings and is charged with an allocation of Plan losses and administrative expenses. Allocations are based on compensation, participant investment elections, and account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant s vested account. The Plan prohibits loans.

Table of Contents

**Investments** Plan participants direct their contributions to any of the 21 investment accounts available. There are three investments that remain in the Plan in which participants cannot currently invest. Prior to 2010, the Plan discontinued the option to invest in Flexsteel common stock, the guaranteed investment contract and the Principal Large Cap Blend account. The investment option in the guaranteed investment contract is not benefit responsive because participants may not be able to transact at contract value for transactions, such as investment transfers, early withdrawals, or termination. The guaranteed investment contract is presented at fair market value of \$1,430 and \$1,765 as of December 31, 2011 and 2010, respectively. The contract value of the guaranteed investment contract was \$1,430 and \$1,765 as of December 31, 2011 and 2010, respectively. Participants will not pay a surrender charge for distributions to participants and qualified domestic relations orders (during 60-day window following event), beneficiaries (during 120-day window), due to normal retirement (during 60-day window after normal retirement date and a second 60-day window after actual physical retirement), or minimum distributions. Participants will not pay a surrender charge when the U.S. Treasury Rate is equal to or less than the guaranteed rate being credited. Participants will pay a surrender charge when the U.S. Treasury Rate is higher than the guaranteed rate being credited.

**Payment of Benefits** Distributions of benefits are paid upon retirement, death, disability, and in certain hardship cases. Distributions, in certain cases, may also occur on termination of the Plan or disposition of substantially all of the Company's assets to another entity. Otherwise, benefits will be distributed on the date the participant attains age 65, the date the participant reaches age 55 and the 10th anniversary of the participant's entry date or age 62 (the participant must cease employment to receive this benefit), the date of participant's disability (the participant must cease employment to receive this benefit), or the date of participant's termination of employment or death. If a participant's vested account balance has never exceeded \$1,000, the entire vested account balance shall be payable as a single lump sum upon retirement, death, or termination. For participants whose vested account balance exceeds \$1,000, benefits are paid in an automatic form unless the participant or their beneficiary has selected an optional form.

*Automatic Forms* The automatic form of retirement benefits shall be in the form of an immediate survivorship life annuity with installment refund for participants with a spouse or a single life annuity with installment refund for participants without a spouse.

The automatic form of death benefits shall be: (1) a qualified preretirement survivor annuity for participants who have a spouse to whom they have been continuously married throughout the one-year period ending on the date of their death or (2) a single-sum payment to the participant's beneficiary for participants who do not have a spouse who is entitled to the qualified preretirement survivor annuity.

*Optional Forms* The optional forms of death benefits are a single-sum payment and any annuity that is an optional form of retirement benefit. However, the full flexibility option shall not be available if the beneficiary is not the spouse of the deceased participant.

The optional forms of retirement benefits shall be: (1) straight life annuity; (2) single life annuities with certain periods of 5, 10, or 15 years; (3) single life annuity with installment refund; (4) survivorship life annuities with installment refund and survivorship percentages of 50%, 66 2/3%, 75% or 100%; (5) fixed period annuities; (6) a series of installments chosen by the participant with a minimum payment each year beginning with age 70 1/2 (full flexibility option); or (7) single-sum payment.

Table of Contents

**New Accounting Standards** The accounting standard adopted in 2011 is described below.

**ASU No. 2010-06, Fair Value Measurements and Disclosures** In January 2010, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2010-06, Fair Value Measurements and Disclosures, which amends ASC 820, Fair Value Measurements and Disclosures, adding a new disclosure requirement to provide Level 3 activity of purchases, sales, issuances, and settlements on a gross basis. This requirement was effective for fiscal years beginning after December 15, 2010. The adoption in 2011 did not materially affect the Plan's financial statements.

**New Accounting Standards Not Yet Effective**

**ASU No. 2011-04** In May 2011, the FASB issued ASU No. 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which amends ASC 820. ASU 2011-04 also requires the categorization by level for items that are only required to be disclosed at fair value and information about transfers between Level 1 and Level 2. In addition, the ASU provides guidance on measuring the fair value of financial instruments managed within a portfolio and the application of premiums and discounts on fair value measurements. The ASU requires additional disclosure for Level 3 measurements regarding the sensitivity of fair value to changes in unobservable inputs and any interrelationships between those inputs. The new guidance is effective for reporting periods beginning after December 15, 2011. The adoption will not have a material effect on the statement of net assets available for benefits and statement of changes in net assets available for benefits. Plan management has not determined the impact on the disclosures in the financial statements.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting** The financial statements have been prepared on the accrual basis in accordance with accounting principles generally accepted in the United States of America.

**Use of Estimates** The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

**Risks and Uncertainties** The Plan utilizes various investment instruments, including mutual funds. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that these changes could materially affect the amounts reported in the financial statements.

**Investment Valuation and Income Recognition** The Plan's investments are stated at fair value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. Common stock is valued at quoted market prices. The fair values of the pooled separate accounts are valued based on the quoted market prices of the underlying investments. The fully benefit-responsive common/collective investment trust is stated at fair value and then adjusted to contract value. Fair value of the common/collective investment trust (Principal Stable Value Select Fund) is determined based on the audited financial statements of the fund. The fair values of the conventional investment contracts are based on discounting the related cash flows based on current yields of similar instruments with comparable durations. The guaranteed investment contract is not fully benefit responsive and is stated at fair value. Fair value of the contract is calculated by discounting the related cash flows based on current yields of similar instruments with comparable durations.

Table of Contents

In accordance with Accounting Standards Codification ( ASC ) 962-325, *Plan Accounting – Defined Contribution Pension Plans Investments – Other*, the statements of net assets available for benefits present an investment contract at fair value, as well as an additional line item showing an adjustment of the fully benefit-responsive contract from fair value to contract value. The statement of changes in net assets available for benefits is presented on a contract value basis and is not affected by this section of the codification.

**Fair Value Measurements** Fair value is the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Fair value measurements establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are defined as follows:

*Level 1* Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

*Level 2* Inputs to the valuation methodology include:

Quoted prices for similar assets or liabilities in active markets

Quoted prices for identical or similar assets or liabilities in inactive markets

Inputs other than quoted prices that are observable for the asset or liability

Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

*Level 3* Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset s or liability s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

*Common Stock* Valued at the closing price reported on the active market on which the individual securities are traded and are classified within level 1 of the valuation hierarchy.

*Mutual Funds* These investments are public investment vehicles valued using the Net Asset Value (NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

*Pooled Separate Accounts* Valued at the NAV of shares held by the plan at year-end. The NAV of a Pooled Separate Account (PSA) is based on the market value of its underlying investments. The PSA NAV is not a publicly-quoted price in an active market. The determination of where an investment falls in the fair value hierarchy was determined based on the lowest level input that is significant to the fair value measurement in its entirety. The lowest level of input are securities quoted on private markets that are not active, or securities traded on active markets. The pooled separate accounts are classified within level 2 of the valuation hierarchy.

Table of Contents

*Guaranteed Investment Contract* Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer and are classified within level 2 of the valuation hierarchy.

*Common/Collective Investment Trust* This investment is a public investment vehicle valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is classified within level 2 of the valuation hierarchy, because the NAV's unit price is quoted on a private market that is not active; however, the unit price is based on underlying investments which are traded on an active market.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2011 and 2010:

	Investments at Fair Value as of December 31, 2011			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,694,701	\$	\$	\$ 4,694,701
Common stock Flexsteel	1,461,860			1,461,860
Common/collective investment trust		15,458,066		15,458,066
Pooled separate accounts		36,467,026		36,467,026
Guaranteed investment contract		1,430		1,430
Total investments at fair value	\$ 6,156,561	\$ 51,926,522	\$	\$ 58,083,083

	Investments at Fair Value as of December 31, 2010			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 4,685,217	\$	\$	\$ 4,685,217
Common stock	2,014,439			2,014,439
Common/collective investment trust		14,705,787		14,705,787
Pooled separate accounts		36,273,301		36,273,301
Guaranteed investment contract		1,765		1,765
Total investments at fair value	\$ 6,699,656	\$ 50,980,853	\$	\$ 57,680,509

For the years ended December 31, 2011 and 2010, there were no significant transfers in or out of Levels 1, 2 or 3.

Table of Contents

In accordance with Accounting Standards Update ( ASU ) No. 2009-12, the Plan discloses the category, fair value, subscription and redemption frequency, for those assets whose fair value is estimated using the NAV per share as of December 31, 2011. The pooled separate accounts and common/collective investment trust are valued using the NAV per share. Their redemption and subscription frequencies are daily. As of December 31, 2011, the funds have no redemption notice periods or unfunded commitments.

The Principal Stable Value Select Fund (the Fund ) seeks to maintain a stable \$1.00 unit value, although there is no guarantee it will be able to do so. Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made to the Fund, plus earnings, less participant withdrawals and administrative expenses. The Fund imposes certain restrictions on the Plan, and the Fund itself may be subject to circumstances that impact its ability to transact at contract value. Plan management believes that the occurrence of events that would cause the Fund to transact at less than contract value are not probable.

**Expenses** Certain administrative expenses of the Plan, such as contract administration, recordkeeping, and transaction fees, are paid by the Plan. Certain other administrative fees of the Plan are paid by the Company. The Plan is not required to reimburse the Company for any administrative expenses paid by the Company. Expenses not paid by the Company are paid by the Plan. Administrative expenses charged to the Plan were not significant. Expenses paid by the Company were \$70,400 and \$77,563 for the years ended December 31, 2011 and 2010, respectively.

**Payment of Benefits** Benefit payments to participants are recorded when requested, which is effectively upon distribution.

### 3. INVESTMENTS

Investments that represent 5% or more of the Plan s net assets for the years ended December 31, 2011 and 2010, were as follows:

	2011	2010
Principal Private Market Bond and Mortgage Account *	\$ 5,781,332	\$ 5,127,467
Principal Large Cap Stock Index Fund*	10,972,596	10,637,301
Principal Small Company Blend Stock Fund*	3,784,537	4,492,012
Principal Diversified International Separate Account*	3,337,977	4,242,328
Principal Mid Cap Stock Index Fund*	2,876,615	3,194,881
Principal Stable Value Select Fund**	15,458,066	14,705,787

\* Denotes party-in-interest

\*\* Denotes party-in-interest. Fund is at fair value. The contract value was \$15,106,812 and \$14,411,448 at December 31, 2011 and 2010, respectively.

Table of Contents

The net (depreciation)/appreciation in the fair value of investments for the years ended December 31, 2011 and 2010, was as follows:

	2011	2010
Flexsteel Industries, Inc. common stock*	\$ (436,415)	\$ 863,348
Guaranteed investment contract*	270	
Mutual funds	(51,296)	727,609
Common/collective investment trust*	281,358	350,139
Pooled separate accounts*	(292,910)	4,894,887
	\$ (498,993)	\$ 6,835,983

\* Denotes party-in-interest

#### 4. PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2011 and 2010, the Plan held 105,626 and 113,489 shares, respectively, of common stock of Flexsteel Industries, Inc., the sponsoring employer. During 2011 and 2010, the Plan recorded dividend income of \$35,920 and \$28,372, respectively.

Certain Plan investments are managed by Principal Life or its affiliates. Principal Life is the custodian as defined by the Plan.

The above transactions are exempt party-in-interest transactions.

#### 5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their account.

#### 6. FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by letter dated December 8, 2011, that the Plan qualifies under the applicable sections of the Internal Revenue Code (IRC) and, therefore, the related trust is not subject to tax under current tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its tax qualification. The Plan administrator believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC and, as a result, no provision for income taxes is believed necessary.

Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2011, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2008.

Table of Contents**7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500**

As of December 31, 2011 and 2010, a reconciliation of net assets available for benefits per the financial statements to the Form 5500 is as follows:

	2011	2010
Net assets available for benefits per the financial statements	\$ 57,810,332	\$ 57,457,983
Adjustment from contract value to fair value for fully benefit-responsive investment contract(s)	351,254	294,339
Net assets available for benefits per the Form 5500	\$ 58,161,586	\$ 57,752,322

For the year ended December 31, 2011, the following is a reconciliation of total additions per the financial statements to the Form 5500:

Total additions per the financial statements	\$ 2,431,533
Transfers from other plans	(12,557)
