BELLSOUTH CORP  
Form 425

Filed by AT&T Inc.  
Pursuant to Rule 425 under the Securities Act of 1933  
and deemed filed pursuant to Rule 14a-12  
of the Securities Exchange Act of 1934

Subject Company: BellSouth Corporation  
Commission File No.: 1-8607

Mr./Ms. [NAME]:

When I contacted you a little more than a year ago to talk about SBC's merger with AT&T, it was really about creating a national and global carrier that would be able to make available the best communications services possible to all consumers, from enterprise customers to single-line residential customers.

Today, I am writing you about another combination, the merger of AT&T and BellSouth. In the face of rapidly evolving technology, service convergence, and intensifying marketplace competition, the merger is the right combination at the right time. This merger is a tremendous step toward being able to deliver on the promise of increased innovation and investment to enhance competition in video, wireless, and broadband, as well as wireline services.

This merger makes sense in today's competitive communications marketplace that includes a wide variety of wireline, wireless, cable, and IP companies. What's more, since AT&T and BellSouth are not actual competitors in the local, long distance and video markets, and because BellSouth is not a significant competitor in the enterprise market, the merger will not affect the choices consumers and businesses have today.

Consumers will benefit from the merger for many reasons: AT&T will be able to expand competition in the TV and entertainment market, and bring more competitive rates and enhanced control of TV programming to more consumers. The combined resources will extend competitive, interactive video services to BellSouth's service territory faster than would likely occur but for the merger.

The merger will also heighten wireless integration by fully reuniting AT&T Labs with a wireless network to drive the next evolution in wireless technology. The combination of the Cingular, BellSouth, and AT&T networks will generate efficiencies and service opportunities that will result in new products and services that would not have been possible absent the merger.

Essentially, the benefits of the merger will be far-reaching as the company will deliver more video competition, more broadband, and more technology to consumers, while enhancing the nation's communications and entertainment infrastructure.

Rest assured that AT&T will continue to deliver best in class products and services to customers across [STATE]. As always, AT&T is committed to keeping you informed on all important developments as we begin the approval process. If you have any questions, I urge you to contact me at [PHONE NUMBER].

Sincerely,  
[NAME]

The following factors, among others, could cause actual results to differ from those described in the forward-looking statements in this document: the ability to obtain governmental approvals of the merger on the proposed terms and schedule; the failure of AT&T shareholders to approve the issuance of AT&T common shares or the failure of BellSouth shareholders to approve the merger; the risk that the businesses of AT&T and BellSouth will not be integrated successfully or as quickly as expected; the risk that the cost savings and any other synergies from the merger, including any savings and other synergies relating to the resulting sole ownership of Cingular Wireless LLC may not be fully realized or may take longer to realize than expected; disruption from the merger making it more difficult to maintain relationships with customers, employees or suppliers; and competition and its effect on pricing, spending, third-party relationships and revenues. Additional factors that may affect future results are contained in AT&T's, BellSouth's, and Cingular Wireless LLC's filings with the Securities and Exchange Commission ("SEC"), which are available at the SEC's Web site (<http://www.sec.gov>).
