REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Benefit Committee and Participants
First Busey Corporation Employees' Stock Ownership Plan
Urbana, Illinois

We have audited the accompanying statements of net assets available for benefits of the First Busey Corporation Employees' Stock Ownership Plan ("the Plan") as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with U.S. generally accepted accounting principles.

Our audit was conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) and schedule of reportable transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FIRST BUSEY CORPORATION EMPLOYEES' STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following brief description of the First Busey Corporation Employees' Stock Ownership Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Agreement for complete information.

General: First Busey Corporation (the Corporation) established the Plan effective as of January 1, 1984. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the Code), and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the Corporation. First Busey Trust & Investment Co., a subsidiary of the Corporation, is the Plan's Trustee.

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

The Plan purchased Corporation common shares using the proceeds of bank borrowings (see Note 6) guaranteed by the Corporation, and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a five to ten year period by fully deductible Corporation contributions to the trust fund. As the Plan makes each payment of principal, an appropriate percentage of stock will be allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The bank borrowings are collateralized by the unallocated shares of stock and are guaranteed by the Corporation. The lender has no rights against shares once they are allocated under the ESOP. Accordingly, the financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to the accounts of employees with vested rights in allocated stock (Allocated) and stock not yet allocated to employees (Unallocated).

Eligibility: Employees of the Corporation and its participating subsidiaries are generally eligible to participate in the Plan after attaining the minimum age of twenty-one and after one year of service providing they worked at least 1,000 hours during such Plan year. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Corporation contributions for such year.

Payment of Benefits: No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to his or her beneficiary or, if none, his or her legal representatives), or otherwise terminates employment with the Corporation and its participating subsidiaries. Participants whose vested account balance is less than \$5,000 are paid through a lump sum. Distributions of all other participant balances are made in the form of Corporation common stock plus cash for any fractional share.

December 31, 2004 and 2003

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (Continued)

Voting Rights: Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. If the Trustee does not timely receive voting directions from a Participant, the Trustee votes in the same proportions as the participants voted the allocated shares. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of Plan participants and beneficiaries.

Termination: The Corporation reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan, and the Code. Upon termination of the Plan, the Corporation shall direct the Trustee

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary in order to repay the loan. In the event of plan termination, participants would become 100 percent vested in their accounts.

Participants' Accounts: The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of shares of the Corporation's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Corporation as of the last day of the Plan year will receive an allocation. Allocations of common stock are based on the eligible compensation of each participant relative to total eligible compensation.

Vesting: Vesting in the participants' accounts is based on years of service with the Corporation and its subsidiaries. A participant is 100 percent vested after seven years of credited service.

Diversification: Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in Corporation stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25 percent of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50 percent. Participants who elect to diversify may receive distributions in the form of Corporation common stock plus cash for any fractional share, receive a cash distribution or contribute cash from the sale of Corporation common stock to another qualified defined contribution plan.

NOTE 1 - PLAN DESCRIPTION AND BASIS OF PRESENTATION (Continued)

Dividends: Dividends on common stock allocated to participants' accounts are distributed directly to the participant so that the dividends result in income tax deductions for the Corporation.

Dividends on common stock not allocated to participants' accounts are used by the Plan to pay interest and administrative expenses.

Common Stock Split: All share and per share amounts pertaining to First Busey Corporation common stock reported in the financial statements and footnotes have been restated to reflect the effect of a three-for-two stock split effective August 3, 2004.

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term to the estimates of investment valuation.

Investment Valuation and Income Recognition: The common stock of the Corporation is valued at fair value on December 31, 2004 and 2003. The Corporation's common stock is traded on the NASDAQ Exchange. Fair value of the common stock is determined by quoted market prices.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a settlement-date basis. Realized gains and losses from security transactions are reported on the specific identification cost method.

Risks and Uncertainties: The Plan invests in common stock of the Corporation. These securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE 3 - CONTRIBUTIONS

The Corporation is obligated to make contributions in cash to the Plan which, when aggregated with the Plan's dividends and interest earnings, are equal to the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loans.

The Corporation may also make discretionary contributions in cash to the Plan. The Corporation made discretionary contributions of \$47,350 for the Plan year ended December 31, 2004. Participant contributions to the Plan are not permitted under the terms of the Plan.

NOTE 4 - ADMINISTRATION OF PLAN ASSETS

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

The Plan's assets, which consist principally of First Busey Corporation common stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loans, which are reimbursed to the Trustee through contributions as determined by the Corporation.

Certain administrative functions are performed by officers or employees of the Corporation or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Plan.

NOTE 5 - INVESTMENTS

The Plan's investments consist solely of First Busey Corporation common stock as follows:

	2004		2003	
	Allocated	Unallocated	Allocated	Unallocated
Number of shares	1,173,856	148,500	1,157,733*	174,000*

The Internal Revenue Service has determined and informed First Busey Corporation by a letter dated May 15, 2003, that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

FIRST BUSEY CORPORATION PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE 1 - PLAN DESCRIPTION

The following description of the First Busey Corporation Profit Sharing Plan and Trust ("the Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of First Busey Corporation and its subsidiaries ("the Employers") who have attained the minimum age of twenty-one, and have completed one year of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions: Each year, participants may contribute a percentage of their pretax annual compensation, as defined in the plan, subject to limitations of the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified plans. Eligible participants may also make catch-up contributions to the Plan.

The Employers' contributions to the Plan are determined annually by the Board of Directors. The Employers may make matching contributions to the Plan equal to a percentage of the first 6% of total compensation that a participant contributes to the Plan. The Employers may also make profit sharing contributions as determined by the Board of Directors each year. Contributions are subject to

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

certain limitations.

Participants direct the investment of the contributions into their account into the various investment options offered by the Plan, including First Busey Corporation common stock.

Participant Accounts: Each participant's account is credited with the participant's contributions and an allocation of the Employers' contributions and the Plan's earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings, participant contributions, or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their voluntary contributions, the Employers' matching contributions, and the respective plan earnings on those contributions.

Vesting in the Employers' profit sharing contributions portion of their accounts is based on years of continuous service. A participant is 100% vested after seven years of credited service.

A participant is 100% vested upon reaching retirement age, death, or disability regardless of years of service.

4.

FIRST BUSEY CORPORATION PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2004 and 2003

NOTE 1 - PLAN DESCRIPTION (Continued)

Participant Loans: Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of \$50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at the prime rate. Interest rates are fixed over the term of the loan. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits: Upon termination of service, a participant is entitled to receive an amount representing the vested interest in his or her account. Participants whose vested balance is under \$5,000 are paid through a lump sum. Participants whose vested account balance is over \$5,000 may elect to receive their payment either as a lump-sum amount or as installments over a period not longer than the life expectancy of the participant.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates: The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make

Edgar Filing: FIRST BUSEY CORP /NV/ - Form 11-K

estimates and assumptions that affect the reported amounts and disclosures, and actual results may differ from those estimates. It is at least reasonably possible that a significant change may occur in the near term for the estimates of investment valuation.

Investment Valuation and Income Recognition: The Plan's investments are stated at fair value. Securities traded on any recognized stock exchange are valued at the last reported sales price at the valuation date. Securities not listed on an exchange and securities for which no sale has been reported on that day are valued at the closing bid price or at fair value as determined by the custodian. Certificates of deposit and participant loans are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a settlement-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits: Benefits are recorded when paid.
