Table of Contents**Notes to the Condensed Consolidated Financial Statements****Expressed in millions of United States dollars, unless otherwise stated****1 The Company and its operation**

Companhia Vale do Rio Doce (CVRD) is a limited liability company, duly organized and existing under the laws of the Federative Republic of Brazil. Our operations are carried out through CVRD and its subsidiary companies, joint ventures and affiliates, and mainly consist of mining, non-ferrous metal production and logistics, as well as energy, aluminum and steel activities. Further details of our joint ventures and affiliates are described in Note 8.

The main operating subsidiaries we consolidate are as follows:

Subsidiary	% ownership	% voting capital	Head office location	Principal activity
Alumina do Norte do Brasil S.A. Alunorte (Alunorte)	57	61	Brazil	Alumina
Alumínio Brasileiro S.A. Albras (Albras)	51	51	Brazil	Aluminum

(1) Through Caemi Mineração e Metalurgia S.A.. CVRD holds 100% of the voting and total capital.

(2) Through Caemi Mineração e Metalurgia S.A. and Belém Administrações e Participações Ltda.

(3)

The participation in parenthesis refers to the interest before the merger of shares from Caemi on March, 2006.

- (4) Previously known as Itabira Rio Doce Company Ltd. ITACO

2 Basis of consolidation

All majority-owned subsidiaries in which we have both share and management control are consolidated. All significant intercompany accounts and transactions are eliminated. As from January 1, 2004, our variable interest entities in which we are the primary beneficiary are consolidated. Investments in unconsolidated affiliates and joint ventures are reported at cost plus our equity in undistributed earnings or losses. Included in this category are certain joint ventures in which we have majority ownership but, by force of shareholders' agreements, do not have effective management control. We provide for losses on equity investments with negative stockholders' equity where applicable (Note 8).

We evaluate the carrying value of our listed investments relative to publicly available quoted market prices. If the quoted market price is below book value, and such decline is considered other than temporary, we write-down our equity investments to quoted market value.

We define joint ventures as businesses in which we and a small group of other partners each participate actively in the overall entity management, based on a shareholders agreement. We define affiliates as businesses in which we participate as a minority stockholder but with significant influence over the operating and financial policies of the investee.

Investments in unincorporated joint ventures, formed for the purpose of investing in hydroelectric power projects, are proportionately consolidated.

3 Summary of significant accounting policies

Our condensed consolidated interim financial information for the three-month periods ended March

F-8

Table of Contents

31, 2006, December 31, 2005 and March 31, 2005 is unaudited. However, in our opinion, such condensed consolidated financial information includes all adjustments, consisting only of normal recurring adjustments, necessary for a fair presentation of the results for interim periods. The results of operations for the three-month periods ended March 31, 2006 are not necessarily indicative of the results to be expected for the full fiscal year ending December 31, 2006.

In preparing the condensed consolidated financial statements, we are required to use estimates to account for certain assets, liabilities, revenues and expenses. Our condensed consolidated financial statements therefore include various estimates concerning the selection of useful lives of property, plant and equipment, provisions necessary for contingent liabilities, fair values assigned to assets and liabilities acquired in business combinations, income tax valuation allowances, employee post-retirement benefits and other similar evaluations, actual results may vary from our estimates.

We have remeasured all assets and liabilities into U.S. dollars at the current exchange rate at each balance sheet date (R\$2.1724 and R\$2.3370 at March 31, 2006 and December 31, 2005, respectively to US\$1.00 or the first available exchange rate if exchange on December 31, was not available), and all accounts in the statements of income (including amounts relative to local currency indexation and exchange variances on assets and liabilities denominated in foreign currency) at the average rates prevailing during the period. The translation gain or loss resulting from this remeasurement process is included in the cumulative translation adjustments account in stockholders' equity.

4 Recently-issued accounting pronouncements

In April 2006, the FASB issued FIN 46R-(6), *Determining the variability to be considered in applying FASB Interpretation No. 46(R)*, which addresses how a reporting enterprise should determine the variability to be considered in applying FASB Interpretation No. 46. We will apply this statement as applicable in fiscal periods beginning after July 15, 2006.

In March 2006, the FASB issued FAS 156, *Accounting for servicing of financial assets*, which amends FASB Statements No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. This Statement addresses the accounting for separately recognized servicing assets and servicing liabilities. We will apply this statement as applicable in fiscal periods beginning after September 15, 2006.

In February 2006, the FASB issued FAS 155, *Accounting for certain hybrid financial instruments*, which amends FASB Statements No. 133, *Accounting for Derivative Instruments and Hedging Activities*, and No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. This Statement resolves issues addressed in Statement 133 Implementation Issue No. D1, *Application of Statement 133 to Beneficial Interests in Securitized Financial Assets*. We will apply this statement as applicable in fiscal periods beginning after September 15, 2006.

5 Major acquisitions and disposals during the years presented

At an Extraordinary Shareholders' Meeting on March 31, 2006, the Capital Stock increased by US\$2,552, corresponding to 64,151,361 preferred shares, due to the issuance of shares in relation to the acquisition of the outstanding minority interest in Caemi.

Pro forma information with respect to our acquisition of the 39.77% preferred shares of Caemi, totaling 100% of total interest, in March 2006 is shown:

	March 31, 2006			March 31, 2005			Three-month periods ended December 31, 2005		
	Caemi		Pro Merger Consolidate (89.77%) (unaudited)	Caemi		Pro Merger Consolidate (89.77%) (unaudited)	Caemi		Pro Merger Consolidate (89.77%) (unaudited)
	-	-		-	-		-	-

F-9

Table of Contents

In November 2005, we acquired 93.0% of the voting capital of Canico Resource Corp. (Canico) a Canadian-based junior resource company focused on the development of the Onça-Puma nickel laterite, for US\$750. In December 2005, we acquired an additional 6.20% of the voting capital of Canico for US\$50. Canico's only significant asset other than US\$63 of cash and cash equivalents was US\$794 of mining rights.

On February 10, 2006, we concluded the acquisition of the outstanding common shares of Canico, acquiring the remaining voting capital of Canico, 0.8% of its total capital for US\$6, which is now a wholly-owned subsidiary.

During the first quarter of 2006, we sold our total interest in Nova Era Silicon (49%) to JFE Steel Corporation, resulting in a net gain of US\$9.

6 Income taxes

Income taxes in Brazil comprise federal income tax and social contribution, which is an additional federal tax. The statutory composite enacted tax rate applicable in the periods presented is 34% represented by a 25% federal income tax rate plus a 9% social contribution rate.

The amount reported as income tax expense in our consolidated financial statements is reconciled to the statutory rates as follows:

	Three-month periods ended		
	March	March	December
	31,	31,	31, 2005
	2006	2005	2005
Income before income taxes, equity results and minority interests	1,433	730	1,125
Federal income tax and social contribution expense at statutory enacted rates	(487)	(248)	(383)
Adjustments to derive effective tax rate:			
Tax benefit on interest attributed to stockholders	91	54	72
Exempt foreign income (loss)	114	46	346
Difference on tax basis of equity investees	(66)	(4)	(28)
Tax incentives	32	22	(26)
Other non-taxable gains (losses)	21	17	(37)
Federal income tax and social contribution expense in consolidated statements of income	(295)	(113)	(56)

We have certain tax incentives relative to our manganese operations in Carajás, our potash operations in Rosario do Catete, our alumina and aluminum operations in Barcarena and our kaolin operations in Ipixuna and Mazagão. The incentives relative to manganese comprise partial exemption up to 2013. The incentive relating to alumina and potash comprise full income tax exemption on defined production levels which expires in 2009 and 2013, respectively, while the partial exemption incentives relative to aluminum and kaolin expire in 2013. An amount equal to the tax saving must be appropriated to a reserve account within stockholders' equity and may not be distributed in the form of cash dividends.

Table of Contents**9 Pension costs**

	Three-month periods ended		
	March 31, 2006	March 31, 2005	December 31, 2005
Service cost – benefits earned during the period	1		
Interest cost on projected benefit obligation	46	56	61
Expected return on assets	(66)	(69)	(75)
Amortization of initial transitory obligation	2	3	3
Net deferral	(4)	(4)	(5)
Net periodic pension cost	(21)	(14)	(16)

In addition to benefits provided under the Pension Plan, accruals have been made relative to supplementary health care benefits extended in previous periods as part of early-retirement programs. Such accruals included in long-term liabilities totaled US\$74, US\$57 and US\$68, at March 31, 2006, March 31, 2005 and December 31, 2005, respectively, plus US\$5, US\$4 and US\$5, respectively, in current liabilities.

The cost recognized for the three-month periods ended March 31, 2006, March 31, 2005, and December 31, 2005 relative to the defined contribution element of the New Plan was US\$2, US\$2 and US\$3, respectively.

We previously disclosed in our consolidated financial statements for the year ended December 31, 2005, that we expected to contribute US\$59 to our defined benefit pension plan in 2006. As of March 31, 2006, US\$10 of our contributions have been made. We do not expect any significant change in our previous estimate.

10 Commitments and contingencies

- (a) At March 31, 2006, we had extended guarantees for borrowings obtained by affiliates and joint ventures in the amount of US\$4, as follows:

Affiliate or Joint Venture	Amount of guarantee	Denominated currency	Purpose	Final maturity	Counter guarantees
SAMARCO	4	US\$	Debt guarantee	2008	None
VALESUL	less than 1 million	R\$	Debt guarantee	2007	None

4

We expect no losses to arise as a result of the above guarantees. We charge commission for extending these guarantees in the case of Samarco.

We have not provided any significant guarantees since January 1, 2003 which would require fair value adjustments under FIN 45 – Guarantors Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others .

- (b) CVRD and its subsidiaries are defendants in numerous legal actions in the normal course of business. Based on the advice of our legal counsel, management believes that the provision for contingent losses is sufficient to cover

probable losses in connection with such actions.

F-13

Table of Contents

The provision for contingencies and the related judicial deposits are composed as follows:

	March 31, 2006		December 31, 2005	
	Provision for contingencies	Judicial deposits	Provision for contingencies	Judicial deposits
Labor and social security claims	247	153	229	138
Civil claims	239	111	210	98
Tax related actions	705	367	816	329
Others	27	3	31	3
	1,218	634	1,286	568

Labor and social security related actions principally comprise claims for (i) payment of time spent traveling from their residences to the work-place, (ii) additional health and safety related payments and (iii) various other matters, often in connection with disputes about the amount of indemnities paid upon dismissal and the one-third extra holiday pay.

Civil actions principally related to claims made against us by contractors in connection with losses alleged to have been incurred by them as a result of various past government economic plans during which full indexation of contracts for inflation was not permitted and accidents.

Tax related actions principally comprise our challenges of certain revenue taxes, value added tax and income tax.

We continue to vigorously pursue our interests in all the above actions but recognize that we probably will incur some losses in the final instance, for which we have made provisions.

Our judicial deposits are made as required by the courts for us to be able to enter or continue a legal action. When judgment is favorable to us, we receive the deposits back; when unfavorable, the deposits are delivered to the prevailing party.

Contingencies settled in the three-month periods ended March 31, 2006 and 2005 and December 31, 2005 aggregated US\$603, US\$4 and US\$114, respectively, and additional provisions aggregated US\$416, US\$14 and US\$141, respectively.

In addition to the contingencies for which we have made provisions we are defending claims which in our opinion, and based on the advice of our legal counsel, the likelihood of loss is possible losses which total US\$1,110 at March 31, 2006, for which no provision has been made.

- (c) We and BNDES entered into a contract, known as the Mineral Risk Contract, in March 1997, relating to prospecting authorizations for mining regions where drilling and exploration were still in their early stages. The Mineral Risk Contract provides for the joint development of certain unexplored mineral deposits in approximately two million identified hectares of land in the Carajás region, as well as proportional participation in any financial benefits earned from the development of such resources. Iron ore and manganese deposits already identified and subject to development are specifically excluded from the Mineral Risk Contract.

Pursuant to the Mineral Risk Contract, we and BNDES agreed to provide US\$205, which represents half of the US\$410 in expenditures estimated as necessary to complete geological exploration and mineral resource development projects in the region. Under the Mineral Risk Contract, as of March 31, 2006, the remaining

contributions towards exploration and development activities totaled \$5.

The mineral contract risk in force will probably end during 2006. However, the related exploitation activities are not concluded and therefore we are negotiating with BNDES a renewal of the contract.

F-14

Table of Contents

- (d) At the time of our privatization in 1997, we issued shareholder revenue interests known in Brazil as debentures to our then-existing shareholders, including the Brazilian Government.

The terms of the debentures, were set to ensure that our pre-privatization shareholders, including the Brazilian Government, would participate alongside us in potential future financial benefits that we are able to derive from exploiting our mineral resources.

On March 27, 2006 we declared a distribution on these debentures in the amount of \$2, payable as from April 2, 2006.

- (e) We use various judgments and assumptions when measuring our environmental liabilities and asset retirement obligations. Changes in circumstances, law or technology may affect our estimates and we periodically review the amounts accrued and adjust them as necessary. Our accruals do not reflect unasserted claims because we are currently not aware of any such issues. Also the amounts provided are not reduced by any potential recoveries under cost sharing, insurance or indemnification arrangements because such recoveries are considered uncertain. The changes are demonstrated as follows:

	Three-month periods ended		
	March	March	December
	31,	31,	31, 2005
	2006	2005	2005
Environmental liabilities beginning of period	225	134	166
Accretion expense	6	4	4
Liabilities settled in the current period			(3)
Revisions in estimated cash flows			67
Cumulative translation adjustment	17	(1)	(9)
Environmental liabilities end of period	248	137	225

11 Segment and geographical information

We adopt SFAS 131 Disclosures about Segments of an Enterprise and Related Information with respect to the information we present about our operating segments. SFAS 131 introduced a management approach concept for reporting segment information, whereby such information is required to be reported on the basis that the chief decision-maker uses internally for evaluating segment performance and deciding how to allocate resources to segments. Our business segments are currently organized as follows:

Ferrous products comprises iron ore mining and pellet production, as well as the Northern and Southern transportation systems, including railroads, ports and terminals, as they pertain to mining operations. Manganese mining and ferroalloys are also included in this segment.

Non-ferrous products comprises the production of non-ferrous minerals, including potash, kaolin and copper.

Logistics comprises our transportation systems as they pertain to the operation of our ships, ports and railroads for third-party cargos.

Holdings divided into the following sub-groups:

Edgar Filing: Companhia Vale do Rio Doce - Form 6-K

Aluminum comprises aluminum trading activities, alumina refining and aluminum metal smelting and investments in joint ventures and affiliates engaged in bauxite mining.

Steel comprises our investments in joint ventures and affiliates operating in the steel industry.

Others comprises our investments in joint ventures and affiliates engaged in other businesses.

Information presented to top management with respect to the performance of each segment is generally derived directly from the accounting records maintained in accordance with accounting practices adopted in Brazil together with certain minor inter-segment allocations.

Table of Contents**12 Derivative financial instruments**

Volatility of interest rates, exchange rates and commodity prices are the main market risks to which we are exposed all three are managed through derivative operations. These have the exclusive aim of reducing exposure to risk. We do not contract derivatives for speculative purposes.

We monitor and evaluate our derivative positions on a regular basis and adjust our strategy in response to market conditions. We also periodically review the credit limits and credit worthiness of our counter-parties in these transactions. In view of the policies and practices established for operations with derivatives, management considers the occurrence of non-measurable risk situations as unlikely.

The asset (liability) balances and the change in fair value of derivative financial instruments are as follows (the quarterly information is unaudited):

	Interest rates (LIBOR)	Currencies	Gold	Alumina	Aluminum	Total
Unrealized gains (losses) at January 1, 2006	(4)	1	(46)	(53)	(157)	(259)
Financial settlement			4	14	14	32
Unrealized gains (losses) in the period	1		(12)	(29)	(4)	(44)
Effect of exchange rate changes			(4)	(5)	(16)	(25)
Unrealized gains (losses) at March 31, 2006	(3)	(*) 1	(58)	(73)	(163)	(296)
Unrealized gains (losses) at January 1, 2005	(37)	(17)	4	(55)	(127)	(232)
Financial settlement	2	3		8	10	23
Unrealized gains (losses) in the period	3	2	(1)	(3)	4	5
Effect of exchange rate changes	1					1
Unrealized gains (losses) at March 31, 2005	(31)	(12)	3	(50)	(113)	(203)
Unrealized gains (losses) at October 1, 2005	(7)	1	(37)	(30)	(99)	(172)
Financial settlement	1		4	11	10	26
Unrealized gains (losses) in the period	2		(16)	(36)	(76)	(126)
Effect of exchange rate changes			3	2	8	13

Unrealized gains (losses) at December 31, 2005	(4)	(*) 1	(46)	(53)	(157)	(259)
---	------------	--------------	-------------	-------------	--------------	--------------

(*) Included as
others in Other
assets.

Unrealized gains (losses) in the period are included in our income statement under the caption of financial expenses.
