This Proxy Statement is first being given or sent to shareholders of the Company on or about March 23, 2007.

Voting and Revocability of Proxies

Unless contrary instructions are indicated, all shares represented by valid proxies received pursuant to this solicitation (and not revoked before they are voted) will be voted FOR the election of the nominees for Directors named herein. As of the date of this Proxy Statement, the Board of Directors of the Company (the "Board") knows of no business that will be presented for consideration at the Annual Meeting other than that referred to above. If any other business properly comes before the Annual Meeting, the persons designated in the enclosed proxy will vote on such business in accordance with their best judgment.

Any shareholder who executes and returns a proxy card may revoke it at any time before it is voted by delivering to Denise Tinney, Corporate Secretary of the Company,

at the principal executive offices of the Company at 1608 Walnut Street, Philadelphia, PA 19103, a written instrument revoking the proxy, a duly executed proxy bearing a later date, or by attending the Annual Meeting and voting in person.

Voting Securities, Quorum and Required Vote

As of the close of business on March 13, 2007, the record date for voting at the Annual Meeting (“the Record Date”), there were 9,747,312 outstanding shares of common stock, par value \$0.01 per share, of the Company. Holders of the Company’s common stock are entitled to one vote per share on all matters to be voted upon at the Annual Meeting.

As of the date hereof, there are no other classes of the Company’s capital stock issued or outstanding.

The presence in person or by proxy of a majority of the shares of common stock outstanding on the Record Date will constitute a quorum for the purpose of conducting business at the Annual Meeting. For the purpose of determining the votes cast with respect to any matter presented for consideration at the meeting, only those votes cast “FOR” or “AGAINST” are included. Abstentions and broker non-votes (shares held by brokers on behalf of their customers which may not be voted on certain matters because the brokers have not received specific voting instructions from their customers with respect to such matters) will be counted solely for the purpose of determining whether a quorum is present.

The three Class III nominees for Directors receiving the highest number of votes cast

by shareholders entitled to vote for such class of Directors shall be elected.

Paul Verdi and Maria Oliveri shall be appointed the lawful proxies, each with full power of substitution, for and on behalf of the shareholders, to vote as specified in any appropriately completed proxy card, the shares of the Company’s common stock held of record by the shareholder.

Shareholder Communications with Directors

The Company does not have formal procedures for shareholder communication with the Board. Any matter intended for the Board, or for any individual member or members

of the Board, should be directed to the Corporate Secretary at Republic First Bancorp, Inc., 1608 Walnut Street, Philadelphia, PA 19103, with a request to forward the same to the intended recipient. In general, all shareholder communication delivered to the Corporate Secretary for forwarding to the Board or specified Board members will be forwarded in accordance with the shareholder’s instructions. However, the Corporate Secretary reserves the right to not forward to Board members any abusive, threatening or otherwise inappropriate materials.

The Company encourages all incumbent Directors and nominees for election as Director to attend the Annual Meeting. All Directors attended the Annual Meeting in April, 2006.

PROPOSAL 1

ELECTION OF DIRECTORS

The Company's Articles of Incorporation and By-Laws provide for the classification of Directors into three classes, as nearly equal in number as possible, with approximately one-third of the Directors to be elected annually for three-year terms. The Articles of Incorporation and By-Laws provide that the Board may consist of not less than five Directors and not more than 25 Directors.

The Board consists of nine Directors divided into three classes. Currently, the Class I Directors are Harry D. Madonna, William W. Batoff and Louis J. DeCesare; the Class II Directors are Robert J. All of the Director nominees have agreed to stand for election. Each of Messrs. Rodin, Shotz, and Spevak has agreed to be named as a nominee for Director in this Proxy Statement and has consented to serve as a Director if elected. The

Company expects all nominees to be willing and able to serve. The Board may designate a substitute nominee to replace any bona fide nominee who was nominated and who, for any reason, becomes unavailable for election or service as a Director. If any of the nominees becomes unable to serve, the persons designated in the enclosed proxy will vote for the election of such other person or persons as the Board may recommend.

Committees of the Board of Directors

The Company's Board of Directors has organized the following standing committees: the Executive Committee, the Audit Committee, the Nominating Committee and the Compensation and Option Committee.

Executive Committee. Messrs. Madonna (chair), Shotz and Wildstein serve as members of the Company's Executive Committee. The Executive Committee is authorized to exercise all of the authority of the Board in the management of the Company's affairs between Board meetings, unless otherwise provided by the by-laws or applicable law. The Executive Committee did not hold any meetings during 2006.

Audit Committee. Messrs. Hall (chair), Batoff and Spevak serve as members of the Audit Committee. The Board of Directors has determined that Mr. Hall is an "audit committee financial expert" as that term is defined in Item 407(d)(5) of Regulation S-K, and is "financially sophisticated," as that term is defined under the rules of the NASDAQ Stock Market. The Audit Committee provides general financial oversight over financial reporting and the adequacy of the Company's internal controls through meetings with the Company's management and its independent auditors. All members of the Audit Committee are independent, as defined by the rules of the NASDAQ Stock Market. The Audit Committee held four meetings during 2006, and it operates under a written charter approved by the Board. A copy of the Audit Committee's charter is available on the Company's website at www.rfbkonline.com. See "Audit Committee Report to Shareholders."

Compensation and Option Committee. Messrs. Batoff (chair), Coleman, Hall, and Spevak serve as members of the Compensation and Option Committee (the "Compensation Committee"). The Compensation Committee is authorized to grant options, evaluate executive management's performance and approve compensation arrangements for the Company's Chief Executive Officer. The role of the Compensation Committee in approving and administering the Company's compensation programs is discussed in detail in "Compensation Discussion & Analysis." All members of the Compensation Committee are independent as defined by the rules of the NASDAQ Stock Market. The Compensation Committee held three meetings in 2006. A copy of the Compensation Committee's charter is available on the Company's website at www.rfbkonline.com.

Nominating Committee. Messrs. Spevak (chair), Hall, and Batoff serve as members of the Nominating Committee. All members of the Nominating Committee are independent, as defined by the rules of the NASDAQ Stock Market. The Nominating Committee held one meeting in 2006. A copy of the Nominating Committee's charter is available on the Company's website at www.rfbkonline.com.

The Nominating Committee oversees the composition and operation of the Company's Board, including identifying individuals qualified to become Board members, recommending to the Board Director nominees for the next annual meeting of shareholders, and filling vacancies occurring between annual shareholder meetings. It identifies Director candidates by considering the recommendations of the Company's Directors, executive officers and shareholders, as well as those of experts and consultants of the Company. The Nominating Committee evaluates each candidate's background and experience as well as the candidate's ability to act in the best interest of the Company's shareholders, analyzing such qualities as the candidate's accomplishments, business experience and acumen, honesty and integrity.

The Nominating Committee will consider Director nominees recommended by security holders for nomination for election at the annual meetings of the Company's shareholders. The procedures for submitting such nominations are described below under "Shareholder Proposals and Nominations for the 2008 Annual Meeting."

Meetings of the Board and Attendance

During 2006, the Directors held six Board meetings. All of the Directors attended at least 75% of all of the meetings of the Board and the meetings of all committees of the Board on which such Director served.

Executive Officers

The following sets forth certain information regarding the executive officers of the Company. Information pertaining to Harry D. Madonna, who is both a Director and Chief Executive Officer of the Company and to Louis J. DeCesare who is both a Director and is President and Chief Operating Officer of Republic First Bank (the "Bank"), may be found in the section entitled "Continuing Directors."

Recommendation of the Board of Directors

THE BOARD OF DIRECTORS OF THE COMPANY UNANIMOUSLY RECOMMENDS THAT SHAREHOLDERS VOTE FOR THE ELECTION OF ALL NOMINEES.

EXECUTIVE COMPENSATION

Following the spin-off by the Company in 2005 of First Bank of Delaware, all of the employees of the Company and its subsidiaries (the Company and Republic First Bank are sometimes in this section jointly referred to as the “Company”) were transferred to BSC Services Corporation, a wholly-owned subsidiary of First Bank of Delaware. Certain of the Company’s officers continue to serve as officers of First Bank of Delaware. The Company and First Bank of Delaware have agreed to reimburse BSC Services Corporation for compensation expenses related to such officers. Such reimbursement will be made by the Company and First Bank of Delaware in accordance with agreed upon time allocations. Such allocations will include the amounts spent on the work of such respective officers for the Company. See “Certain Relationships and Related Party Transactions.”

COMPENSATION DISCUSSION & ANALYSIS

Overview of the Executive Compensation Program. The Company’s executive compensation program includes a number of fixed and variable compensation and benefit components, typical of programs among comparable community banking and financial services companies in our local and regional marketplace.

The program provides participating executives with an industry-competitive level of total compensation when their collective and individual performances meet or exceed the goals approved by the Board of Directors and the Compensation Committee.

Compensation Philosophy and Program Objectives. We believe that the compensation program for executives should directly support the achievement of specific annual, longer-term and strategic goals of the business, and, thereby, align the interests of executives with the interests of Company shareholders.

The current program provides sufficient levels of fixed income, in the forms of base salary and health & welfare benefits, to attract high caliber executive talent to the organization. It also provides competitive annual and longer-term incentive opportunities to encourage specific performance and to reward the successful efforts of executives.

The incentive opportunities are based on competitive industry practice and will provide as much as 40% to 60% of executives’ total compensation, depending on their role in the organization, from short- and longer-term incentive opportunities, *but only when performance targets are met on a consistent basis.*

The current program contains certain deferred post-employment compensation features, provided on a selective basis, to encourage retention through long-term wealth accumulation opportunities and to assure transition support in the event of substantial organization or ownership change. These provisions clearly support retention of good performers by the organization.

We believe that the features and composition of the current program are consistent with practices of other comparable community banking and financial services organizations in our marketplace and that it balances the need for competitive pay opportunities at the executive level with shareholders’ expectations for reasonable return on their investment.

Program Management. The Compensation Committee (the “Committee”) of the Board of Directors has primary responsibility for the design and administration of the executive compensation program. It reviews the make-up and administration of the executive compensation program throughout the year in light of changing organization needs and operating conditions and changing trends in industry practice. In evaluating program effectiveness, the Committee utilizes information from management and the services of an outside consultant. Strategic Compensation Planning, Inc. of Malvern, PA is the Committee’s consultant on executive and director compensation matters.

The Committee currently consists of four (4) directors, all of whom qualify as independent members of the Board. William W. Batoff serves as Chair of the Committee. Robert J. Coleman, Lyle W. Hall and Barry L. Spevak also serve on the Committee.

Role of Executive Management in the Pay Decision Process. The Committee is responsible for approving compensation related decisions. In formulating its decisions, the Committee will regularly seek information about the performance of the business, organization staffing requirements and the performance levels of incumbent executives from the Chief Executive Officer. It will also utilize the services of the Company’s Chief Financial Officer and, as circumstances suggest, other officers of the Company. The Committee weighs the information provided by officers carefully, especially the recommendations of the Chief Executive Officer on decisions affecting subordinate executives, but ultimately makes its decisions independently.

Program Review and Pay Decision Process. Starting in the early Fall of a calendar year and usually continuing through January of the following year, the Compensation Committee (1) receives information on current executive compensation levels in the industry and industry program practices, (2) conducts a comprehensive review of the Company program structure and provisions, and (3) considers salary and benefit adjustments and incentive awards for executives.

After examining industry practice information provided by its outside consultant, the Committee determines (1) if the content and structure of the Company program is still competitive, (2) if the current provisions remain consistent with the Company’s overall pay philosophy, and (3) if they continue to support achievement of business objectives.

After deciding on the program structure for the coming calendar year, the Compensation Committee will examine the current compensation and benefit levels of incumbent executives in light of their continuing or changing roles in the business, the assessments of their individual performances by the Chief Executive Officer, and industry practice trends.

Based on the information gathered about each executive, the Compensation Committee will make salary adjustments for executives during the coming calendar year. It will also determine annual incentive awards for executives based on results achieved against goals and objectives set at the beginning of the year, and it will determine appropriate longer-term incentive awards, usually in the forms of deferred compensation awards, or stock options or restricted stock grants.

These determinations were presented to the full Board of Directors at its December 19, 2006 meeting.

As incentive awards for the year ending are calculated, the Compensation Committee is also working with the Chief Executive Officer to construct organization and executive performance plans for the coming calendar year (the new fiscal year).

The Committee is also called upon to consider pay related decisions throughout the calendar year as executives are reassigned or promoted and new executives join the organization. In these instances, the Committee will review all aspects of the executive's compensation including base salary level, annual incentive opportunities, longer-term incentive awards, participation in special benefit plans, and employment contract provisions, if applicable.

Pay Decision Factors and Considerations. The following factors typically influence Compensation Committee decisions on pay and benefits for Company executives:

Salary: executive's overall performance during the year ending, changes in organization role and scope of responsibility, current salary in relation to the position's market value, any significant changes in the industry's pay practices for comparable positions.

Annual Incentive Awards: competitive industry practice with respect to size of awards, actual performance (achievement) against goals and objectives assigned for the fiscal year.

Longer-term Incentive Awards: competitive industry practice with respect to size of awards and the typical "mix" of stock options, restricted shares and other forms of equity-based grants, recent performance of the Company and the individual executive, applicable accounting rules for expensing equity awards, and shareholder concerns about dilution and overhang.

Nonqualified Compensation and Benefits: tax rules on qualified benefit plans, likely replacement income benefits for executives compared to other categories of employees within the organization, competitive industry practice for comparable type and level of executive positions.

Perquisites: the needs of the executive's position, i.e., frequency of travel to other Company locations, or to meet with Company clients and prospective clients, and competitive industry practices for comparable executive roles.

Employment Contracts: where they serve Company needs for confidentiality about business practices and plans and preservation of the customer base (noncompetition and nonsolicitation provisions) and competitive industry practices.

Basis for Defining Competitive Compensation Levels and Practices. The types and levels of compensation included in the Company executive compensation program are generally consistent with current features and programming trends among similar size and type organizations in the Company's local and regional marketplace.

Periodically, the Compensation Committee asks its outside consultant to review survey reports on national and regional compensation practice within Company's industry group, focusing on pay levels and practices among Community Banking and Diversified Financial Services institutions based in the Mid-Atlantic Region and specifically the Greater Philadelphia metropolitan marketplace having assets of \$800M to \$1.5B. This range of institutions represents banking companies that are somewhat smaller and somewhat larger than Company. The asset range will be modified from time to time as Company's operating circumstances change.

The consultant also examines proxy information on specific institutions in Company's marketplace that fall into the comparison standards noted. For the 2007 program planning cycle, the outside consultant reviewed and discussed with the Compensation Committee executive compensation information from the following institutions in Pennsylvania, Delaware, and New Jersey:

Abington Community Bancorp, Inc.	Leesport Financial Corp.
Bancorp, Inc.	Peapack-Gladstone Financial
Bryn Mawr Bank Corp.	Royal Bancshares of Pennsylvania
First Chester County Corp.	Synergy Financial Group, Inc.
Greater Community Bancorp	

Program Components. There are six (6) elements in the current executive compensation program:

- 1. Base Salary.** Base salary opportunities are set at the median level of industry practice for comparable jobs in like size and type community banking and financial service organizations. Within the defined competitive range, an executive's salary level is based initially on his/her qualifications for the assignment and experience in similar level and type roles. Ongoing, salary adjustments reflect the individual's overall performance of the job against organization expectations and may also reflect changes in industry practices. For most Company executive positions, salary will provide 50%-65% of **total annual compensation**, when considering the value of short-term incentive awards, deferred compensation contributions and other benefits provided by the organization.
- 2. Health & Welfare Benefits.** Executives participate in Company's qualified health & welfare benefits program on the same terms and conditions as all other employees of the Company.
- 3. Annual Performance Incentives.** The annual performance incentive award plan provides participating executives with opportunities to earn additional cash compensation in a given year when corporate and business unit operating results and individual performance contributions meet or exceed the agreed upon business and organization goals for the period. Typical annual performance goals for Company executives include net income v. budget, loan and deposit growth v. budget and net interest margin against a target. The determination of actual awards is not formulaic, but, rather, the result of a review of achievements by the CEO and the Compensation Committee and the application of prevailing industry practices on annual incentive awards.
- 4. Longer-term Performance Incentives.** Executives are eligible to participate in longer-term incentive award plans established to focus executive efforts on the strategic directions and goals of the business and to reward them for their successes in increasing enterprise value. Awards can result in additional cash compensation or equity grants in the form of stock options or restricted stock. *While the size of such awards may increase or decrease based on current business performance, it is the intention of the Compensation Committee to recommend some combination of the available awards at least annually as an incentive to focus executives future efforts on longer-term needs and objectives of the business.*

a. *Equity Grant Plans.* Our Amended and Restated Stock Option and Restricted Stock Plan authorizes us to grant options to purchase shares of common stock to our employees, directors and consultants. We can also grant restricted stock to these same audiences. Our Compensation Committee is the administrator of all stock grant plans. Stock option or restricted stock grants may be made at the commencement of employment and from time to time to meet other specific retention or performance objectives. The Compensation Committee reviews and approves stock option and restricted stock awards to executive officers based upon a review of competitive compensation data, its assessment of individual performance, a review of the executive's existing long-term incentives, and retention considerations. Periodic grants of stock options or restricted stock are made at the discretion of the Compensation Committee to eligible employees and, in appropriate circumstances, the Compensation Committee considers the recommendations of the Chief Executive Officer. In January 2007, stock options were granted to Named Executive Officers. Historically, we have used the closing price of company stock on the date of grant as the exercise price for stock option grants. The 2007 stock options will vest four (4) years after the date of grant and generally expire ten (10) years after the date of grant.

The Compensation Committee authorized the awarding of stock options to executives and certain employees on specific dates in December 2002 through December 2005. The timing of such grants was not tied to the release of negative or positive material information about Company. Prior to 2002, options were awarded from time to time, when authorized by the Committee, during the fourth calendar quarter. No annual practice or program of granting annual awards had been developed at that time.

The company has not established a policy regarding executive ownership of company stock and/or retention guidelines applicable to equity awards to executives.

b. *Deferred Compensation.* At the end of the calendar year, Named Executive Officers may receive, at the Committee's discretion, a contribution equal to some percentage of their base salary, usually 10%-25%, into a Deferred Compensation Plan. These contributions are converted into shares of Company common stock, or shares of First Bank of Delaware, a spin-off now wholly independent of the Company and vest three (3) years after the year in which the contribution is made. Receipt of this compensation, in the form of shares of Company or First Bank of Delaware common stock, is deferred to normal retirement.

5. Nonqualified Benefits and Perquisites. We currently do not offer a nonqualified supplemental retirement income plan (SERP) to any of our executives, but may consider establishing such a benefit plan in the future as executive income levels rise and more are facing reduced retirement income benefits from qualified retirement income plans under current Federal regulations. (Our CEO, in his capacity as a Director, participates in a now frozen retirement income plan for Company Directors. The value of this benefit is included in the compensation tables.)

Perquisites for Company executives are generally limited automobile allowance or use of a company-provided automobile, and, in a very few instances, a club membership.

Typically, these prerequisites are provided in instances where such benefits can facilitate the conduct of business with corporate and high net worth clients.

6. *Employment Contracts and Change of Control Agreements.* Two (2) executives, our CEO and our President, have employment contracts with Company. As the business grows and more executives are involved in the leadership of the organization, it may be appropriate to extend use of such agreements to other executives.

The CEO and the President have Change of Control severance agreements in their employment contracts with Company. On the advice of its outside consultant, the Committee is considering limited Change of Control severance agreements for several other executives who are key contributors to the business.

a. *Post Retirement Income Benefits.* When retired, former Company executives are only eligible to receive replacement income benefits from our qualified retirement income plans, the same plans covering other employees of the Company. We do not currently sponsor any type of supplemental retirement income plan for highly compensated employees, although we may consider instituting such a plan in the future.

b. *Severance in the Event of Termination Not for Cause or Change of Control.* Two (2) executives, our CEO and our President, have specific severance arrangements in place with Company in the event of a termination of their employment not related to a Change of Control and in the event of a Change of Control. Under these arrangements, the CEO and the President would each be eligible to receive three (3) times their respective annual compensation. All outstanding equity grants and other benefit provisions would fully vest.

c. *Tax Gross-up Provision.* The employment contracts for the CEO and the COO both provide for an excise tax liability gross-up payment to the executives following a Change of Control if their severance benefits exceed the then current IRS standard under Code Section 4999.

Recent Actions: 2006 and Q1, 2007. During 2006 and the first quarter of 2007, the Company, through its Compensation Committee and Board of Directors, has made a number of decisions related to executive compensation. In making these determinations, the Compensation Committee considered the Company's compensation philosophy, the achievement of business and performance goals set by the Company, relevant peer group data, recommendations of the Company's CEO and the advice of the Company's outside consultant. The most important actions are summarized here.

Base Salaries. At the beginning of 2007, the President and COO of the Company received a salary increase of 25%, commensurate with the significant increase in responsibilities assigned to the incumbent. On the next anniversary of his contract, the CEO will receive an increase of 10%. Other executives received modest base salary increases reflecting typical "market movement" for their positions.

At the beginning of 2007, most Named Executive Officers were awarded salary increases ranging from 5% to 10%.

Annual Incentives. Executives received substantial incentive awards in 2006 for 2005 performance, reflecting strong financial and operating results for the prior period.

For 2006, the Board had established a series of Corporate and Business Unit goals for each Named Executive Officer. Based on results achieved against these goals, Named Executive Officers were again awarded significant incentive payments for their 2006 contributions and performances.

Longer-term Incentives. The Compensation Committee authorized stock option grants (granted January 2, 2007) and deferred compensation contributions to selected Named Executive Officers. These awards are, in part, considered further recognition of the good financial results achieved during 2006. The awards are also an integral part of the Company's overall retention strategy aimed at key contributors to ongoing Company success.

Nonqualified Benefits and Perquisites. No nonqualified benefit plans have been introduced and there have been no changes in perquisites and related participation practices.

Employment Contracts and Change of Control Agreements. As noted earlier, the Compensation Committee approved an extension of the employment contract with the CEO and also approved entering into a formal employment contract with the President and COO, consistent with prevailing industry practices for comparable positions.

Status of the Program and Likely Practices Going Forward. The general structure of the Company executive compensation program was established several years ago and it has been continuously refined to meet the changing needs of the business and to maintain a competitive posture in the marketplace for executive talent.

Currently, all of Company's Named Executive Officers are paid salaries that fall in the competitive median (50th percentile) range of industry practice. Future salary increases will be functions of industry practice changes and changes in executives' roles in the business.

Recent annual incentive awards have been significant, but in line with the Company's recent financial and operating results against the goals established for 2006 and 2005. The Compensation Committee will continue to provide substantial award opportunities for executives, consistent with performance results.

Equity grants to executives over the past two years have also been significant in some cases, again reflecting good performance of the business over the time period. Both stock option grants and deferred compensation contributions are likely to continue with the size of awards tracking with the performance results of the business.

It is possible that some of these future grants may include performance vesting in lieu of the traditional time vesting requirements attached to past grants.

Nonqualified Benefits. The Committee will continue to evaluate the need and effectiveness of a supplemental retirement income plan for certain highly compensated employees, but it has made no decision on this matter as of this time.

Perquisites. Company's program has always been modest, offering use of a company vehicle primarily to those executives who travel among Company's branch offices and operations centers and those who frequently meet with clients and prospects offsite. Similarly, club memberships are only provided for those executives who can utilize them in conducting the Company's business.

Employment Contracts. The Compensation Committee has responsibility for review of current and proposed employment contracts and will specifically authorize contract renewals.

The Compensation Committee believes that the executive compensation program structure is competitive, generally mirroring the make-up of programs in other like institutions. Further, it intends to maintain the current leveraged approach to total compensation, directly tying a significant portion of an executive's total earnings to achievements against goals and objectives approved by the Board of Directors.

Compliance with Sections 162(m) and 409A of the Internal Revenue Code. Section 162(m) of the Internal Revenue Code provides that publicly held corporations may not deduct compensation paid to certain executive officers in excess of \$1,000,000 annually, with certain exemptions for qualified "performance-based" compensation. The Company has obtained shareholder approval of its stock option plan, and compensation earned pursuant to such plans is exempt from the Section 162(m) limit. Since we retain discretion over bonuses and certain amounts contributed to the Deferred Compensation Plan, such amounts will not qualify for the exemption for performance-based compensation. Such amounts have not been at levels that, together with other compensation, approached the \$1,000,000 limit. Due to the relatively conservative amount of annual compensation, the Company believes its compensation policies reflect due consideration of Section 162(m). However, we reserve the right to use our judgment to authorize compensation payments that do not comply with the exemptions in Section 162(m) when we believe that such payments are appropriate and in the best interests of our shareholders, after taking into consideration changing business conditions or the executive officer's performance.

It is also our intention to maintain our executive compensation arrangements in conformity with the requirements of Section 409A of the Internal Revenue Code, which imposes certain restrictions on deferred compensation arrangements. We have been engaged in a process of reviewing and modifying our deferred compensation arrangements since the enactment of Section 409A in 2004 in order to remain compliant with provisional guidance issued by the Internal Revenue Service under Section 409A.

Compensation Committee Report. The Compensation Committee has reviewed and discussed the Compensation Discussion & Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion & Analysis be included in this Proxy Statement.

Certain Relationships and Related Party Transactions

Certain of the Directors of the Company and/or their affiliates have loans outstanding from the Bank which, as noted above, is a wholly-owned subsidiary of the Company. All such loans were made in the ordinary course of the Bank's business, were made on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with unrelated persons and, in the opinion of management, do not involve more than the normal risk of collectability or present other unfavorable features.

Mr. Madonna also serves as Chairman and Chief Executive Officer and Mr. Frenkiel serves as Chief Financial Officer of First Bank of Delaware.

The following important intercompany agreements between the Company and First Bank of Delaware have remained in force following the spin-off of First Bank of Delaware by the Company in 2005:

- Financial Accounting and Reporting Service Agreement dated July 31, 2004;
- Compliance Services Agreement dated July 31, 2004;
- Operation and Data Processing Services Agreement dated July 31, 2004; and

- Human Resources and Payroll Services Agreement dated July 31, 2004

The agreements set forth above provide for data processing, accounting, human resources and compliance services. All such services are provided by BSC Services Corporation, a subsidiary of First Bank of Delaware. The Bank and First Bank of Delaware

reimburse BSC Services Corporation for actual costs incurred in connection with the provision of such services.

Another intercompany agreement which is currently in effect between the Bank and First Bank of Delaware is:

- an agreement dealing with the Bank's participation in tax anticipation loans made by First Bank of Delaware. Tax anticipation loans are short-term, small amount loans repayable out of the tax refund paid to the borrower, primarily from the U.S. Treasury. The agreement provides for the purchase by the Bank of such loans made by First Bank of Delaware, which due to its size, is more limited in the amount of such loans it can retain. First Bank of Delaware retains a \$3 servicing fee for each tax anticipation loan sold to the Bank. In 2006, the Bank has paid First Bank of Delaware approximately \$320,934 in such fees.

Registered Public Accounting Firm

The following table presents fees for the audit of the Company's annual financial statements and other professional services by Beard Miller Company, LLP ("Beard"), the Bank's independent auditors, for 2006 and 2005.

Audit-Related Fees:		--
Tax Fees:	12,500	9,500
All Other Fees:		--

Audit-Related Fees consist of fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under "Audit Fees."

Tax Fees consists of fees billed for professional services for tax compliance, tax advice and tax planning. These services include assistance regarding federal and state tax compliance, tax audit defense, customs and duties, and mergers and acquisitions.

All Other Fees consist of fees billed for products and services provided by the principal accountant, other than those services described above.

Representatives of Beard are expected to be present at the Annual Meeting, they will have the opportunity to make a statement if they desire to do so, and they will be available to respond to appropriate questions.

Audit Committee Pre-Approval Procedures

The Audit Committee meets with our independent auditors to approve the annual scope of accounting services to be performed and the related fee estimates. The Audit Committee also meets with the Company's independent auditors, on a quarterly basis, following completion of their quarterly reviews and annual audit and prior to the Company's earnings announcements, to review the results of their auditors' work. During the course of the year, the chairman of the Audit Committee has the authority to pre-approve requests for services that were not approved in the annual pre-approval process. The chairman reports any interim pre-approvals at the following quarterly meeting. At each of the meetings, management and the Company's independent auditors update the Audit Committee with material changes to any service engagement and related fee estimates as compared to amounts previously approved. During fiscal 2006, all audit and non-audit services performed by Beard for the Company were pre-approved by the Audit Committee in accordance with the foregoing procedures.
